An extensive and rare vertical collection of Château Mouton Rothschild 1945-2002, including six Réserve du Château bottles

We are extremely proud to present this exclusive collection of Mouton Rothschild vintages, dating from 1945 to 2002 – that’s 58 years of fine wine decorated with fine art! It took a passionate wine lover more than 35 years to collect these bottles.

This impressive collection is made even more special by the number of “Réserve du Château” bottles. Up until 1973 (the year Mouton was promoted to a 1<sup>er</sup> Grand Cru Classé), the exact number of bottles produced was listed on the label. The letters “R.C.” printed on the label denote “Réserve du Château,” thereby signifying that this is a wine from the chateau’s own reserves. For most vintages, the chateau bottled and kept what amounts to 2000 bottles meant for the chateau itself. It is the general opinion

among connoisseurs, that bottles marked “R.C.” are of a higher quality than the regular cuvée. If one of these bottles occasionally shows up at an auction, it was originally given as a gift by Baron Philippe de Rothschild. The 1946, 1949, 1951, 1954, 1955 and 1958 vintages in this collection are all Réserve du Château bottles.

As a footnote, the 1993 Mouton label, a pencil drawing of a nude reclining nymphet by the French painter Balthus was rejected for use in the United States. Instead, for the U.S. market the label was made with a blank space where the image should have been and both versions are sought after by collectors. There are two bottles of each version included in this collection.

Mouton Rothschild is the only wine to change its label on a yearly basis. A major patron of the arts, Baron Philippe came with the idea in 1945 to have each new vintage's label designed by a major contemporary artist. The popularity of these labels makes Mouton Rothschild not only a great wine, but a very interesting collector's item.

SPECIAL VOC BOTTLE

**1336**

**A rare bottle recovered from the shipwreck of the Dutch East Indiaman 't Vliegent Hart'.**

Accompanied with certificate of origin

W 1 bottle

Per lot: € 1500 – 3000

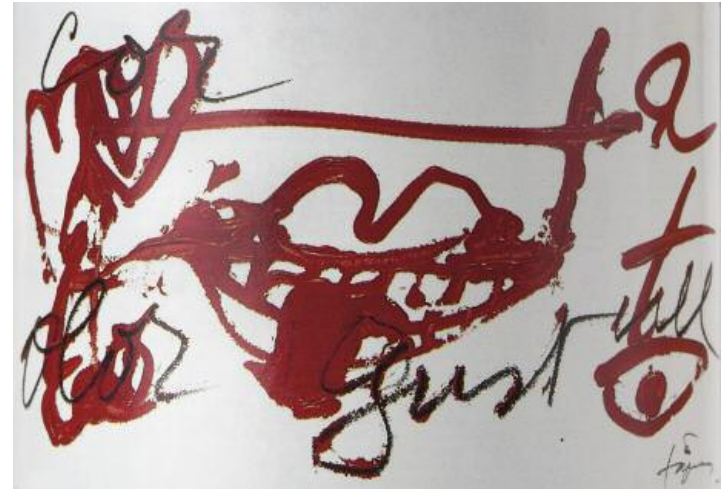

On the third of February 1735 during spring-tide 't Vliegent Hart' sailed out on the voyage to Batavia in the East Indies. After leaving from the roads of Rammekens, close to the port town Vlissingen in the province of Zeeland, the weather conditions quickly deteriorated. Due to a navigation fault of the accompanying pilot boat the Dutch East Indiaman went aground on a sandbank. Later that evening the vessel broke adrift again. Just a quarter of an hour after 't Vliegent Hart' cast anchor, the ship was wrecked and sank at 11.15 p.m. with the loss of all hands. The entire crew of 256 people miserable drowned.

The vessel carried a cargo which included gold and silver coins for trading in the East, building materials and a few thousand bottles of wine. In the manuscript "list of the victuals and order on the rations", the directors of the East-Indian Company precisely described what should be in stock on board of the VOC vessels. Wine, including in what quantities, was specified as French, Spanish and Cape Wines. The latter was taken on board when passing the Cape of Good Hope.

It is credible that the bottle of wine in this lot is bottled by the VOC chamber of Zeeland in Middelburg. The content of the bottle could possibly originating from the Bergerac, Bordeaux or Loire regions, as mentioned in the cash books of the VOC. The shape of the bottle resembles the form of a carafe, characteristic of the beginning of the 18th century. This is explained by the fact that only at the end of the 17th century the modern form of corked wine bottles was invented. The brass-wire tied around the cork, served to keep the cork on the bottle.

After a diving expedition started in the summer of 1979, the shipwreck was identified in August 1981. In the years after the remains of the cargo were recovered by a English-Dutch diving team. The find registration, site registration and conservation were for a main part carried out by the Rijksmuseum in Amsterdam. This bottle is accompanied by a certificate of origin and a presentation box.

### Into Neck:

Normal level for all wines. In wines over 10 years of age, this level suggests excellent provenance. Rarely used, except to emphasize a particularly good fill level when other fill levels in the same lot are less than perfect.

### Base Neck:

A common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

### Top-Shoulder:

Again, a common fill level at which many Châteaux release their wine. For wines of any age, this level suggests excellent provenance.

### Very High Shoulder:

Acceptable fill level for wines 8 or more years of age. Suggests proper storage conditions throughout its life. Natural occurrence for wines of this age.

### High Shoulder:

Usually not a problem for wines in excess of 20 years of age. This level may be caused by easing of the cork combined with natural evaporation. Check the clarity and the color of the wine in the bottle as a secondary indicator of provenance.

### High-to-Mid-Shoulder:

Refer to High Shoulder and Mid-Shoulder level descriptions.

### Mid Shoulder:

May suggest ullage during the life of the wine due to either easing of the cork or inconsistent storage conditions. Not abnormal for wines 30 or more years of age. As additional indicators of risk, definitely inspect clarity and color of the wine in the bottle, as well as condition of the cork.

### Low Shoulder and Below:

Suggests poor provenance. Definitely a risk and generally not saleable, with exception given to rare bottlings and/or labels. Not recommended for consumption.

Wines are described in this catalogue as accurately as possible. Buyers are urged to make allowances for slight variations in ullages and conditions. No guarantee is made regarding provenance, and no returns will be accepted.
