ROLEX
AIR KING, REF.5500, "LINZ", STAINLESS STEEL

BRAND	Rolex
MODEL	Air King
MATERIAL	Stainless steel
REFERENCE N.	5500
YEAR	Circa 1964/1965
CASE N.	1133343
CALIBER	Cal.1530 automatic
BRACELET	Leather strap
DIMENSIONS	34mm
SIGNED	Dial, case and movement

Named after the English aviators of WWII, the Air-King was first introduced as one of the "lower-end" timepieces in the Rolex family. Despite its price point, Rolex made no compromises with this model in terms of quality; it still features the Oyster case, bracelet, and an automatic movement. Like a lot of Rolex watches, it became incredibly popular and remained in production for 60 years! It was reintroduced at Baselworld in 2016 with mixed reviews, but this vintage model still has our hearts. This watch is in lovely original conditions; furthermore, the dial is signed by the charismatic retailer "Linz". Linz Brothers was a Texas-based retailer, established in 1877. Joseph Linz, originally from St Louis, was a trained watchmaker who repaired watches for train conductors on the Missouri, Kansas and Texas railroads. In 1877 he settled in Texas and opened a watch and jewelry store. By the 20th century, Joseph Linz and Brother had become major Rolex dealers, allowing the firm the rare privilege to place their name in such a prominent position on the dial. Such a nice example appears very rarely on the public market.

Montre Rolex en acier, modèle Air King «Linz», réf. 5500. Au XXe siècle, Joseph Linz et Brother sont devenus d'importants concessionnaires Rolex, ce qui a permis à l'entreprise d'avoir le rare privilège de placer leur nom dans une position aussi importante sur le cadran. Un aussi bel exemplaire apparaît très rarement sur le marché public.

 CHRONOGRAPH "PRE DAYTONA", REF. 6238,
 STAINLESS STEEL

BRAND	Rolex
MODEL	"Pre Daytona"
MATERIAL	Stainless steel
REFERENCE N.	6238
YEAR	Circa 1963
CASE N.	1000392
CALIBER	Manual Caliber 722
BRACELET	Rolex Oyster, stainless steel bracelet with Rolex U.S.A. Clasp
DIMENSIONS	36mm
SIGNED	Case, dial, movement and clasp

The Rolex reference 6238 is a turning point and a landmark in the Rolex chronograph history. It can either be considered the brand's last classic chronograph or its first modern one. Produced for a short period from the beginning of the 1960s to 1967, it was the last Rolex chronograph to feature a smooth bezel with a graduated tachymeter scale on the dial but also a model that paved the way to the reference 6239. The latter was the first cosmograph Daytona ever released by Rolex, with which it shares certain design elements such as the crown, the pushers, case and indexes. Collectors often refer to reference 6238 as the "pre-Daytona", as it is the immediate predecessor of reference 6239, the first cosmograph Daytona ever released by Rolex. The present reference 6238 is a very pleasing watch in overall good condition with a sharp bezel, strong definition to the lugs, crisp numbers in between the lugs and an unrestored sunburst silvered dial, which gives the watch a vivid modern appearance. The hands and luminous plots have turned a striking cream adding a touch of color to the monochrome dial. In addition, this watch is further accompanied by a beautiful Oyster bracelet with American clasp. The historical importance of the last "non-cosmograph" reference and superb condition of the present piece would be a crown jewel in the most important Rolex collections worldwide.

Montre Rolex en acier, modèle Chronograph «Pre-Daytona», réf. 6238. L'importance historique de cette référence «Non Cosmograph» et le très bel état de cet exemplaire lui confèrent une possible place majeure dans les collections de Rolex les plus importantes.

DAY-DATE, REF.1804, PLATINUM AND
DIAMOND BEZEL, DIAMOND INDEX

BRAND	Rolex
MODEL	Day-Date
MATERIAL	Platinum, diamond
REFERENCE N.	1804
YEAR	Circa 1960
CASE N.	549234
CALIBER	Cal.1556 automatic
BRACELET	Leather strap
DIMENSIONS	36mm
SIGNED	Dial, case and movement

Beloved by many watch enthusiasts, the Day-Date is symbolic of both Rolex and its power over the watch marketplace. Originally released in 1956, the Day-Date was and is a thing of beauty and an unambiguous, take-it-or-leave-it expression of the owner's power and prominence. The well-balanced dial, as well as the day and date display were innovative for the time. The reference you see here is the 1804, which was part of the second series of Day-Dates released in 1959. The 1804 can be identified by the platinum case and bezel set with diamonds. The Day-Date has been seen on the wrists of U.S. Presidents (hence the name of the President's bracelet), and it's also a perennial favorite from collectors for its great history not just as a milestone in watchmaking, but also as a true cultural symbol. This particular platinum version from the 1960s in platinum case with diamonds bezel and marquer is extremely rare. The super conditions of this lot represent a rare opportunity to own a very nice and interesting watch.

ACCESSORIES	Original box, guarantee, booklets and hangtag

The Monaco reference 1133 is an icon for chronograph's collectors and connoisseurs. Designed and launched in 1969 by Mr. Jack Heuer, it was named for the famous formula one racetrack, and worn by a true myth in 1971 in the classic film "Le Mans": Steeve McQueen. This example is in new old stock conditions, probably never worn and bracelet probably never fitted, still retaining its original sticker on the caseback. One of the best examples ever seen on the auctions market. A true milestone for collectors and icon of seventies eras.

AUTAVIA, REF. 2446, THIRD TRANSITIONAL
EXECUTION CHRONOGRAPH, STAINLESS STEEL.

BRAND	Heuer
MODEL	Autavia
MATERIAL	Stainless steel
REFERENCE N.	2446
YEAR	Circa end of 60s
CASE N.	456867
CALIBER	Cal. V72
BRACELET	Leather strap
DIMENSIONS	39mm
SIGNED	Dial, case, movement

Always seeking to increase the readability of their chronographs, the brand created several different executions of the dial and hands for this reference. The present watch, from the mid-1960s displays the so-called 3rd execution dial, featuring stainless steel applied indexes with luminous dots on the outer end and straight hands with a luminous insert. But the most important point to note on the present watch is the transitional case. It is believed that no more than 500 watches were produced using this transitional case that features straight lugs with no bevels. The case and the dial has very nicely aged featuring the right amount of patina and it would be a nice missing piece for any collection devoted to Heuer's most iconic model.

Montre Heuer en acier, modèle Autavia, réf. 2446, Troisième Génération, mouvement Chronographe. Toujours soucieuse d'améliorer la lisibilité de ses chronographes, la marque a créé plusieurs versions différentes du cadran et des aiguilles pour cette référence. Le boîtier et le cadran ont très joliment vieilli avec la patine adéquate et cet exemplaire serait une belle pièce manquante pour toute collection dédiée à un des modèles les plus emblématiques de la marque Heuer.

LITERATURE	Similar Rolex reference 4500 is illustrated in "I Cronografi Rolex, la Leggenda" by Pucci Papaleo

Launched in the early 1940s, the Rolex reference 4500 was a taste of things to come in terms of chronograph designs from the firm with the crown. The reference 4500 chronograph introduced an all-new case style with straighter, more pointed lugs that are still found on modern Rolex Oyster models, ranging from the Datejust, to the Day-Date, to the Daytona. Prior to its introduction, Rolex had preferred the calatrava-style lugs, with slightly curved lines. It is, furthermore, one of the very rare chronographs in an Oyster case to feature only two counters, doing without the hour totalizer. We offer this very nice example with a lovely age patina at a very reasonable estimate.

Montre Rolex en acier, modèle Chronographe, réf. 4500. Cet exemplaire est l'un des rares modèles chronographes dans une boîte Oyster à ne comporter que deux compteurs. Nous vous proposons ce bel exemple orné d'une belle patine à un prix très raisonnable.

CHRONOGRAPH EXTRA FORT, STAINLESS STEEL

BRAND	Eberhard
MODEL	Extra Fort
MATERIAL	Stainless steel
YEAR	Circa 1940
CASE N.	26504
CALIBER	Cal. 16000 Eberhard manual
BRACELET	Leather strap
DIMENSIONS	40mm
SIGNED	Dial, case, movement

Collectors and connoisseurs have expressed a growing interest in Eberhard's inimitable vintage chronographs, with their bold oversized cases and vibrant dials. Eberhard & Co. was founded in la Chaux-de-Fonds (Switzerland) in 1887 by Georges Eberhard. With the launch of its first chronograph wristwatch in 1919, the firm was recognized as one of the largest manufacturers of watches in Switzerland and known for their fine chronographs. Housed in an oversized 40 mm case, the present watch stands out with its lovely good looks, with its rare bi-tonal dial configuration nicely patinated. From a quick glance, a collector would assume the watch was a standard two-pusher chronograph, however, in reality, it is a rare monopusher. While the pusher at 2 o'clock starts, stops and resets the chronograph, the lower pusher at 4 o'clock instead works as a "stop and lock" mechanism controlled by simply sliding it up towards the crown. When the slide is moved upwards, the precise time is protected, and can be recorded by the user. The lock prevents the accidental activation of the chronograph's pushers that would result in losing the measurement. The case is well preserved, the dial has aged a little but remains lovely to look, a real attractive vintage chronograph.

Montre Eberhard en acier, modèle «Extra Fort» chronographe. Cet exemplaire se distingue par le bel aspect de son boîtier surdimensionné de 40 mm avec sa rare configuration de cadran bitonal joliment patiné par le temps; un chronographe vintage très séduisant.

The Heuer Carrera 3647N epitomizes the brand's famous 60s spirit and design philosophy. Jack Heuer's strict adherence to legibility and function, ahead of all other considerations, accomplished a design classic that arguably represents his vision in its purest form. The Heuer Carrera was available in two- or three-register layouts; with this 3647n example featuring the former. The 'N' stands for "noir", denoting its all-black dial. This example, one of the later models produced as evidenced by its signed crown and 'T-Swiss' dial, is in nice condition and have an amazing appeal for any sports watches collectors.

Montre Heuer en acier, modèle Carrera, réf.3647N, mouvement chronographe, cet exemple, l'un des derniers modèles produits comme en témoignent son remontoir signé et son cadran «T-Swiss», est dans un très bel état ce qui lui confère un intérêt pour les collectionneurs de montres de sport vintage.

Universal Genève was founded in Le Locle, Switzerland in 1894 and was originally known as "Universal Watch". Since its inception, Universal Genève has produced watches with unusually high quality for their price point. Universal was amongst the first brands to introduce a chronograph wristwatch. The present lot is an extremely rare example of the 1920s Big Pilot wrist chronograph. The 43 mm case is made of Swiss 900 silver, polished in three parts with hinged back, large onion-shaped winding crown with single coaxial push-piece and fixed lugs handles. The white enamel dial, with black Breguet numerals excluded the 12 o'clock in red color, have two tachometric scales. The present chronograph manufactured over 90 years ago, it is in really nice conditions and represents a very rare opportunity to own a vintage historic big chronograph.

Montre Universal, en argent suisse 900, modèle « Big Pilot », boîtier 43 mm, mouvement chronographe avec poussoir sur le remontoir. Cet exemplaire en très bon état, fabriqué il y a environ 90 ans, représente une opportunité très rare de posséder un grand chronographe historique.

Rolex watches have long been favored by Sheiks, army officials and the ruling party in the Middle East. It comes as no surprise that these timepieces were also their gift of choice, particularly in the 1970s. During this time, Rolex received a number of special orders for dials featuring the coat of arms, or the names of the royal family. Having never appeared at auction before, on our knowledge, this correct reference 6263 features a custom dial with the UAE Quraysh Hawk. Made upon a special request for Mohammed Bin Rashid al Maktoum, emir of Dubai in the mid-1970, the present watch was part of an order comprising a few dozen timepieces. There are many points of interest regarding this watch. Firstly, the dial is in incredible condition and is very attractive. Rendered in polychrome relief printing, the UAE emblem (the Quraysh Hawk) is emblazoned at 12 o'clock, with the signature of Mohammed Bin Rashid al Maktoum proudly displayed below. Above 6 o'clock is the signature of the Wazarah Ad Difa'A Department written in Arabic script. These graphics are all original and correct. The "sigma" dial is also correct for this model. The dial features angular numeral markers, softly shimmering in a way that only white gold can. The luminous is round and perfectly formed, having turned with light-orange patina, which matches the hands. The excellent condition of the case is also very striking. Featuring sharp finishes to the top of the lugs and edges, the watch retains its original screw down pushers and bezel insert. The bracelet stamped for the first quarter of 1976 is also original to the watch. A same model, 12 serial number difference, sold at Phillips's historical "Start-Stop-Reset: 88 Epic Steel Chronograph" sale, which fetched a staggering price of CHF 605,000. The present lot's rarity and attractive appearance places it amongst one of the most impressive cosmograph Daytona models in recent years.

Montre Rolex en acier modèle Cosmograph Daytona réf. 6263, cadran personnalisé avec l'emblème « UAE Desert Eagle » fabriqué sur demande spéciale de Mohammed Bin Rashid al Maktoum, sultan de l'Oman dans les années '70. Il y a de nombreux points d'intérêt concernant cette montre. Tout d'abord, le cadran est dans un état incroyable et est très attrayant. Rendu en relief polychrome, l'emblème des Émirats Arabes Unis (le Quraysh Hawk) apparaît à 12 heures, avec la signature de Mohammed Bin Rashid al Maktoum fièrement affichée ci-dessous. Au-dessus de 6 heures se trouve la signature du département Wazarah Ad Difa'A écrite en caractères arabes. Ces graphiques sont tous originaux et corrects. Le cadran 'Sigma' est également adapté à ce modèle. Le cadran est doté de repères numériques angulaires, qui brillent doucement comme seul l'or blanc peut le faire. Le lumineux est rond et parfaitement formé, ayant tourné avec une patine orange pâle, qui s'harmonise avec les aiguilles. L'excellent état du boîtier est également très frappant. Avec des finitions nettes jusqu'en haut des cornes et des bords, la montre conserve ses poussoirs vissés d'origine et son insert de lunette. Un même modèle, 12 numéros de série différents, vendu à l'historique vente de Phillips « Start-Stop-Reset: 88 Epic Steel Chronographs » a rapporté un prix incroyable de 605000CHF. La rareté et l'apparence attrayante du lot actuel le placent parmi les modèles de Cosmograph Daytona les plus impressionnants de ces dernières années.

When the Rolex Submariner was launched in 1953, it represented Rolex's answer to the demands of the fast-growing community of recreational scuba divers, at the time a novel sport. Soon, however, the company realized that it could also provide divers watches to professional institutions - such as COMEX - and began a jointed research & development process with these companies to adapt the Submariner to the stricter requirements of professional diving endeavors such as testing them in new underwater habitats which were being developed at the time. The result of this process is a series of "upgraded" Submariner watches featuring improved water resistance and, at times, the helium escape valve, developed to avoid the glass popping out of the watch during decompression. In 1971, a civilian version of these timepieces was launched with the Sea-Dweller line, the name inspired by the underwater habitats into which the scientists, and their watches, would dwell for extended periods of time. The present piece belongs to this line of highly advanced divers' wristwatches, and it is a specimen from the so-called double red series, featuring two lines of red text. Interestingly, the first examples of reference 1665 bear either the last three digits or - such as the present watch - the full serial number inside the caseback, a highly unusual detail for a standard production Rolex wristwatch. Normally, such a practice was adopted by the company for special order timepieces. Highly increasing its appeal and collectability, the present watch is fresh on the market, very well preserved and was formerly the property of Mr. Vito Lentini for more than 40 years. This is a rare opportunity for collectors of professional timepieces to own a wristwatch which truly lived through the hardships of deep-water diving; further to its appeal is also accompanied by a metal medal received by COMEX, a JANUSIV book dedicated by Mr. Lentini, declaration of sale, original 1970s newspaper articles, COMEX face mask, COMEX suit dive and archives copy photos.

To Whom It May Concern,

One of the oldest and most important producers of fine gemstones is the tropical island nation of Ceylon (Sri Lanka), located off the southern tip of India. At the heart of this country's classic gemstone industry is the "gem city" of Ratnapura. Under the tropical sun, the countryside of this region is a treasure trove of minerals. The landscape is dotted with numerous alluvial gemstone sources for exquisite gems for more than a century. These mining areas dot the landscape through the centuries, and have remained one of the world's primary sources for a wide range of gemstone varieties including alexandrite, spinel and a host of other gemstones. Sapphires unearthed there have long been a source of sapphires for many centuries of a significant size. Not surprisingly, these sapphires and connoisseurs throughout the world have recognized the AGIL Gemological Laboratories has completed a detailed analysis of this truly outstanding 175.22 carat sapphire. It has received the highest origin determination of Ceylon (Sri Lanka). Its size, of 175 cts, additionally places it among the largest sapphires ever reported from any source. It exhibits an intense orangy-yellow color resulting in numerous bright, internal color reflections and a high degree of transparency. The sapphire also possesses an uncharacteristically high, virtually eye-clean clarity. Furthermore, the sapphire is mounted in a fine antique setting.

Natural Ruby and Diamond Necklace,
 Stated by Client Total Weight: 57.99 cts
 Reference: 1096150

To Whom It May Concern,

One of the most prolific producers of fine gem rubies, currently known as Myanmar. At the center of the heart of north central Burma, is Mogoke, the heart of the "valley of gems". Under the tropical jungles and dramatic treacherous terrain.

Scattered across this vast area are black, laterite surrounding rocks. Many mining areas are characterized by heavily weathered, limonitic soils stained, yellow-tan color. Embedded in both the decomposed rock, are isolated crystal specimens of some of the finest examples in the world. From its people of amethyst and luxurious blue of its sapphires Burma produces a vast rainbow of gems.

Uniquely, rubies in certain mining areas of Burma are not heated. Not surprisingly, only a very small number of exceptionally fine gemstones. These rare rubies are scattered throughout the world.

AGL
AMERICAN GEMOLOGICAL LABORATORIES

American Gemological Laboratories has completed an analysis of an impressive ruby and diamond necklace containing thirty-one rubies, documented in Report No. 1096150. These outstanding rubies have been determined to originate from Burma (Myanmar). Furthermore, they possess a number of internal features that are consistent with rubies from the historic Burmese locality of the Mogoke valley. Individually, they each possess a richly saturated, homogeneous color that is typical of fine quality rubies from this famous locale. As a collection of thirty-one gem Burmese rubies, they are incredibly well-matched in terms of color and quality.

Appreciating the importance of these rubies is the fact that they do not exhibit any gemological evidence of heat treatment. This lack of enhancement further accentuates the rarity and desirability of this ruby of gemstones. Of further significance, these rubies are set in an elegant necklace, complemented with cushion-cut diamonds. Such a collection of thirty-one, saturated and well-matched Burmese rubies is incredibly rare. Finding just a few gems with these attributes is already difficult. To have such a well-matched ensemble is that much more exclusive. This beautiful necklace upholds and reaffirms the esteemed status of a Burmese ruby and its reputation as the premier ruby source in the world.

Sincerely,

 Christopher P. Smith, President

OUTSTANDING OLD MINE, APPROX. 72.44 CARATS COLOMBIAN EMERALD DIAMOND PENDANT BROOCH

Of an octagonal square shaped, mounted in platinum and yellow gold, surrounded by sixteen old-cut cushion-shaped diamonds. Signed VCA and numbered. The characteristics of this important gem are very rare as the strong density of color and brilliancy are not affected by the thin depth; results of the amazing look and layout. Such combine qualities are found on a very limited number of emeralds, more specifically old mine. Accompanied by a certificate from A.G.L. No. CS85277, dated 09/06/2016, stating its origin Colombia and insignificant traditional enhancement. Dimensions: 5.7 cm x 6 cm. Weight: 50g.

Emeraude Colombienne d'environ 72,44 carats de forme octogonale carrée sertie sur une monture en platine et or jaune, entourée de seize diamants de taille ancienne et de forme coussin. Signée VCA et numérotée. Les caractéristiques de cette importante pierre sont très rares, sa forte densité de couleur et sa brillance ne sont pas affectées par sa faible profondeur, qui la rend plus attractive et plus importante visuellement. De telles qualités réunies se trouvent dans un nombre très limité d'émeraudes, en particulier celles des anciennes mines. L'émeraude est accompagnée d'un certificat A.G.L. No. CS85277, daté du 09/06/2016, attestant son origine Colombie et d'un traitement traditionnel insignifiant. Dimensions : 5,7 cm x 6 cm. Poids brut : 50g.

VAN CLEEF & ARPELS

Mystery Set refers to the unique technique associated with Van Cleef & Arpels ever since the Maison patented this dazzling invention in 1933. It consists of setting stones in such a way that no prongs are visible. The technique is so intricate that producing a single clip takes no less than 300 hours' work. Once complete, the gems appear to be entirely free-standing. Because of the complexity of the process, Mystery Set pieces are extremely rare: the Maison produces no more than a few of them each year, explaining that these pieces are highly desirable. (Source: innovation the Mystery Set™, Van Cleef & Arpels)

Mystère Set fait référence à la technique unique associée à Van Cleef & Arpels depuis que la maison a breveté cette éblouissante invention en 1933. Elle consiste à placer les pierres de telle sorte qu'aucune ne soit visible. La technique est si complexe qu'il faut au minimum 300 heures de travail pour produire un seul clip par exemple. Une fois terminé, les pierres précieuses semblent être entièrement autonomes. En raison de la complexité du processus, les pièces de Mystery Set sont extrêmement rares: la maison n'en produit que quelques-unes par an, expliquant que ces pièces soient très convoitées.

Rolex is a brand better known for its tool watches, yet the Day-Date with "Stella" dial is a vibrant and playful homage to the brand's creativity and "out of the box" thinking. The nickname "Stella", Latin for "Star", was given due to the spectacular multilayered lacquer coated dials combined with vibrant and rich colors that create an impressive, reflective surface that glistens. Rolex's sought-after "Stella" dials were produced from the 1960s to the 1990s and were fitted in cases made of yellow gold, pink-gold, white gold or platinum. Since the firm ceased their production, these colorful lacquered "Stella" dials have now achieved cult status amongst collectors and purists. The present Day-Date, reference 1803, features a flamboyant coral "Stella" dial, providing an arresting contrast with the yellow-gold case. Preserved in superb condition, the present watch will appeal to the nonconformist collector on a hunt for exclusive timepieces.

Montre Rolex Day-Date en or jaune, réf. 1803, avec cadran «Stella». Rolex est une marque mieux connue pour ses montres sportives, mais la Day-Date avec cadran «Stella» est un hommage vibrant et ludique à la créativité de la marque et à sa pensée «out of the box». Le surnom «Stella», qui signifie «étoile» en latin, a été donné en raison des spectaculaires cadrans multicouches laqués, combinés à des couleurs vibrantes et riches qui créent une surface impressionnante et réfléchissante qui brille. Les cadrans «Stella» très recherchés de Rolex ont été fabriqués entre les années 1960 et 1990 et ont été montés dans des boîtiers en or jaune, or rose, or blanc ou platine. Depuis l'arrêt de la production, ces cadrans «Stella» laqués et colorés ont acquis un statut culte auprès des collectionneurs et des puristes. L'actuelle Day-Date, référence 1803, est dotée d'un superbe cadran en corail «Stella», contrastant de façon saisissante avec le boîtier en or jaune. Préservée dans un bel état de conservation, la présente montre séduira le collectionneur non conformiste à la recherche de garde-temps exclusifs.

Successor to Rolex's very first automatic chronograph, reference 116520 made its debut in the year 2000. The very first in-house automatic winding system, caliber 4130 represented a big technical stride for the brand. The reference 116520 is a fairly recent Daytona which you could still purchase from Rolex as recently as two years ago. Introduced in the year 2000, the model replaced the reference 16520, presenting a new case design and perhaps more importantly, a new COSC-certified movement made from beginning to end inside Rolex's manufacture. This was Rolex's first in-house chronograph movement and it impressed both in terms of precision and accuracy. This example, in very nice conditions, presents a very special and extremely rare feature: the caseback is engraved for UAE desert eagle made upon a special request for Mohammed Bin Rashid al Maktoum family. This is very rare opportunity not only for sports watch collectors but for any new lucky owner.

Montre Rolex en acier, modèle Daytona, réf. 116520, accompagnée de sa boîte et certificat Rolex. Cet exemple est dans un très bel état et présente une caractéristique très spéciale et extrêmement rare: le fond du boîtier est gravé avec l'emblème «UAE Desert Eagle» fabriqué sur demande spéciale de Mohammed Bin Rasbid al Maktoum, sultan de l'Oman dans les années 70. C'est une opportunité très rare non seulement pour les collectionneurs de montres de sport, mais aussi pour tout nouveau propriétaire chanceux.

LITERATURE	A similar example is illustrated in "Ultimate Rolex Daytona" by Pucci Papaleo

The Ref. 6239 Was the very first model of the celebrated "Daytona" series, and was produced from approximately 1964 until 1976. Available in stainless steel, 14k and 18k gold, the ref. 6239 Was the firm's first chronograph with the tachometer scale engraved on the bezel. The so-called "Exotic" or "Tropical" dial, later named the "Paul Newman" by collectors, became available shortly after the 6239 introduction. There are very few watches in the world that carry such gravitas and desirability amongst collectors as the "Rolex Paul Newman Daytona", from aspiring new collectors to more seasoned ones, hence owning one is a must. Condition is key as is with many things, but in the world of Daytona collecting, it almost becomes a science. From the clarity of the sub dials, to the lume plots remaining intact, all these factors come together to create high desirability, and the present watch is one of those. The case retains its correct proportions, the up bezel is still legible, the untouched dial has a slight and original patina. This genuine and beautiful example consequently come with its original guarantee, box and 2 official Rolex services. A true dream for any collector, especially for the new lucky buyer.

Montre Rolex en acier, modèle Cosmograph Daytona « Paul Newman », dans la même collection depuis 40 ans environ, probablement boîtier jamais poli, accompagné de sa boîte, certificat Rolex et deux révisions Rolex. CASE N.	910985
CALIBER	Cal. A 296
BRACELET	Leather, Rolex gold plated buckle
DIMENSIONS	36 mm
SIGNED	Dial, case and movement

Made as of the mid 1940s, the Rolex Oyster perpetual with date indication was the direct predecessor of the famous Datejust as we know it today. From its launch, this highly charismatic and attractive model stood out from Rolex's product lineup thanks to a much larger case measuring 36 mm in diameter – exceptionally large compared to most other watches made during this era. Referred to as both the "big bubble back" and "Ovettone" by collectors, due to the generous volume of its case, the present watch is a superb example. Considered as one of the rarest references of the Ovettone, the present 6105 combines numerous rarities that excite collectors. The original super Oyster crown remains in place, a convenient design that provided water resistance without needing to be screwed down. This particular crown was introduced by Rolex in 1950 and discontinued only 2 years later due to Rolex's strict requirement for greater water resistance. Its textured cream-colored dial has developed a very attractive patina enhancing its vintage appeal; furthermore this present lot has been sold through Serpico y Laino, Rolex's retailer in Caracas, Venezuela. Its generous case proportion makes it ideal for contemporary tastes. The present lot has survived in remarkably crisp conditions, the thin reeding on the bezel is crisp and the case back still features a dedicate engraved of the first buyer. The date indication is in red, a typical and popular feature for the 1950s. Amazing watch for very fine collectors, lastly the dial also displays the sign "officially" in red color, a nice rarity.

Today we may think that the pilots of the Peruvian air force were quite lucky to have been granted one of the most popular and coveted chronographs on the market but we tend to forget that Rolex's Oyster cosmograph was not just a “tool” watch, as they were so reliable that the military force felt it could entrust the lives of its pilots with it. Rolex produced watches with “Fuerza Aérea del Perú” engraved on the case back for the Peruvian air force. Like other “issued” Rolex watches, the case serial number was engraved both between the lugs, and inside case back. This watch is in truly wonderful condition, with its black dial with light counters and the coveted sigma at 6 o'clock. The FAP engraving on the caseback is nice, crispy and still clearly visible. The Daytona reference 6263 is a sought-after sports watch and this superb military-issued example is sure to please any discerning connoisseur both for its condition and rarity.

BRACELET	Leather strap
DIMENSIONS	38mm
SIGNED	Dial, case, movement
LITERATURE	A similar watch is illustrated in "Heuer Carrera chronographs 1963-85" by Richard Crosthwaite & Paul Gavin

Known amongst collectors as the "Ferrari Carrera", the 18k yellow-gold model reference 1158 was gifted by Jack Heuer to Ferrari drivers. As part of his sponsorship, famous drivers such as Niki Lauda, Clay Regazzoni, Jacky Ickx and Mario Andretti received this watch. History tells us that Jo Siffert was also gifted this reference as "brand ambassador". This particular watch is an earlier production version with a white calendar window, which succinctly balances the 12-hour subsidiary register and 30-minute counter. This rare and precious watch is offered today in fantastic condition. The hallmarks remain crispy, the burnished brush finish of the case superbly complements the warmth of the champagne-colored dial. The perfect balance between Heuer's sporty DNA and the elegant and dressy look conveyed by the yellow-gold case make this watch the perfect fit for any occasion.

Montre Heuer en or jaune modèle Carrera, réf. 1158. Ce modèle emblématique a été offert par Jack Heuer à de célèbres pilotes Ferrari tels que Niki Lauda, Clay Regazzoni, Jacky Ickx et Mario Andretti. The Milgauss was the result of the direct collaboration between Rolex and the CERN. A watch that could withstand the effects of the intense magnetic fields the CERN's engineers and scientists were working in. Deriving its name from the Latin "Mille" meaning thousand, and "Gauss" representing the unit of measure for magnetism, the Milgauss could withstand exposure of up to 1000 Gauss with no effect on accuracy, whereas a typical watch movement can only withstand up to 70-90 Gauss. In the early 1960s, the newly introduced Rolex Milgauss reference 1019, like the present lot, replaced the originals two versions, the references 6541 and 6543. The present example in a very nice condition, accompanied with its original Rolex guarantee, offers a nice value and real appeal for collectors.

LITERATURE	Coming from Mondani collection

While Rolex is known for its impeccably designed mechanical movements, it did delve into the quartz movement in the 1970s and '80s. During this period, the Day-Date reference 19028 was created. This particular reference is one of the few examples of a quartz Rolex and is a rare and valuable find. Known as an Oysterquartz, this watch mimics the look of other Day-Dates with a 18k yellow-gold waterproof case. The champagne diamond dial is matching perfectly with the yellow gold of the watch, giving it a classic look. However, the real changes are evident inside the watch with the addition of a caliber 5055, 11 jewels quartz movement. Though this is a quartz watch, it still powers the Day-Date's most important features, its day and date apertures. Both are located on the dial and instantaneously change to reveal the proper day and date for the wearer. If you are looking for an extremely unique watch that offers something few other Rolex timepieces do, this reference is a must have.

Affectionately nicknamed “Cioccolato” by collectors due to its resemblance to a square of chocolate, the stepped, square and curved case of the reference 4737 could only have been the brainchild of Vacheron Constantin. Often considered to be the more flamboyant of the two historical Geneva-based brands, Vacheron Constantin’s Cioccolato was made in different versions, with or without date, with different movements and also with the extremely sought after full calendar with moon phase model. This lovely and in a very nice condition example is offered at low estimate. Milestones of modern watches history.

CALIBER	Cal. 722 manual
BRACELET	Rolex Oyster yellow-gold 18k, end-links 71
DIMENSIONS	36 mm
SIGNED	Dial, case, movement and bracelet
LITERATURE	A similar example is illustrated in "Ultimate Rolex Daytona" by Pucci Papaleo

First launched in 1963, reference 6239 was the very first Rolex chronograph wristwatch to officially feature "Cosmograph Daytona" on the dial. While the reference was originally marketed as the "Le Mans", it was eventually dubbed the "Daytona" when Rolex sponsored the 24 hours of Daytona automobile race. The reference ceased production after six short years of manufacture, making way for successor reference 6262, which featured an upgraded Valjoux 727 movement and retained non-screw down pushers. While reference 6239 is perhaps best known for being fitted with Paul Newman dials, rarer still, is the present model cased in yellow gold. Indeed, during the reference's life span, approximately 300 examples were cased in gold, which is astounding when one takes into account the model's approximate 14000 unit production run. The present watch, reference 6239 was considered a "technical" watch, Rolex cased the model in yellow gold for their most exclusive and well-to-do customers, as a luxurious alternative to record time and measure speed. This watch is, furthermore, preserved in excellent condition, fitted with its riveted original bracelet with a lovely oxidation gold patina, very coveted by fine and demanding collectors. In addition, it is a superb example of a "Tropically" aged dial, its three subsidiary counters, originally in bright gold, transforming into a magnificent rose-gold color, a real marvel.

Montre Rolex en or 18k, modèle Daytona réf. 6239. Si la référence 6239 est peut-être mieux connue en acier pour être équipée du cadran « Paul Newman », le modèle ici présenté en or jaune est beaucoup plus rare. En effet, pendant la durée de vie de cette référence seulement environ 300 exemplaires ont été produits en or, ce qui est étonnant si l'on tient compte des quelque 14 000 unités produites pour ce modèle. Cette montre est conservée en excellent état, munie de son bracelet riveté d'origine avec une belle patine or oxydée, très convoitée par les collectionneurs exigeants. En outre, elle est un superbe exemple d'un cadran vieilli « Tropicalemment », ses trois compteurs subsidiaires originalement de couleur or vif se transformant en une magnifique couleur or-rosé, une vraie merveille.

Iconic Panthère Collection

As the house signature, the panther has always reigned supreme among the creations of Cartier.

Emblème fétiche de la maison, la panthère règne depuis toujours parmi les créations Cartier.

The elegant feline appears for the first time in 1914 on a wristwatch made by Louis Cartier, whose pavage recreating the animal's fur, but it's with Jeanne Toussaint, close collaborator of Louis Cartier, nicknamed the panther, has quickly imposed incarnating the femininity, elegance, freedom and independence. The signature Cartier panther has become a symbol of luxury and sophistication and highlights the fine craftsmanship and creative spirit of the Cartier house.

L'élégant félin apparaît pour la première fois en 1914 sur une montre-bracelet dont le pavage figure le pelage de l'animal, mais c'est avec Jeanne Toussaint, proche collaboratrice de Louis Cartier surnommé la panthère, qu'il prend son essor; incarnant la féminité, l'élégance, la liberté et l'indépendance. Emblématique et iconique la Panthère de Cartier est symbole d'élégance et reste un modèle intemporel.

ACCESSORIES	Original punched guarantee

Rolex's first automatic Daytona was introduced in 1988. Housing the iconic zenith-based caliber 4030, it featured a larger case and was fitted with a sapphire crystal. The watch immediately became a cult classic and garnered an immediate waiting list at Rolex retailers. The gold version reference 16528 was a luxurious alternative to its stainless steel counterpart reference 16520. First generation examples like the present watch displayed "cosmograph" floating below "Rolex Oyster perpetual superlative chronometer officially certified." This variant is known as the "floating logo." During the model's initial production years, the dials were made with white lacquer, however, due to economic reason just very few were made. A porcelain look of dial combined with the black inscriptions gives an amazing three-dimensional appearance. This timepiece is fitted with an original early bezel, which is calibrated to 200 units. Still exhibiting full proportions, the watch retains its original punched guarantee stating it was sold in Italy. A unique opportunity to get a very rare and precious icon of Rolex chronograph production and very solid long-term investment.

LITERATURE	Similar example is illustrated in "Collezione Orologi da Polso Rolex Submariner" di Guido Mondani editor

Launched in 1959, the Rolex Submariner reference 5512 was the first Submariner to feature crown guards. That year, Rolex introduced this major upgrade that improved the reliability and robustness of the tool watch underwater. Over its 15 years of production, the model saw different generations that distinguish themselves mainly by the crown guards shape or inscription on the dial. This present example has pointed crown guards, chapter ring and only 2 lines of gilt text on the glossy black dial. The present lot, a beautiful example of a Rolex Submariner reference 5512 with an incredible and much-desired mirror glossy dial with gilt chapter ring and an exclamation mark at 6 o'clock, is very coveted by fine collectors. The current Submariner, preserved in very nice original condition, is a storied example ready to accompany its discerning new owner.

DIMENSIONS	35mm
SIGNED	Case, dial, movement
ACCESSORIES	Accompanied by Patek Philippe extract of archive
LITERATURE	Similar watch is illustrated in Patek Philippe Wristwatches by Martin Huber and Alan Banbery

The Ref.1463 was Patek Philippe's first water-resistant chronograph with a screw-down case back, and it is also 35mm in diameter, largish for the era. That makes it a desirable and important reference, with collectability further helped by the fact that just a small number were made, about 400 leaving the factory over 30 or so years. Patek Philippe collectors consider the reference 1463 chronograph to be amongst Patek's most important watches. Introduced in 1940, this chronograph has a unique profile, owing to the highly domed crystal and massive screw back. In a family of otherwise dressy Patek chronographs, the 1463 is sporty looking. While “Sporty” and “Chronograph” go hand in hand these days, this watch's massive construction was revolutionary in its day. The screw back introduced a water and dirt resistance otherwise unknown at the time, and the 1463 is Patek's first water resistant chronograph. Original impeccable 18k case with dimensions of 35 mm diameter by 13 mm thick. From lug tip to lug tip, this watch measures 43.2 mm. As mentioned, the caseback is threaded and screws down into the center part of the case. This was Patek's first chronograph to implement the screw back, so as to achieve water resistance. The round pump-style chronograph pushers have a sunburst pattern engraving. The present lot has a beautiful original silver dial featuring applied hour markers along with second chapter, tachymeter scale, sunken subdials (for seconds and chronograph 30 minute totalizer), blued chronograph hands and golden feuille-style main hands. The dial and hands are original, untouched and clean. Movement is the manual winding Patek Philippe chronograph caliber 13-130 with 23 jewels, column wheel construction, and adjusted to 8 positions. Movement is protected by inner dust cover and is clean and running. With its modern and sleek design, reference 1463 embodies the genetic code of vintage Patek Philippe timepieces: craftsmanship, elegance and sophistication. This remarkable example with a very nice dial and a rare Gay Frères yellow-gold bracelet, offers unparalleled beauty and exclusivity, deserving of a prominent position in any collection of distinction.

The perpetual calendar chronograph wristwatch, reference 3970, was released from 1986 to 2006. It was cased in platinum, white gold, pink gold and yellow gold. There are three series in which reference 3970 was produced: the first series featured a snap back case. The second series featured a solid case back, and was produced concurrently with reference 3971 with a snap sapphire case back. The third series, like this example, was accompanied with "E" for "étanche" or waterproof. 3970 was the first reference to use a lemania2310 based movement, not a Valjoux movement. The present watch is in good overall condition, with a crisp hallmark under the lugs and a Patek Philippe extract of archives newly issued.

LITERATURE	Coming from Mondani collection

While many people are familiar with Rolex's brief venture into the quartz watch market with the Oysterquartz line of watches, fewer are aware of the very first quartz watch to bear the Rolex name: the reference 5100 beta-21. In 1962, Rolex and twenty other Swiss watch manufacturers formed the Centre Électronique Horloger. The purpose of this group was to develop a quartz movement that could be used in wristwatches. In 1966, the first prototype, known as the beta-1 was produced, and by 1969, its final incarnation, the beta-21 was ready for production. Sixteen different watchmaking companies used this movement in their watches, and amongst these was Rolex, who used it to power the reference 5100 beta-21. Unveiled at Baselworld 1970, the reference 5100 was released in a special limited series of 1,000 pieces - all made from solid, 18-karat gold - and each with its limited edition number engraved on the side of the case. This very well preserved early example is the number 60 and former property of Mondani collection. Due to the premium materials and limited production run, the reference 5100 beta-21 is highly valued by collectors, and epitomizes the evolution of watchmaking during the 1970s.

In 1988 Rolex launches on the market its first automatic chronograph, waterproof up to 100m. This nice example in steel and gold version is a "W" series. Although this model is around 20 years old, it is already obtained a cult status amongst collectors. This example is in good original conditions.

Montre Rolex, boîtier en or et acier, bracelet cuir et boucle Rolex plaquée or, modèle Daytona, réf. 16523. En 1988, Rolex lance sur le marché son premier chronographe automatique, étanche jusqu'à 100m. Ce bel exemple en version or et acier est un des modèles de la série «W». Bien que cette montre ait une vingtaine d'années d'existence, il a déjà obtenu un statut culte auprès des collectionneurs. Cet exemple est en bon état d'origine.

The first explorer was launched by Rolex in 1953 for a famous mountaineer in a legendary ascent on Everest Mount. Rolex only produced the 16550 for about four years, from 1985 to 1989, making it a rather rare model amongst its peers. The white dial of this 16550 has taken on attractive patina. The glossy white dial remains in a crisp white color while the luminous tritium has aged to a wonderful vintage yellow color. The present lot would be a lovely addition to any fine sports watch collectors.

Montre Rolex en acier, modèle Explorer II « Rail Dial », réf. 16550. Cette référence fut produite seulement de 1985 à 1989. Le cadran est d'un blanc éclatant tandis que le tritium lumineux a vieilli jusqu'à une magnifique couleur jaune vintage, qualités très recherchées par les amateurs de montres vintage.

SIGNED	Dial, case and movement

Founded in 1755, Vacheron Constantin is the world's oldest watch manufacture in continuous production for over 260 years, faithfully perpetuating a proud heritage of watchmaking excellence and stylistic sophistication through generations of master craftsmen. The present watch features a very rare two-tone dial with stars markers. The dial is original, and preserved in excellent condition. One would expect heavy spotting and tarnishing of a watch this age, yet this silvered dial is incredibly sharp with raised graphics. Wonderful teardrop lugs finish this watch off, giving it an incredible vintage appearance. An immortal classic timepiece for fine connoisseurs;

Montre Vacheron Constantin en or dotée d'un très rare cadran bicolore avec des index étoilés, conservée en excellent état. De superbes entrecornes en forme de goutte d'eau complètent cette montre, lui donnant un aspect vintage incroyable.

The present lot is a very rare and appealing white-gold Daytona wristwatch fitted with the extremely rare original grossularia hard stone dial. This burgundy color dial shimmers and exhibits a rich complex of red shade, further enhanced with eight diamond-set hour markers set within its white-gold chains. The extreme rarity of this watch is further accentuated by the fact that is a 4030 Zenith caliber; those combine characteristics makes this example one of the rarest 16519 Daytona existing. Seems one of the only few examples ever seen. Offered in excellent overall condition, accompanied with its original punched guarantee, this present watch is a very unique opportunity to own one of the rarest cosmograph Daytona with zenith movement on the watch market.

Montre Rolex en or gris, modèle «Cosmograph Daytona», réf. 16519, avec un très rare cadran en pierre grossulaire, pierre dure, de couleur bordeaux orné de huit index en diamants, mouvement Zénith 4030 et boucle déployante. Cette montre semble être l'un des rares exemplaires connus. En excellent état général, accompagnée de son certificat Rolex, cette montre est une opportunité quasi unique de pouvoir posséder l'une des plus rares montres Cosmograph Daytona à mouvement Zénith sur le marché. Un modèle similaire est illustré dans le livre de Pucci Papaleo (nouvelle édition).

In production for nearly two decades, references 6263 and 6265 were offered in either stainless steel or gold. Today, the market generally acknowledges that a non "Paul Newman" stainless steel reference 6263 should generally feature a black or silvered dial, with three subsidiary registers featuring concentric circles of various sizes and textures, depending on the year of production of the watch. The dial layout of the present lot is most likely part of a series of test dials. Silver color of the registers numerals and the Rolex Oyster cosmograph signature located further from the crown are details from the earlier cosmograph examples. To add another element of intrigue, the case back of the present watch is stamped 6265. However, the most arresting element of the dial is the color of the subsidiary registers which have aged delicately into an attractive "Tropical" eggplant-brown tone, giving the wristwatch an almost climactic appearance. With its overall excellent condition and striking dial, the present timepiece is sure to please all who sees its attractive and unique look.

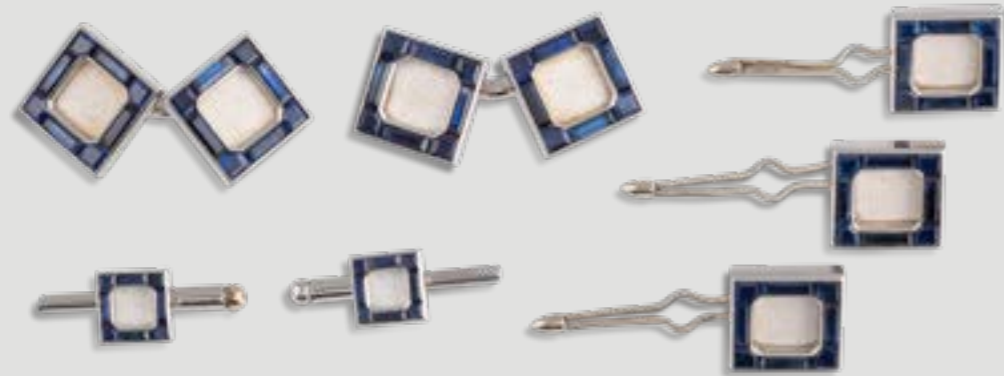

Montre Rolex en acier, modèle Cosmograph Daytona, réf. 6263. Généralement, le marché reconnaît qu'une référence 6263 en acier inoxydable non « Paul Newman » doit comporter un cadran noir ou argenté, avec trois registres subsidiaires présentant des cercles concentriques de différentes tailles et textures, selon l'année de production de la montre. La configuration de ce cadran fait très probablement partie d'une série de cadrans d'essai. La couleur argentée des chiffres des registres et la signature Rolex Oyster Cosmograph située plus loin de la couronne sont des détails des premières générations de Cosmograph. Cependant, l'élément le plus saisissant du cadran est la couleur des registres subsidiaires qui se sont délicatement transformés en une très belle tonalité « Tropicale » aubergine cbocolat, donnant à la montre-bracelet un aspect unique et très vintage. Avec son excellent état général et son cadran frappant, cette montre est sûre de plaire à tous passionnés de chrono Rolex.

The Omega reference 145022-69 ST is the last pre-moon model as it was designed before the first moon landing in July 1969 but only launched in December 1969 and in production until around 1971. The first models were produced with the seahorse logo and brand name on the back while subsequent versions made reference to the moon landing. Successor to the references 105.003 and 105.012, this reference was the first to feature the new painted logo and shorter hour markers. The main noticeable and most appealing feature of the present Speedmaster is the harmonious and balanced dark chocolate "Tropical" dial giving the watch a very fresh and vintage appearance. In overall good condition, the present example is a perfect watch for the collector wishing to take his or her first steps into the exciting world of vintage Speedmaster collecting.

Montre Omega en acier, modèle Speedmaster, réf. 145022-69 ST. La caractéristique la plus remarquable et la plus séduisante de cette Speedmaster présente est son magnifique cadran « Tropical » de couleur chocolat qui donne à la montre un aspect unique et très vintage.

The Vacheron Constantin chronograph reference 4178 is an incredibly good looking watch and hugely undervalued today. Arguably the one style which every collector recalls when thinking of a Vacheron chronograph. Production started in 1940 and continued until approximately 1964. The reference was made in yellow gold, pink gold, stainless steel and steel and gold. The watch is distinguished by its teardrop lugs, sharp lines and definition to the case. The present watch is an exceedingly rare example of a reference 4178 in a superb condition, the last owner has very carefully kept it for over 25 years. Fitted with a nicely patinated untouch dial incredibly well preserved with hard enamel signature intact and nicely raised as the connoisseur would require. With the combination of a stainless steel case, still remaining in extremely sharp excellent overall condition with elegant teardrop lugs and a highly unusual and charismatic dial in wonderful original condition, the present watch is one of the rarest and most desirable chronographs manufactured by Vacheron Constantin.

Montre Vacheron Constantin, en acier, réf. 4178. La référence chronographe Vacheron Constantin 4178 est une montre incroyablement séduisante et extrêmement sous-évaluée. C'est sans doute le style dont chaque collectionneur se souvient lorsqu'il pense à un chronographe Vacheron. La production a commencé en 1940 et s'est poursuivie jusqu'en 1964 environ. La référence a été faite en or jaune, or rose, acier inoxydable et or & acier. La montre se distingue par ses cornes en forme de goutte d'eau, ses lignes nettes et sa définition au boîtier. La montre actuelle est un exemple extrêmement rare de cette référence 4178, son état est superbe, le dernier propriétaire l'a conservée avec le plus grand soin pendant plus de 25 ans. Équipée d'un très beau cadran légèrement patiné et incroyablement bien conservé avec les écritures en émail intact et bien relevé comme tout collectionneur averti le souhaiterait. Avec la combinaison d'un boîtier en acier inoxydable, en très bon état, d'élégantes cornes en forme de goutte d'eau et d'un cadran charismatique dans un merveilleux état d'origine, la montre actuelle est l'un des chronographes les plus rares et les plus désirables fabriqués par Vacheron Constantin.

If there is one watch that has been firmly at the center of attention these past few years or so, it's the Rolex cosmograph Daytona. While the Daytona began its life as a bit of a sleeper, gaining traction only after the watch famously adorned the wrist of Paul Newman, it has now become a fully fledged legend with prices to reflect. The Daytona, originally named just cosmograph - gaining the Daytona signature following Rolex's sponsorship of the Daytona Beach 24hr Le Mans - was an evolution of the Oyster chronograph; designed to address the increasing demand for a watch to suit the needs of racing drivers. With the introduction of the reference 6239, the tachymeter had been removed from the dial and engraved directly into the bezel, allowing for a higher legibility and a striking design. This particular example in the same family for approximately 30 years, will go under the hammer with Monaco Legend Auction this coming 14th of January, features the "exotic" dial as it was then known, now universally known as the "Paul Newman" Daytona. As with many vintage items, the condition of any given piece is of crucial importance. A relatively recent trend, which somewhat contradicts the condition principle, known as "Tropical" ageing is multiplying the value of particular vintage watches. This reference 6239 is a perfect example of a "Tropically" aged dial, with its three originally black subsidiary dials turning into a beautiful chocolate brown. The vintage Rolex market can be quite challenging to navigate, with parts being modified or exchanged for more desirable ageing or rarity, particularly when it comes to age-related patina. While the actual manufacturing figures are a closely guarded secret in the vaults of Rolex, it's thought that around 2m case number, 6239 "panda" dials were ordered from Singer; the dial manufacturer responsible for the "exotic" design. As with many highly valued Rolex watches, the smallest detail or variation on the dial can dictate an astronomical value by comparison to a seemingly identical example. This incredible and rare watch icon is a dream for any fine collector, and our compliments in advance to the new lucky owner.

Montre Rolex en acier, modèle Cosmograph Daytona « Paul Newman », réf. 6239. Dans la même collection depuis environ 30 ans, cet exemplaire est dans un état exceptionnel. Cette montre est l'exemple parfait d'un cadran « Tropicalemment » vieilli, avec ses trois cadrans subsidiaires originalement noirs se transformant en un magnifique brun chocolat. Cette incroyable et iconique montre est un rêve pour tout collectionneur, et tous nos compliments à l'avance au chanceux nouveau propriétaire.

GENERAL TERMS & CONDITIONS OF SALE

BUYER'S PREMIUM

For **Jewels** the buyer will pay to the order of Monaco Legend Group, in addition to the hammer price, a buyer's premium of: until €1.000.000: 28.80% incl. taxes (24% excl. taxes), major of €1.000.000: 15% incl. taxes (12.5% excl. taxes).

Watches are submitted to a premium of: until € 250.000: 30% incl. taxes (25% excl. taxes), from €250.001 to €999.999: 24% incl. taxes (20% excl. taxes), major of €1.000.000:15% incl. taxes (12.5% excl. taxes).

The lots marked with a * are liable to the relevant import VAT of 20% of the additional charge.

CONDITIONS AND INFORMATION FOR BUYERS

The sale is subject to the Monégasque legislation and to the terms printed in this catalogue. It is important to read the following conditions. Useful information is given on the methods to buy at auction. Our team remains at your disposal to inform and assist you.

VAT FOR NON-EUROPEAN BUYERS

Non-European buyers will directly receive the invoice excluding VAT under certain conditions: the item(s) must have been shipped outside of Europe within a delay of 3 months from the date of the sale and Monaco Legend Group must appear as a shipper on the export document and the buyer as the consignee. The exportation has to be done within the legal delays and a maximum of 3 months of the date of the sale.

CURRENCY CONVERSION

Auctions are conducted in Euro in Monaco. A currency conversion board is made available in the saleroom and online, indicating approximate exchange rates for various major currencies.

INDICATIVE NATURE OF THE ESTIMATES

The estimates are intended as a guide only. Any bid between the high and the low pre-sale estimates offers a fair chance of success. It is always advisable to consult us nearer the time of sales as estimates can be subject to revision. The estimates set out in the catalogue do not include the buyer's premium.

CONDITION OF THE LOTS

Lot descriptions provide technical data carefully compiled by our experts for each lot in the sale and are often enhanced by historical or biographical comments.

- › Auction catalogue can be viewed at www.monacolegendauctions.com.
- › Estimates are listed at the end of each lot description and are an indication of the price range the lot is expected to fetch. Estimates do not include the buyer's premium or sales tax.

We are at your disposal to provide you a detailed report on the condition of the lots.

All lots are sold in the condition in which they were offered for sale with all their imperfections and defects. Dimensions, colors and weight of the products are provided for information purposes only and are not binding.

No claim can be accepted for minor restoration or small damages. It is the responsibility of each prospective bidder to inspect each lot prior to the sale and to rely on their own judgment to acquaint with the characteristics and the potential repairs or restorations. No claim can be considered once the auction is pronounced.

- › Restored or repainted dials regarded as protective measures and not as vices will not be reported. The conditions of the bracelets and the water resistance of the screwed-back watches are not guaranteed, and neither are the deployment clasps and tang buckles. It is important to note most of the waterproof watches have been opened to identify the type and quality of the movement.
- › There is no guarantee the watches are still resistant to water and it is recommended to consult your watchmaker before using the item.
- › Dimensions of the watches are provided for information purposes only.
- › Absence of any indication of the existence of restoration work or of an accident by no means exempt the jewelry from having a defect.
- › Precious and semi-precious stones may have been subject to treatments with the intention to showcase them. (i.e.: oil treatment of emeralds, heat treatment for rubies and sapphires, whitening of pearls).
- › These treatments are traditional and accepted by the jewels international market
- › Considering the rise of new treatments, the stones submitted to the auction with no certificates will be sold without guarantees about the treatment.
- › It shall be stated that the origin of the stones and their quality (color and purity of the diamonds) reflect the opinion of the laboratory issuing the certificate. No claim will be accepted in case another laboratory gives another opinion, and will in no way engage the responsibility of the auctioneer and expert.
- › The jewelry advertised in our catalogue as yellow-gold or white-gold with no hallmark are always in gold 18K, that is 750‰ – Gold 14K: 585‰ – Gold 9k: 375‰ (Charts)
- › Relining, inlay work and varnishing are considered a protective measure and not a vice, they will not be reported. Dimensions are provided for information purposes only.

AUCTION PREVIEWS

Previews are conducted by Monaco Legend Group prior to each auction and details of these exhibitions are found at the beginning of every catalogue or online. Previews are open to the public and prospective buyers are encouraged to view and examine lots offered for sale prior to making their purchases.

REGISTERING TO BID IN THE TRADITIONAL AUCTION

Each client wishing to bid at auction is required to register before the sale. Clients may register the morning of the sale, beginning at 9:00 a.m. at the auction venue. Clients will be able to pick up their bidding paddles on the day of the sale, prior to the auction, just outside the saleroom.

BIDDING IN THE SALEROOM

Lots offered for sale are auctioned in numerical order as they appear in the catalogue. The lot being auctioned is announced by the auctioneer, as well as shown live or illustrated on a screen at the front of the saleroom. Bidders are advised to have the auction catalogue to hand during the sale for reference.

ABSENTEE BIDDING [WRITTEN BIDS]

If you are unable to bid in person at the auction, you can submit an absentee or written bid. Bid forms are found in every auction catalogue, on the website at www.monacolegendauctions.com, and can be requested at preview exhibitions. Bid forms should be completed and signed accompanied by identity paper, then e-mailed to info@monacolegendgroup.com or 13 bd Princesse Charlotte, 98000 Monaco. E-mail bids can be submitted, but must be followed up by mail with a signed bid form. Absentee bids will be processed on your behalf at auction by Monaco Legend Group staff. This service is free of charge. Monaco Legend Group staff will execute the bids at the lowest possible price, taking into account the reserve and other bids. Monaco Legend Group cannot be held responsible for errors, omissions or late-arriving bids. In the event that two identical bids are received, the first bid received by Monaco Legend Group will take precedence. It is very important that the bidder lists a daytime telephone number in case any part of the bid form is unclear. It is advisable to send the bid form in good time before the auction, especially in the case of new buyers, whose bank references will be checked. Bids submitted in a foreign currency will be converted to € using the exchange rate on the day of the sale.

PLEASE NOTE THAT ALL BID CANCELLATIONS MUST BE RECEIVED IN WRITING.

TELEPHONE BIDS

You may also participate in Monaco Legend Group auctions by telephone. This service is free of charge and telephone bids will be executed by a Monaco Legend Group staff member in the saleroom. All telephone bids must be confirmed in writing on a completed bid form. Please provide the telephone number(s) at which you can be reached during the sale. Bid forms should be completed, signed and accompanied by identity paper, then e-mailed to info@monacolegendgroup.com. Monaco Legend Group will call you during the auction approximately 3 to 10 lots before the lot(s) on which you wish to bid. Language

assistance for telephone bidding is available in English, French, Italian and Chinese. Please note that all bid cancellations must be received in writing.

CLIENTS ARE ADVISED TO MAKE ARRANGEMENTS FOR TELEPHONE BIDS AT LEAST ONE DAY BEFORE THE SALE.

MONACO LEGEND GROUP ONLINE LIVE BIDDING

The registration process for online interactive bidding and online absentee bidding is similar to that used for traditional telephone and absentee bidding. On Monaco Legend Group's secure website, www.monacolegendauctions.com, the following steps must be completed by prospective buyers:

- › Register, providing the bidder's name, address, telephone number, e-mail address, credit card details. NOTE: First time bidders are required to provide a valid ID (passport, identity card or driver license) and credit card information.
- › Accept Monaco Legend Group's terms and conditions of sale.
- › Submit registration form to Monaco Legend Group secure website.
- › Approved bidders will receive an e-mail confirmation to bid online in the auction.

Once the auction catalogue is available online, prospective buyers can register or place absentee bids online. **Absentee bids are accepted online up until three hours prior to the start of the live interactive auction.** On auction day, registered online bidders connect to www.monacolegendauctions.com to follow instructions for live interactive bidding.

For collectors who simply want to follow the live auction in progress, no registration is needed to view a live internet broadcast made available on the auction day. For additional information about the online bidding system, terms and conditions of use and sale, please contact us info@monacolegendgroup.com

INVALUABLE BIDDING

On Invaluable's secure website, www.invaluable.com the following steps must be completed by prospective buyers.

For users of Invaluable bidding platform, 5% extra fees will be charged of the hammer price plus the buyer's commission.

SUCCESSFUL BIDS

When the auctioneer's hammer falls, the final bid has been reached and the auctioneer will record the bidder's paddle number, or the absentee bid number. If your bids have been successful, you will be notified by means of an invoice sent by e-mail. You are also welcome to call Monaco Legend Group the day after the auction to request the outcome of your bids.

RESULTS OF THE SALE

If you would like to know the result of your absentee bids, please contact: Monaco Legend Group: +377 97 775 335 www.monacolegendauctions.com

PAYMENT

Payment is due immediately after the sale. Payment may be made by the following methods:

- › Cash in euros up to €29999
- › Credit cards VISA or MASTERCARD. Major credit cards are accepted but fees can be applied for Amex, equivalent of 1.80% total amount.
- › Bank transfers to Monaco Legend Group

COLLECTION OF PURCHASES

Purchases can only be collected after payment. All lots can be collected during or after the session upon presentation of written consent from the Accounting Department of Monaco Legend Group. We recommend the buyers to take delivery of their lots after the sale.

PREEMPTION RIGHT

The French state is entitled to use preemption right on any works of art presented at the auction, by order of the Minister in charge of culture after the hammer stroke. The State shall have a period of 15 days from the date of the sale to confirm its preemption right. In case of confirmation, the French state shall be subrogated in the buyer's position.

IMPORT/EXPORT RESTRICTIONS AND TAXES

Buyers are advised that we will remove bands made of materials derived from endangered or otherwise protected species (i.e. alligator, caiman, lizard, snake...) prior to shipping lots abroad. Buyers are responsible for compliance with any applicable export and import regulations. Moreover certain items made of tortoiseshell, ivory may be subject to importation restrictions in certain countries.

Please consult your local customs authority for information on importing items made of these materials. The Buyer is responsible for the payment of all applicable import and export duties and taxes related to the lots purchased.

CITES REGULATIONS

Δ: The documents provided by the study "Monaco Legend Group" for the CITES articles of the species listed in the annexes A, B or C of the regulation CE338/97 are only valid in the EU. All the exits to a third country shall be subject to an exportation or reexportation permit granted by the CITES Management Authority. In the buyer's country of residence. We advise you to approach the CITES Management Authority of the country of destination to obtain confirmation of the possibility of importing such articles. Some countries can prohibit the issuing of the documents according to their own specific

legislation. These actions have to be taken by the buyer and at their own expense. Contact Monaco Legend Group for more information.

SHIPPING AND INSURANCE

It will be shipped directly to their location as per buyer's instructions, with Ferrari Logistiques SAM, Monaco.

CONDITIONS GÉNÉRALES DE VENTE

COMMISSION ACHETEUR

Pour les **Bijoux** l'acquéreur paiera à l'ordre de Monaco Legend Group, en sus du prix d'adjudication, une commission acheteur de : jusqu'à 1 000 000 € : 28,80 % TTC (24 % HT), supérieur à 1 000 000 € : 15 % TTC (12,5 % HT).

Les **montres** sont soumises à des frais de : jusqu'à 250 000 € : 30,00 % TTC (25 % HT), de 250 001 € à 999 999 € : 24%TTC (20 % HT), supérieur à 1 000 000 € : 15 % TTC (12,5 % HT).

Les lots marqués d'un * sont soumis à une TVA à l'importation de 20 % en sus des frais d'adjudications.

CONDITIONS ET INFORMATIONS DESTINÉES AUX ACHETEURS

La vente est soumise à la législation monégasque et aux conditions imprimées dans ce catalogue. Il est important de lire les conditions qui suivent. Des informations utiles sont données sur la manière d'acheter aux enchères. Notre équipe se tient à votre disposition pour vous renseigner et vous assister.

TVA POUR LES ACHETEURS HORS UE

Pour les acheteurs résidents hors Union européenne, les factures seront établies directement hors TVA sous réserve que le ou les lots soient exportés dans un délai de 3 mois après la vente et que Monaco Legend Group apparaisse comme l'expéditeur et l'acheteur comme destinataire. L'exportation doit intervenir dans les délais légaux.

CARACTÈRE INDICATIF DES ESTIMATIONS

Les estimations sont fournies à titre indicatif. Tout ordre dans la fourchette de l'estimation basse et de l'estimation haute a des chances raisonnables de succès. Nous vous conseillons toutefois de nous consulter avant la vente, car les estimations peuvent faire l'objet de modifications.

Les estimations figurant dans le catalogue de vente ne comprennent pas la commission acheteur.

L'ÉTAT DES LOTS

Nous sommes à votre disposition pour vous fournir un rapport détaillé sur l'état des lots. Tous les biens sont vendus dans l'état dans lequel ils se trouvent au moment de la vente avec leurs imperfections ou défauts. Les dimensions, les couleurs et les poids des objets sont donnés à titre indicatif et ne sont pas contractuels. Aucune réclamation ne sera possible relativement aux restaurations d'usage et petits accidents. Il est de la responsabilité de chaque futur enchérisseur d'examiner attentivement chaque lot avant la vente et de se référer à son propre jugement afin de prendre connaissance de ses caractéristiques et de ses éventuelles réparations ou restaurations. Il ne sera admis aucune réclamation une fois l'adjudication prononcée.

- › Les cadrans restaurés ou repeints, constituant une mesure conservatoire et non un vice, ne seront pas signalés de façon systématique. L'état des bracelets ainsi que l'étanchéité des montres à fond vissé ne sont pas garantis, ainsi que l'authenticité des boucles déployantes ou des boucles à ardillons. Il est à noter que la plupart des montres résistantes à l'eau ont été ouvertes pour identifier le type et la qualité du mouvement.
- › On ne peut garantir que ces montres soient encore résistantes à l'eau et il est conseillé à l'acheteur de consulter un horloger avant d'utiliser l'objet.
- › Les dimensions des montres sont données à titre indicatif.
- › L'absence d'indication de restauration ou d'accident n'implique nullement qu'un bijou soit exempt de défaut.
- › Les pierres précieuses peuvent avoir fait l'objet de traitements destinés à les mettre en valeur. (Ex. : huilage des émeraudes, traitement thermique des rubis et des saphirs, blanchissement des perles.)
- › Ces traitements sont traditionnels et admis par le marché international du bijou ou une montre.
- › Vu la recrudescence des nouveaux traitements, les pierres présentées pendant la vente sans certificat sont vendues sans garantie quant à un éventuel traitement.
- › Il est précisé que l'origine des pierres et la qualité (couleur et pureté des diamants) reflètent l'opinion du laboratoire qui émet le certificat. Il ne sera admis aucune réclamation, si un autre laboratoire émet une opinion différente, et ne saurait engager la responsabilité du commissaire-priseur et de l'expert.
- › Les bijoux annoncés dans notre catalogue en or jaune ou or gris sans mention de titrage sont toujours en or 18 k, c'est-à-dire 750 ‰ — Or 14 k : 585 ‰ — Or 9 k : 375 ‰.
- › Le rentoilage, le parquetage ou le doublage constituant une mesure conservatoire et non un vice ne seront pas signalés. Les dimensions sont données à titre indicatif.

EXPOSITION AVANT LA VENTE

L'exposition précédant la vente est ouverte à tous. Monaco Legend Group s'efforce d'exposer les objets de la manière la plus sûre dans un souci de sécurité. Toute manipulation d'objet non supervisée par la société Monaco Legend Group se fait à votre propre risque.

LES ENCHÈRES

Les enchères peuvent être portées en personne, par téléphone ou par l'intermédiaire d'un tiers. Les enchères seront conduites en euros. Un convertisseur de devises pourra être visible pendant les enchères à titre purement indicatif, seul le prix en euros, faisant foi.

COMMENT ENCHÉRIR EN PERSONNE

Pour enchérir en personne dans la salle, il est recommandé de se présenter auprès de la société Monaco Legend Group avant que la

vente aux enchères ne commence. Chaque enchérisseur devra s'enregistrer auprès de la société Monaco Legend Group avant la vacation en fournissant ses coordonnées et des garanties bancaires. Il se verra ensuite attribuer un numéro d'enchérisseur nécessaire pour la vente. S'il existe le moindre doute concernant le prix ou l'acheteur, attirez immédiatement l'attention de la personne habilitée à diriger la vente.

MANDAT À UN TIERS ENCHÉRISEUR

Si vous enchérissez pendant la vente, vous le faites à titre personnel et nous pouvons vous tenir pour le seul responsable de cette enchère, à moins de nous avoir préalablement avertis que vous enchérissiez au nom et pour le compte d'une tierce personne en nous fournissant un mandat régulier que nous aurons enregistré.

ORDRES D'ACHAT

Si vous ne pouvez pas assister à la vente, nous serons heureux d'exécuter des ordres d'achat donnés par écrit à votre nom. Ce service est gratuit et confidentiel. Les lots sont achetés au meilleur prix, en respectant le prix de réserve et les autres enchères. Dans le cas d'ordres identiques, le premier arrivé aura la préférence. Indiquez toujours une limite à ne pas dépasser, les ordres illimités ou d'« achat à tout prix » ne seront pas acceptés. Les ordres d'achat doivent être donnés en euros. Vous trouverez à la fin de ce catalogue un formulaire d'ordre d'achat.

Les ordres écrits peuvent être :

- › Envoyés par e-mail avec copie de pièce d'identité à : info@monacolegendgroup.com
- › Remis au personnel sur place.
- › Vous pouvez également laisser des ordres d'achat par téléphone, mais ceux-ci doivent être confirmés par écrit avant la vente. Afin d'assurer un service satisfaisant aux enchérisseurs, il vous est demandé de vous assurer que nous avons bien reçu vos ordres d'achat au moins 24 h avant la vente sans retour de notre part.

ENCHÉRIR PAR TÉLÉPHONE

Si vous ne pouvez être présent le jour de la vente aux enchères, vous pouvez enchérir directement par téléphone. Étant donné que le nombre de lignes téléphoniques est limité, il est nécessaire de prendre des dispositions au moins 24 h avant la vente pour obtenir ce service dans la mesure des disponibilités techniques. Nous vous recommandons également d'indiquer un ordre d'achat de couverture que nous pourrions exécuter en votre nom au cas où nous serions dans l'impossibilité de vous joindre.

ENCHÉRIR EN LIGNE

Deux options :

- › Sur notre site web : www.monacolegendauctions.com
- › Sur la plateforme Invaluable : www.invaluable.com ; des frais supplémentaires de 5 % seront facturés, en sus du prix marteau, plus la commission acheteur.

CONDITIONS DE VENTE

Comme indiqué ci-dessus, la vente aux enchères est régie par les règles figurant dans ce catalogue. Quiconque a l'intention d'enchérir doit lire attentivement ces conditions. Elles peuvent être modifiées par affichage dans la salle des ventes ou par annonces faites par la personne habilitée à diriger la vente.

ACCÈS AUX LOTS PENDANT LA VENTE

Par mesure de sécurité, l'accès aux lots sera interdit pendant la vente.

DÉROULEMENT DE LA VENTE

L'ordre du catalogue sera suivi pendant la vente. Les enchères commencent et se poursuivent avec la personne habilitée à diriger. Celle-ci se réservant le droit d'enchérir de manière successive ou en réponse à d'autres enchères, et ce au nom et pour le compte du vendeur à concurrence du prix de réserve.

DROIT DE PRÉEMPTION

L'État peut exercer sur toute vente publique d'œuvre d'art un droit de préemption sur les biens proposés à la vente, par déclaration du ministre chargé de la culture aussitôt prononcée l'adjudication de l'objet mis en vente. L'État dispose d'un délai de quinze jours à compter de la vente publique pour confirmer l'exercice de son droit de préemption. En cas de confirmation, l'État se subroge à l'adjudicataire.

RÉSULTATS DE LA VENTE

Si vous voulez avoir des renseignements sur les résultats de vos ordres d'achat, veuillez-nous contacter au : +377 97 77 53 35 www.monacolegendauctions.com

PAIEMENT

Le paiement doit être effectué immédiatement après la vente. Le paiement peut être effectué :

- › En espèces jusqu'à 29 999 euros selon les conditions légales en vigueur dans la Principauté de Monaco
- › Par carte de crédit, visa ou Mastercard. Des frais supplémentaires de 1,80 % sur le montant total sont appliqués pour les règlements en AMEX.
- › Par virement en euro sur le compte : Monaco Legend Group

ENLÈVEMENT DES ACHATS

Les achats ne pourront être enlevés qu'après leur paiement. Tous les lots pourront être enlevés pendant ou après la vacation sur présentation de l'autorisation de délivrance du service comptable de la société Monaco Legend Group. Nous recommandons vivement aux acheteurs de prendre livraison de leurs lots après la vente.

ENVOIS ET ASSURANCES

Les lots seront expédiés directement selon les instructions de l'acheteur par le biais des transports Ferrari Logistiques SAM, Monaco. Veuillez noter que les acheteurs sont responsables de tous les frais d'expédition et de tous les autres frais applicables, y compris la taxe sur la valeur ajoutée, les droits de douane, etc. pour l'importation dans leurs pays respectifs.

LES RESTRICTIONS À L'IMPORT-EXPORT ET LES TAXES

Les acheteurs sont avisés que nous enlèverons les bandes faites de matériaux dérivés d'espèces en voie de disparition ou autrement protégées (p. ex. alligator, caïman, lézard, serpent...) avant d'expédier les lots à l'étranger. Les acheteurs sont responsables de la conformité à toute réglementation applicable en matière d'exportation et d'importation. En outre, certains articles en écaille de tortue et en ivoire peuvent faire l'objet de restrictions à l'importation dans certains pays. Veuillez consulter les autorités douanières locales pour obtenir des renseignements sur l'importation d'articles fabriqués à partir de ces matériaux. L'Acheteur est responsable du paiement de tous les droits et taxes d'importation et d'exportation applicables relatifs aux lots achetés.

RÈGLEMENTATION CITES

Δ : les documents fournis par l'étude « Monaco Legend Group » pour les articles CITES d'espèces inscrites aux annexes A, B ou C du règlement CE338/97 sont valables uniquement dans l'UE. Toutes les sorties vers un pays tiers doivent faire l'objet d'une demande de permis d'exportation ou de réexportation auprès de l'organe de gestion CITES du lieu de résidence de l'acheteur. Nous vous conseillons de vous mettre en rapport avec l'organe de gestion CITES du pays de destination, a moins d'avoir confirmation de la possibilité d'importer ces articles. Certains pays peuvent interdire la délivrance des documents pour des raisons propres à leurs législations. Ces démarches sont à exécuter par l'acheteur et restent à sa charge. Contactez Monaco Legend Group pour plus d'informations.
