7th edition of Only Watch for research on Duchenne muscular dystrophy.

12 years the funds we raise bring the perspective of a cure closer to us.
12 years we have been doing what seemed impossible, all together.
12 years of excellence, generosity, uniqueness.

All together we are stronger, and the Only Watch project is a strong token of this motto.

We would like to dedicate this edition to Paul Pettavino, a beautiful soul that left us this year, who gave us all the energy to make Only Watch the success it is today. The way Paul lived his life was exemplary and should reflect on all of us, as it already has through this project.

Let us make this edition of Only Watch special, for the thousands of children, teenagers, young adults around the world facing life with so much strength and courage.

Our gratitude goes to the watchmakers and partners of this exceptional charity auction who make the unbelievable, possible. To the donors-bidders, good luck, and make your decisions with your heart !

A WORD FROM THE SCIENTIFIC COMMUNITY

Our scientific community wishes to thank and express its gratitude to HSH Prince Albert II of Monaco, the Monegasque Association against Muscular Dystrophy (AMM) and the Only Watch participants / partners / donors for their exceptional support of numerous research projects whose objective is the design and development of effective treatments for the Duchenne myopathy, an emblematic neuromuscular disease affecting nearly one boy in three thousand at birth.

We are convinced that isolated research does not exist and that the therapeutic innovations are the fruit of collaborations between multidisciplinary laboratories sharing a common goal.

Here the challenge is immense, and the means necessary considerable.

We believe it is important to acknowledge the success of Only Watch and the impressive reactivity of AMM, which has allowed, thanks to the millions of euros donated to science, to strengthen an international network of research teams, to recruit talented young researchers, and to grant our laboratories specialized equipment. They have all contributed to the development of new therapeutic avenues, some of which are about to be evaluated in patients.

A WORD FROM JOHN REARDON

INTERNATIONAL HEAD OF CHRISTIE'S WATCH DEPARTMENT

On a personal level, Only Watch means many different things to many different people. For some, it represents a way of giving back. For others, it represents a way to channel their passion for watches into something much greater than the watch they wear.

For many, it means a once-in-a-lifetime chance to own a truly unique timepiece – one that was never made before and will never be made again.

For me, Only Watch represents the celebration of all things that are good in the watch industry today. Collectors, brands, artists, and all kinds of enthusiasts come together as a family for this auction and a memorable afternoon of spirited competition and camaraderie.

Christie's is honored to be part of the world of Only Watch and we look forward to welcoming you all to the various viewings around the globe and, lastly, the much anticipated auction in Geneva.

CHRISTIE'S WATCHES FALL AUCTION CALENDAR

Geneva · 13 November 2017

Hong Kong · 27 November 2017

New York · 7 December 2017

In 2017, after nine years of development, Agenhor presented the AgenGraphe®, the world's most advanced chronograph movement. It features a revolutionary central, coaxial, elapsed time display offering unparalleled legibility for a wristwatch, plus a dial-side winding rotor that does not obscure appreciation of its mechanical beauty.

For Only Watch, Agenhor presents Carpe Diem, powered by the very first production AgenGraphe® movement manufactured and delivered by Agenhor. Carpe Diem is a fully functioning desk clock and chronograph that can be orientated through 360 degrees: instead of hands, five rotating disks display time and elapsed time.

Agenhor is a movement supplier, not a brand; this truly unique piece has been designed in collaboration with students at the Geneva University of Art and Design (HEAD), who imagined a transparent ball magnifying the beauty of this next-generation chronograph movement. The concept of highlighting what's normally hidden is inspired by the vibrant minds and personalities of children with Duchenne Muscular Dystrophy.

COLLABORATION

— HEAD Genève

Agenhor revisited its new chronograph for the students of the Watch Design class at HEAD (Haute Ecole d'Art et de Design of Geneva) to imagine a unique timepiece of art. Fourteen students worked in pairs over three weeks.

The project designed by Bérénice Noël and Florian Wicki was unanimously acclaimed by the team working on this exceptional endeavor: Luc Pettavino (Only Watch), Jean-Marc Wiederrecht (Agenhor), Valérie Ursenbacher (HEAD), Technew (Packaging company) and the designer and PM Serena Trabalza.

The Carpe Diem concept was selected for its «on the outside looking into inner beauty» approach, which the jury felt reflected living with Duchenne Muscular Dystrophy.

☀ Case

Plexiglas

☺ Dial

Instead of hands, five coaxial disks indicate time and elapsed time up to 60 hours: two outer disks display hours and minutes, while three inner disks respectively display chronograph hours, minutes, and seconds

⚙ Calibre

Carpe Diem is powered by the AgenGraphe® Calibre AGH-6361-OW automatic winding chronograph movement, which is specially designed to display elapsed time indications on large-diameter disks rotating coaxially around the center of the dial where they can be read more legibly and more intuitively than chronograph displays on separate subdials.

Calibre AGH-6361-OW is composed of 477 pieces including 68 ruby bearing jewels and has a power reserve of 60+ hours with chronograph running.

The movement architecture, performance, quality and finishing of components matches Geneva Seal requirements.

📏 (No) Bracelet

Carpe Diem is a table clock chronograph suspended in the center of a rotating transparent Plexiglas sphere with integrated magnifying lens in an attractive presentation case.

This timepiece embodies the comradery of an industry, our humanity and a noble cause.

COLLABORATION

WOSTEP has played a key role in the development of many watchmakers professional lives whose origins are from outside of Switzerland. In addition to the professional advancement, WOSTEP has united and developed an international community of watchmakers, and subsequently friendships, that have spanned over a lifetime. This collaboration for Only Watch is the result of a group of these friends, the idea of an individual quickly shared and adopted by the group with an enthusiasm which personifies the friendship and unity of a very special band of brothers.

DEFY EL PRIMERO 21 ONLY WATCH EDITION

FOR ZENITH, PRECISION IS THE ABSOLUTE PRIORITY

THE DEFY EL PRIMERO 21 ONLY WATCH EDITION: A NEW 1/100TH OF A SECOND CHRONOGRAPH MOVEMENT AND A DOUBLE CHAIN STRUCTURE WITH TWO REGULATORS, 44 MM BLACK DLC TITANIUM CASE WITH TOUCHES OF YELLOW.

ESPECIALLY DEDICATED TO ONLY WATCH, IN A CUSTOMIZED ONLY WATCH BOX.

The movement contains a proprietary sprung-balance system that ensures perfect timing of the watch according to strict tolerance criteria. The balance has four gold inertia-blocks to adjust the daily rate.

To equip this exceptional timepiece, a unique and very rare balance-spring system has been used. The outside is a typical Breguet overcoil, while the inner terminal follows the less common Grossmann principle.

The watch's outstanding feature is its escapement; it is the first watch to present two escape-wheels in such a configuration. The escape-wheels provide a direct impulse to the balance through the roller/jewel. This escapement is extremely efficient and requires less energy than traditional lever escapements, offering gains in terms of longevity and stability in everyday use.

The sublimely elegant balance-bridge offers an unobstructed view of the escapement and balance. It also allows the enthusiast to admire the synchronised movements of the escape-wheels.

Finishing of the watch is of the very highest standard. The surfaces of pinions and wheels are totally flat and perfectly polished to exceptionally uniform tolerances. All finishing work on the main plate and bridges is carried out by hand to attain the best possible surface finish. Screws and all steel surfaces are finished and polished by hand.

Ulysse Nardin is proud and excited to support Only Watch by presenting an exclusive Marine Tourbillon Only Watch timepiece designed especially for this year's event. Yellow tints on the 7 hour indexes and the power reserve indicator pay homage to this 7th edition of Only Watch. The mechanical Marine model, with a delicate blue enamel dial, is emblematic of our historic marine timepieces, a heritage that stretches back to the mid 19th century and founder Ulysse Nardin himself. The blue Grand Feu enamel dial is a rarity, and the skilled craftsmen at Ulysse Nardin company Donzé Cadrans are among the very few to have mastered this ancient technique. A flying tourbillon – one of the most impressively complex mechanisms in the world of Haute Horlogerie – takes pride of place at 6 o'clock, while a 60-hour power reserve ensures this timepiece is a reliable partner to all those who demand accuracy over time.

ULYSSE NARDIN, Principal sponsor of the MONACO YACHT SHOW, will invite the winner of this lot and a guest to live the memorable experience of two days in Monaco on the occasion of the world leader yachting event:

Pierce Brosnan, who described himself as a "lover of watches", and Speake-Marin brand realized that they both share the same gentlemen's values: elegance, simplicity and independence. "When Speake-Marin asked me to be an ambassador for his work, it was a simple answer." Pierce Brosnan

Since then, Pierce Brosnan and Speake-Marin keep drawing inspiration from each other.

THE RESILIENCE LOVE LIFE

SPEAKE-MARIN DEVELOPED WITH THEIR AMBASSADOR PIERCE BROSنان A UNIQUE WATCH, "RESILIENCE LOVE LIFE", TO BRING ALL THE SUPPORT POSSIBLE TO ONLY WATCH IN THEIR FIGHT AGAINST DUCHENNE MUSCULAR DYSTROPHY.

RESSENCE in collaboration with HODINKEE is presenting a one-off TYPE 1² with open dial and sintered case. The timepiece symbolizes the work in progress that is the fight against Duchenne Muscular Dystrophy (DMD). The different layers of the case, that represent the various milestones towards a solution, were only made possible by the sintering technique; a first in the history of fine-watchmaking. Sintering is the process of compacting and forming a solid mass of material by laser heat.

As a symbol of optimism for the research into DMD, hints of green - the colour of hope - were added on the dial indexes.

The TYPE 1²OW "Only Watch" sub-dials continually revolve, as does the main disc into which they are set - like moons in orbit around a planet. Furthermore, a lever on the case-back replaces the familiar crown for a more instinctive setup/winding process.

Founded in 2008, HODINKEE has established itself as the preeminent resource for modern and vintage wristwatch enthusiasts around the world.

COLLABORATION

Watch aficionados have been keeping a close eye on HODINKEE's recent watch collaborations.

The publication's online store has been on a hot streak with its limited edition releases that includes (in chronological order) MB&F, Zenith, Nomos, Vacheron Constantin, Ressence and TAG Heuer.

The Predator 2.0 Regulator Power Reserve displays its legacy with a design that blends watchmaking history and racecar aesthetics. This exclusive timepiece has been created in partnership with REBELLION Timepieces ambassador and world champion racing driver Sébastien Buemi and will be auctioned with a pair of his signed racing gloves. Under the hood of this exceptional timepiece is a regulator movement.

The modern hands are independent, thus providing an unconventional, destructed display. The dashboard reveals two counters for the hours and minutes. A large central hand – light and sporty – is dedicated to the seconds. The 3D architecture reveals the date at 4 o'clock while a gauge indicates the power reserve of the automatic movement at 6 o'clock. Manufactured with high-tech racing materials, like compressed carbon fiber, and decorated with Sébastien Buemi's lucky color, yellow, it offers a generous 46 hours of power reserve; a genuine tribute to endurance racing.

Back in the 1950s Piaget created a very distinctive watchcase that defied conventions with its unique cushion-shape. It was later owned by Andy Warhol, the emblematic and cultural figure of his era. In 2014, for the Biennale des Antiquaires in Paris, Piaget paid tribute to its daring spirit by recreating three timepieces with hardstone dials, creatively revisiting its heritage to create a contemporary look.

For the seventh edition of Only Watch, Piaget introduces a yellow gold Black Tie Vintage Inspiration piece with the same aesthetic codes but featuring a hard stone dial in brown pietersite that recalls this year's color theme. Known as the tempest stone with its highly charged energy, pietersite is a powerful protection stone, especially against the elements. A special "Only Watch 2017 - Unique Piece" engraving on the back of the case reaffirms the uniqueness of this elegant creation.

"For this creation, the maison has taken inspiration from an iconic era that powerfully expresses the Piaget look, a style that continues to exercise an inimitably bold appeal today through the beauty of its unconventional shapes and audacious colours." - Chabi Nouri, Piaget CEO.

Moritz Grossmann presents a double lot, linking contemporary design with heritage.

Firstly, in homage to our roots, we offer an original Moritz Grossmann pocket-watch from our private collection.

Made around 1875, this piece showcases Glashütte's history. Moritz Grossmann's signature features such as chatoned movement, chronometer balance with diamond endstone, 16-tooth escape wheel, Grossmann handsetting rocker and Maltese cross stopwork on mainspring barrel make it a collectors' item.

Secondly, we have crafted its twin. An enamel dial and blue-steel poire hands to match the original are fitted in a rose gold ATUM case with our calibre 100.1 movement – designed and built in-house meeting Moritz Grossmann's passion for simple precision. It includes the Grossmann balance, modified Glashütte stopwork and pillar movement reminiscent of traditional pocket chronometers.

Contemporary styling, a historic face and our impeccable hand-made finish creates a watch to tell a story as well as tell the time.

EXPERIENCE

A pilgrimage for collectors: accept an invitation to visit the legendary town of Glashütte as our guest.

Stay overnight and dine with us in Dresden, then spend the next day in Saxony. Tour the amazing museum that once housed the German School of Watchmaking, established by Moritz Grossmann in 1878. Witness the incredible care we take to hand-make our pieces today. Appreciate our collection. And understand the spirit – traditional and contemporary – that we put into every piece, each day.

Since its inception, the Manufacture has been renowned as one of Switzerland's most revered specialists in chronometric functions for precise time measuring. Over the last decade, Montblanc has been exploring Minerva's incredible heritage, finding inspiration in historical functions, mechanics and design codes.

Representing an authentic scientific revolution, Vantablack is composed of carbon nanotubes measuring one millionth of a millimeter thick each and capable of absorbing 99.965 per cent of the light they receive.

Used on the back dial as well as on one end of the minutes hand, shaped like a small moon, Vantablack reveals its incredible properties. The movement appears to be suspended in mid-air, while the small moon appears and disappears as if by magic during its rotation around the dial.

Derived from the Sequential Two – S200, this Only Watch limited edition is equipped with the original automatic Manufacture movement with its 507 components including 85 jewels, as well as the brand’s sequential display of the hours on prisms. The case of the Sequential Two –S200 Vantablack is forged from black DLC-coated gold. This unique piece is signed by Anish Kapoor on the back.

“MCT Watches is pleased to be able to combine both creativity and expertise to take a stand for a good cause.” CEO, Pierre Jacques.

COLLABORATION

The S200 Vantablack stems from an encounter between Anish Kapoor and MCT Watches starring this high-tech material with its extremely strange properties.

For several months, MCT Watches worked hand in hand with the artist in order to give shape to a mysterious and fascinating watch.

Initially developed for the military and aerospace industry, Vantablack soon caught Anish Kapoor’s interest. As the artist explains, *“it’s the blackest material in the universe, after a black hole; a physical object that is impossible to see”*. *“When we found out about Vantablack, we were instantly spell bound by the unreal beauty, the depth and the dizzying power of the effect it creates.”* said Pierre Jacques, CEO of MCT Watches.

Dive into the imaginary world of children with the HM8 Only Watch created by MB&F with the young artist Cassandra Legendre. Based on Horological Machine N°8, this Pièce Unique in 18K white gold and grade 5 titanium is instantly recognisable thanks to its special sapphire crystal pane – engraved and metallised with a whimsical drawing created by the talented 15-year old Cassandra. Visible under the doodle, the automatic HM8 engine features a unique purple winding rotor. Check the lateral time display and you'll notice a miniature white gold elephant situated between the hour and minute prism; the elephant was sculpted by engraver Olivier Kuhn based on the elephant in Cassandra's drawing Final touch: the MB&F logo on the double-screwed plate has been replaced by a happy face – symbolising the childlike perspective that Legendre brings to HM8.

COLLABORATION

The base of this pièce unique is Horological Machine N°8, an automotive inspired creation that takes design cues from the legendary highoctane Can-Am race. Engraved and metallised on the sapphire crystal pane that surmounts the HM8 engine is a whimsical doodle created by 15-year-old Cassandra Legendre.

A student currently living in Madrid, Legendre's primary method of artistic expression is ballet, but she also produces remarkable drawings in her spare time. As an exception for MB&F's contribution to Only Watch, Legendre and her family agreed to this one-off participation to strengthen the message of HM8 Only Watch – a child creating something to help children who have been denied many of the dreams and opportunities of childhood.

Icons are hard to come by. Maurice Lacroix made that dream come true for itself with the Calyspo, a quartz watch that became a staple of 1990's watchmaking. In 2016, Maurice Lacroix reinvented that iconic watch. Now renamed Aikon, it has been profoundly redesigned to become a thing of the definite present. Sharp, modern, its undeniable charisma and careful finishings have made it an instant best-seller. Building on that success, the Aikon range is entering a new phase.

For Only Watch 2017, Maurice Lacroix introduces the Aikon Automatic Chronograph. It paves the way for a new set of developments. From now on, Aikon will be fitted with automatic movements, in addition to quartz. Black and dark gray, with bright yellow highlights in reference to the colors of Only Watch 2017, it shows both matte and polished surfaces. Its intense outline, its masculine and sporty outlook, the pattern on its dial and obviously high level of finishings bode well for this momentous timepiece.

The piece sports a gold-plated dial, for which the firm has performed another first in terms of decoration: its face is first gilded – and then hand-punched to form lunar ‘craters’. And to complete the metaphor, Ateliers Louis Moinet has filled these craters with genuine fragments of lunar meteorites. By combining both its artisanal skill with dials and its expertise in the craftsmanship of stones and meteorites – now one of the firm’s hallmarks – Ateliers Louis Moinet has produced a uniquely beautiful sidereal work featuring amazing miniature painting.

⚙ Calibre

Close to its edge, between 8 o’clock and 11 o’clock, Louis Moinet reveals the piece’s beating heart: an in-house movement, the LM31 caliber. Above the visible escapement, a small seconds hand glides over a sapphire crystal counter, slightly smoked to ensure it is perfectly readable. The hour hands are in blued steel, in the purest fine watchmaking tradition. Featuring Louis Moinet’s signature “dewdrop” tips, they trace a circle around a powder-coated black flange. The 43.2 mm diameter steel case reveals the entire underside of the movement through a sapphire crystal caseback, around which the words “Pièce Unique – Only Watch” are engraved. The watch is wound by means of an oscillating weight decorated with a concentric Clou de Paris pattern and a fragment of lunar meteorite – another finishing first for the Ateliers.

From Jules Verne to the Little Prince, and from Georges Méliès to Neil Armstrong, the Moon embodies all the dreams and challenges of humankind. And for its first contribution to Only Watch, Louis Moinet has reached across 380,000 km to our lunar satellite, so as to offer children a brighter future.

“We thought long and hard about how best to reach for the Moon and help children suffering from myopathy,” explains Jean-Marie Schaller, Ateliers Louis Moinet’s CEO and Creative Director. *“The legacy left by Mr Louis Moinet himself helped guide us in the creation of this timepiece. As a watchmaker, he was one of the pioneers of observational astronomy. This piece demonstrates our commitment to Only Watch – and also offers a fitting tribute to an outstanding inventor and committed humanist.”*

For its first contribution to the Only Watch charity auction, Ateliers Louis Moinet has summoned the very essence of its know-how. The firm has produced a unique timepiece, “Metropolis for Only Watch” – a most worthy successor to Mr Louis Moinet’s own Compteur de Tierces from 1816, the first chronograph in history, which was also used for observational astronomy.

It's neither a Laurent Ferrier watch nor an URWERK, yet the signatures of both firms appear on its back. The existence of this unexpected watch defies logic because it is the joint effort of two watchmaking companies that couldn't be more different. Each bases its identity on the opposite ends of watchmaking's stylistic spectrum. On one side, the expression of time-honoured traditions; on the other, an anarchic effort to overturn conventions. The Arpal One LF-UR1 also offers a unique opportunity to witness two independent brands working together to produce a watch for the Only Watch 2017 auction. Laurent Ferrier has forged an enviable reputation as master of the definitive watch in the classic style. URWERK, on the other hand, has spent the last 20 years challenging the watchmaking world with its bold originality.

COLLABORATION

The story started behind the watchmaking scenes. It was in November 2015 at a watchmaking exhibition like many others. There, two watchmakers, exiled from the cocoons of their respective workshops, made a tentative effort to escape the crowds and take a break. *"Of course, I knew him by sight. But there, we seemed to be alone in the world, lost in a bubble, and so we got to know one another."* recalls Felix Baumgartner. Laurent Ferrier picks up the story: *"I'm rather shy by nature, but I quickly found common ground with Felix. The place was peculiar, but the time was right."*

Their friendship was to blossom into a joint project – to build a bridge between two watchmaking companies and thereby to create an exceptional watch for a noble cause. Combining tradition with daring innovation was like mixing oil and water.

While watchmaking tends to feature a thoughtful and straight face, Chaykin proposes an unconventional approach of recreating watches as kinetic pop art pieces. The Joker watch is emotionally faced and you never know what face it is going to be in the next minute. Chaykin has adventured creation of a new fine movement spirit that is protean, ever spectacular and provocative.

A two-disk current time module displays with the Joker's eyes as hours and minutes, and a moon phase indicator as the Joker's best smile were designed exclusively for the Joker watch. A reliable, time proven automatic ETA caliber is embedded with a friction reducing eight-stone module, while the case has a second crown for adjusting the moon phase.

The Joker is the card capable to change the game course. It comes out to beat any other card, creates incredible combinations and provokes spectacular moves. It is a synonym for good luck, a forerunner of a dazzling adventure and a hint implying risk playing with fate itself and triumph.

This reinterpretation of the legendary Grande Seconde watch and its playful figure 8 - the symbol of infinity and completeness that has come to represent Jaquet Droz - features a cuprite background. Its fiery red color embodies all the passion dedicated to both the timepiece and the Only Watch project.

The cut of the mineral dial requires the extreme, expert delicacy for which Jaquet Droz is known. Each inclusion, vein and detail of the dial makes for a singular masterpiece. But the Grande Seconde goes even further: the two counters traditionally aligned on the 12 o'clock / 6 o'clock axis are made off-center, adding an original, dynamic touch to this purest of canvases.

The thinness of the circled gold flanges match that of the hands and the majestic direct-drive seconds hand, while the crown is shifted to 4 o'clock for a subtle aesthetic twist.

BIG BANG UNICO SAPPHIRE USAIN BOLT FOR ONLY WATCH

TIME, MUSCLES AND HOPE AGAINST DISEASE – BIG BANG UNICO SAPPHIRE USAIN BOLT FOR ONLY WATCH

Hermès time cultivates the 'extravagant' idea of reconciling rigorous discipline with whimsical fancy. It takes a deft ability for handling paradoxes to imagine that the calling of a watch should be to kindle our emotions. Such is the purpose of the unique Slim d'Hermès L'heure impatiente timepiece unveiled at Only Watch 2017, whose complication invites us to look forward to an upcoming moment.

The jubilant ritual consists of setting the counter of the watch to the time of the eagerly awaited event that will take place in less than 12 hours. An hour before it occurs, the mechanical hourglass is set in motion and its progress can be followed at 6 o'clock on the dial. This complication that stirs our feelings and heightens our sense of pleasurable expectation is an exquisite torture that culminates when the note rings out. The striking mechanism has been designed to ensure a lasting, velvety-smooth sound that is also delightfully modulated for the wearer's ears only. The playful and quirky 'Impatient Hour' complication is based on this companionable rapport.

H. Moser & Cie. is proud to join the fight against Duchenne muscular dystrophy by supporting the Only Watch Auction. For this occasion, H. Moser & Cie. has created a unique piece, the Venturer Concept Only Watch. A symbol of life and renewal, red takes centre stage in this watch, which showcases a vibrant red fumé dial and features a striking red balance bridge. Offering a beautiful contrast, the white hour and minute hands refer to the colours of the Monaco flag.

Part of the H. Moser series of Concept watches, the Venturer Concept Only Watch relinquishes both logo and indices. This minimalist approach puts the product itself in the spotlight, as a reminder that true luxury is distinctive. This is a watch with an authenticity and purity that prove that only the essential matters. Faced with illness, especially when it affects a child, priorities come into sharp focus, centering on what is important. Everything else is of no consequence.

VENTURER CONCEPT ONLY WATCH

THE VENTURER CONCEPT ONLY WATCH, A MINIMALIST ODE IN RED, AS A SYMBOL OF LIFE AND OF RENEWAL IN ALL ITS STRIKING FORCE, IS A REMINDER OF THE IMPORTANCE OF FOCUSING ON THE ESSENTIAL.

An iconic model born in the 1970s, the Laureato has now been revived in the form of an extremely coherent collection presented at the Salon International de la Haute Horlogerie in January 2017. The formidable success encountered by this reinterpreted line has confirmed the aptness of its design as well as the avant-garde nature of the Girard-Perregaux Manufacture.

Based on the natural aura of this inspired and timeless design, as well as its ability to embody values cherished as much by the up-and-coming generation as by this Maison founded in 1791, the company management has chosen to donate a strictly one-of-a-kind version of the Laureato to Only Watch 2017.

LAUREATO 2017 SPECIAL EDITION

THIS MARVELLOUSLY BALANCED TIMEPIECE WITH ITS CONTEMPORARY CASUAL CHIC STYLE, ISSUED IN A ONE-OFF EDITION, IS DESTINED TO EPITOMISE THE GENEROSITY OF A TRUE AESTHETE.

As a passionate supporter of charitable foundations, Frederique Constant continues to show its support to this noble cause.

This year, the brand does so with the Perpetual Calendar, which has been praised as one of the most reliable and affordable grandes complications in the industry. For this exclusive Only Watch edition, the brand wanted to present a variation of this timepiece that is incredibly jaw dropping. The timepiece features the functions of a perpetual calendar, such as hours, minutes, moonphase, date, day, month and most importantly the leap year. All in an 18K polished rose gold 42mm case with a see-through back case revealing intricate Perlage and Côtes de Genève decoration on the FC-775 in-house caliber. However, what makes this piece truly exclusive is the one-of-a-kind meteorite dial giving the once classic timepiece, an edgy twist!

Meteorite stones are often found in desert areas; in this case, the one used for this unique piece was uncovered in the desert of Namibia. A perpetual calendar perpetuates the endless passing of time, this unstoppable force by which all of mankind's actions are defined. It was only fitting that the brand chose a material that has most likely wandered through space for millions of years before hitting earth to symbolise the etherealness of our lives, a symbol of eternity and a message to live to the fullest, making every minute count.

To mark 100 years since the Russian Revolution, Fabergé presents a chronograph of revolutionary significance in the horological cosmos, paying homage to the unfinished Constellation Egg of 1917.

The Fabergé Visionnaire Chronograph marks a new standard in charting time. Hours and minutes are read at the periphery of the watch dial while the chronograph function takes centre stage. The automatic calibre 6361, developed in partnership with Agenhor, offers a new intuitive chronograph display. It is a revolutionary new movement that imparts unprecedented clarity, precision and efficiency to the highly popular chronograph complication. It is the modern-day analogy to a Fabergé egg – a mechanical opus with wonder at its heart.

The timepiece features an opaline dial with TCI luminescent coated 15-minute indicators, sapphire with metallic treatment and applied numerals and hour indicators and an automatic chronograph movement, developed by Agenhor, encased in a 43mm black ceramic and DLC-treated titanium case.

Aurelie Picaud, Global Timepieces Director, said: "Fabergé is honoured to be taking part in the important Only Watch project. The first deliveries of the new Visionnaire Chronograph were due to take place in November; however, Fabergé has worked closely with its external work-masters to ensure the first Chronograph was available to dedicate to this special cause. Jean-Marc Wiederrecht and his team at Agenhor developed the revolutionary chronograph movement that is housed in this watch and Someco has created the bespoke dial, so we're thrilled to offer a special-edition Fabergé Visionnaire Chronograph to the Only Watch initiative."

"We would also be delighted to offer the opportunity to visit the workshops and meet the talented artisans."

The Swiss watchmaker DeWitt belongs to the few who can produce their own movements and the very few who have dial-makers in house. It is precisely this uniqueness that the brand is proud to offer to the new owner of one of its timepieces. They will have the privilege to imagine the dial of their own watch, which will be hand-crafted in the Geneva based Manufacture. The watch houses a self-winding DeWitt movement. Its steel case is the case of the watchmaker's iconic Academia model featuring the famous DeWitt imperial column motif.

The DeWitt Manufacture was founded in 2003 by Count Jérôme de Witt in order to create hand-crafted exceptional and innovative Master Complications. Housing all traditional watchmaking activities, from the conception of horological innovations by engineers and designers to the production of every hand-finished component of the movement by master watchmakers, it also integrates the extremely complex know-how for manufacturing dials in-house, relying on a team of specialists such as enamellers, electrotypers, setters and others.

ACADEMIA

FEATURING THE CASE OF DEWITT'S ICONIC ACADEMIA MODEL, THE WATCH PROPOSED FOR ONLY WATCH 2017 WILL DISPLAY THE DIAL IMAGINED BY ITS NEW OWNER AND HAND-CRAFTED IN THE MANUFACTURE.

Following the tradition of constant innovation and excellency of the great masters watchmakers, De Bethune is proud to propose, this edition, a reinterpretation of a traditional horological creation using the current, technical and aesthetic innovations of today and based on the emblematic architecture of the Yacht Club de Monaco by Foster and Partners, a symbolic centerpiece of Monaco's remodeled harbor front.

This combination between know-how, art and technology through a unique object dedicated to mechanics and architecture, returns to the watchmaking tradition of clock manufacturing, symbolizing the universality of time and the bond between people and their environment. This chronometer is also celebrating research and discovery with a unique mirror game in bronze, the same material than Galileo's once used for his night-time observations. Spiral shaped, it deepens into the heart of the mechanic as much as it refers to the emblematic building's stairs. An exceptional piece of contemporary design and a tremendous demonstration of craftsmanship.

Thank you to the Yacht Club de Monaco and Foster and Partners for their approval and support.

EXPERIENCE

On the occasion of the Only Watch 2017 charity auction, De Bethune is proud to offer to the successful bidder a unique journey into the heart of watchmaking art. What watch enthusiast has not dreamt of trying for himself the art of chamfering, flame blueing or, of course, watchmaking? Therefore, during one day, Mr Denis Flageollet and the best craftsmen of the Manufacture will privately initiate their guest and reveal their secrets and techniques.

For more comfort and an even more immersive experience, a night in the historical Grand Hotel des Rasses with a room offering a spectacular view on the valley is included.

It also boasts a secret signature by Francois Czapek in the small seconds sub-dial.

Calibre

The SXH1 is a 3 hertz Czapek proprietary, double-barrel, 7-day, manually wound movement. It is an unusual re-interpretation of the original movement of Czapek model 3430 made in 1850. François Czapek was a Czech-born Polish watchmaker who fled to Geneva in 1832 after fighting in the ill-fated Polish uprising. He immediately started his own atelier and in 1839 entered into a partnership with Antoine Norbert de Patek, introducing him to the world of watchmaking. In 1845, at the end of their partnership, he created Czapek & Cie and achieved considerable success. He became the official watchmaker of Napoleon III and opened what was most likely the first watchmaking boutique on the Place Vendôme in Paris. He wrote a book about watchmaking, one of the first ever written in Polish but unfortunately died before publishing a second one.

Czapek & Cie has been revived in 2015 with an exceptional collection, whose leading model won the Public Prize in the Grand Prix de l'Horlogerie in Geneva in November 2016. This collection takes its inspiration from a 1850s Czapek time piece. It features a beautiful enamel dial and is powered by a 7-day proprietary movement, perfectly combining craftsmanship, design, exclusivity and rarity. In 2017, Czapek & Cie has created a unique piece for Only Watch with a very special dial to pay tribute to the children and their families fighting against muscular dystrophy.

For Only Watch 2017, Christophe Claret pays tribute to the love of life and the love of passion. At the heart of this watchmaking fable, a 3D depiction of the cherry blossom revisited by Christophe Claret gives pride of place to artistic crafts. The blue enameled center of the flower features a pistil topped with a blue sapphire and stamens represented by 28 emeralds. To provide a joyful escort for the passing of time, two hand-engraved dragonflies indicate the time. The white gold case is adorned with 59 blue sapphires and 15 marquis-cut emeralds symbolising the leaves of the cherry tree.

The visual enchantment does not end here. One press on the pusher at 2 o'clock makes the numbers disappear to reveal the phrase specially created for Only Watch: "Pour l'amour de la vie" (For the love of life).

The sapphire caseback provides an opportunity to admire the movement's oscillating weight, set with 4 emeralds and 4 blue sapphires. At will, the owner can indulge in the "He loves me... he loves me not" game, the simplified English version of daisy petals. More than ever, the Magicafiore watch establishes itself as a vivid symbol of the romantic game of love and chance. A unique piece for a unique woman.

The Manero Peripheral Only Watch 2017 model is the epitome of a timeless classic. The timepiece's clear design language emphasizes the sophisticated finish of the 18K white gold case. The characteristic peripheral rotor, which Carl F. Bucherer was the first manufacturer to put into series production, appears for the first time ever in the same royal blue that adorns the model's leather strap and indices, a tribute to the brand's attention to detail. Alluding to the auction that will take place on November 11, the eleven of the date appears in the same blue.

A metallic dedication is placed on the inside of the see-through sapphire crystal case back that reads "ONLY WATCH 2017 - Pièce unique - Fabriquée en Suisse", adding another layer to the one-of-a-kind character of the timepiece. This is a watch that embodies the full innovative force of the Carl F. Bucherer manufacture by blending the sophisticated engineering of the in-house movement with a timeless design interpretation.

A ONE-OF-A-KIND MODEL, THIS 39MM CLASSIQUE WATCH IN YELLOW GOLD IS DISTINGUISHED BY ITS MOVEMENT'S ORIGINAL CONSTRUCTION, FEATURING AN IN-LINE PERPETUAL CALENDAR. THE FINE GUILLOCHÉ DIAL SIGNS A VISUALLY BALANCED AND PURE TIMEPIECE.

The house of Bovet has been a leading name in watchmaking for 195 years thanks to its mastery of the decorative arts. The miniature paintings adorning the pocket watches manufactured by the Bovet brothers are omnipresent in watchmaking and art museums worldwide.

Yet traditional craftsmanship does not preclude innovation, as nobly illustrated by the technicality applied to the creation of this timepiece dial. The Geisha hand-painted on the dial of this timepiece combines different layers of traditional painting and Super-LumiNova®, rendering this miniature work of art, affixed to mother-of-pearl, visible both by day and by night. For Only Watch, the artisans at Bovet 1822 have gone even further, as the Geisha bares all when night falls. This unprecedented innovation in watchmaking makes the link between the traditional enamelwork that established the House's reputation in the 19th century and the erotic watches of the same period.

EXPERIENCE

Mr Pascal Raffy has the pleasure to invite the acquirer of the timepiece to the Artists for Peace and Justice Gala dinner (for two people) «Brilliant is Beautiful», which will take place on December 1, 2017, in London.

The charity supported by Pascal Raffy and Bovet 1822 will be represented by its founder, film director Paul Haggis and by Mrs Elisabeth Hurley. They will be supported by numerous celebrities gathered around a dinner prepared by the Chef to her Majesty the Queen of the United Kingdom.

This invitation also includes one hotel night.

SECRET BEAUTY FOR ONLY WATCH

LUMINESCENT MINIATURE PAINTING OF A GEISHA, UNIQUE PIECE,
42MM WHITE GOLD CHÂTEAU DE MÔTIERS CASE, AUTOMATIC MOVEMENT.

From the very founding of the Maison in 1858, Frédéric Boucheron used wild flora as a source of inspiration. Nature according to Boucheron is free, proud and wild. No flowers tamed or arranged. During the Second Empire, the Empress Eugénie latched on to wild flowers. As prosperous times and imperial celebrations followed, Boucheron's creations danced among the splendid finery of the women of the court. The jeweler's aesthetic bias took shape: that of a flower not shaped by man's hand.

Wheat conveys a symbolism between fantasy and reality. Emblem of the Egyptian god Osiris who they say created it; golden wheat symbolizes fertility and wealth. It is often represented in pictorial art for its many positive attributes and golden colours associated with the Sun. Today, Epure Blé d'été reinterprets into a contemporary creation the wheat allegories and the jewelry vision: celebrating the happiest moments of life.

EXPERIENCE

The Maison Boucheron joins the Only Watch project to offer a unique experience during the Cannes 2018 Film Festival.

Have you ever thought of experiencing Cannes in the same way as the biggest names of cinema?

Wait no longer and meet us there in May next year.

The Fifty Fathoms, presented in 1953, was the first modern diving watch in the world. In the wake of its adoption by the French Navy's combat swimmers corps for which it was initially designed, this timepiece was ordered by some of the most powerful navies in the world. Soon after its debut, Jean-Jacques Fiechter, Blancpain's CEO at the time, added a first additional element to his diving watch: a circular water-resistance indicator, which was to become a standard-issue feature on watches worn by American combat swimmers.

For Only Watch, Blancpain presents a one-of-a-kind creation inspired by the new Tribute to Fifty Fathoms MIL-SPEC timepiece, featuring hour-markers and hands enhanced with intense yellow Super-LumiNova® reflecting the colour code of the Only Watch 2017 logo. The movement with its NAC-coated solid gold winding rotor bearing the Blancpain logo and the inscription "Only Watch", is clearly visible through the transparent sapphire case back .

BR-X1 R.S.17 ONLY WATCH

THIS YEAR, FOR THE ONLY WATCH CHARITY AUCTION, BELL & ROSS IS OFFERING THRILLSEEKING FANS AND COLLECTORS OF FINE WATCHES A UNIQUE EXPERIENCE: THE CHANCE TO GET A FIRST-HAND LOOK BEHIND THE SCENES AT ONE OF THE FOREMOST MOTOR RACING COMPETITION.

Made entirely in Geneva, the MOSAÏQUE by Barbier-Mueller timepiece pays homage to fine Genevan watchmaking and to the decorative arts. The entire piece, from the dial to the rose gold case, features a subtle cloisonné motif that evokes the art of mosaics, which dates from the end of the fourth century B.C. In a reference to the pocket watch, the back has a cover that is similarly decorated. When opened, it reveals its heart - a mechanical gold movement designed and manufactured by F.P.Journe - Invenit&Fecit-, thus definitively confirming the horological legitimacy of this exclusive series.

The prototype of MOSAÏQUE by Barbier-Mueller, with its rose gold case, ideally showcases the play of light over the coloured jasper stones. Several hundreds of hours of work were necessary for the stone setting and the realisation of this aesthetically complex piece. The case sides, the dial, and the case back are very subtly adorned with a mosaic motif made up of brick-coloured, black, white, and green jasper. The watch counts as many as 196 elements : 96 pieces of jasper on the dial, 72 on the case back, and 28 on the case sides. Underneath the case back, the 18K rose gold movement, based on the F.P.Journe 1304 calibre, displays the supreme elegance of mechanical horology.

Inspired by the regulators created by John and Roger Arnold over two hundred years ago and by antique British skeleton clocks, the Arnold & Son Time Pyramid offers a highly cohesive and seductive blend of watchmaking feats that includes regulator, skeleton, vertical linear movement, pyramid-placement of components and multi-dimensional depth.

For the unique Time Pyramid Only Watch 2017, the entire timepiece is given a bold, contemporary execution. The stainless steel case is given a black DLC treatment, while the skeletonized and symmetrical calibre A&S1615 receives a black ADLC coating, offering a striking contrast against traditional haute horlogerie hand-applied finishing and decoration.

Further highlighting the unique execution of the Time Pyramid Only Watch 2017 are the red accents throughout, adding a vibrant touch to the blacked-out timepiece and recalling the Principality of Monaco's official color. The hands of the two power reserve indicators (one per barrel) are painted red, as are the hour and minute hands and Roman numerals on the sapphire dial. TIME PYRAMID ONLY WATCH

ARNOLD & SON PRESENTS A UNIQUE SKELETON TIMEPIECE WITH A SYMMETRICAL MOVEMENT CONSTRUCTION INSPIRED BY 18TH CENTURY ENGLISH SKELETON CLOCKS.

With its contribution to Only Watch 2017, the Swiss manufacturer ARMIN STROM has given new meaning to the concept of the watchmaker's art. In cooperation with the American artist Hunt Slonem, famous for his highly original works, the ARMIN STROM watchmakers have created a timepiece which represents a spectacular fusion of creative art and mechanical craftsmanship.

This unique piece combines the signature of the New York artist who enjoys a prestigious international reputation with the unmistakable style of the Swiss watch manufacturer. The titanium case of the ARMIN STROM Manual Hunt Slonem Edition for Only Watch houses the manually wound AMW11 calibre with off-center time display and small seconds. Its openworked spring barrel provides a 5 day power-reserve. The plate and bridges of the manufactured calibre feature sophisticated decoration and are hand-engraved. The dial side serves as a screen onto which Hunt Slonem's contemporary art has been transferred. The colours and motifs have been taken from a painting (H: 46cm x W: 31cm) which awaits its new owner together with the watch.

COLLABORATION

Cooperation proved to be a labour of love for all concerned. Serge Michel, the art lover and owner of ARMIN STROM, has long been a fan of Slonem's work. They were both keen on placing their work at the service of the Charity Organization in Monaco.

"We are proud of contributing to research into Duchenne muscular dystrophy through this cooperation," Hunt Slonem and Serge Michel stress.

ARMIN STROM

MANUAL HUNT SLONEM EDITION FOR ONLY WATCH

WITH ITS CONTRIBUTION TO ONLY WATCH 2017, THE SWISS MANUFACTURER ARMIN STROM HAS GIVEN NEW MEANING TO THE CONCEPT OF THE WATCHMAKER'S ART.

For Only Watch 2017, Andersen Genève has created its first bi-colour "Tempus Terrae" with a white gold bezel, a red gold case and a white gold hunter case back. Bi-colour cases are part of the unique collection "Montre à Tact" for more than 20 years.

This "one off" creation has been manufactured with emblematic "broken lugs" and two crowns for the "Tempus Terrae 25th Anniversary". The rotor of the movement and the centre of the dial are made of exclusive 21K "Blue Gold" with hand guilloché "Tapisserie" texture. Brushed "A" shaped Andersen hands remain as discreet as possible though give a clear visibility of time.

As an additional refinement the "Andersen Genève" logo was removed from the centre of the dial and replaced by the "A" logo above MONACO. The "A" logo also defines the crown to set the time. The second crown to set Timezones has the "TT Tempus Terrae" logo.

RICHARD MILLE

A dedicated and unwavering supporter of Only Watch since its creation twelve years ago, Richard Mille has been a noteworthy participant of previous editions.

We always wished to donate the most important watches to Only Watch, in terms of technicity with a radically innovative approach but also in terms of pieces which hold a special place in the brand's history.

Two unique pieces were donated, developed in collaboration with Phillipe Starck, as well as several other prototypes worn by our partners Yohan Blake and Rafael Nadal during their respective international competitions.

Richard Mille continues to provide unfailing financial support to Only Watch who raise funds for research into Duchenne Muscular Dystrophy and who have already funded numerous scientific and medical research programs.

We wish Only Watch every success for this new edition and know from past experience that they will achieve great visibility thanks to the exceptional models presented in these pages.

Our friend Luc Pettavino created Only Watch and we feel it is our duty to accompany him in his fight to raise awareness and funding for this terrible illness.

See you at Only Watch 2019!

PAUL PETTAVINO: YOU ARE MISSED, MY FRIEND

“We thought we had to help Paul,” Nicolas Allera, a fellow journalism student from Paul’s first year, tells Monaco Life, *“but in fact Paul was always helping us. He never put his disease on other people and he was always smiling.”*

Open-minded, smart and always telling jokes in class, Nicolas adds that *“Paul wanted to show us and himself that he was just a regular kid in the class.”*

Another EDJ student, Laura Berlioz, started a “cagnotte”, a donation box, to collect money for the Monegasque Muscular Dystrophy Association (Association Monégasque contre les Myopathies), launched by Paul’s father, Luc, in 2001.

Mr Pettavino, who was managing director the Monaco Yacht Show for 18 years until 2010, is also Chairman of the

Two years ago, Paul Pettavino was a student of mine at the École du Journalisme (EDJ) in Nice. Funny, clever and always the first one to volunteer to participate, whether for the “Today’s News” segment or a game, you would have thought he was like any one of the 74 other young budding journalists of his year. Except Paul had Duchenne muscular dystrophy (DMD) and lived in a stand-up power wheelchair.

I was deeply saddened to learn that this lovely young man died on Saturday, November 12, 2016, just shy of his 21st birthday.

While other students in my classes would hand in assignments late with the excuse that they couldn’t find printing paper or when confronted about plagiarism would reply, *“I couldn’t have plagiarised because my mom wrote my paper”*, Paul was battling his physical constraints on a minute-by-minute basis, never complaining. He gave me hope.

His level of English comprehension was higher than most of his peers, and often when I’d make a joke in English under my breath, I would look at him for a response, and be rewarded with a grin.

Paul Pettavino with HSH Prince Albert II of Monaco, his parents Luc & Monique, and his sister Tess (Monaco Yacht Show 2015)

Board at Synthena, a biotech company in Bern, Switzerland, which aim is to develop life-saving drugs for the treatment of severe neuromuscular diseases in general and Duchenne muscular dystrophy in particular.

The 6th edition of the Only Watch charity auction held November 7, 2015, showcased a collection of “44 exceptional one-off timepieces”.

Paul himself worked with Louis Vuitton four times over the years, designing special watches for the occasion. In 2015, his “World is a dance floor” (complete with Night Fever dance floor pattern on the dial, pictured) was a variation of Louis Vuitton’s Escale Worldtime, and in 2013, he created the Tambour Regatta Spin Time watch.

Held at La Réserve in Geneva, Only Watch, which is under the High Patronage of HSH Prince Albert II, raised €10,450,000 in 2015 for DMD research, making it the association’s most successful fundraiser to date.

Paul, who grew up in Monaco and attended Lycée Albert 1er, had many creative outlets. Just over a year ago, he had his first photography exhibition at Le Teashop at Place des Moulins. In a tribute to Jack Kerouac, “On the Road” unveiled a collection of Paul’s photos from a 2014 trip to the US and Canada, where he visited Boston, New York, Washington, Ottawa, Montreal and other cities, with a focus on architecture and urban landscapes. “I wanted to show through my exposition what I discovered,” Paul said in an interview at the opening.

“Paul was truly an exceptional person, a lesson in love and goodness,” Le Teashop owner Sharon Eastwood tells Monaco Life.

A friend of the Pettavino family, Sharon has known Paul and his older sister, Tess, since they were born and used to babysit the two of them.

“Paul was so serene. He was a beautiful, affectionate, extremely kind, radiant, always smiling and a creative spirit,” she adds. “The last time we dined together, we talked about doing the next exhibition at the Teashop on the theme of ‘public benches’. He was very enthusiastic and full of ideas, as usual.”

“I am very happy to have had the chance to cross his path and share some nice moments with him. He was very much surrounded with love, he has a great family and I wish them much courage to overcome this painful ordeal.”

Paul’s Facebook page has been painted with touching tributes to such a unique individual, and as Monaco Life discreetly reached out to others that knew him, we were moved to tears by the impact he consistently made on others: “Such an unfair, destructive illness and yet this young man taught us bravery, the true essence of joy and, of course, the importance of here and now. May Paul Rest in Peace, pain free and fly little angel.”

2. EXPORT AND IMPORT

(a) Any **lot** sold at auction may be affected by laws on exports from the country in which it is sold and the import restrictions of other countries. Many countries require a declaration of export for property leaving the country and/or an import declaration on entry of property into the country. You alone are responsible for getting advice about and meeting the requirements of any laws or regulations which apply to exporting or importing any **lot** prior to bidding. If you are refused a licence or there is a delay in getting one, you must still pay us in full for the **lot**.

(b) **Lots made of protected species** **Lots** made of or including (regardless of the percentage) endangered and other protected species of wildlife are marked with the symbol ~ in the catalogue. Such **lots** may require import and export permits as set out in Section H(2)(a) above.

Some of the watches offered for sale in this catalogue are pictured with straps made of endangered or protected animal materials such as alligator or crocodile. These lots are marked with the symbol Ψ in the catalogue. These endangered species straps are shown for display purposes only and are not for sale. Christie's will remove and retain the strap post auction and retain at the sale site. Christie's may, at its discretion, make the displayed endangered species strap available to the buyer of the lot free of charge if collected in person from the sale site within 1 year of the date of the sale. Please note that **lots** are marked as a convenience to you, but we do not accept liability for errors or for failing to mark **lots**.

The seller's **warranties** contained in paragraph E1 are their own and we do not have any liability to you in relation to those **warranties**.

(b) (i) We are not responsible to you for any reason (whether for breaking this agreement or any other matter relating to your purchase of, or bid for, any **lot**) other than in the event of fraud or fraudulent misrepresentation by us or other than as expressly set out in these conditions of sale; or

omission or breakdown in these services.
(d) We have no responsibility to any person other than a buyer in connection with the purchase of any lot.

(e) If, in spite of the terms in paragraphs (a) to (d) above, we are found to be liable to you for any reason, we shall not have to pay more than the **purchase price** paid by you to us. J. OTHER TERMS

1. OUR ABILITY TO CANCEL

In addition to the other rights of cancellation contained in this agreement, we can cancel a sale of a **lot** if we reasonably believe that completing the transaction is, or may be, unlawful or that the sale places us or the seller under any liability to anyone else or may damage our reputation.

2. RECORDINGS

We may videotape and record proceedings at any auction. We will keep any personal information confidential, except to the extent disclosure is required by law. However, we may, through this process, use or share these recordings with another **Christie's Group** company and marketing partners to analyse our customers and to help us to tailor our services for buyers. If you do not want to be videotaped, you may make arrangements to make a telephone or written bid or bid on Christie's LIVE™ instead. Unless we agree otherwise in writing, you may not videotape or record proceedings at any auction.

3. COPYRIGHT

Christie's owns the copyright in these Conditions of Sale and the Written Bid Form at the back of the catalogue. You cannot use them without prior written permission from Christie's. We do not

offer any guarantee that you will gain any copyright or other reproduction rights to the lot.

4. ENFORCING THIS AGREEMENT

If a court finds that any part of this agreement is not valid or is illegal or impossible to enforce, that part of the agreement will be treated as being deleted and the rest of this agreement will not be affected.

5. TRANSFERRING YOUR RIGHTS AND RESPONSIBILITIES

You may not grant a security over or transfer your rights or responsibilities under these terms on the contract of sale with the buyer unless we have given our written permission. This agreement will be binding on your successors or estate and anyone who takes over your rights and responsibilities.

6. DISCREPANCIES

If we have provided a translation of this agreement, we will use this original version in deciding any issues or disputes which arise under this agreement.

7. PERSONAL INFORMATION

We will hold and process your personal information and may pass it to another **Christie's Group** company for use as described in, and in line with, our privacy policy at www.christies.com.

(b) You agree that we may provide your information to AMM, including name, address and telephone number.

8. WAIVER

No failure or delay to exercise any right or remedy provided under these Conditions of Sale shall constitute a waiver of that or any other right or remedy, nor shall it

prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.

9. LAW AND DISPUTES

This agreement, and any non-contractual obligations arising out of or in connection with this agreement, or any other rights you may have relating to the purchase of a **lot** will be governed by Swiss law. Before we or you start any court proceedings (except in the limited circumstances where the dispute, controversy or claim is related to proceedings brought by someone else and this dispute could be joined to those proceedings), we agree we will each try to settle the dispute by mediation following the Swiss Rules of a Commercial Mediation of the Swiss Chambers of Commerce and Industry (SCCI). We will use a mediator affiliated with SCCI who we and you agree to. If the dispute is not settled by mediation, you agree for our benefit that the dispute will be referred to and dealt with exclusively in the courts of the Canton of the sale location subject to any appeal to the Federal Tribunal. However, we will have the right to bring proceedings against you in any other court.

10 REPORTING ON WWW.CHRISTIES.COM

Details of all **lots** sold by us, including **catalogue descriptions** and prices, may be reported on www.christies.com and any website of AMM and their partners (including but not limited to any of the watch manufacturers). We regret that we cannot agree to requests to remove these details from www.christies.com.
