

It's A Mad Mad Mad Mad America

By Jon McNaughton

Over 100 figures depict the modern story of America's mayhem. Do you agree?

Not only is our country spiraling into madness, but I'm also enraged at how our government has subverted our rights and endangered our safety in the name of political power and leftist ideology.

A storm is on the horizon. Our borders stand vulnerable, open to every predator. Politics have devolved into a treacherous game of lawfare and deceit. The safety of our citizens, our children, and our future hangs in the balance.

Everything is explained Here:

1. Donald Trump

"Watching the former president rise in the polls as he seeks re-election has led to the most outrageous series of unprecedented lawfare. Multiple charges have been filed against Trump by partisan district attorneys and corrupt courts determined to imprison him and prevent him from running for another term as President. I chose to depict him hogtied by those who intend to thwart the will of the American people. His face bears the blood from the recent assassination attempt in Butler, Pennsylvania, as the words of a defiant president echo in our ears: 'Fight, Fight, Fight!'"

2. Barack Obama

"I used to say if I can make an arrangement where I had a stand-in or front-man or front-woman and they had an earpiece in and I was just in my basement in my sweats looking through the stuff and I could sort of deliver the lines while someone was doing all the talking and ceremony, I'd be fine with that because I found the work fascinating." – Barack Obama

3. Michelle Obama

I always get the feeling she knows something she's not telling us.

4. Joe Biden

Something has seriously been wrong with him for a long time. We all knew it, but literally the day after the debate with Trump suddenly the entire Democrat Party establishment knew it and forced him out of the election. Poor Joe, no respect.

5. Kamala Harris

It must be nice to serve four years as a VP and do absolutely nothing, to have no respect, the queen of word salads, and suddenly be the darling of the Democrat Party. Perhaps the most radical Communist presidential candidate in American history.

6. Hillary Clinton

Her big chance was stolen by Donald J. Trump. It gives her great pleasure to watch Trump and all the deplorables sink under the joy of Kamala's potential rise to power.

7. Nancy Pelosi

The former Speaker of the House, the great fighter for Trump impeachments and radical social policy. A true hero of the leftist state. Is she gone yet?

8. Middle Eastern Illegal Alien

They are coming across the southern border like an army from every middle eastern country. Their sole purpose is to live the American dream.

9. Latino Illegal Alien

Tens of thousands of gang members and released prison inmates blend nicely with all the Latino immigrants just seeking a better life. How dare we think we can seal the border or detain them. Let's give them amenities and schedule a court date to review their immigration and asylum status.

10. Chinese Illegal Aliens

I don't know how they're all getting here. Another army of young men from China crossing the border. It must be all those jobs in California paying higher minimum wage.

11. Human trafficking

I agree with Trump's policy: we should have the death penalty for all child traffickers.

12. Alejandro Mayorkas

The Deputy Director of Homeland Security, Mayorkas was barely impeached in 2024 by the House for failing to enforce the laws at the border. Finally, somebody got the boot for dereliction of duty.

13. Border Patrol Agent

Being a border agent in the US is a thankless and hopeless job. Let's make the border great again!

14. Gavin Newsom

He has completely mismanaged California and led the great exodus of millions out of the sunshine state in record numbers. Imagine if he ran for president?

15. California Flag

Why is the flag burning? It used to be the state everyone wanted to live in. Today, it has the highest taxes, homelessness, and a lawless pile of manure in most cities. Besides that, it's pretty nice.

16. Preferred Flags

China, Venezuela, Mexico: just a few flags waving proudly as they enter the country. We don't know what is going on that might undermine our security. Maybe we should look closer at potential threats posed by shady business and drug deals.

17. Mitt Romney

He was elected Senator in Utah on a pro-Trump ticket and as soon as he was elected became the biggest RINO in my lifetime. Please just go away.

18. Liz Cheney

Can TDS (Trump Derangement Syndrome) really cause someone to be so non-objective, or is it just pure evil intent? Former congresswoman from Wyoming, goodbye.

19. 2000 Mules

Where is the proof of the 2020 stolen election? In Dinesh D'Souza's movie by the same name the proof is laid out clearly, but nobody will touch it. Some things the media chooses to ignore.

20. Ballot Harvester

How do you fraudulently win an election? Thank heavens for COVID 19 and millions of unsecured mail-in ballots!

21. January 6th

Meet Jacob Chansley, the QAnon Shaman who was charged and imprisoned for rioting on January 6th, but quietly released when the video footage was suddenly exposed to the public showing him peacefully escorted by the capitol police into the House chamber. Only in a Mad America do hundreds of peaceful protesters go to prison while thousands of looters, arsonists, violent criminals are set free during the George Floyd Riots of 2020.

22. Marjorie Taylor Greene

The Congresswoman from Georgia who speaks her mind in defense of truth and American values. She is no fan of our tax dollars going to the support for the Ukrainian War and would like to see House Speaker Mike Johnson get the boot.

23. Artist

I'm the artist, so why not?

24. Chuck Schumer

Senate Majority Leader from New York, doesn't know a leftist policy he won't endorse. I also wouldn't trust him to barbeque a hamburger with cheese.

25. Zelensky

Former comedian and the current President of Ukraine, the best grifter for American support of a non-NATO-ally in American history. Is the threat of nuclear war with Russia worth supporting a corrupt country? There is far more to this story than the media wants to share, and somebody is getting very rich at our expense.

26. Drugs

Hundreds of thousands of Americans are dying from the illegal drugs crossing over our border. Fentanyl is coming to harm all our families. This is madness.

27. Mike Johnson

Speaker of the House and congressman from Louisiana, became speaker on a small margin with the promise he would not capitulate with Democrats, and within the year passed a huge spending bill that included funding for Ukraine. He's waving his flag next to his buddies.

28. Mitch McConnell

The current Senate Minority Leader who always manages to choose the most pithy, neo-conservative position on any issue. A great RINO for the ages.

29. Lindsey Graham

There never was a war Lindsey didn't like. Senator from South Carolina that never goes away.

30. Elon Musk

“The woke mind virus is either defeated or nothing else matters.” – Elon Musk

31. Dinesh D’Souza

A conservative political commentator, author, and film maker that has kicked the wasp nest so many times and still keeps going.

32. Tucker Carlson

Former Fox News show host, Tucker likes to dissect the madness going on around us. Once a liberal leaning CNN host, he now is like Saul changed to Paul in the New Testament.

33. Alex Jones

The man behind Infowars, Alex Jones is the first great casualty of cancel culture in America. His show was deplatformed throughout the country and he was eventually given a verdict and sentencing in a civil court trial for the parents of the Sandy Hook Massacre to pay 1.5 billion dollars in settlement. Now, that’s crazy.

34. Patrick Bet David

He began as an immigrant to America, joined the Army 101st Airborne, founded his own insurance company, and now is the owner of Valuetainment, a media company that promotes conservative American values. It’s nice to have some sanity within all the chaos.

35. Conservative Activism

Just good folks peacefully expressing their love for America, God, family, and decency. We do have our limits.

36. Glenn Beck

A political commentator and radio host, Glenn has had a front row seat to the madness and is continually trying to figure out what the heck is going on! He’s doing a great job.

37. Joe Rogan

He’s the most curious guy in podcasting. He doesn’t seem an ideologue as much as a

seeker of truth and that's what people like about him. I like the way he tries to sift through the madness, so he deserved a quarter inch of the painting.

38. Benjamin Netanyahu

I have a soft spot for Israel, but Netanyahu is always poking his head around here. I believe Israel is an important ally, so give the guy some respect.

39. Antony Blinken

The Secretary of State responsible for the botched withdrawal from Afghanistan and deaths of 13 US soldiers. Also, unfroze 6 billion in Iranian funds for a 5-prisoner swap in 2023 that was likely used to fund the attacks against Israel by Hamas and other Iranian proxies. An absolute failure of American foreign policy.

40. Xi Jinping

The president of the People's Republic of China, which has made numerous payments to Biden for undisclosed dealings. My oh my!

41. Kim Jong Un

Little Rocket Man, as Trump has called him, is the supreme leader of North Korea. American policy since 1991 has made North Korea gradually capable of becoming a nuclear threat to the US and the world.

42. Vladimir Putin

Prime Minister of Russia: "They are burning themselves from the inside, their state, their political system ... It is obvious all over the world that the prosecution of Trump, especially in court on charges that were formed on the basis of events that happened years ago, without direct proof, is simply using the judicial system in an internal political struggle."

43. Edward Snowden

"I can't in good conscience allow the U.S. government to destroy privacy, internet freedom and basic liberties for people around the world with this massive surveillance machine they're secretly building." – Edward Snowden

44. Klaus Schwab

Former leader of the World Economic Forum: "You'll own nothing, and you'll be happy

about it.” The planner of the “Great Reset,” the end of American and world state sovereignty.

45. Janet Yellen

Secretary of the Treasury, Former Federal Reserve Chair, blames inflation in the US on “lack of competition.” So, you believe poor monetary policy has nothing to do with it?”

46. Yuval Harrari

The anointed spokesperson for the WEF’s transhumanism agenda.

47. King Charles

Today’s British monarchy is more of a formality, as the country is run by lunatics that have abandoned their own self-preservation for woke politics and a police state worse than any dictatorial British monarchy in centuries.

48. Ebrahim Raisi

The President of Iran who died in a mysterious helicopter crash. Not a friend of Israel, but truly benefitted from recent US policy.

49. Mohammed bin Salman

The prince and heir to the Saudi Arabian throne. It is considered illegal and dangerous to one’s health to touch the crown prince, however, Trump likes to sneak up to him at international meetings and touch his shoulder and walk away quickly.

50. Larry Fink

American billionaire and co-founder of Blackrock, Fink has managed to spread wokeness to many of the largest companies in the world including Disney, Comcast, Warner, and News Corp by being top owners. He follows the golden rule: he who has the gold makes the rules.

51. Loyd Austin

Secretary of Defense who participated in the disgraceful withdrawal of troops from Afghanistan, Loyd was a part of Biden’s DEI hiring spree to be the most inclusive administration in US history. Skin color and gender identity rule are always more important than competency.

52. Rachel Levine

An Admiral in the US Public Health Services, His pronouns are she and her.

53. Hunter Biden

Son of Joe Biden, former board member of the Ukrainian company Burisma, wealthy deal broker with foreign entities, and convicted felon. Hung out in the White House awaiting trial doing nothing illegal. Also, a financially successful artist to anonymous patrons, from China.

54. Sam Brinton

Former deputy assistant secretary of Spent Fuel and Waste Disposition in the Office of Nuclear Energy. A gender fluid LGBTQ activist fired after allegations of stealing pretty clothes from airports which he wore with attitude.

55. Emmanuel Macron

President of France, Macron's country is overrun with immigrants determined to destroy France, and the people are protesting. This will be America in the very near future.

56. Justin Trudeau

Prime Minister of Canada, like his father, Trudeau has an affection for old Communist regimes. He's doing all he can to bring the hammer and sickle down on the people of Canada. Many leftists in the US would like us to be more like Canada.

57. George Soros

Businessman, Investor in corrupt politicians, and Democrat philanthropist, Soros is doing all he can to place as many radical leftists in US power positions as possible. A close ally to almost every left-wing politician since Obama. Many countries have already banned him from entering due to currency manipulation.

58. Pete Buttigieg

Ran for President as the first ever openly gay candidate, he was appointed Secretary of Transportation after extreme qualification of being mayor of small town in Indiana. Pothole Pete, as he was called, recently wanted to promote rebuilding "racist roads." Yes, even our roads must be woke.

59. Julian Assange

Founder of Wikileaks, which published confidential reports related to war, spying, and corruption. After fourteen years of seeking asylum is now in US custody. You can get in big trouble when you expose the dirty laundry of Uncle Sam.

60. Karine Jean-Pierre

The glamorous Press Secretary for President Biden, KJP has a way of answering questions, without answering. “I am obviously acutely aware that my presence at this podium represents a few firsts. I am a black, gay, immigrant woman, the first of all three of those to hold this position.” Another DEI hire to make White House history!

61. Trans Activist

When in doubt, SHOUT! Ever try and talk with some of these people?

62. Trans Sports

It has been disheartening to watch women’s sports become the fodder for trans activism, as Title IX rules are augmented to allow men who identify as women to dominate their competition.

63. Secret Service

Another casualty of leftist run government institutions, as the secret service has been politicized and DEI hires have made a mockery of its ranks.

64. Commander the Dog

On record, Commander has bitten at least 24 secret service agents. Thanks a lot Joe.

65. CDC

Centers for Disease Control is the US agency under the Department of Health and Human Services that is supposed to protect the American public from serious diseases. They receive healthy donations from pharmaceutical companies and have too many conflicts of interest. Public trust plummeted after the COVID 19 debacle and coverups that led to widespread shutdowns and mask mandates.

66. Anthony Fauci

The former director of the National Institute of Allergy and Infectious Diseases. Turns out the guy in charge of America’s response to COVID 19 is the same guy who funded the creation of COVID 19 at the Wuhan Lab! During House Hearings when questioned

about social distancing arrogantly said, “I am science!”

67. Jeffrey Epstein

Sex trafficker for the world’s most powerful and famous did not kill himself. Lots of coverup going on here.

68. Merrick Garland

Attorney General of the US in full cooperation with the Biden Administration. He couldn’t get the US Supreme Court appointment, so is willing to do whatever it takes for his comrades.

69. Fani Willis

District Attorney of Fulton County, Georgia. Indicted Trump on 13 charges of election interference. Found guilty of a conflict of interest with prosecutor for an inappropriate romantic affair. Judge said she could stay, he had to go. Anything to stop Trump!

70. Conflicts of Interest

It’s always cringy when the district attorney and prosecutor are planning romantic getaways while trying to imprison a former President of the United States.

71. Letitia James

New York Attorney General who campaigned on the pledge to bring charges against President Trump. Her vendetta led to multiple straw man indictments in the single most atrocious lawfare sweep in history, in a state that is predominantly Democrat. Her actions resulted in many businesses leaving New York City and the disgrace of law and order in America.

72. Arthur Engoron

The judge in the Manhattan Supreme Court that presided over the civil case against Trump for claiming he lied about his finances to get business loans. Evidence was suppressed and Trump was railroaded by a kangaroo court bent on causing harm to a presidential candidate leading in the polls.

73. Katangi Brown Jackson

Recent US Supreme Court Judge when asked in a House Hearing how she would define a woman said, “I’m not a biologist.”

74. Juan Merchan

New York State Supreme Court judge presiding over criminal trial of President Trump who is accused of paying off Stormy Daniels before the 2016 election and found guilty in another highly motivated conviction of 34 counts of falsifying business records. Another dark and unjust court trial.

75. Alvin Bragg

New York County District Attorney famous for releasing dangerous criminals in NYC while spending millions to prosecute a former president in the most political motivated charges in US history.

76. Jack Smith

The Special Council appointed by Attorney General Garland to indict President Trump of Insurrection for the January 6th protest at the Federal Capitol. The Supreme Court said, "Nope, sorry."

77. AOC

Alexandria Ocasio-Cortez, the former bartender, now the congresswoman from New York City that screams in a high pitch and rants at every leftist policy that serves her political purposes.

78. Ilhan Omar

A Somalian immigrant who is a congresswoman from Minnesota, she is openly antisemitic and anti-American. Definitely a mad America.

79. Rashida Tlaib

Another loud, pro-Hamas, Michigan congresswoman who hates America.

80. Hamas Supporters

All across America, from sea to shining sea, colleges and young people are staging protests in favor of Hamas and the Palestinians, while also violently attacking and blocking Jewish citizens. It's no longer fun to be a Jew in the Democrat Party.

81. Jewish Victim

Americans used to defend our Jewish brothers and sisters. Now they are no longer the minority suppressed class of the Democrat Party, replaced by the transgenders and

Palestinians.

82. Crime

Thanks to many “defund the police” policies and an American society in decline, we now have cities where no person is safe to walk alone.

83. Victims of Crime

Without the means to protect themselves many citizens in “gun free zones” are not permitted to carry a firearm and are at the mercy of criminals that are favored in the justice system over their victims.

84. Homelessness

Rising over 12% in the last year, American citizens take a back seat to new foreign illegal aliens coming across the border. How can we abandon our own for the sake of a political football. The homeless include veterans, mothers, fathers, children, and the mentally ill. It is not safe and must be solved.

85. Underground protesters

The idea for this came from the Jewish students who dug a tunnel under a street in NYC to access a synagogue during the COVID 19 lockdowns. For me, it's a symbol of those who are willing to go underground to fight against tyranny.

86. US Constitution

Thank God for the Constitution or we'd be toast already! However, that document is close to becoming obsolete if the corrupt leaders in Washington can make the changes they are shooting for. Here it lays on the dirty ground, stepped on and wrinkled, yet still intact.

87. Rooster

This symbol has appeared in my previous paintings, representing the call to wake up. We're now beyond that point—the rooster isn't crowing anymore; it's simply trying to survive what's coming.

88. Border Fence and snake

We don't know what kind of vermin are crossing our border. This is a diamond back rattle snake. You don't want to get bit.

89. UFO Coverup Hearings

Did our government cover up UFO technology and real encounters with aliens? That's what some whistleblowers told a recent House Committee Meeting. I can't imagine our government would lie to us?

90. US Capitol

All those elected and non-elected people who work in Washington, how many are doing what is good for the country? Cut out the government bureaucracy and inefficient agencies. Revoke the 17th Amendment, make term limits, and prohibit lobbying to government officials.

91. LGBTQ+ activism

End the Gay Pride Month, Gay Pride Parades, Trans Kid Reading groups - just stop. Don't make your sexuality something we all have to celebrate. Just mind your business.

92. Satan

The number one leftist.

93. Storms of Destruction

There is a storm brewing on many fronts: reckless foreign policies that could lead to nuclear war with China, Russia, or Iran; illegal bioterrorism experiments; the infiltration of terrorist cells in the U.S. through the border; drug and human trafficking; societal decay in moral standards; and the turning away from God to moral relativism and humanism.

94. New York City

A hotbed of leftist corruption and decay. The setting for Trump Tower and the corrupt lawfare against a leading presidential candidate.

95. Crumbling America

The very foundation of our nation is crumbling. "Our Constitution was made only for a moral and religious People. It is wholly inadequate to the government of any other." – President John Adams, 1798

96. Warfare

All these missiles being sent to Ukraine and other nations. The American Military

Industrial Complex is strong.

97. Top Secrets

Trump was accused of keeping top secret documents at his home in Mar-a-Lago. Yet, VP Biden and Hillary had boxes stashed at their residences not protected under the Presidential Records Act?

98. Infestations

The Deep State is infested with all kinds of vermin. The rats need to be removed.

99. Fake News

Journalism is dead. Plenty of fake news to distort the truth and pretend its non-bias reporting.

A few additional thoughts:

I chose to just share my feelings about why I included certain things in the painting. I figured there is plenty a person can read on their own without me writing a book. The chaos in America seems immense right now. However, I wanted to have a few spots of positive messages in this work, and I hope you noticed that. I think it's good to use art to shine a light on our world, both what is good and what needs to change. Ultimately, it is my personal vision of the world I live in. If people see what I see it will resonate. Some will be angry and disagree, and others will have no idea what I'm talking about.

This painting took about 5 months to complete and was a test of my patience. So much to try and express in a small space! Faces can be difficult, getting the right likeness and expression. If you recognize them its good. I'm hoping that if this painting filled with madness causes the viewer to think, even just a little, it will be worth it.
