REF 2508 CASE 512205 CIRCA 1947

• cal. 14''' jeweled manual winding nickel lever movement, 17 jewels • matte cream dial, applied Arabic numerals and baton indexes, baton hands, blued steel chronograph hand, engine turned subsidiary dials for constant seconds and 30 minute register, outer minute and 1/5 second divisions • stainless steel case, solid snap on case back • case, dial, and movement signed • with a stainless steel Rolex buckle diameter 35 mm

Introduced in the mid 1930s, Ref. 2508 was the first Rolex chronograph wristwatch to feature two registers with two pushers. The present example from the second series features rectangular pushers and has an incredibly well preserved three-piece case with crisp original lines, and defined coronet and serial number to the outside case back.

Variations of Ref. 2508 are described and illustrated in I Cronografi Rolex - La Leggenda, Pucci Papaleo Editore, pp. 80-91.

Rolex

A STAINLESS STEEL AUTOMATIC CENTER SECONDS WRISTWATCH WITH BRACELET
REF 6202 MVT 24134 CASE 950290
'THUNDERBIRD' TURN-O-GRAPH CIRCA 1954

- jeweled automatic movement • black 'tropical' dial, luminescent triangular, dot, and baton indexes, yellow gold Dauphine hands, center seconds, outer minute divisions, gilt coronet and lettering • stainless steel Oyster case, screw down crown and solid case back, black bezel calibrated for 60 units • case, dial, and movement signed • with a stainless steel Rolex Jubilee bracelet and folding clasp

diameter 35.5 mm, bracelet circumference approximately 178 mm

The present lot features an original rotating bezel and beautifully aged tropical dial with deep brown hues, vibrant and well preserved golden markers.

Ref. 6202 was released and first presented at the Basel Fair in 1953. The Turn-O-Graph was the first series produced Rolex to feature a rotating bezel. Rolex often promoted this first series tool watch as a convenient and simple way of calculating the "timing of a transatlantic telephone call, the rate of a machine, a patient's pulse or the speed of a train." In the late 1950s, the Turn-O-Graph was popularly marketed as "Thunderbirds" because the U.S. Air Force equipped their Thunderbird aerobatic squadron pilots with Ref. 6202 for navigational calculations.

For more information on this reference, see Martin Skeet & Nick Urul, *Vintage Rolex Sports Models*, 2001, p. 100–101; for an illustration of a similar model, see p. 104.

- cal. 722-1 manual winding nickel lever movement, 17 jewels • tri color black, white and red dial, applied square indexes with luminescent dots, Obélisque hands, engine turned subsidiary dials for constant seconds, 30 minute, and 12 hour registers, outer minute and 1/5 second divisions • stainless steel Oyster case, bezel calibrated for 200 units, screw down crown and solid case back • *case, dial, and movement signed* • with a stainless steel Rolex Jubilee bracelet with folding clasp

diameter 36 mm, bracelet circumference approximately 178 mm

The iconic reference 6239 was introduced in the United States in 1963, and available in the US and Europe until 1969. It was the first model fitted with this exotic dial, later coined the Paul Newman dial, distinguished by its fine square markers.

The present lot has a well preserved dial with defined sunken engine turned subsidiary dials, clear white Rolex Cosmograph signature and the red Daytona inscription, perfectly complemented by the red graduations of the outer track.

Offered by the original owner, the present lot is a truly exceptional collector's piece.

A FINE YELLOW GOLD CHRONOGRAPH
WRISTWATCH WITH REGISTERS AND
BRACELET

REF 6263 CASE 5951371 DAYTONA
CIRCA 1979

• cal. 727 manual winding nickel lever movement, 17 jewels, mono metallic balance • matte black dial, applied faceted baton indexes with luminescent dots, yellow gold Obélisque hands, gilt engine turned subsidiary dials for constant seconds, 30 minute and 12 hour registers, gilt minute and 1/5 second divisions • 18k yellow gold Oyster case, black acrylic bezel calibrated for 200 units, screw down pushers, crown and solid case back • case, dial, and movement signed • with an 18k yellow gold later Rolex bracelet diameter 38 mm, bracelet circumference approximately 180 mm

Accompanied by a Rolex Guarantee, a One Year Service Warranty dated January 9th, 1995, an International Service Guarantee dated October 6th, 2011, and a Rolex service statement dated January 24th, 2011. Also with a Rolex document confirming the purchase of the present 18k yellow gold Oyster bracelet on October 6th, 2011. Together with one additional 18k yellow gold Rolex buckle, booklets, sales tags, service tags, two service boxes, three polishing clothes, one pouch, one bi fold, and a presentation box with outer packaging.

The Rolex Cosmograph has become one of the most iconic sporting watches of all time. Replacing the 6262 model in 1971, the 6263 was given its own distinctive look with the addition of a black acrylic insert to its bezel and waterproof screw down crown and chronograph pushers.

The present lot is available in excellent condition with an original bezel insert, and crisp case hallmarks. The dial is preserved with superior clarity and impeccable definition to the signatures, the deepness of registers, the outer tracking and even the luminescent dots above the indexes.

It has been owned by the same family for two generations, and Sotheby's is pleased to offer it for the first time at auction. This is a rare opportunity to own such an exceptional example of the reference 6263 in yellow gold.

A YELLOW GOLD ASYMMETRICAL LEFT-HANDED WRISTWATCH WITH BRACELET
REF 9630 CASE 733097 NO 016 KING MIDAS
CIRCA 1961

- cal. 650 automatic lever movement, 17 jewels
- gilt dial, black baton indexes • 18k yellow gold asymmetrical case, winding crown to the left case band, monogrammed case back secured by four screws • case, dial, and movement signed • with an 18k yellow gold Rolex bracelet with double folding clasp

length 29 mm, bracelet circumference approximately 184 mm

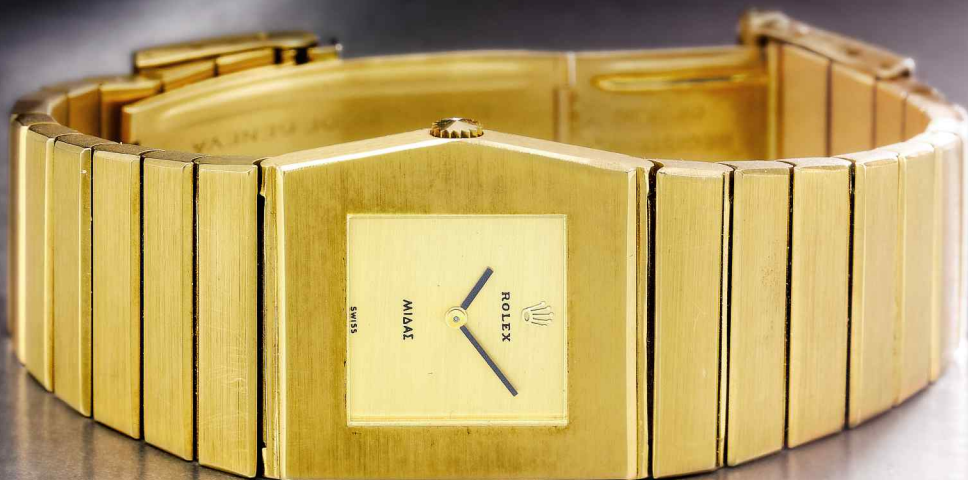

Accompanied by a Rolex King Midas Urn inspired presentation box.

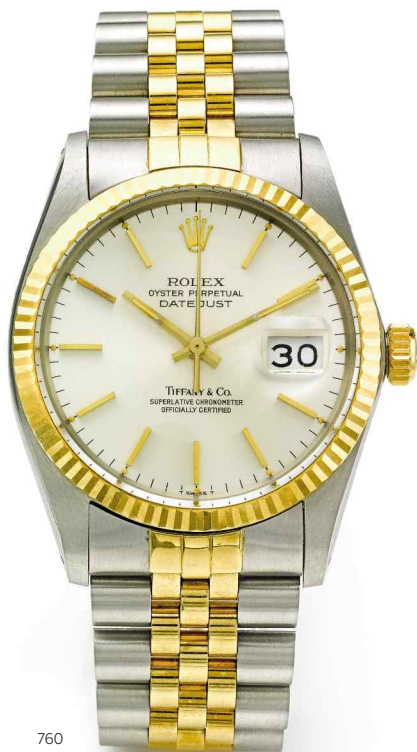

Gerald Genta designed this iconic model as an homage to the infamous mythological figure, King Midas. He drew inspiration for the design from the geometric architecture in ancient Greece, specifically the Parthenon Temple in Athens. The King Midas watch is created from a single block of 18 karat white or yellow gold. Each watch is accompanied by a presentation box inspired by a traditional Greek urn painted in the Black Figure technique. Genta gives a small nod to King Midas by creating this piece for those who are left handed, as everything Midas touched with his left hand turned to gold.

Cartier

A PINK GOLD OPEN FACED MYSTERY WATCH
NO 698997 CIRCA 1980

- cal. 81003S square manual winding nickel lever movement with canted corners, glucydur balance
- eccentric mystery dial composed of rotating crystal discs, blued steel Breguet hands
- 18k pink gold case, chapter ring with painted black radial Roman numerals and inner minute track surrounding dial, snap on case back
- case, movement, and chain signed, chain numbered
- with an 18k pink gold Cartier chain diameter 49 mm

Accompanied by a Cartier presentation box.

The present example belongs to the beautiful and fascinating genre of Cartier works known as 'Mystery' timepieces. The first Cartier Mystery clock was created in 1913, the work of the brilliant Maurice Couët. This mechanically and aesthetically remarkable design was the basis for some of Cartier's most impressive clocks of the 1920's and beyond.

The design of the present model is very unusual, as the movement and gearwork are located around the periphery of the transparent dial, rather than directly behind it. The time is indicated by two rotating crystal disks on which the hour hand and minute hand are located. The overall effect on the viewer is that the watch operates without mechanical means, hence its description as a Mystery watch.

For an example of earlier Mystery pocket watches by which the present example was inspired, see Barracca, J., Negretti, G., and Nencini, F., *Le Temps de Cartier*, p. 196, and Nadelhoffer, H., *Cartier: Jewelers Extraordinary*, pl. 61.

Accompanied by facsimiles of one Cartier invoice dated December 31, 1984, and Cartier Lapis Mystery Clock descriptive sale documents. Also with a photographic illustration of the timepiece marked with the design reference no. 7949 and one Polaroid depicting the same illustration. Together with a Cartier presentation box.

The total diamond weight is approximately 11.60 cts.

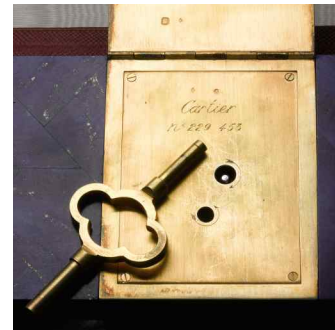

The Cartier "Pendule Mystérieuses" or "Mystery Clock" has captured the imagination of Cartier collectors for decades. Inspired by the work of the 1850s French magician and clockmaker, Jean Eugene Robert-Houdin, Maurice Couet devised the first Mystery Clock in 1913 which was named "Pendules Mystérieuses Model A."

This mechanically and aesthetically remarkable design was the basis for some of Cartier's most impressive clocks of the 1920s and beyond. The time appears to float magically in the air, indicated by two rotating crystal disks that suspend the hour hand and minute hand in a

captivating dance. From the perspective of the viewer, the clock operates without mechanical means, hence its description as a Mystery clock.

Revitalized in the 1980s, Cartier produced a series of exquisite mystery timepieces with luxurious and fine materials such as the present lot, accentuated by lapis lazuli, nephrite, and diamonds.

A FINE AND RARE PLATINUM CURVED
RECTANGULAR WRISTWATCH
CASE 23259 TANK CINTRÉE CIRCA 1929

- manual winding lever movement, 19 jewels •
- off-white dial, Roman numerals, blued steel hands
- platinum curved rectangular *Cintrée* case, cabochon sapphire set crown, back secured by 8 screws • case numbered, dial signed Cartier, movement signed and numbered European Watch & Clock Co., Inc., 27787 • platinum and 18k pink gold Cartier buckle
- length 47 mm, width 23 mm

Introduced in 1917, the Cartier Tank is perhaps one of the most recognizable designs in the watch world. Having been produced, this year, for 100 years, the Tank has adorned the wrists of some of the most influential people in history from Princess Diana to Andy Warhol and Cary Grant.

Cartier started production of the Tank *Cintrée*, of which the present lot is an example, in 1921. Differing quite significantly from the Tank Normale, the design was considered somewhat avant-garde with its elongated, slimmer profile, and the case also entirely curved as to almost mold to the wearer's wrist. Although several iterations of the *Cintrée* have been released over the decades, each variant were made in a limited series. As such, it remains one of the most sought after and highly collectible models produced by the Manufacturer. The watch above, made circa 1929 in platinum, is a wonderfully elegant and well preserved example retaining its generous proportions sure to please even the most discerning collector's eye.

A RARE SILVER AND TORTOISESHELL TRIPLE
CASED SUN - MOON WATCH
CIRCA 1780

• gilt full plate movement, verge escapement, fusée and chain, decoratively pierced and engraved balance cock and foot, flat three-arm balance, flared pillars • silver champlévé dial, large aperture with rotating disc divided into day and night, the hours indicated on an outer semicircular chapter ring with Roman numerals, the daytime hours indicated by a gilt sun with pointer, the night hours indicated by the moon with pointer, outer Arabic minute track, single gilt hand • plain silver inner and middle case, winding aperture to back, both inner and middle cases with *maker's mark* 'TC' • tortoiseshell outer case with silver rondels • *dial and movement signed Cabrier, London, case with London hallmarks for 1780*
diameter including outer case 64 mm

English watch makers at the end of the 17th and beginning of the 18th century began experimenting with unusual dial designs for their pieces. During this period there were four principal variations of dial design: the six-hour dial, the wandering hour dial, the differential dial and, as on the present lot, the sun-and-moon dial. On the present watch, the sun and moon point to the hours as they move across the large semi-circular aperture, whilst minutes are indicated by the single hand on the outer ring.

A PETITE VARI COLOR GOLD ENAMEL AND PEARL SINGING BIRD SNUFF BOX
THE MOVEMENT BY FRÈRES ROCHAT THE BOX WITH MAKERS' MARK CHENEVARD JOUVET & CIE GENEVA CIRCA 1820

- the rectangular case engine turned on sablé ground bordered by running vari-color gold foliage, the top panel finely chased with vari-color gold scrolling foliage, centered by an oval lid decorated with a polychrome enamel burst of summer flowers on translucent pink enamel over engine turning *with loss at the hinge*, edged by split pearls, the brightly feathered bird rising from a bird-shaped reserve; the bird realistically swivels its body, flaps its wings, opens and closes its beak, moves its head and tail, the base with central engine-turned reserve centered by a blank rectangular cartouche and bordered by vari-color gold scrolling foliage • the bird mechanism with fusee and chain, rectangular bellows, the song produced by a piston whistle, eight stacked cams, male key wound • the back with a hinged compartment • the box stamped with case maker's mark CI (Chenevard Jouvét & Cie) in an oval, Geneva gold mark (G) used after 1815, the movement stamped FR in an oval for Frères Rochat and number 382

Length of box 78 mm

Accompanied by an associated paper grained travel box and male key.

The present lot is notable given its diminutive size of 78 mm, a remarkable technical achievement given the complexity of the singing bird movement. Other examples of singing birds range in the length of 85 to 90 mm.

Salomon Chénevard (1773-1837) worked as jeweler living in the Rue de Temple, Geneva. Both Chénevard and the jeweler Jean-Louis Joly (1757-1825) had been partners of the firm Roux, Ponçon & Cie., manufacturers of bijouterie, from September 1801 until 1803. They are recorded as entering their first marks in the name of Joly & Chénevard in 1807/8. In 1815 they had taken on a younger partner, Pierre Jouvét, exemplified by their new mark, depicting ICI in a lozenge. In 1820, they re-named the firm Chénevard, Jouvét & Cie. Jouvét's wife, Jacqueline Etienne Guidon took Joly's place on his retirement in 1824.

The firm of Frères Rochat began as David Rochat & Son in Le Brassus (1718-1806) and became famous for its complicated movements and a variety of complex novelties that included singing birds in mirrors, snuff boxes, needle cases and pistols.

For a discussion of their work see Jaquet, Eugène and Chapuis, Alfred, *The Technique and History of the Swiss Watch*, pp. 154-156. The firm was listed as 'Geneva makers 1810-1835'.

For a four-color gold and enamel singing bird box chased in similar style to the present box and struck with the same case maker's mark, see Sotheby's Zurich, 14 November 1979, lot 224, as well as the Celebrated King Farouk Magicians Box, Sotheby's New York, 8 June 2016, lot 81.

For a biography on Frères Rochat and illustrations of their work, see Bailly, Sharon & Christian, *Flights of Fancy*, Geneva, 2001, pp. 211-260.

THE FLEISCHHAUER-PATENTED CALENDAR

806

THE FLEISCHHAUER-PATENTED CALENDAR

A. Lange & Söhne

A RARE AND FINE PINK GOLD OPEN FACED CALENDAR WATCH

NO 19079 PATENT NO 25267 CIRCA 1885

- first quality gilt 3/4 plate lever movement, jewels carried in gold screw down chatons, diamond endstone, gold escape wheel and pallet
 - central white enamel mean time dial, Roman numerals, subsidiary seconds, blued steel moon style hands, matte gilt outer ring calibrated with the date and inset with month aperture, inner gilt matte chapter ring calibrated with days of the week, repeated five times, days denoted by initials, with a blank space indicating Sunday, push piece at 1 for setting month and date • 18k pink gold case, case back engraved with monogram, pink gold cuvette • dial, case, cuvette and movement signed
- diameter 52 mm

The present lot is one of 30 watches created to the specifications of Otto Fleischhauer's calendar patent. Fleischhauer registered his patent, no. 25267 in Berlin on June 5th, 1883. He collaborated with A. Lange & Söhne to produce his calendar system.

The unusual calendar work proved somewhat awkward compared to other contemporary setting designs on the market, and never gained popularity. Of thirty pieces made, one other, no. 19065, was sold at auction, in 2015. This is the first time the present lot, no. 19079, has been offered at auction.

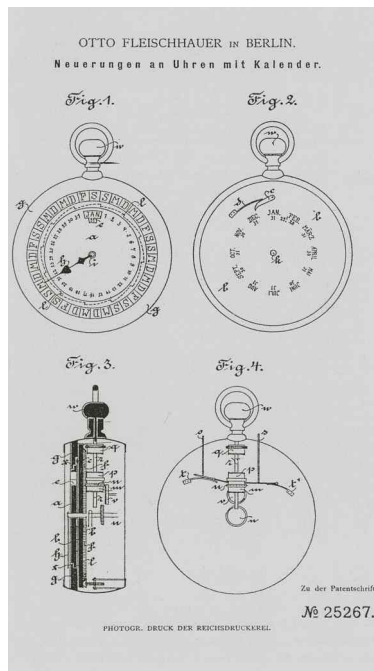

Fleischhauer's design drawings and the patent for this watch can be found in Reinhard Meis, A. Lange & Söhne, *the Watchmakers of Dresden*, 1997, pp. 332 & 340.

For a similar calendar watch by A. Lange & Söhne, see, Reinhard Meis, A. Lange & Söhne, *the Watchmakers of Dresden*, 1997, p. 234, pl. 622, and Martin Huber, *Die Uhren von A. Lange & Söhne Glaschütte Sachsen*. 1988, p. 119

Albert H. Potter & Co., Geneva

A RARE GOLD HUNTING CASED POCKET
CHRONOMETER
NO 59 CIRCA 1880

- 21" nickel movement with Potter's patented pivoted detent escapement, patented bridge layout, and Guillaume type balance, blued steel helical hairspring, free sprung regulation, jewels carried in gold screwed chatons • glazed cuvette
- white enamel dial, painted black radial Roman numerals, blued steel Breguet hands, large subsidiary seconds, outer minute track • 18k pink gold hunting case • case, dial, and movement signed, case stamped with Potter's trademark balance wheel logo
- diameter 56mm

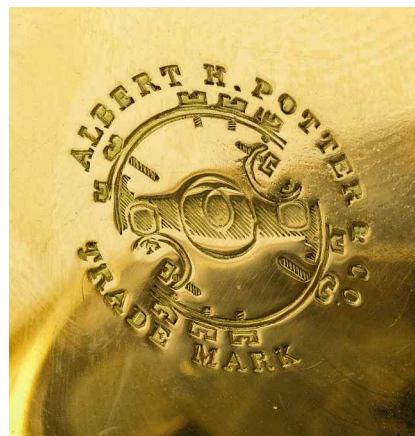

Potter remains one of the most celebrated American watch makers. The present example incorporates many features unique to Potter's production, including his patented safety barrel, his highly recognized bridge arrangement, his own form of pivoted detent, and his method of securing the movement in the case.

Albert H. Potter was born in Saratoga County, New York in 1830 and served his apprenticeship in Albany. In 1855, he established himself in New York City. He spent five years working in Cuba and later returned to the United States and organized a watch company with his brother William Cleveland Potter.

However, in 1876, he moved to Geneva. He likely sought to surpass the boundaries of the American watchmaking industry, which, at the time, was focused on mass production, rather than individual innovation.

He produced approximately 600 watches while working in Switzerland.

A LADY'S YELLOW GOLD LAPIS LAZULI AND
NEPHRITE BRACELET CUFF WATCH
REF 9212 CASE 177270 CIRCA 1970

- cal. 9P manual winding nickel lever movement, 18 jewels, mono metallic balance • lapis lazuli dial, yellow gold Dauphine hands • 18k yellow gold textured case, solid case back secured by 4 screws • with an integrated 18k yellow gold undulated textured cuff bracelet, open gold panes with alternating panels set with lapis lazuli and nephrite • *case, dial, movement, and bracelet signed* length 25 mm, bracelet circumference approximately 140 mm

Accompanied by a Piaget presentation box.

Piaget's 21st Century Collection launched in 1969, at the height of the firm's finest era of jewelry making. Produced for only five years, the collection was inspired by the period's nonconformist style, playing with texture, color, and design.

Similar cuff watches are illustrated in Montres et Merveilles de Piaget by F. Cologni, G. Negretti, F. Nencini, p. 72.

FROM THE FAMILY OF THE ORIGINAL OWNER

Audemars Piguet

A FINE AND RARE YELLOW GOLD OPEN FACED PERPETUAL CALENDAR SPLIT SECONDS CHRONOGRAPH MINUTE REPEATING WATCH WITH MOON PHASES REF 5543BA NO 11723 STARTED IN 1907 COMPLETED CIRCA 1968

- cal. 18SMCRQV highly jeweled nickel lever movement, bi metallic balance, two hammers repeating on two gongs • silvered dial, applied 18k yellow gold baton indexes, 18k yellow gold baton hands, blued steel split seconds chronograph hands, four subsidiary dials indicating day combined with 30 minute register, date combined with constant seconds, month combined with leap year indication, ages of the moon combined with fan form aperture for moon phases, outer minute track with 1/5 second divisions • 18k yellow gold case, stepped chamfered bezels, chronograph activated through the crown, split chronograph pusher, calendar correctors, minute repeating slide to the band, solid snap on case back • case, dial, and movement signed diameter 50 mm

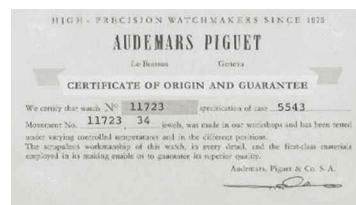

Accompanied by an Audemars Piguet certificate of origin and guarantee, and a presentation box with outer packaging.

Audemars Piguet confirms that the movement was originally created in 1907, then 'abandoned at an unknown date'. It was then finished and cased in the 1960s, and sold in New York in 1968.

For a similar example, no. 26865, see Brunner, G., Pfeiffer-Belli, C. & Wehrli, M., *Audemars Piguet, Masterpieces of Classical Watchmaking*, 1993, p.155.

With its early 1900s movement, and its 1960s bold and angular case format, the present lot brings the viewer on a horological and design journey from the first to the second half of the last century. One can only imagine the delight with which the watchmakers at Audemars Piguet discovered this highly complicated movement, encapsulated from a previous generation. It would be their privilege to fit this treasure into a suitably important case, just as it would have been some 60 years earlier.

\$ 50,000-100,000

PROPERTY FROM A RHODE ISLAND ESTATE

Audemars Piguet

A FINE AND RARE GREEN GOLD AND ENAMEL
OPEN FACED PERPETUAL CALENDAR
SPLIT SECONDS CHRONOGRAPH MINUTE
REPEATING WATCH WITH MOON PHASES
NO 14842 MADE IN 1912

- cal. 18SMCCRQV nickel lever movement, bi metallic balance, 35 jewels, two hammers repeating on two gongs • 14k gold dial, painted black Arabic numerals, blued steel Breguet hands, four sunken subsidiary dials indicating day, 60 minute register combined with leap year and month indication, date, constant seconds and ages of the moon combined with fan form aperture for moon phases, outer minute and 1/5 second divisions • 18k green gold case, bezels and Murat style pendant with Greek key enamel pattern, calendar correctors under the bezel cover, chronograph activated through the crown, split chronograph pusher and minute repeating slide to the band, enamel monogram to the exterior of the case back • *case and movement signed* • with an associated chain diameter 48.5 mm

Audemars Piguet confirms the completion of the movement in 1912, with further sale to Wittnauer, New York, in 1923 for 3,000 USD.

For similar examples, see Brunner, G., Pfeiffer-Belli, C. & Wehrli, M., Audemars Piguet, *Masterpieces of Classical Watchmaking*, 1993, p.31, 153-154.

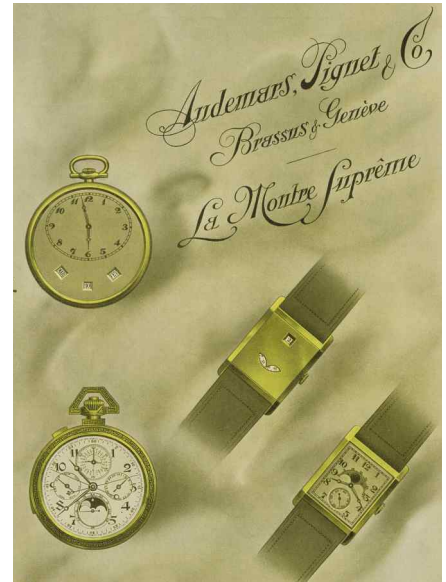

It is interesting to note that the published examples, No. 14827 and 13927, are both retailed by Gübelin and furthermore feature similar Greek key enamel motifs and stylized numerals. The former is in yellow gold and the latter is in white gold. To the best of our knowledge, the present example is the only one of its kind known in green gold.

The present lot represents the height of complicated horology combined with archetypal Art Deco design.

WRISTWATCH WITH DATE AND ALARM
REF 190.8.96 CASE 2495083 NO 280/768
MEMOVOX TRIBUTE TO POLARIS CIRCA 2008

- cal. 956 automatic nickel lever movement, 23 jewels
- black dial, painted luminous Arabic numerals, and dart indexes, luminous hands, center seconds, revolving disc with painted luminous alarm indication, aperture for date at 3, inner minute track, outer revolving bezel calibrated for 60 units
- stainless steel case, three crowns to the case band, snap on case back
- case, dial, and movement signed
- diameter 42 mm

Accompanied by a Jaeger-LeCoultre Certificate of Origin, one Guarantee Certificate, one Repair Guarantee Certificate, and one service invoice dated November 4, 2009. Together with one instructional booklet, and a presentation box with outer packaging.

The Memovox Tribute to Polaris launched in 2008, paying homage to Jaeger-LeCoultre's original model introduced in 1965. The world's first automatic alarm wristwatch was sensational, designed to offer reliability and endurance. This modern day tribute was made in a limited edition, following the original designs.

diameter 39 mm, bracelet circumference approximately 190 mm

1972 marks a truly historic year for both Audemars Piguet and watchmaking, with the launch of the firm's first luxury sports watch, the *Royal Oak*.

In an effort to reinvent the classic dress watch, Audemars Piguet unveiled the stainless steel *Royal Oak* at the Swiss Watch Show in Basel (now BaselWorld) at the shocking price of only 3,300 Swiss Francs, unheard of for any watch bearing the firm's name at the time.

Conceived by Gerald Genta, the *Royal Oak* design was inspired by Royal Navy vessels, particularly the portholes and their octagonal form. More than the case itself, the *Royal Oak* is distinctive as the first wristwatch with a comprehensive and integrated design for watch and bracelet. The octagonal motif is echoed throughout the bezel, screws, and bracelet, with handmade links of progressively diminishing size.

- 18k yellow gold case, straight screw set lugs, sapphire crystal display back concealed by hinged yellow gold case back
- case, dial, and movement signed
- with an 18k yellow gold Patek Philippe folding clasp

diameter 38 mm

Accompanied by a Patek Philippe Extract from the Archives confirming the date of sale on February 15th, 2010. Together with a presentation box with outer packaging.

Reference 5159 was launched in 2007 as a rediscovery of the legendary Officer's watches. The diameter of the case, which features a dust cover that protects the sapphire-crystal back, is 38 mm – 2 mm more than its predecessor, reference 5059. The dial has been thoroughly reworked, featuring elongated Roman numerals and a *guilloché* center.

Patek Philippe has created only a few models with perpetual calendar, retrograde date and sweep seconds: Refs. 5050, 5059, 5159 and 5160.

A LIMITED EDITION WHITE GOLD RECTANGULAR WRISTWATCH REF 5500G MVT 1857868 CASE 4014835 PAGODA MADE IN 1997

- cal. 215 PS manual winding nickel lever movement, stamped with the seal of Geneva, 18 jewels • pink dial, applied white gold Roman numerals, white gold Feuille hands, rectangular subsidiary seconds, outer minute track • 18k white gold curvilinear rectangular case, flared lugs, engraved snap on case back • case, dial, and movement signed • with an 18k white gold Patek Philippe buckle length 41 mm

Accompanied by a Patek Philippe Certificate of Origin, Attestation, and Extract from the Archives confirming sale on October 27th, 1997 with commemorative text on the case back. Also with a Republic and Canton of Geneva Chronometer Certificate dated November 26, 1996. Together with a silver medal commemorating the inauguration of Patek Philippe's manufactory, a 1997 Commemorative Watches book, a leather bi fold with additional booklets, sales tags, and a presentation box with outer packaging.

Inspired by the reference 2441, popularly known as the *Eiffel Tower*, the reference 5500 *Pagoda*, was specially produced in 1997 to mark the inauguration of Patek Philippe's new watchmaking center in Geneva, Switzerland. They were produced in a limited series of 1100 in yellow gold, 250 in white gold, and 150 in platinum. Once completed, the necessary production tools were destroyed to ensure that this model can no longer be produced.

NAUTILUS CIRCA 2013

- cal. 240/164 automatic lever movement stamped with Patek Philippe seal, 29 jewels • blue-grey ribbed dial, luminescent baton indexes and hands, subsidiary dials for date combined with moon-phases and constant seconds, fan-form sector for power reserve indication • stainless steel Nautilus case, sapphire crystal display back • case, dial and movement • with a stainless steel Patek Philippe bracelet with folding clasp diameter 40 mm bracelet, circumference approx. 180 mm

Accompanied by a Patek Philippe Certificate of Origin, one bi fold, booklets, additional links, and presentation box with outer packaging.

The reference 5712 was launched in celebration of the Nautilus' 30th Anniversary in 2006, replacing the reference 3712, and production continues to this day.

The timeline of this iconic series is a fascinating one having been originally conceived in a restaurant by Swiss jewelry designer Gerald Genta in the mid-1970s. The timeless nature of its design, reminiscent of a porthole, has nurtured a significant and passionate following over its 40 year history, making these some of the most sought after pieces in the vast inventory of Patek Philippe.

To the best of our knowledge, this is the first time this watch has been presented at auction.

A WHITE GOLD AUTOMATIC ASTRONOMICAL WRISTWATCH WITH SKY CHART PHASES AND POSITION OF THE MOON AND TIME OF MERIDIAN PASSAGE OF SIRIUS AND THE MOON

REF 5102G MVT 3328147 CASE 4259727
CELESTIAL MADE IN 2004

- cal. 240/165 automatic lever movement, stamped with the seal of Geneva, 45 jewels, 22k yellow gold micro rotor
- outermost sapphire crystal with silvered ellipse framing the celestial chart with cardinal points, blue chapter ring with silvered radial Roman numerals, dot minute divisions, corundum sapphire disc with painted gold stars in relative orders of magnitude, reverse marked with fine gold dust to represent the Milky Way Galaxy, below revolving blue disc with aperture for moon phases
- 18k white gold case, band finely decorated with *Patek Philippe Calatrava* crosses, winding crown at 2 to set the time, crown at 4 to set the celestial chart and moon phases, sapphire crystal display back
- case, dial, and movement signed
- with an 18k white gold Patek Philippe folding clasp

diameter 43 mm

Accompanied by an Extract from the Archives confirming date of sale on July 5th, 2004.

Launched in 2002, the *Celestial* (Ref. 5102) is one of the most important horological complications ever developed. Its introduction allowed the remarkable rendition of the Northern Hemisphere's celestial chart to be fitted dynamically upon the wrist for the first time.

The celestial chart rotates counter clockwise, showing the progression of stars relative to the meridian passage of Sirius. Simultaneously, the meridian passage and phases of the moon can be seen. 25 trillion (25,000,000,000,000) ratio combinations were researched by Patek Philippe to determine the greatest accuracy for all the Ref. 5102's displays. This gives some sense of the tremendous challenges that the production of this highly complicated model posed to the company's watchmakers.

Using a highly sophisticated automatic calibre 240 LU CL, the movement uses 301 individual parts that are meticulously hand finished in the workshops of Patek Philippe. Three corundum sapphire crystal discs are used to simulate the orbit of the moon and the passage of the stars, creating an incredible sense of depth. For this important invention, Patek Philippe was awarded a Swiss Patent for the base calibre (CH 688 171 B5).

Urwerk

A LIMITED EDITION WHITE GOLD AND TITANIUM WRISTWATCH WITH SATELLITE HOUR DISPLAY AND POWER RESERVE INDICATION
REF 103T LIMITED EDITION OF 60 PIECES TARANTULA CIRCA 2010

- cal. 3.04 manual winding lever movement, ARCAP P40 and PVD-coated triple base plate • semi-skeletonized black dial, painted luminescent white Arabic numerals, four rotating satellite display hours, arch sector for minutes at 6 • 18k white gold streamlined case, oversized winding crown at 12, coated titanium case back with control board for constant seconds and 15-minute register, fan form aperture for power reserve indication, precision adjustment screw • case, dial, and movement signed • with a coated titanium Urwerk buckle length 50 mm

The Urwerk UR-103 collection redefines *haute horlogerie* by combining progressive technologies with homages to the watchmaking innovations of the past. The movement allows for the effortless orbiting of the satellite hours while minimizing friction and loss of energy. Urwerk's fearless application of robust new materials, such as ARCAP P40, allows the orbital cross to complete an impressive 2,190 rotations annually. In tribute to Abraham-Louis Breguet, the model also includes a precision adjustment screw, making it possible for the wearer to precisely regulate the timing of their watch to match their daily needs.

A WHITE GOLD AUTOMATIC PERPETUAL CALENDAR WRISTWATCH WITH MOON PHASES AND EQUATION OF TIME
MVT 549777 CASE F65020 JULES AUDEMARS
EQUATION DU TEMPS LE BRASSUS CIRCA 2010

- cal. 2120/4 nickel lever movement, 41 jewels, 21k finely pierced and engraved rotor • silvered dial with *guilloché* center field, applied radial Roman numerals, Feuille hands, central sun hand for equation of time, subsidiary dials for month *in English* combined with moon phases, time of sunrise, time of sunset, date combined with *day in English*, leap year indication, inner bezel with *Le Brassus* and equation of time indications • 18k white gold case, sapphire crystal display back secured by six screws • case, dial, and movement signed • 18k white gold Audemars Piguet folding clasp diameter 43 mm

Accompanied by an Audemars Piguet Certificate of Origin and Guarantee booklet. Together with two booklets, and a winding presentation box with outer packaging.

The Jules Audemars Equation of Time elegantly combines several functions, including the Equation of Time, time of sunrise and sunset, and the perpetual calendar with astronomic moon. The firm has been perfecting its Equation of Time function since the late 19th Century, and introduced its first model featuring a perpetual calendar in 1925. As times of sunrise and sunset depend on longitude and latitude, each watch containing this function is essentially customized to reflect the location of the buyer, and therefore give the most accurate time of sunrise and sunset.

Audemars Piguet has clearly left its footprint on the history of fine watchmaking and created many mechanical masterpieces.

This piece reflects that pioneering spirit and great craftsmanship.

F.P. Journe

A TANTALUM WRISTWATCH
NO 201 CHRONOMETRE BLEU SOUVERAIN
CIRCA 2010

- cal. 1304 manual winding pink gold movement, dual barrel, 22 jewels • blue dial, painted white radial Arabic numerals, white *F.P. Journe* hands, subsidiary seconds between 7 and 8, outer minute track • tantalum case, sapphire crystal display back secured by five screws • case, dial, and movement signed • with a tantalum *F.P. Journe* buckle

diameter 30 mm
Accompanied by an F.P. Journe certificate of authenticity card, an instruction booklet, a polishing cloth, and a presentation box with outer packaging.

F.P. Journe first introduced the highly sleek and robust tantalum case with the Chronometre Bleu. Tantalum is a beautiful and extremely strong metal with blue overtones, but rarely seen in watchmaking as it is very hard and difficult to manipulate. It is further enhanced by the blue chrome dial, and acutely sized Arabic numerals iconic to F.P. Journe.

The Chronometre Bleu's striking movement offers an illusion, with the balance and escapement seemingly detached from the rest of movement, and beating with no apparent energy source. In fact, the connecting train is hidden under the dial, allowing the balance to stand out.

Journe buckle
diameter 31 mm

Accompanied by an F.P. Journe presentation case.

In 1780, Antide Janvier, a gifted watchmaker to the King of France, found that by putting two pendulums on the same structure they began to beat together in resonance. This force enveloped the pendulums, protecting them from outside vibrations and enhancing the movement's precision. Two centuries later, and after A.L.

Breguet succeeded in building a pocket watch with two pendulums, Francois-Paul Journe, another very gifted watchmaker, was the first to find the way to put this phenomenon into a wristwatch: the remarkable Chronomètre à Résonance.

The present lot, produced to mark the 10th anniversary of the Résonance, is forged of 18k red gold, incorporating 24 hour indication and an incredibly striking silver salmon dial.

A LIMITED EDITION STAINLESS STEEL MINUTE REPEATING GRANDE AND PETITE SONNERIE WRISTWATCH WITH POWER RESERVE

SONNERIE SOUVERAINE CIRCA 2006

- cal. 1505 18k pink gold manual winding lever movement with personalized inscription, 40 jewels, repeating on two gongs • silvered eccentric dial, guilloché center, Arabic numerals, outer minute track, subsidiary seconds, dial secured by 3 screws to an 18k white gold plate, sectors for power reserve indication and sonnerie/silent selection, aperture for hour and minute striking hammers, blued steel hands • stainless steel case, screwed down sapphire crystal display back with personalized inscription • *case, dial and movement signed* • with a stainless steel F.P. Journe buckle diameter 42 mm

Accompanied by a F.P. Journe certificate of origin, owner's manual, stainless steel bracelet, spare components (including crystals, stem, crown, hands, main spring, balance spring, balance wheel and escapement), spring bar tool, loupe and presentation case.

\$ 260,000-360,000

€ 218,000-302,000

HK\$ 2,030,000-2,820,000

Perhaps, when one thinks of high complications, the first examples that spring to mind are watches incorporating perpetual calendars and tourbillons. While these are no mean feats in watchmaking, they are somewhat overshadowed by the widely considered 'most complex of horological complications' - the grande sonnerie or grand-strike complication. Combining a quarter striking mechanism with a minute repeating mechanism, it allows the user to hear the time striking as it passes, and activates a minute repeating function on demand.

It is this complication that F.P. Journe took six years to master and ten patents to create in his *Grande et Petite Sonnerie Souveraine*. This remarkable achievement, produced by a Manufacturer not even 20 years old, combines every element that has come to define both Journe himself, and his watches.

Though fitted with such a highly intricate complication, it is, in essence, an incredibly simple watch. The dial encompasses Journe's signature minimalist aesthetic with a beautifully engine turned eccentric dial screwed to an 18k white gold plate. It incorporates only two other indications, one showing the power reserve, the other showing the sonnerie function. Indeed one might almost miss the fact that, beneath

the dial, lies the mind-boggling in-house caliber 1505 and all of its functions. Only through the small aperture revealing the striking hammers is the wearer afforded a glimpse of the 18k pink gold work beneath. This elegant simplicity carries through to the plain, circular case, with two pushers to the band operating the sonnerie and minute repeating functions. Journe's rather utilitarian ethic is epitomized by the fact that the case of this, the most expensive watch in the Manufacturers repertoire, is not made out of gold or platinum, but steel. For Journe, this was the obvious choice, as it is the material which allows the watch to produce the most perfect chime.

Through the sapphire crystal display back, the movement is on full view. One can observe the intricacies of the machine within (the praying mantis style repeating arms are especially fun to watch), but again, this spends most of its time sitting modestly out of sight against the wrist.

The above lot is presented at auction for the first time in wonderful condition and with all of its accompanying pieces. Awarded the Aiguille D'or at the 2006 GPHG and, with only 4 pieces made per year, it offers any collector the rare opportunity to purchase what may rightly be considered the pinnacle of the F.P. Journe collection.

COLLECTOR

Greubel Forsey

A PLATINUM 24 SECOND INCLINED
TOURBILLON WRISTWATCH WITH 72 HOUR
POWER RESERVE INDICATION
NO 14 TOURBILLON 24 SECONDES CIRCA
2010

• cal. GF01 manual winding frosted nickel lever movement, 36 jewels, some set in gold chatons, mono-metallic compensation balance rotating within a 24-second inclined tourbillon • two toned anthracite dial, anthracite chapter ring with engraved inscription, applied Arabic and baton indexes, pierced hands, eccentric window revealing 24-second inclined tourbillon, fan form sector for 72-hour power reserve indication, subsidiary dial for constant seconds • 18k white gold circular case, lateral window with convex sapphire crystal to the band at 8, sapphire crystal display back secured by six screws • case, dial, and movement signed • with a platinum Greubel Forsey double folding clasp
diameter 44 mm

Accompanied by Greubel Forsey Extract and Service Certificates. Together with two Owner's booklets, one leather bi fold, and a presentation box with key, and outer packaging.

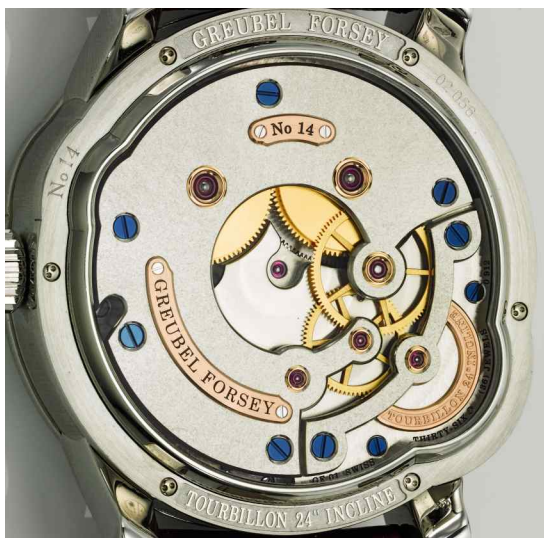

The Tourbillon 24 Secondes is Greubel Forsey's third invention incorporating a movement that is truly mesmerizing to view in action. The

tourbillon is inclined at a 25° angle and performs a 24-second revolution, a remarkable feat when compared to more traditional one-minute tourbillons. The Tourbillon 24 Seconds Incline works to minimize the effects of gravity on the watch; the use of extremely low density alloys such as Avional and titanium, which are employed in aeronautics, enables the tourbillon carriage to overcome the stresses imposed by the high rotation velocity. The tourbillon cage alone comprises 87 parts, yet it weighs just 0.39 grams.

The superior hand finishing of Greubel Forsey's movements is renowned and practiced with acute attention, as a quarter of the team at the firm's atelier is purely devoted to this work. The architecturally inspired case, with its asymmetrical design, is perfectly balanced by the opposing niches that contain the tourbillon carriage and the power reserve sector. With an additional curved sapphire crystal set to the side of the case, it is possible to fully appreciate the tourbillon carriage in action, as it gives the impression of being almost magically detached from the gear train.

The present lot in platinum is distinguished by the visually stunning three-dimensionality of its dial architecture. The off-set subsidiary dials, layered chapter rings, and inscribed panels are harmoniously arranged in anthracite, creating an aesthetic that is dynamic, powerful, and legible.

COLLECTOR

Greubel Forsey

A LIMITED EDITION PLATINUM DOUBLE
TOURBILLON WRISTWATCH WITH 72 HOUR
POWER RESERVE INDICATION
NO 185/186 DOUBLE TOURBILLON 30°
EDITION HISTORIQUE CIRCA 2010

- cal. GF02E manual winding frosted gilt movement, 39 jewels in gold chatons, mono-metallic compensation balance rotating within a double tourbillon, inner 1-minute tourbillon inclined 30° angle in relation to outer 4-minute tourbillon
- anthracite dial, applied Arabic numerals and baton indexes, pierced hands, subsidiary dial for constant seconds, fan form sector for 72-hour power reserve indication, open aperture revealing the tourbillons
- platinum case, band with engraved "Message from the Inventor Watchmakers" text in relief, sapphire crystal display back secured by six screws
- case, dial, and movement signed
- with a platinum Greubel Forsey double folding clasp
- diameter 45 mm

Accompanied by Greubel Forsey Extract and Service Certificates. Together with one Owner's booklet, one leather bi fold, one leather travel sleeve, one polishing cloth, one pair of gloves, one custom magnifier, and a numbered presentation box with outer packaging.

Greubel Forsey's Double Tourbillon mechanism was the firm's first invention, with one tourbillon, inclined at 30°, rotating in 60 seconds, within a second tourbillon rotating every four minutes. The astounding feat is not only horologically complex, but visually magnificent.

This Edition Historique is the unique and final iteration of the Double Tourbillon 30°, commemorating the firm's closing of this contemporary line after six years of production. The present lot in platinum is defined by finely inscribed panels across the case band and dial, explaining the inventor's process and philosophy. The brand's acute attention to aesthetics is exemplary in this limited edition timepieces, made in a series of only 11 in pink gold, and 11 pieces in platinum. Platinum pieces are numbered 176 to 186.

A PINK GOLD DUAL TIME ZONE TOURBILLON
WRISTWATCH WITH DATE AND FLYBACK
SECONDS

REF 600.2.89 S NO 2737368 DUOMETRE A
SPHEROTOURBILLON CIRCA 2012

• cal. 382 manual winding German silver movement, 55 jewels, two trains, 30 second dual axis tourbillon on a 20 degree 15 second rotation, mono-metallic compensation balance with cylindrical balance spring, constant seconds fly back mechanism • silvered dial, off set time display with applied pink gold Arabic numerals, painted black baton indexes, concentric date ring, subsidiary dials for fly back seconds, and second time zone, aperture revealing tourbillon • 18k pink gold case, sapphire crystal display back • case, dial, and movement signed • with an 18k pink gold Jaeger-LeCoultre folding clasp
diameter 43 mm

Accompanied by a Jaeger-LeCoultre guarantee certificate. Together with one booklet, one magnifying glass, and a presentation box with outer packaging.

The Jaeger-LeCoultre Duometre Spherotourbillon is a visually spectacular horological feat. The cal. 382 combines a newly developed dual axis tourbillon with a fly back seconds feature. This allows the wearer to precisely set the time to the second by running on a dual train system. This action does not affect the beat of the escapement.

FROM THE ESTATE OF GERARD ANTHONY “GERRY” LUPPINO

LOTS 930-942

The following lots 930-942 are from the collection of Gerard Anthony Luppino. Gerry was a renowned astronomer, astrophysicist, and professor at the Institute for Astronomy at the University of Hawaii. Among his work he developed the CFHT12K camera (a highly advanced type of CCD digital camera) which is able to capture images of more than 100,000,000 pixels, and has since contributed to the revelation of the acceleration of the expansion of the universe, of which the research and discovery was awarded the Nobel Physics Prize in 2011. Luppino also helped to develop the Pan-STARRS camera (atop Haleakalā on Maui, Hawaii) and contributed

to the work done on the Hubble and James Webb Space Telescopes.

In addition to his astronomical endeavors, Luppino was an avid watch collector, and horological enthusiast, contributing greatly with technical articles and pieces in the early days of the website, timezone.com.

The collection is an excellent example of Luppino's vocation and passions: modern, complicated, and rare pieces coupled with vintage sports watches, notably early Speedmasters with their ties to NASA.

Arnold & Son

A PINK GOLD SKELETONIZED TOURBILLON WRISTWATCH

REF 18.3.2.02 NO 03/28 TES CIRCA 2005

• cal. A&S 8100 manual winding movement, 19 jewels, one minute tourbillon • semi skeletonized dial, engine turned anthracite main plate, outer chapter ring with applied pink gold dart indexes, pink gold hands, sapphire crystal plate at 12, outer minute divisions • 18k pink gold case, stepped bezel and lugs, sapphire crystal display back secured by eight screws • case and dial signed • with an 18k pink gold Arnold & Son double folding clasp
diameter 44 mm

The tourbillon movement has had an integral role in the development of Arnold & Sons as a prestige watchmaking firm. John Arnold himself collaborated with Abraham Louis Breguet, and the latter mounted his first ever tourbillon in Arnold's No. 11 movement, which currently resides in the British Museum's collection in London.

The firm finds inspiration in its esteemed history, as displayed by the guilloché pattern found on the main plate of the present lot, which pays homage to the cases of antique Arnold & Son pocket watches. The firm focuses on combining old and new elements in its design for this piece. The tourbillon on the Tes distinguishes itself from

other models by being 'inverted', as most of its visually interesting features can be shown on the dial side, rather than the reverse. The unique barrel spring bridge has the traditional English wave form, but Arnold & Son has updated the design by making it out of sapphire to allow a view of the open-worked barrel and wheels.

The present lot demonstrates the firm's ability to combine technological skill with elegant design to create a unique piece that honors Arnold & Son's legacy, while also attracting modern collectors.

Omega

A STAINLESS STEEL CHRONOGRAPH
WRISTWATCH WITH REGISTERS
REF 2998-3 MVT 17764171 SPEEDMASTER
CIRCA 1965

- cal. 321 manual winding copper finish lever movement, 17 jewels, mono metallic balance • black dial, painted luminescent baton indexes, luminescent Lancette hands, white luminescent chronograph hand, sunken engine turned subsidiary dials for constant seconds, 30 minute, and 12 hour registers, outer minute markers with 1/5 second divisions • stainless steel case, *later* black bezel with tachometer scale, engraved screw down case back • case, dial, and movement *signed* diameter 40 mm

The 2998-3 is the third in the series of renditions of the reference 2998. Produced from 1959 to 1962, the 2998 bears straight lugs, an applied Omega logo to the dial, and the celebrated caliber 321 movement. The present lot contains a well preserved and slightly 'tropical' dial with long luminous hour markers with matching luminous hands, as well as correct Alpha style hands for the subsidiary dials.

VARIOUS OWNERS

Longines

A STAINLESS STEEL CHRONOGRAPH
WRISTWATCH WITH REGISTERS
MVT 5866164 CASE 21514 81 CIRCA 1945

• cal. 13ZN jeweled manual winding movement, mono metallic balance • black dial, applied Arabic numerals, Feuille hands, center seconds, engine turned subsidiary dials for constant seconds, and 30 minute register, outer minute and 1/5 second divisions, outermost tachometer scale • stainless steel case, stepped bezel, chronograph pushers, solid screw down case back • case, dial, and movement signed
diameter 38 mm

Longines introduced the world's first-ever flyback chronograph, cal 13ZN, in 1936. The flyback feature made chronograph resetting easier for pilots, allowing wearers to press one button and revert the dial to zero in an instant. At the beginning of the 20th Century, Longines had established itself as a premiere firm focused on precision timekeeping, and served as the official supplier of chronograph wristwatches for the International Aeronautical Federation. Their cal. 13ZN was one of the most technologically advanced chronometer movements created at the time, and was relied on heavily by military pilots around the world due to the extremely precise timekeeping ability.

The present lot is a stunning example of a steel chronograph from Longines in outstanding original condition. The 'tre tacche' case survives in unpolished condition with sharp edges and thick lugs. The original black dial, with truncated 'N's in the signature and three different fonts for the numerals, exhibits a stark contrast to the steel case. This chronograph is an excellent example of a large, steel mid-century chronograph for any discernible collector of sports watches.

FIFTY FATHOMS AQUA LUNG CIRCA 1960

• cal. 1700/01 automatic nickel lever movement, 17 jewels, • black dial, painted luminescent Arabic numerals, and baton indexes, luminescent hands, center seconds, radioactivity indicator, aperture for date, outer minute divisions • gold plated case, later bi directional rotating bezel calibrated for 60 units, down turned lugs, inscribed stainless steel screw down case back • case, dial, and movement signed
diameter 40 mm

The original Fifty Fathoms by Blancpain was introduced in 1954, and the present lot is an example from the 1960s. The Fifty Fathoms with the Aqua Lung signature designated the water resistance to 1,000 feet, and above 6 o'clock the No-Radiation logo signified that the luminous material to the dial was not radium, but instead tritium in an attempt to counter the fears of radiation that were rampant at the time. The present lot is also one of the few Fifty Fathoms to be gold plated through the entire run of the model.

Panerai/Rolex

A RARE STAINLESS STEEL MILITARY DIVER'S WRISTWATCH

REF 3646 CASE 1010012 RADIOMIR TYPE B
CIRCA 1945

• Rolex cal. 618 manual winding nickel lever movement, 17 jewels, some carried in chatons • sandwich dial, baton and Arabic indexes, blued steel luminescent hands • large stainless steel case, fixed wire lugs, domed crystal, inscribed screw down case back, bezel and crown • *dial signed Panerai, case signed Oyster Watch Co.*
width 47 mm

The Royal Italian Navy began commissioning pieces such as the present lot from Panerai in the mid 1930s. The firm then developed the Radiomir Type B, ref 3646 for the Navy's frogmen, who specialized in under water military missions.

The present lot was acquired by Captain John Maxted Coltart, a member of the Black Watch Regiment and the Gordon Highlanders of the 15th Scottish Regiment. He participated in the critical crossing of the Elbe in April 1945, and upon completion of his duties he returned with several souvenirs from the war. The back of the present Panerai 3646 is thusly engraved commemorating the last battle Coltart took part in. The watch survives with an intense darkening of the sandwich dial numerals and all the original parts of its complex screwed-in case.

Eberhard

A LARGE STAINLESS STEEL SINGLE BUTTON
CHRONOGRAPH WRISTWATCH WITH
REGISTERS
CASE 1019931 CIRCA 1940

- manual winding nickel lever movement, 17 jewels • silvered dial, applied Arabic numerals, and dart indexes, baton hands, blued steel chronograph hand, engine turned subsidiary dials for constant seconds, and 30 minute register, outer minute and 1/5 second divisions, outermost tachometer scale • stainless steel case, faceted down turned lugs, rectangular single button chronograph pusher at 2, faux pusher at 4, soldered spring bars, solid snap on case back • *case, dial, and movement signed*
diameter 39.5 mm

Though the present lot has two chronograph buttons on the case, all chronograph functions are controlled by solely the top button. The distinctive monopusher movement was almost exclusively produced by Valjoux for Eberhard. The second button on this model serves both as an aesthetic accent, and also acts as a "sliding lock" mechanism. When slid towards the crown, it locks the chronograph hands, preventing an accidental re-set of the function.

RETAILED BY ORVIS: A STAINLESS
STEEL TIDE INDICATOR CHRONOGRAPH
WRISTWATCH
REF 2446 SF CASE 198083 SOLUNAGRAPH
CIRCA 1970

- cal. 721 manual winding nickel lever movement, 17 jewels • anthracite dial, applied faceted baton indexes with luminescent markers, luminescent Obélisque hands, engine turned silvered subsidiary dials for constant seconds, 30 minute, and 12 hour registers, outer minute and 1/5 second divisions • stainless steel case, black bezel calibrated for 60 units, chronograph pushers, tide indication pusher, solid snap on case back • case and movement signed by maker, dial signed by retailer

diameter 41 mm

Accompanied by an Orvis guarantee and a presentation box with outer packaging.

Heuer began to produce its tide indication chronographs in the 1950s for a retailer of outdoor and camping equipment. Originally marketed as the "Seafarer," Solunagraphs specifically appealed to adventurers and outdoors men due to the register displaying tide indications on the dial. This complication is based on John Alden Knight's "solunar theory," which suggests that fisherman, huntsmen and sailors could determine the best dates and times to hunt and fish based on tide patterns.

The outdoor retailer Orvis commissioned Heuer to produce their own model of the Seafarer. While the model previously had been marketed under other names, Heuer specifically marketed models retailed by Orvis as the Solunagraph. The Solunagraphs are double signed on the dial by both Orvis and Heuer.

diameter 44 mm

Accompanied by an Officine Panerai International Warranty card stamped by the retailer, and a Certificate of Conformity within a Registration and Service booklet. Together with one screw driver and a presentation box.

Founded in 1860, Panerai was the official supplier of watches and precision instruments to the Regia Marina (the Royal Italian Navy), and later launched the brand for the civilian market in 1993. Watches produced during the rebirth of Panerai to the consumer market until its acquisition by the Vendôme group in 1996/97, are often coined "pre-Vendôme" models.

The basic pre-Vendôme range consisted of some 44mm hand-wind watches with the classic 44mm Luminor case, and some 42mm Mare Nostrum chronographs.

The 'logo' Luminor is coined for its distinctive "OP" signature on the dial. A total of 889 watches were made, with 12 reworked as SlyTech Submersible 5218-201/A, 95 reworked as SlyTech Submersible 5218-205/A and 105 reworked as SlyTech Daylight 5218-207/A.

- stainless steel Oyster case, screw down crown and inscribed case back, *later* blue and red bi directional rotating bezel
- case, dial, and movement signed

diameter 38.5 mm, bracelet circumference approximately 178 mm

The present lot features a beautifully aged tropical dial with dark brown hues, vibrant and well preserved golden markers.

By 1953, The commercial trans-Atlantic airline industry was advanced and booming. Passengers took off on one side of the ocean, and arrived on the other in a matter of hours. During this golden age of commercial flight, Pan American Airlines approached Rolex to begin working on a dual time wristwatch appropriate for trans-Atlantic travel.

When Ref. 6542, the first GMT-Master, was released in 1954, it became the official timepiece of Pan-Am Airlines. Their pilots found the watch to be a useful tool in the cockpit where many timing calculations were necessary over the duration of the flight.

REF 1675 CASE 1117402 GMT-MASTER CIRCA 1965

• cal. 1570 automatic nickel lever movement, 26 jewels • brown dial, applied yellow gold luminescent triangular, dot, and baton indexes, yellow gold luminescent Mercedes hands, arrow hand for second time zone, center seconds, magnified aperture for date, outer minute divisions • 18k yellow gold *Oyster* case, revolving brown bezel calibrated for 24 units, screw

down crown and solid case back • case, dial, and movement signed • with an 18k yellow gold expanding Rolex rivet bracelet and folding clasp diameter 39.5 mm, bracelet circumference approximately 178 mm

Accompanied by a Rolex presentation box with outer packaging.

The Rolex reference 1675, was originally released in 1960 and became available in stainless steel, yellow gold, and two toned: stainless steel and yellow gold. The steel model was the first GMT-Master to feature crown guards, whereas the gold versions, such as the present lot, retained the earlier design without shoulders for a longer production period.

Yellow gold models were made in smaller production numbers and are rarer than their steel counterparts. Further, the present lot remains in exceptional condition with crisp case details, and original bezel, insert, and hands.

Rolex

A STAINLESS STEEL AUTOMATIC CENTER SECONDS WRISTWATCH WITH POINTED CROWN GUARDS
REF 5512 CASE 693580 SUBMARINER CIRCA 1961

- cal. 1570 automatic lever movement, 26 jewels
- black matte dial, luminescent triangular, dot, and baton indexes, luminescent Mercedes hands, center seconds, gilt outer minute divisions
- stainless steel Oyster case, black revolving bezel calibrated for 60 units, pointed crown guards, screw down crown and solid case back
- case, dial, and movement signed

diameter 39.5 mm

The reference 5512 was introduced in 1959 as the first Submariner model to feature the now iconic protective crown guard case. The second generation features a chronometer grade caliber, and is further identified by the fine gilt and silvered four line print to the dial for depth measure and chronometer certification. This second series, of which the present lot belongs, also features pointed crown guards. The pointed crown guards were retired by the end of the 1960s, making this particular piece highly collectible among Rolex aficionados.

Vacheron Constantin

A STEEL AND PINK GOLD RECTANGULAR WRISTWATCH

MVT 418712 CASE 258972 CIRCA 1940

- tonneau form manual winding lever movement
- silvered dial, black Arabic numerals, outer pink gold reserve, pink gold hands, blued steel seconds, inner minute track • staybrite steel and 18k pink gold rectangular case, solid snap on case back • case, dial, and movement signed length 37.5 mm

Until 1955, Vacheron Constantin's timeline was misunderstood to have begun with Abraham Vacheron in 1785. The present lot is signed and printed with *Jubilé*, to celebrate their supposed 150th anniversary in 1935. Today, we celebrate Vacheron Constantin's uninterrupted history dating back to 1775. The present lot is a peculiar example of Vacheron's previously unknown historical timeline.

Patek Philippe

A RARE YELLOW GOLD CHRONOGRAPH
WRISTWATCH WITH REGISTERS
REF 1579 MVT 868855 CASE 693223
CIRCA MADE IN 1956

- cal. 13''' manual winding nickel lever movement, 23 jewels, bi metallic compensation balance • silvered dial, applied yellow gold Arabic numerals and square indexes, yellow gold Feuille hands, blued steel chronograph hand, subsidiary dials for constant seconds, and 30 minute register, outer minute and 1/5 second divisions, outermost tachometer scale • 18k yellow gold case, down turned faceted lugs, inscribed snap on case back • case, dial, and movement signed diameter 36 mm

Accompanied by a Patek Philippe Extract from the Archives confirming the year of manufacture in 1956, and sale on August 7th, 1957.

With its distinctive lugs and square buttons, Ref. 1579 is among Patek Philippe's most iconic chronograph wristwatches. Launched in 1943, this model easily distinguished itself from other chronographs of the era due to its larger size and faceted lugs, which earned the name "spider lugs" due to their unique angular design. The firm began to replace the original enamel baton indexes in 1950 with the applied square indexes seen on the present lot. The 36 mm diameter of this reference is unusually large for vintage pieces, adding a timeless quality to each watch and making them more desirable today than when originally sold.

The movement of an example from this reference is illustrated in Martin Huber & Alan Banbery, Patek Philippe Wristwatches, vol. 2, 2nd ed., p. 265.

A RARE YELLOW GOLD RECTANGULAR
WRISTWATCH WITH FLARED SIDES
REF 2442 MVT 971489 CASE 655213
'BANANA' MADE IN 1949

• cal. 9-90 manual winding nickel lever movement, 18 jewels • silvered dial, applied yellow gold Arabic numerals and faceted baton indexes, 18k yellow gold Feuille hands, subsidiary seconds • 18k yellow gold rectangular case with flared sides, inscribed snap on case back • case, dial, and movement signed • with an 18k yellow gold Patek Philippe buckle
length 43 mm

Accompanied by a Patek Philippe Extract from the Archives confirming the date of sale on October 25th, 1949.

Ref. 2442 was produced from 1949 to approximately 1960. Fewer than 200 examples were produced over this time, making the present lot extremely rare and attractive for collectors. The present lot is especially well preserved with plump and voluminous flared sides, and a crisp hallmark to the upper lug band.

The present lot was gifted to Mr. Robert E. Hightower, whose distinguished family founded the Thomaston Mills Inc. textile company in 1899.

Ref. 2442 is illustrated in Martin Huber & Alan Banbery, Patek Philippe Wristwatches, 1998, 2nd ed., p. 136.

Patek Philippe

A LARGE YELLOW GOLD CUSHION FORM CENTER SECONDS WRISTWATCH WITH DATE REF 3597/2 MVT 6096 CASE 2720555 'BETA 21' MADE IN 1972

• cal. B-21 quartz movement, 13 jewels • two toned gilt dial, applied yellow gold baton indexes, baton hands, center seconds, aperture for date, outer minute divisions • large 18k yellow gold cushion form case without lugs, solid screw down case back • case, dial, and movement signed • with an 18k yellow gold integrated grill form bracelet and folding clasp length 42 mm, bracelet circumference approximately 178 mm

Accompanied by a Patek Philippe Extract from the Archives confirming the year of manufacture in 1972, and sale on September 5th, 1973 with a yellow gold bracelet.

Reference 3587 was launched in 1969, later becoming 3597 in 1973. The Beta-21 is a historically significant timepiece, conceived by Patek Philippe during the 1970s quartz era.

\$ 25,000-35,000
€ 21,000-29,300
HK\$ 196,000-274,000

PROPERTY FROM THE FAMILY OF THE ORIGINAL OWNER

Patek Philippe

RETAILED BY SERPICO Y LAINO, CARACAS:
A FINE AND VERY RARE WHITE GOLD AND
DIAMOND SET AUTOMATIC WRISTWATCH
WITH BRACELET
REF 2526 MVT 763379 CASE 694838 MADE
IN 1956

- cal. 12-600AT automatic nickel lever movement, stamped with the seal of Geneva, 30 jewels, Gyromax balance, 18k yellow gold engine turned rotor • silvered dial, applied white gold faceted baton and diamond set indexes at the quarters, Dauphine hands, subsidiary seconds, outer dot minute divisions • 18k white gold case, solid screw down case back • *movement signed by maker, dial and case signed by maker and retailer*
- with an 18k white gold brick-form bracelet *signed by maker and retailer*
diameter 35 mm

Accompanied by a Patek Philippe Extract from the Archives confirming the year of manufacture in 1956, and sale on April 10th, 1957, with silvered dial and diamond hour markers, as well as white gold bracelet.

Purchased at the illustrious and fabled Serpico y Laino boutique in Caracas in the late 1950s, the present lot figures among the rarest of vintage

watches. The reference 2526 is one of the most important models in Patek Philippe's history, having been introduced in 1953 as the firm's first self-winding watch featuring the 12-600 AT movement.

According to our research, this offering represents the first time a white gold example of Ref. 2526 with the Serpico y Laino retailer's mark. This distinction does not take into account the numerous additional factors of note for the present lot, each of which, alone, would be noteworthy: the fact that white gold examples are the rarest of all Ref. 2526 watches to appear at auction, even more so than platinum examples; the sumptuously flexible Extract-confirmed, triple-signed Gay Frères, Patek Philippe and Serpico y Laino bracelet.

Any student of vintage Patek Philippe would hope for a 'standard' Ref. 2526 to complete an essential part of their collection. The present lot, with its innumerable points of interest and fascination, would transform a collection into a veritable museum.

Production of the Ref. 2526 ceased in 1960.

Sotheby's is pleased to offer the present lot for the first time at auction on behalf of the family of the original owner.

THE EARLIEST KNOWN REF 3450 WITH RED DOT LEAP YEAR INDICATION

993

PROPERTY OF A DESCENDANT OF THE ORIGINAL OWNER

Patek Philippe

A HIGHLY IMPORTANT AND RARE YELLOW GOLD AUTOMATIC PERPETUAL CALENDAR WRISTWATCH WITH MOON PHASES AND RED DOT LEAP YEAR INDICATION

REF 3450 MVT 1119588 CASE 2788613
MADE IN 1981

- cal. 27-460Q automatic movement, stamped twice with the seal of Geneva, 37 jewels • silvered dial, applied 18k yellow gold faceted baton and square indexes, apertures for day and month in English, fan form sector for moon phases combined with date, aperture for leap year with Arabic numerals and red dot leap year indication • 18k yellow gold case, chamfered bezel and lugs, Calatrava crown, solid snap on case back • case, dial, and movement signed • with an 18k yellow gold Patek Philippe buckle diameter 38 mm

Accompanied by a Patek Philippe Extract from the Archives confirming sale on September 29, 1981, with applied yellow gold indexes, and red leap year indicator. Together with a Patek Philippe presentation box with outer packaging.

The present example, belonging to the illustrious 'red dot' first series of reference 3450, is, according to our research, chronologically the first example of red dot reference 3450 to appear at auction. Movement number 1119586, offered at Antiquorum recently, was a reference 3450 with no leap year indication, and thus far movement number 1119587 has not appeared in public auction. The present lot, movement number 1119588, is therefore the earliest of the dozen 'known' red dot reference 3450 watches to appear at auction.

Production of reference 3450 began in 1981 and ceased in 1985. In total, only 244 examples were made. 1981 and early 1982 were the only years of production for the first series examples, featuring a red dot for the leap year and Arabic numerals for 1, 2 and 3. It is estimated that these account for perhaps about 10% of the total production run. In 1982, the leap year display was updated to feature only Roman numerals I, II, III and IV.

Both the 3448 and 3450 are beloved for their striking, angular case shapes, which straddle the line between 'vintage' and 'modern' from a design and historical perspective. The chunky and bold presence of the watch on the wrist was

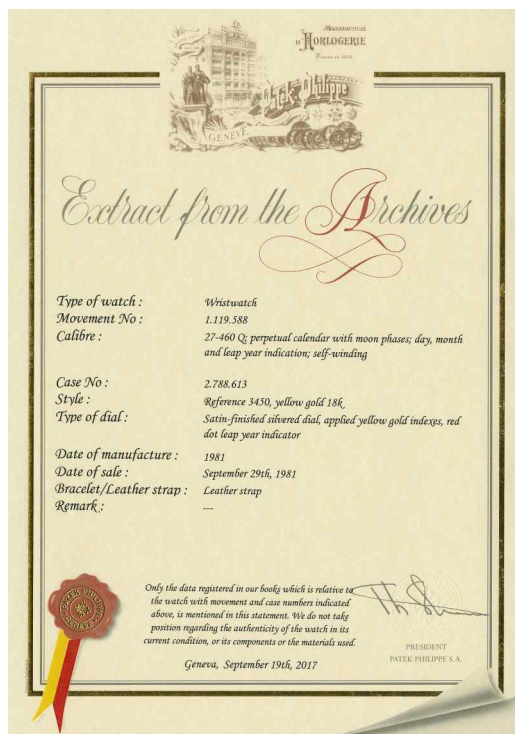

a departure from the ultra-slim dress watches favored at the time of their production. Almost inconceivably to collectors today, when first introduced, the models were not terribly popular and often sold years after production, sometimes even at discounted prices. They were ahead of their time aesthetically, but today collectors have caught up with full appreciation for the modern and timeless design.

The present lot is exemplary of why the reference is so beloved by collectors today. Its lines remain clear and its edges remain sharp; a well-preserved example of this reference, such as the present, is both a visual and tactile joy to behold. Sotheby's is honored to offer this piece for the first time at auction, and to present the earliest known 'red dot' example to the market for students and collectors alike.

For an example of this reference, see Huber, M. & Banbery, A., *Patek Philippe Wristwatches*, pp. 290-291.

GUIDE FOR ABSENTEE AND TELEPHONE BIDDERS

If you are unable to attend an auction in person, you may give Sotheby's Bid Department instructions to bid on your behalf by completing the form overleaf. This service is confidential and available at no additional charge.

General

This service is free and confidential.

Please record accurately the lot numbers, descriptions and the top hammer price you are willing to pay for each lot.

We will try to purchase the lot(s) of your choice for the lowest price possible and never for more than the maximum bid amount you indicate.

"Buy" or unlimited bids will not be accepted.

Alternative bids can be placed by using the word "OR" between lot numbers. Then if your bid on an early lot is successful, we will not continue to bid on other lots for you. Or, if your early bids are unsuccessful, we will continue to execute bids for alternative lots until a bid is successful.

Bids must be placed in the same order as in the catalogue.

The form should be used for one sale only – please indicate the sale number, title and date on the form.

Please place your bids as early as possible, as in the event of identical bids the earliest received will take precedence. Wherever possible bids should be submitted at least twenty-four hours before the auction.

Where appropriate, your bids will be rounded down to the nearest amount consistent with the auctioneer's bidding increments.

Absentee bids, when placed by telephone, are accepted only at the caller's risk and must be confirmed by letter or fax to the Bid Department on +1 212 606 7016.

Please note that the execution of written bids is offered as an additional service for no extra charge at the bidder's risk and is undertaken subject to Sotheby's other commitments at the time of the auction; Sotheby's therefore cannot accept liability for error or failure to place such bids, whether through negligence or otherwise.

Successful bidders will receive an invoice detailing their purchases and giving instructions for payment and clearance of goods. Unsuccessful bidders will be advised.

Please note Sotheby's reserves the right to refuse to accept payment from a source other than the buyer of record.

All bids are subject to the conditions of sale and terms of guarantee applicable to the sale printed in the sale catalogue. Buyer's premium in the amount stated in paragraph 3 of the Conditions of Sale in the back of the sale catalogue will be added to the hammer price as part of the total purchase price, plus any applicable sales tax.

In the event that you are successful, payment is due immediately after the sale unless otherwise agreed in advance. Payment may be made by bank transfer, credit card (which may be subject to a convenience fee), check or cash (up to US\$10,000). You will be sent full details on how to pay with your invoice. It is against Sotheby's general policy to accept single or multiple related payments in the form of cash or cash equivalents in excess of US\$10,000.

It is Sotheby's policy to request any new clients or purchasers preferring to make a cash payment to provide: proof of identity (by providing some form of government issued identification containing a photograph, such as a passport, identity card or driver's license) and confirmation of permanent address.

We reserve the right to seek identification of the source of funds received.

Data Protection

Sotheby's will use information provided by its clients (or which Sotheby's otherwise obtains from eBay or other sources relating to its clients) for the provision of auction and other art-related services, loan services, client administration, marketing and otherwise to manage and operate its business, or as required by law, in accordance with Sotheby's Privacy Policy. This will include information such as the client's name and contact details, proof of identity, financial information, records of the client's transactions, and preferences. Some gathering of information about Sotheby's clients will take place using technical means to identify their preferences in order to provide a higher quality of service to them. Sotheby's may also disclose the client information to other Sotheby's Companies and/or third parties acting on their behalf to provide services for these purposes.

Sometimes, Sotheby's may also disclose this information to carefully selected third parties for their own marketing purposes. If you do not wish your details to be used for this purpose, please email enquiries@sothebys.com.

If the client provides Sotheby's with information that is defined by European data protection laws as "sensitive", the client agrees that it may be used for the purposes set out above.

In the course of these disclosures, personal data collected in the European Economic Area may be disclosed to countries outside the European Economic Area. Although such countries may not have legislation that protects a client's personal information, Sotheby's shall take great care to keep such information secure and in accordance with European data protection principles. By agreeing to these Conditions of Business, the client is agreeing to such disclosure.

Please be aware that Sotheby's may film auctions or other activities on Sotheby's premises and that such recordings may be transmitted over the Internet via Sotheby's website, the eBay website and other Online Platforms. Telephone bids may be recorded.

Under European data protection laws, a client may object, by request and free of charge, to the processing of their information for certain purposes, including direct marketing, and may access and rectify personal data relating to them and may obtain more information about Sotheby's data protection policies by writing to Sotheby's, 34-35 New Bond Street, London W1A 2AA, or 1334 York Avenue, New York, NY 10021, Attn: Compliance, or emailing enquiries@sothebys.com. Sotheby's use of information collected about eBay users may differ and is governed by the terms of the eBay Privacy Policy and Sotheby's on eBay Live Auction Platform Privacy Policy, which can be found on the Sotheby's on eBay Live Auction Website.

Important

Please note that the execution of written and telephone bids is offered as an additional service for no extra charge, and at the bidder's risk. It is undertaken subject to Sotheby's other commitments at the time of the auction. Sotheby's therefore cannot accept liability for failure to place such bids, whether through negligence or otherwise. All bids will be executed and are accepted subject to the "Conditions of Sale" and "Terms of Guarantee" printed in the catalogue for the sale. Please note that a buyer's premium in the amount stated in paragraph 3 of the "Conditions of Sale" in the back of the sale catalogue will be added to the hammer price as part of the total purchase price, plus any applicable sales tax.

New Clients

Please note that we may contact you to request a bank reference. In addition Sotheby's requires a copy of government issued photo ID in order to generate a new account. If you have opened a new account with Sotheby's since 1 December, 2002, and have not already done so, you will be asked to present appropriate documentation confirming your identity before your lots or sale proceeds can be released to you.

For Written/Fixed Bids

- Bids will be executed for the lowest price as is permitted by other bids or reserves.
- "Buy" or unlimited bids will not be accepted and we do not accept "plus one" bids. Please place bids in the same order as in the catalogue.
- Always indicate a "top limit" — the amount up to which you would bid if you were attending the auction yourself.
- Alternative bids can be placed by using the word "or" between lot numbers.
- Where appropriate your written bids will be rounded down to the nearest amount consistent with the auctioneer's bidding increments.

For Telephone Bids

Please clearly specify the telephone number on which you may be reached at the time of the sale, including the country code. We will call you from the saleroom shortly before your lot is offered.

CONDITIONS OF SALE

The following Conditions of Sale and Terms of Guarantee are Sotheby's, Inc. and the Consignor's entire agreement with the purchaser and any bidders relative to the property listed in this catalogue.

The Conditions of Sale, Terms of Guarantee, the glossary, if any, and all other contents of this catalogue are subject to amendment by us by the posting of notices or by oral announcements made during the sale. The property will be offered by us as agent for the Consignor, unless the catalogue indicates otherwise.

By participating in any sale, you acknowledge that you are bound by these terms and conditions.

1. **As Is** Goods auctioned are often of some age. The authenticity of the Authorship (as defined below) of property listed in the catalogue is guaranteed as stated in the Terms of Guarantee and except for the Limited Warranty contained therein, all property is sold "AS IS" without any representations or warranties by us or the Consignor as to merchantability, fitness for a particular purpose, the correctness of the catalogue or other description of the physical condition, size, quality, rarity, importance, medium, frame, provenance, exhibitions, literature or historical relevance of any property and no statement anywhere, whether oral or written, whether made in the catalogue, an advertisement, a bill of sale, a salesroom posting or announcement, or elsewhere, shall be deemed such a warranty, representation or assumption of liability. We and the Consignor make no representations and warranties, express or implied, as to whether the purchaser acquires any copyrights, including but not limited to, any reproduction rights in any property. We and the Consignor are not responsible for errors and omissions in the catalogue, glossary, or any supplemental material. Sotheby's will not be responsible or liable for damage to frames and glass coverings, regardless of the cause.

2. **Inspection** Prospective bidders should inspect the property before bidding to determine its condition, size, and whether or not it has been repaired or restored.

3. **Buyer's Premium** A buyer's premium will be added to the hammer price and is payable by the purchaser as part of the total purchase price. The buyer's premium is 25% of the hammer price up to and including \$300,000, 20% of any amount in excess of \$300,000 up to and including \$3,000,000, and 12.9% of any amount in excess of \$3,000,000.

4. **Withdrawal** We reserve the right to withdraw any property before the sale and shall have no liability whatsoever for such withdrawal.

5. **Per Lot** Unless otherwise announced by the auctioneer, all bids are per lot as numbered in the catalogue.

6. **Bidding** We reserve the right to reject any bid. The highest bidder acknowledged

by the auctioneer will be the purchaser. The auctioneer has absolute and sole discretion in the case of error or dispute with respect to bidding, and whether during or after the sale, to determine the successful bidder, to re-open the bidding, to cancel the sale or to re-offer and re-sell the item in dispute. If any dispute arises after the sale, our sale record is conclusive. In our discretion we will execute order or absentee bids and accept telephone bids and online bids via BIDnow, eBay, Invaluable or other online platforms as a convenience to clients who are not present at auctions; Sotheby's is not responsible for any errors or omissions in connection therewith. Prospective bidders should also consult sothebys.com for the most up to date cataloguing of the property in this catalogue.

By participating in the sale, you represent and warrant that any bids placed by you, or on your behalf, are not the product of any collusive or other anti-competitive agreement and are otherwise consistent with federal and state antitrust law.

In order to bid on "Premium Lots" you must complete the required Premium Lot pre-registration application. Sotheby's decision whether to accept any pre-registration application shall be final. You must arrange for Sotheby's to receive your pre-registration application at least three working days before the sale. Please bear in mind that we are unable to obtain financial references over weekends or public holidays.

Sotheby's may require such necessary financial references, guarantees, deposits and/or such other security, in its absolute discretion, as security for your bid(s).

7. **Online Bids via BIDnow or other Online Platforms:** Sotheby's may offer clients the opportunity to bid online via BIDnow, eBay, Invaluable or other Online Platforms for selected sales. By participating in a sale via any of these Online Platforms, you acknowledge that you are bound by these Conditions of Sale as well as the Additional Terms and Conditions for Live Online Bidding ("Online Terms"). By participating in a sale via any Online Platform, Bidders accept the Online Terms, as well as the relevant Conditions of Sale. Online bidding may not be available for Premium Lots.

8. **Bids Below Reserve** If the auctioneer determines that any opening bid is below the reserve of the article offered, he may reject the same and withdraw the article from sale, and if, having acknowledged an opening bid, he determines that any advance thereafter is insufficient, he may reject the advance.

9. **Purchaser's Responsibility** Subject to fulfillment of all of the conditions set forth herein, on the fall of the auctioneer's hammer, the contract between the consignor and the purchaser is concluded, and the winning bidder thereupon will immediately pay the full purchase price or such part as we may require. Title in a purchased lot will not pass until Sotheby's has received the full purchase price in cleared funds. The purchaser's obligation to immediately pay the full purchase price or such part as we may require is absolute and unconditional and is not subject to any

defenses, setoffs or counterclaims of any kind whatsoever. Sotheby's is not obligated to release a lot to the purchaser until title to the lot has passed and any earlier release does not affect the passing of title or the purchaser's unconditional obligation to pay the full purchase price. In addition to other remedies available to us by law, we reserve the right to impose from the date of sale a late charge of the annual percentage rate of Prime + 6% of the total purchase price if payment is not made in accordance with the conditions set forth herein. Please note Sotheby's reserves the right to refuse to accept payment from a source other than the buyer of record.

Unless otherwise agreed by Sotheby's, all property must be removed from our premises by the purchaser at his expense not later than 30 calendar days following its sale. Buyers are reminded that Sotheby's liability for loss or damage to sold property shall cease no later than 30 calendar days after the date of the auction. If any applicable conditions herein are not complied with by the purchaser, the purchaser will be in default and in addition to any and all other remedies available to us and the Consignor by law, including, without limitation, the right to hold the purchaser liable for the total purchase price, including all fees, charges and expenses more fully set forth herein, we, at our option, may (x) cancel the sale of that, or any other lot or lots sold to the defaulting purchaser at the same or any other auction, retaining as liquidated damages all payments made by the purchaser, or (y) resell the purchased property, whether at public auction or by private sale, or (z) effect any combination thereof. In any case, the purchaser will be liable for any deficiency, any and all costs, handling charges, late charges, expenses of both sales, our commissions on both sales at our regular rates, legal fees and expenses, collection fees and incidental damages. We may, in our sole discretion, apply any proceeds of sale then due or thereafter becoming due to the purchaser from us or any affiliated company, or any payment made by the purchaser to us or any affiliated company, whether or not intended to reduce the purchaser's obligations with respect to the unpaid lot or lots, to the deficiency and any other amounts due to us or any affiliated companies. In addition, a defaulting purchaser will be deemed to have granted and assigned to us and our affiliated companies, a continuing security interest of first priority in any property or money of or owing to such purchaser in our possession, custody or control or in the possession, custody or control of any of our affiliated companies, in each case whether at the time of the auction, the default or if acquired at any time thereafter, and we may retain and apply such property or money as collateral security for the obligations due to us or to any affiliated company of ours. We shall have all of the rights accorded a secured party under the New York Uniform Commercial Code. You hereby agree that Sotheby's may file financing statements under the New York Uniform Commercial Code without your signature. Payment will not be deemed to have been made in full until we have

collected good funds. Any claims relating to any purchase, including any claims under the Conditions of Sale or Terms of Guarantee, must be presented directly to Sotheby's. In the event the purchaser fails to pay any or all of the total purchase price for any lot and Sotheby's nonetheless elects to pay the Consignor any portion of the sale proceeds, the purchaser acknowledges that Sotheby's shall have all of the rights of the Consignor to pursue the purchaser for any amounts paid to the Consignor, whether at law, in equity, or under these Conditions of Sale.

10. **Reserve** All lots in this catalogue are offered subject to a reserve, which is the confidential minimum hammer price at which a lot will be sold. No reserve will exceed the low presale estimate stated in the catalogue, or as amended by oral or posted notices. We may implement such reserve by opening the bidding on behalf of the Consignor and may bid up to the amount of the reserve, by placing successive or consecutive bids for a lot, or bids in response to other bidders. In instances where we have an interest in the lot other than our commission, we may bid up to the reserve to protect such interest. In certain instances, the Consignor may pay us less than the standard commission rate where a lot is "bought-in" to protect its reserve.

11. **Tax** Unless exempted by law, the purchaser will be required to pay the combined New York State and local sales tax, any applicable compensating use tax of another state, and if applicable, any federal luxury or other tax, on the total purchase price. The rate of such combined tax is 8.875% in New York City and ranges from 7% to 8.625% elsewhere in New York.

12. **Export and Permits** It is the purchaser's sole responsibility to identify and obtain any necessary export, import, firearm, endangered species or other permit for the lot. Any symbols or notices in the sale catalogue reflect Sotheby's reasonable opinion at the time of cataloguing and are for bidders' general guidance only; Sotheby's and the Consignor make no representations or warranties as to whether any lot is or is not subject to export or import restrictions or any embargoes.

13. **Governing Law and Jurisdiction** These Conditions of Sale and Terms of Guarantee, as well as bidders', the purchaser's and our respective rights and obligations hereunder, shall be governed by and construed and enforced in accordance with the laws of the State of New York. By bidding at an auction, whether present in person or by agent, order bid, telephone, online or other means, all bidders including the purchaser, shall be deemed to have consented to the exclusive jurisdiction of the state courts of, and the federal courts sitting in, the State of New York. All parties agree, however, that Sotheby's shall retain the right to bring proceedings in a court other than the state and federal courts sitting in the State of New York.

14. Packing and Shipping We are not responsible for the acts or omissions in our packing or shipping of purchased lots or of other carriers or packers of purchased lots, whether or not recommended by us. Packing and handling of purchased lots is at the entire risk of the purchaser.

15. Limitation of Liability In no event will our liability to a purchaser exceed the purchase price actually paid.

16. Data Protection Sotheby's will use information provided by its clients (or which Sotheby's otherwise obtains from eBay, Invaluable or other sources relating to its clients) for the provision of auction and other art-related services, loan services, client administration, marketing and otherwise to manage and operate its business, or as required by law, in accordance with Sotheby's Privacy Policy. This will include information such as the client's name and contact details, proof of identity, financial information, records of the client's transactions, and preferences. Some gathering of information about Sotheby's clients will take place using technical means to identify their preferences in order to provide a higher quality of service to them. Sotheby's may also disclose the client information to other Sotheby's Companies and/or third parties acting on their behalf to provide services for these purposes.

Sometimes, Sotheby's may also disclose this information to carefully selected third parties for their own marketing purposes. If you do not wish your details to be used for this purpose, please email enquiries@sothebys.com.

If the client provides Sotheby's with information that is defined by European data protection laws as "sensitive", the client agrees that it may be used for the purposes set out above.

In the course of these disclosures, personal data collected in the European Economic Area may be disclosed to countries outside the European Economic Area. Although such countries may not have legislation that protects a client's personal information, Sotheby's shall take great care to keep such information secure and in accordance with European data protection principles. By agreeing to these Conditions of Sale, the client is agreeing to such disclosure.

Please be aware that Sotheby's may film auctions or other activities on Sotheby's premises and that such recordings may be transmitted over the Internet via Sotheby's website, the eBay website, the Invaluable website and other Online Platforms. Telephone bids may be recorded.

Under European data protection laws, a client may object, by request and free of charge, to the processing of their information for certain purposes, including direct marketing, and may access and rectify personal data relating to them and may obtain more information about Sotheby's data protection policies by writing to Sotheby's, 34-35 New Bond Street, London W1A 2AA, or 1334 York Avenue, New York, NY 10021. Attn: Compliance, or emailing enquiries@sothebys.com. Sotheby's use of information collected about eBay users

may differ and is governed by the terms of the eBay Privacy Policy and Sotheby's on eBay Live Auction Platform Privacy Policy, which can be found on the Sotheby's on eBay Live Auction Website. Sotheby's use of information collected about Invaluable users may differ and is governed by the terms of the Invaluable Privacy Policy and Sotheby's on Invaluable Online Platform Privacy Policy, which can be found on the Sotheby's on Invaluable Live Auction Website.

TERMS OF GUARANTEE

As set forth below and in the Conditions of Sale, for all lots Sotheby's guarantees that the authorship, period, culture or origin (collectively, "Authorship") of each lot in this catalogue is as set out in the **BOLD** or **CAPITALIZED** type heading in the catalogue description of the lot, as amended by oral or written salesroom notes or announcements. Purchasers should refer to the Glossary of Terms, if any, for an explanation of the terminology used in the Bold or Capitalized type heading and the extent of the Guarantee. Sotheby's makes no warranties whatsoever, whether express or implied, with respect to any material in the catalogue other than that appearing in the Bold or Capitalized heading and subject to the exclusions below.

In the event Sotheby's in its reasonable opinion deems that the conditions of the Guarantee have been satisfied, it shall refund to the original purchaser of record the hammer price and applicable Buyer's Premium paid for the lot by the original purchaser of record.

This Guarantee is provided for a period of five (5) years from the date of the relevant auction, is solely for the benefit of the original purchaser of record at the auction and may not be transferred to any third party. To be able to claim under this Guarantee of Authorship, the original purchaser of record must: (i) notify Sotheby's in writing within three (3) months of receiving any information that causes the original purchaser of record to question the accuracy of the Bold or Capitalized type heading, specifying the lot number, date of the auction at which it was purchased and the reasons for such question; and (ii) return the Lot to Sotheby's at the original selling location in the same condition as at the date of sale to the original purchaser of record and be able to transfer good title to the Lot, free from any third party claims arising after the date of such sale.

Sotheby's has discretion to waive any of the above requirements. Sotheby's may require the original purchaser of record to obtain at the original purchaser of record's cost the reports of two independent and recognized experts in the field, mutually acceptable to Sotheby's and the original purchaser of record. Sotheby's shall not be bound by any reports produced by the original purchaser of record, and reserves the right to seek additional expert advice at its own expense. It is specifically understood and agreed that the rescission of a sale and the refund of the original purchase price paid (the successful

hammer price, plus the buyer's premium) is exclusive and in lieu of any other remedy which might otherwise be available as a matter of law, or in equity. Sotheby's and the Consignor shall not be liable for any incidental or consequential damages incurred or claimed, including without limitation, loss of profits or interest.

ADDITIONAL TERMS AND CONDITIONS FOR LIVE ONLINE BIDDING

The following terms and conditions (the "Online Terms") provide important information related to live online bidding via BIDnow, eBay, Invaluable, and any other Online Platform through which bidding is made available ("Online Platforms").

These Conditions are in addition to and subject to the same law and our standard terms and conditions of sale, including the authenticity guarantee and any other terms and are not intended in any way to replace them. By participating in this sale via any Online Platform, you acknowledge that you are bound by the Conditions of Sale applicable in the relevant sale and by these additional Conditions.

1. The procedure for placing bids via Online Platforms is a one-step process; as soon as the "Bid Now" button is clicked, a bid is submitted. By placing a bid via any Online Platform, you accept and agree that bids submitted in this way are final and that you will not under any circumstances be permitted to amend or retract your bid. If a successful bid is sent to Sotheby's from your computer, phone, tablet, or any other device, you irrevocably agree to pay the full purchase price, including buyer's premium and all applicable taxes and other applicable charges.

2. If you have the leading bid, it will be indicated on the screen with the statement "Bid with you" (on BIDNow) or "You're the highest bidder" (on eBay) or "Bid with you" (on Invaluable). If a bid is placed online simultaneously with a bid placed by a bidder in the room or on the telephone (a "floor" bid), the "floor" bid generally will take precedence; the auctioneer will have the final discretion to determine the successful bidder or to reopen bidding. The auctioneer's decision is final.

3. The next bidding increment is shown on the screen for your convenience. The auctioneer has discretion to vary bidding increments for bidders in the auction room and on the telephones, but bidders using Online Platforms may not be able to place a bid in an amount other than a whole bidding increment. All bidding for this sale will be in the domestic currency of the sale location, and online bidders will not be able to see the currency conversion board that may be displayed in the auction room.

4. The record of sale kept by Sotheby's will be taken as absolute and final in all disputes. In the event of a discrepancy between any online records or messages provided to you and the record of sale kept by Sotheby's, the record of sale will govern.

5. Online bidders are responsible for making themselves aware of all salesroom notices and announcements. All salesroom notices will be read by the auctioneer at the beginning, where appropriate, or during the sale prior to a relevant lot being offered for sale. Sotheby's recommends that online bidders log on at least ten minutes before the scheduled start of the auction to ensure that you have heard all announcements made by the auctioneer at the beginning of the sale.

6. Sotheby's reserves the right to refuse or revoke permission to bid via Online Platforms and to remove bidding privileges during a sale.

7. Purchase information shown in the "Account Activity" section of BIDnow, the "Purchase History" section of the "My eBay" page on eBay and the "Account Activity" section of the "My Invaluable" page on Invaluable is provided for your convenience only. Successful bidders will be notified and invoiced by Sotheby's after the sale. In the event of any discrepancy between any online purchase information and the invoice sent to you by Sotheby's following the respective sale, the invoice prevails. Terms and conditions for payment and collection of property remain the same regardless of how the winning bid was submitted.

8. Sotheby's offers online bidding as a convenience to our clients. Sotheby's will not be responsible for any errors or failures to execute bids placed via Online Platforms, including, without limitation, errors or failures caused by (i) a loss of connection to the internet or to the BIDnow, eBay, Invaluable or other Online Platform software by either Sotheby's or the client; (ii) a breakdown or problem with the BIDnow, eBay, Invaluable or other Online Platform software; or (iii) a breakdown or problem with a client's internet connection, mobile network or computer. Sotheby's is not responsible for any failure to execute an online bid or for any errors or omissions in connection therewith.

9. Live online bidding via all Online Platforms will be recorded.

10. In the event of any conflict between these Online Terms and Sotheby's Conditions of Sale and Terms of Guarantee, Sotheby's Conditions of Sale and Terms of Guarantee will control.

11. In the event of any conflict between these Online Terms and any term in any agreement between the User and eBay, these Online Terms will control for purposes of all Sotheby's auctions.

12. In the event of any conflict between these Online Terms and any term in any agreement between the User and Invaluable, these Online Terms will control for purposes of all Sotheby's auctions.

BUYING AT AUCTION

The following will help in understanding the auction buying process as well as some of the terms and symbols commonly used in an auction catalogue. All bidders should read the Conditions of Sale and Terms of Guarantee in this catalogue, as well as the Glossary or any other notices. By bidding at auction, bidders are bound by the Conditions of Sale and Terms of Guarantee, as amended by any oral announcement or posted notices, which together form the sale contract among Sotheby's, the seller (consignor) of the lot and any bidders, including the successful bidder (purchaser).

1. SYMBOL KEY

□ Reserves

Unless indicated by a box (□), all lots in this catalogue are offered subject to a reserve. A reserve is the confidential minimum hammer price at which a lot will be sold. The reserve is generally set at a percentage of the low estimate and will not exceed the low estimate of the lot. If any lots in the catalogue are offered without reserve, such lots will be designated by a box (□). If every lot in a catalogue is offered without a reserve, the Conditions of Sale will so state and this symbol will not be used for each lot.

○ Guaranteed Property

The seller of lots with this symbol has been guaranteed a minimum price from one auction or a series of auctions. This guarantee may be provided by Sotheby's or jointly by Sotheby's and a third party. Sotheby's and any third parties providing a guarantee jointly with Sotheby's benefit financially if a guaranteed lot is sold successfully and may incur a loss if the sale is not successful. If the Guaranteed Property symbol for a lot is not included in the printing of the auction catalogue, a pre-sale or pre-lot announcement will be made indicating that there is a guarantee on the lot.

△ Property in which Sotheby's has an Ownership Interest

Lots with this symbol indicate that Sotheby's owns the lot in whole or in part or has an economic interest in the lot equivalent to an ownership interest.

⇒ Irrevocable Bids

Lots with this symbol indicate that a party has provided Sotheby's with an irrevocable bid on the lot that will be executed during the sale at a value that ensures that the lot will sell. The irrevocable bidder, who may bid in excess of the irrevocable bid, may be compensated for providing the irrevocable bid by receiving a contingent fee, a fixed fee or both. If the irrevocable bidder is the successful bidder, any contingent fee, fixed fee or both (as applicable) for providing the irrevocable bid may be netted against the irrevocable bidder's obligation to pay the full purchase price for the lot and the purchase price reported for the lot shall be net of any such fees. If the irrevocable bid is not secured until after the printing of the auction catalogue, Sotheby's will notify bidders that there is an irrevocable

bid on the lot by one or more of the following means: a pre-sale or pre-lot announcement, by written notice at the auction or by including an irrevocable bid symbol in the e-catalogue for the sale prior to the auction. If the irrevocable bidder is advising anyone with respect to the lot, Sotheby's requires the irrevocable bidder to disclose his or her financial interest in the lot. If an agent is advising you or bidding on your behalf with respect to a lot identified as being subject to an irrevocable bid, you should request that the agent disclose whether or not he or she has a financial interest in the lot.

✓ Interested Parties

Lots with this symbol indicate that parties with a direct or indirect interest in the lot may be bidding on the lot, including (i) the beneficiary of an estate selling the lot, or (ii) the joint owner of a lot. If the interested party is the successful bidder, they will be required to pay the full Buyer's Premium. In certain instances, interested parties may have knowledge of the reserve. In the event the interested party's possible participation in the sale is not known until after the printing of the auction catalogue, a pre-sale or pre-lot announcement will be made indicating that interested parties may be bidding on the lot.

⊙ Restricted Materials

Lots with this symbol have been identified at the time of cataloguing as containing organic material which may be subject to restrictions regarding import or export. The information is made available for the convenience of bidders and the absence of the symbol is not a warranty that there are no restrictions regarding import or export of the Lot; bidders should refer to Condition 12 of the Conditions of Sale. Please also refer to the section on Endangered Species in the information on Buying at Auction.

Π Monumental

Lots with this symbol may, in our opinion, require special handling or shipping services due to size or other physical considerations. Bidders are advised to inspect the lot and to contact Sotheby's prior to the sale to discuss any specific shipping requirements.

♀ Premium Lot

In order to bid on "Premium Lots" (♀ in print catalogue or ♀ in eCatalogue) you must complete the required Premium Lot pre-registration application. You must arrange for Sotheby's to receive your pre-registration application at least three working days before the sale. Please bear in mind that we are unable to obtain financial references over weekends or public holidays. Sotheby's decision whether to accept any pre-registration application shall be final. If your application is accepted, you will be provided with a special paddle number. If all lots in the catalogue are "Premium Lots", a Special Notice will be included to this effect and this symbol will not be used.

2. BEFORE THE AUCTION

The Catalogue A catalogue prepared by Sotheby's is published for every scheduled live auction and is available prior to the sale

date. The catalogue will help familiarize you with property being offered at the designated auction. Catalogues may be purchased at Sotheby's or by subscription in any categories. For information, please call +1 212 606 7000 or visit sothebys.com. Prospective bidders should also consult sothebys.com for the most up to date cataloguing of the property in this catalogue.

Estimates Each lot in the catalogue is given a low and high estimate, indicating to a prospective buyer a range in which the lot might sell at auction. When possible, the estimate is based on previous auction records of comparable pieces. The estimates are determined several months before a sale and are therefore subject to change upon further research of the property, or to reflect market conditions or currency fluctuations. Estimates should not be relied upon as a representation or prediction of actual selling prices.

Provenance In certain circumstances, Sotheby's may print in the catalogue the history of ownership of a work of art if such information contributes to scholarship or is otherwise well known and assists in distinguishing the work of art. However, the identity of the seller or previous owners may not be disclosed for a variety of reasons. For example, such information may be excluded to accommodate a seller's request for confidentiality or because the identity of prior owners is unknown given the age of the work of art.

Specialist Advice Prospective bidders may be interested in specific information not included in the catalogue description of a lot. For additional information, please contact either a Sotheby's specialist in charge of the sale (all of whom are listed in the front of the catalogue), or Sotheby's Client Services Department. You may also request a condition report from the specialist in charge.

The Exhibition An exhibition of the auction property will be held the week prior to the auction on the days listed in the front of the catalogue. There you will have the opportunity to view, inspect and evaluate the property yourself, or with the help of a Sotheby's specialist.

Salesroom Notices Salesroom notices amend the catalogue description of a lot after our catalogue has gone to press. They are posted in the viewing galleries and salesroom or are announced by the auctioneer. Please take note of them.

Registration Sotheby's may require such necessary financial references, guarantees, deposits and/or such other security, in its absolute discretion, as security for your bid. If you are not successful on any lot, Sotheby's will arrange for a refund (subject to any right of set off) of the deposit amount paid by you without interest within 14 working days of the date of the sale. Any exchange losses or fees associated with the refund shall be borne by you. Registration to bid on Premium Lots must be done at least 3 business days prior to the sale.

3. DURING THE AUCTION

The Auction Auctions are open to the public without any admission fee or obligation to bid. The auctioneer introduces the objects for sale — known as "lots" — in numerical order as listed in the catalogue. Unless otherwise noted in the catalogue or by an announcement at the auction, Sotheby's acts as agent on behalf of the seller and does not permit the seller to bid on his or her own property. It is important for all bidders to know that the auctioneer may open the bidding on any lot by placing a bid on behalf of the seller. The auctioneer may further bid on behalf of the seller, up to the amount of the reserve, by placing responsive or consecutive bids for a lot. The auctioneer will not place consecutive bids on behalf of the seller above the reserve.

Bidding in Person If you would like to bid, you must register for a paddle upon entering the salesroom. The paddle is numbered so as to identify you to the auctioneer. To register, you will need a form of identification such as a driver's license, a passport or some other type of government issued identification. If you are a first-time bidder, you will also be asked for your address, phone number and signature in order to create your account. If you are bidding for someone else, you will need to provide a letter from that person authorizing you to bid on that person's behalf. Issuance of a bid paddle is in Sotheby's sole discretion.

Once the first bid has been placed, the auctioneer asks for higher bids, in increments determined by the auctioneer. To place your bid, simply raise your paddle until the auctioneer acknowledges you. You will know when your bid has been acknowledged; the auctioneer will not mistake a random gesture for a bid.

If you wish to register to bid on a Premium Lot, please see the paragraph above.

All lots sold will be invoiced to the name and address in which the paddle has been registered and cannot be transferred to other names and addresses. Sotheby's reserves the right to refuse to accept payment from a source other than the buyer of record.

Absentee Bidding If it is not possible for you to attend the auction in person, you may place your bid ahead of time. In the back of every catalogue there is an absentee bid form, which you can use to indicate the item you wish to bid on and the maximum bid you are willing to make. Return the completed absentee bid form to Sotheby's either by mail or fax. When the lot that you are interested in comes up for sale, a Sotheby's representative will execute the bid on your behalf, making every effort to purchase the item for as little as possible and never exceeding your limit. This service is free and confidential. For detailed instructions and information, please see the Absentee Bid Form and Guide for Absentee Bidders instructions at the back of this catalogue.

Telephone Bidding In some circumstances, we offer the ability to place bids by telephone live to a Sotheby's representative on the auction floor. Please contact the Bid Department prior to the sale to make arrangements or to answer any questions you may have. Telephone bids are accepted only at Sotheby's discretion and at the caller's risk. Calls may also be recorded at Sotheby's discretion. By bidding on the telephone, prospective buyers consent thereto.

Online Bidding If you cannot attend the auction, it may be possible to bid online via BIDnow, eBay, Invaluable or other Online Platforms for selected sales. This service is free and confidential. For information about registering to bid via BIDnow, please see www.sothebys.com. For information about registering to bid on eBay, please see www.ebay.com/sothebys. For information about registering to bid on Invaluable, please see www.invaluable.com/invaluable/help.cfm. Bidders utilizing any online platform are subject to the Online Terms as well as the relevant Conditions of Sale. Online bidding may not be available for Premium Lots.

Employee Bidding Sotheby's employees may bid in a Sotheby's auction only if the employee does not know the reserve and if the employee fully complies with Sotheby's internal rules governing employee bidding.

US Economic Sanctions The United States maintains economic and trade sanctions against targeted foreign countries, groups and organizations. There may be restrictions on the import into the United States of certain items originating in sanctioned countries, including Burma, Cuba, Iran, North Korea and Sudan. The purchaser's inability to import any item into the US or any other country as a result of these or other restrictions shall not justify cancellation or rescission of the sale or any delay in payment. Please check with the specialist department if you are uncertain as to whether a lot is subject to these import restrictions, or any other restrictions on importation or exportation.

Hammer Price and the Buyer's

Premium For lots which are sold, the last price for a lot as announced by the auctioneer is the hammer price. A buyer's premium will be added to the hammer price and is payable by the purchaser as part of the total purchase price. The buyer's premium will be the amount stated in the Conditions of Sale.

Currency Board As a courtesy to bidders, a currency board is operated in many salesrooms. It displays the lot number and current bid in both U.S. dollars and foreign currencies. Exchange rates are approximations based on recent exchange rate information and should not be relied upon as a precise invoice amount. Sotheby's assumes no responsibility for any error or omission in foreign or United States currency amounts shown.

Results Successful absentee bidders will be notified after the sale. Absentee bidders will receive a list of sale results if they enclose a stamped self-addressed envelope with their absentee bid form. Printed lists of

auction prices are available at our galleries approximately three weeks following each auction and are sent on request to catalogue purchasers and subscribers. Results may also be obtained online at sothebys.com.

International Auctions If you need assistance placing bids, obtaining condition reports or receiving auction results for a Sotheby's sale outside the United States, please contact our International Client Services Department.

4. AFTER THE AUCTION

Payment If your bid is successful, you can go directly to Post Sale Services to make payment arrangements. Otherwise, your invoice will be mailed to you. The final price is determined by adding the buyer's premium to the hammer price on a per-lot basis. Sales tax, where applicable, will be charged on the entire amount. Payment is due in full immediately after the sale. However, under certain circumstances, Sotheby's may, in its sole discretion, offer bidders an extended payment plan. Such a payment plan may provide an economic benefit to the bidder. Credit terms should be requested at least one business day before the sale. However, there is no assurance that an extended payment plan will be offered. Please contact Post Sale Services or the specialist in charge of the sale for information on credit arrangements for a particular lot. Please note that Sotheby's will not accept payments for purchased lots from any party other than the purchaser, unless otherwise agreed between the purchaser and Sotheby's prior to the sale.

Payment by Cash It is against Sotheby's general policy to accept single or multiple related payments in the form of cash or cash equivalents in excess of the local currency equivalent of US \$10,000. It is Sotheby's policy to request any new clients or purchasers preferring to make a cash payment to provide: verification of identity (by providing some form of government issued identification containing a photograph, such as a passport, identity card or driver's license), confirmation of permanent address and identification of the source of the funds.

Payment by Credit Cards Sotheby's accepts payment by credit card for Visa, MasterCard, and American Express only. Credit card payments may not exceed \$50,000 per sale. Payment by credit card may be made (a) online at <https://www.sothebys.com/en/invoice-payment.html>, (b) by calling in to Post Sale Services at +1 212 606 7444, or (c) in person at Sotheby's premises at the address noted in the catalogue.

Payment by Check Sotheby's accepts personal, certified, banker's draft and cashier's checks drawn in US Dollars (made payable to Sotheby's). While personal and company checks are accepted, property will not be released until such checks have cleared, unless you have a pre-arranged check acceptance agreement. Application for check clearance can be made through the Post Sale Services.

Certified checks, banker's drafts and cashier's checks are accepted at Sotheby's discretion and provided they are issued by a reputable financial institution governed by anti-money laundering laws. Instruments not meeting these requirements will be treated as "cash equivalents" and subject to the constraints noted in the prior paragraph titled "Payment By Cash".

Payment by Wire Transfer To pay for a purchase by wire transfer, please refer to the payment instructions on the invoice provided by Sotheby's or contact Post Sale Services to request instructions.

Sales and Use Tax New York sales tax is charged on the hammer price, buyer's premium and any other applicable charges on any property picked up or delivered in New York State, regardless of the state or country in which the purchaser resides or does business. Purchasers who wish to use their own shipper who is not a considered a "common carrier" by the New York Department of Taxation and Finance will be charged New York sales tax on the entire charge regardless of the destination of the property. Please refer to "Information on Sales and Use Tax Related to Purchases at Auction" in the back of the catalogue.

Collection and Delivery

Post Sale Services
+1 212 606 7444
FAX: +1 212 606 7043
uspostsaleservices@sothebys.com

Once your payment has been received and cleared, property may be released. Unless otherwise agreed by Sotheby's, all purchases must be removed by the 30th calendar day following a sale.

Shipping Services Sotheby's offers a comprehensive shipping service to meet all of your requirements. If you received a shipping quotation or have any questions about the services we offer please contact us.

Collecting your Property As a courtesy to purchasers who come to Sotheby's to collect property, Sotheby's will assist in the packing of lots, although Sotheby's may, in the case of fragile articles, choose not to pack or otherwise handle a purchase.

If you are using your own shipper to collect property from Sotheby's, please provide a letter of authorization and kindly instruct your shipper that they must provide a Bill of Lading prior to collection. Both documents must be sent to Post Sale Services prior to collection.

The Bill of Lading must include: the purchaser's full name, the full delivery address including the street name and number, city and state or city and country, the sale and lot number.

Sotheby's will contact your shipper within 24 hours of receipt of the Bill of Lading to confirm the date and time that your property can be collected. Property will not be released without this confirmation and your shipper must bring the same Bill of Lading that was faxed to Sotheby's when collecting. All property releases are subject to the receipt of cleared funds.

Please see the Conditions of Sale for further details.

Endangered Species Certain property sold at auction, for example, items made of or incorporating plant or animal materials such as coral, crocodile, ivory, whalebone, tortoiseshell, rhinoceros horn, rosewood, etc., irrespective of age or value, may require a license or certificate prior to exportation and additional licenses or certificates upon importation to another country. Sotheby's suggests that buyers check on their government wildlife import requirements prior to placing a bid. Please note that the ability to obtain an export license or certificate does not ensure the ability to obtain an import license or certificate in another country, and vice versa. It is the purchaser's responsibility to obtain any export or import licenses and/or certificates as well as any other required documentation. In the case of denial of any export or import license or of delay in the obtaining of such licenses, the purchaser is still responsible for making on-time payment of the total purchase price for the lot.

Although licenses can be obtained to export some types of endangered species, other types may not be exported at all, and other types may not be resold in the United States. Upon request, Sotheby's is willing to assist the purchaser in attempting to obtain the appropriate licenses and/or certificates. However, there is no assurance that an export license or certificate can be obtained. Please check with the specialist department or the Shipping Department if you are uncertain as to whether a lot is subject to these export/import license and certificate requirements, or any other restrictions on exportation.

The Art Loss Register As part of Sotheby's efforts to support only the legitimate art market and to combat the illegitimate market in stolen property, Sotheby's has retained the Art Loss Register to check all uniquely identifiable items offered for sale in this catalogue that are estimated at more than the equivalent of US\$1,500 against the Art Loss Register's computerized database of objects reported as stolen or lost. The Art Loss Register is pleased to provide purchasers with a certificate confirming that a search has been made. All inquiries regarding search certificates should be directed to The Art Loss Register, First Floor, 63-66 Hatten Garden, London EC1N 8LE or by email at artloss@artloss.com. The Art Loss Register does not guarantee the provenance or title of any catalogued item against which they search, and will not be liable for any direct or consequential losses of any nature howsoever arising. This statement and the ALR's service do not affect your rights and obligations under the Conditions of Sale applicable to the sale.

SELLING AT AUCTION

If you have property you wish to sell, Sotheby's team of specialists and client services representatives will assist you through the entire process. Simply contact the appropriate specialist (specialist

departments are listed in the back of this catalogue), General Inquiries Department or a Sotheby's regional office representative for suggestions on how best to arrange for evaluation of your property.

Property Evaluation There are three general ways evaluation of property can be conducted:

(1) In our galleries

You may bring your property directly to our galleries where our specialists will give you auction estimates and advice. There is no charge for this service, but we request that you telephone ahead for an appointment. Inspection hours are 9:30 am to 5 pm, Monday through Friday.

(2) By photograph

If your property is not portable, or if you are not able to visit our galleries, you may bring in or send a clear photograph of each item. If you have a large collection, a representative selection of photographs will do. Please be sure to include the dimensions, artist's signature or maker's mark, medium, physical condition and any other relevant information. Our specialists will provide a free preliminary auction estimate subject to a final estimate upon first-hand inspection.

(3) In your home

Evaluations of property can also be made in your home. The fees for such visits are based on the scope and diversity of property, with travel expenses additional. These fees may be rebated if you consign your property for sale at Sotheby's. If there is considerable property in question, we can arrange for an informal "walkthrough."

Once your property has been evaluated, Sotheby's representatives can then help you determine how to proceed should you wish to continue with the auction process. They will provide information regarding sellers' commission rates and other charges, auction venue, shipping and any further services you may require.

SOTHEBY'S SERVICES

Sotheby's also offers a range of other services to our clients beyond buying and selling at auction. These services are summarized below. Further information on any of the services described below can be found at sothebys.com.

Valuations and Appraisals Sotheby's Valuations and Appraisals Services offers advice regarding personal property assets to trusts, estates, and private clients in order to help fiduciaries, executors, advisors, and collectors meet their goals. We provide efficient and confidential advice and assistance for all appraisal and auction services. Sotheby's can prepare appraisals to suit a variety of needs, including estate tax and planning, insurance, charitable contribution and collateral loan. Our appraisals are widely accepted by the Internal Revenue Service, tax and estate planning professionals, and insurance firms. In the event that a sale is considered, we are pleased to provide auction estimates, sales proposals and marketing plans. When sales are underway, the group works closely with

the appropriate specialist departments to ensure that clients' needs are met promptly and efficiently.

Financial Services Sotheby's offers a wide range of financial services including advances on consignments, as well as loans secured by art collections not intended for sale.

Museum Services Tailored to meet the unique needs of museums and nonprofits in the marketplace, Museum Services offers personal, professional assistance and advice in areas including appraisals, deaccessions, acquisitions and special events.

Corporate Art Services Devoted to servicing corporations, Sotheby's Corporate Art Services Department can prepare appraisal reports, advise on acquisitions and deaccessions, manage all aspects of consignment, assist in developing arts-management strategies and create events catering to a corporation's needs.

INFORMATION ON SALES AND USE TAX RELATED TO PURCHASES AT AUCTION

To better assist our clients, we have prepared the following information on Sales and Use Tax related to property purchased at auction.

Why Sotheby's Collects Sales Tax

Virtually all State Sales Tax Laws require a corporation to register with the State's Tax Authorities and collect and remit sales tax if the corporation maintains a presence within the state, such as offices. In the states that impose sales tax, Tax Laws require an auction house, with a presence in the state, to register as a sales tax collector, and remit sales tax collected to the state. New York sales tax is charged on the hammer price, buyer's premium and any other applicable charges on any property picked up or delivered in New York, regardless of the state or country in which the purchaser resides or does business.

Where Sotheby's Collects Sales Tax

Sotheby's is currently registered to collect sales tax in the following states: California, Colorado, Connecticut, Florida, Illinois, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, Texas and Washington. For any property collected or received by the purchaser in New York City, such property is subject to sales tax at the existing New York State and City rate of 8.875%.

Sotheby's Arranged Shipping If the property is delivered into any state in which Sotheby's is registered, Sotheby's is required by law to collect and remit the appropriate sales tax in effect in the state where the property is delivered.

Client Arranged Shipping Property collected from Sotheby's New York premises by a common carrier hired by the purchaser for delivery at an address outside of New York is not subject to New York Sales Tax, but if the property is delivered into

any state in which Sotheby's is registered, Sotheby's is required by law to collect and remit the appropriate sales tax in effect in the state where the property is delivered. New York State recognizes shippers such as the United States Postal Service, United Parcel Service, FedEx, or the like as "common carriers". If a purchaser hires a shipper other than a common carrier to pick up property, Sotheby's will collect New York sales tax at a rate of 8.875% regardless of the ultimate destination of the goods. If a purchaser utilizes a freight-forwarder who is registered with the Transportation Security Administration ("TSA") to deliver property outside of the United States, no sales tax would be due on this transaction.

Where Sotheby's is Not Required

to Collect Sales Tax Sotheby's is not required to collect sales tax on property delivered to states other than those listed above. If the property is delivered to a state where Sotheby's is not required to collect sales tax, it is the responsibility of the purchaser to self-assess any sales or use tax and remit it to taxing authorities in that state.

Sotheby's is not required to collect sales tax for property delivered to the purchaser outside of the United States.

Restoration and Other Services

Regardless of where the property is subsequently transported, if any framing or restoration services are performed on the property in New York, it is considered to be a delivery of the property to the purchaser in New York, and Sotheby's will be required to collect the 8.875% New York sales tax.

Certain Exemptions Most states that impose sales taxes allow for specified exemptions to the tax. For example, a registered re-seller such as a registered art dealer may purchase without incurring a tax liability, and Sotheby's is not required to collect sales tax from such re-seller. The art dealer, when re-selling the property, may be required to charge sales tax to its client, or the client may be required to self-assess sales or use tax upon acquiring the property.

Local Tax Advisors As sales tax laws vary from state to state, Sotheby's recommends that clients with questions regarding the application of sales or use taxes to property purchased at auction seek tax advice from their local tax advisors.

IMPORTANT NOTICES

Certificates of Authenticity

Various manufacturers may not issue certificates of authenticity upon request. Except as specifically noted in the catalogue, Sotheby's will not be required to furnish the purchaser with a certificate of authenticity from the manufacturer at any time. Unless the requirements for a rescission of the sale under the Terms of Guarantee are satisfied, the failure of a manufacturer to issue a certificate will not constitute grounds to rescind the sale.

Important Notice Regarding Condition

In the catalogue descriptions of property, significant damage may be mentioned, but all faults and imperfections may not be included. All dimensions in catalogue descriptions are approximate.

Prospective buyers should satisfy themselves by personal inspection as to the condition of each lot. If the prospective buyer is not able to inspect the piece, as a courtesy to our clients, we are pleased to provide an opinion of the condition of the property on request. However, since we are not professional watch restorers, any statement of opinion listed is purely subjective and is not a statement of fact. Condition reports may not specify all mechanical replacements or imperfections *to the movement, case, dial, pendulum, separate base(s) or dome* or any other replacements or additions to the lot. The absence of a condition report or the absence of a reference to damage in the catalogue does not imply that the lot is in good condition, working order or free from restoration or repair.

Watches in water-resistant cases have been opened to examine movements but no warranties are made that the watches are currently water-resistant.

Please note that we do not guarantee the authenticity of any individual component parts, such as wheels, hands, crowns, crystals, screws, bracelets and leather bands, since subsequent repairs and restoration work may have resulted in the replacement of original parts.

In addition, certain manufacturers will not service or repair pieces if all the component parts are not original to the piece. The refusal of a manufacturer to service or repair a piece on this basis does not constitute grounds to rescind the sale under the Terms of Guarantee. Furthermore, in reference to bands, we do not guarantee the material of manufacture. Please be advised that the purchaser will be responsible for complying with any applicable export and import matters, particularly in relation to endangered species and the United States Department of Fish and Wildlife Services.
