BIDDER REGISTRATION

\$20 – MEMORABILIA BIDDING ONLY

Valid for Wednesday 29 May and Thursday 30 May.

\$100 – MEMORABILIA AND CARS

Valid for the duration of the event, and includes admission for one bidder and one guest.

BIDDING REQUIREMENTS:

- Driver's License or Passport Identification
- Credit Card
- Bank Letter (please visit rmsothebys.com/bid for acceptable formats)
- Dealer License (if registering as a dealer)

We offer multiple bidding options should you choose to register, including:

ONSITE REGISTRATION

Those wishing to attend the sale can register to bid by visiting the Bidder Registration Desk. You will be expected to present all listed bidding requirements and pay the registration fee. Should you prefer, you may register in advance to avoid onsite queues. To do this, please visit rmsothebys.com/bid or contact Client Service at +1 260 927 9797.

TELEPHONE REGISTRATION

If you are unable to attend the sale, we offer telephone-bidding services free of charge. An RM representative will call you at the phone numbers you provided approximately three to five lots before the lot of interest comes up for sale. They will then act as your liaison to the live bidding environment and place bids on your behalf, per your instruction. To register for phone bidding, please visit rmsothebys.com/registration or contact Client Service at +1 260 927 9797.

ABSENTEE REGISTRATION

Alternatively, you may prefer to leave a maximum bid with us in advance of the sale, which is known as an Absentee Bid. An RM Auctions representative will then represent this bid in the live auction room, bidding up to your maximum until you have either won the lot or your bid has been surpassed. To register as an absentee bidder, please visit our website at rmsothebys.com/registration or contact Client Service at +1 260 927 9797.

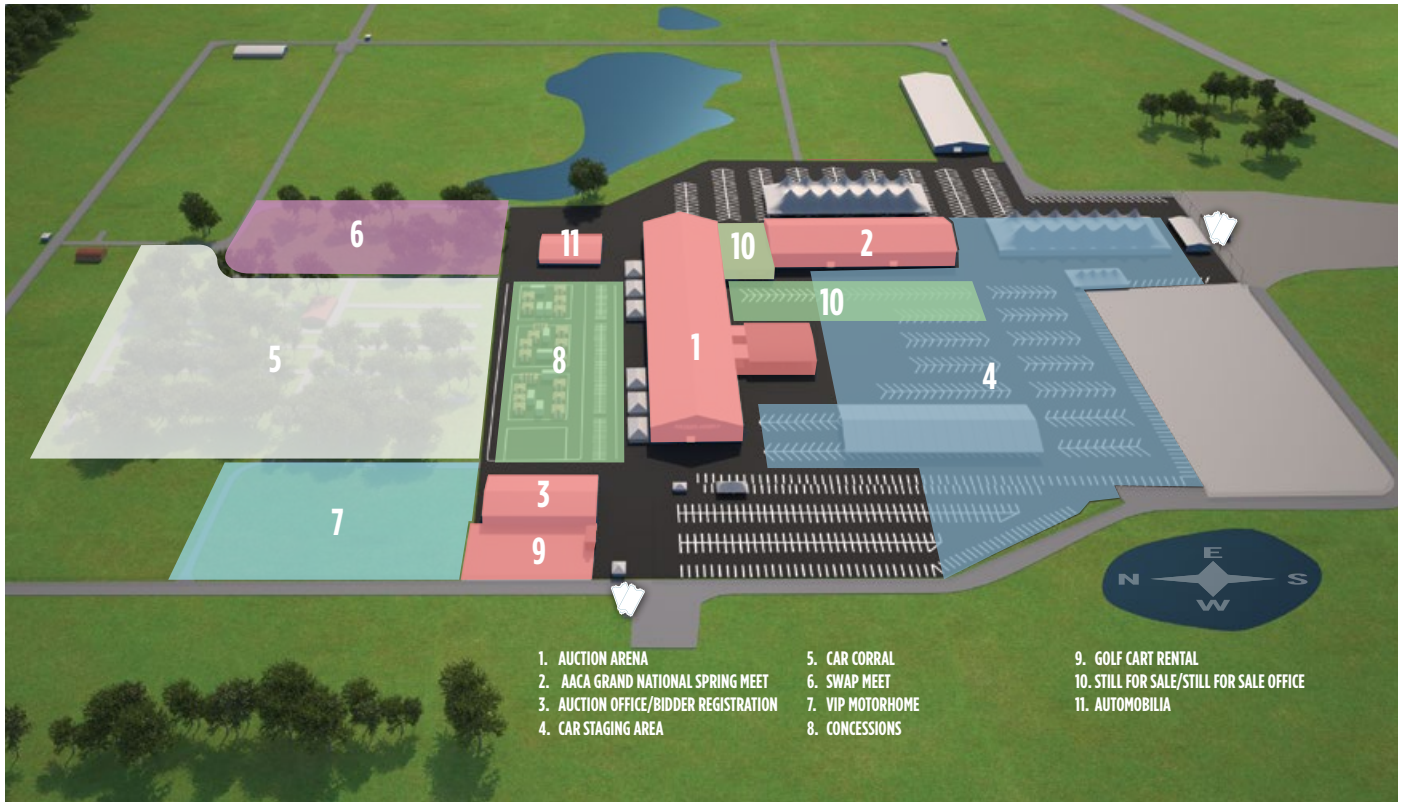

INTERNET REGISTRATION

Unlike in other online auctions, you can bid in real time during the live auction. The online bidding application will launch when the auction is scheduled to begin. Clients looking to bid over the Internet are urged to register in advance, as they will be required to create an account (username and password) prior to choosing the auction for which they wish to register. Please visit rmsothebys.com/registration and click on "Internet" to create your account and register for the sale.

NATIONAL SPRING MEET

AUBURN AUCTION PARK | AUBURN, INDIANA | 29 MAY-1 JUNE 2019

We are back in Auburn again and this year there is much to talk about! First, we are excited to join forces with the Rolls-Royce Owners' Club (RROC) in our first ever joint national meet. The leadership of RROC and AACA are offering members a great opportunity to experience more classic cars and allowing those who are members of both clubs to be judged by both clubs on the same day! This should be a real treat for everyone and expand the size and breadth of the show.

Friday night we will have a terrific concert free to all members of RROC and AACA. Our group this year will be a well-known show band that has performed throughout the country and on cruise ships! They are terrific!

Thanks to RM Auctions, we will again be treated to free entrance and bidder passes to their spring auction during our Meet. We also will have free non-electric motorhome parking! Most trailer parking will be on asphalt. The parking area has not been finalized as of this writing. There may be new, additional asphalt parking near the show.

IMPORTANT: RROC members must register with RROC AND AACA to have their cars judged with both organizations. AACA registration is only for the AACA portion of the meet. If you are interested in joining RROC, please go to www.rroc.org.

TIPS FOR AUCTION PARTICIPATION

LOOK FOR THE "RIGHT" CAR

The first question anyone in the market for a collector car should have is: What will I do with the car? Will it be a Saturday night cruiser, a daily driver, a track toy, or a concours-quality show car? It seems like a simple question, but it's the foundation for the purchase.

So, follow the adage, "The right tool for the right job." A classic Corvette is likely not the best choice for your 16-year-old's daily driver. Similarly, acquiring a vintage Mustang for a weekend road race might end up costing far more than buying an example with the correct equipment already installed.

DO YOUR HOMEWORK

If you're attending an auction, review the consignments online or in a printed catalogue prior to the sale. Then, create a short list of targets and research them. Contact the auction house directly to speak with a car specialist; car clubs and associations can also be helpful.

DO A PERSONAL INSPECTION & TALK TO A CAR SPECIALIST

If possible, attend the auction where your dream car is being offered; it is much easier to evaluate a car in person. Bring your short list, vehicle checklist, and date code book, and if possible, an objective expert with you. It is also important to take time to meet an auction specialist and seek out their expertise and any additional background they can provide, as well as to review all the paperwork. You're making a significant purchase, so don't be afraid to crawl under the car for a thorough inspection.

Once you have narrowed down your choices, you need to be near the car when it begins its journey to the block. The vehicle will typically sit in the staging lanes for 30–60 minutes before it hits the podium. This will give you time to evaluate the car when it starts, when it's under power, while it's idling, and with repeated starts and stops. Ask the driver of the auction house to turn on the radio, work the locks, move the power top, etc. Inquire about how the clutch, steering, and brakes feel. This is your chance to ensure that everything operates properly.

PREPARE TO BID

The auction ring is an electrifying atmosphere; some thrive on the excitement, while others prefer to let a representative place their bids. If you have never participated in an auction, consider bringing a friend who can moderate your exuberance should the pressure become too intense.

Before the car rolls onto the block, move into position to watch the auction, ensure you can hear the auctioneer, and signal your bids. It's also critical to let one of the bid spotters know that you plan on bidding on a particular lot. Find a bid spotter just prior to the car rolling across the block; you can get their attention by providing an opening bid on a car that you're interested in.

Remember to hold firm on your budget and be patient. Serious buyers often wait until the bidding slows to jump in.

CHECK THE BOXES

Once the euphoria of a successful purchase subsides, it's time to return to your checklists. This step is as critical as the pre-sale work.

What paperwork, memorabilia, etc., is accompanying your vehicle? Understand what you need to collect, and if you are shipping the car, consider taking those items with you personally if you can, or place them in the trunk of the car for safe keeping.

Carefully go through the paperwork with the auction company clerk and determine when you will receive the title. Every auction house's policy varies, so make sure you are fully versed on their processes. It's also important that you triple-check the address where key documents like titles should be sent.

ESTABLISH A BUDGET

Always have a budget in mind before you arrive at the auction. It's ideal to include a 10 percent cushion, but stick to your budget. Your budget should be based on some basic solid research. Seek out resources such as the *Hagerty Price Guide*, which covers collectible and classic automobiles. Classified pages in trade magazines also provide a great resource.

Purchasing a collector car on the big stage can be a thrilling experience. For those who enjoy the excitement and frenzied pace of the collector car auction, Donnie Gould, Car Specialist, offers up the following "Seven Golden Rules" to make your auction experience a positive one.

At RM Auctions events, our partners, Hagerty and Reliable, are onsite to help you efficiently sail through your insurance and transportation paperwork.

BE REALISTIC

When you get your vehicle home, carefully look it over. If there are any issues, make a new checklist of "fixes" or upgrades, and relish the challenge. There are many resources that can help with repairs, supply parts, or provide guidance as you make the improvements.

Whether buying a collector car through a dealer, private seller, or at auction, there is always the chance that you may hit a few bumps in the road. But if you stick to the "7 Tips for Auction Participation," you'll find your treasure and the ride will be worth it.

AUCTION ROOM LAYOUT

AUCTIONEER

The auctioneer is the official conductor of the auction; the person who accepts bids and declares lots sold or not sold. The auctioneer will announce when the car has reached the point at which it may sell by telling the audience the car "will be sold."

COMMENTATOR

The commentator's job is to introduce each lot and give a short description of it prior to the auctioneer opening up the lot for bidding. Pay close attention, as the commentator will occasionally announce new information regarding the lot that supersedes information that may have been seen online or in the catalogue.

BID SPOTTERS

Bid spotters act as assistants to the auctioneer by watching the audience for bids that the auctioneer may not see. Should you wish to bid, get a bid spotter's attention and they will help relay your bid to the auctioneer.

TELEPHONE DESK

The telephone desk is where RM Sotheby's representatives sit during the auction and relay telephone, Internet, and absentee bids for clients who are unable to attend the sale but still wish to bid.

BID DISPLAY

The bid display screen will show you which lot is currently being offered, along with the current bid price (in multiple currencies). If you find it difficult to follow the auctioneer, refer to the bid display screen as your reference.

Rating System and Glossary

SIGN RATING

- 9.5+** **Mint condition.** No perceptible imperfections (very rarely will any sign be rated a 10).
- 9 – 9.4** **Excellent condition.** The sign may have a minor factory flaw or very limited damage. Any such damage would not be in the image field. The sign also has excellent color, gloss, or shine.
- 8.5 – 8.9** **Very good condition.** Exhibits only minor damage, small chips, or minor wear and scratches, and has good color, gloss, or shine. If the sign is painted, it may have minor creasing along a corner or near the edge, but not in the image field.
- 8 – 8.4** **Good condition.** Only some damage and the chips may be larger in size or in an important visual area. It will still have good color, gloss, or shine.
- 7.5 – 7.9** **Fair condition.** Significant damage, including larger and more prevalent chips, heavier wear, or creases in the field. The color, gloss, or shine may also be faded.
- 6 – 7.4** **Poor condition.** Significant damage, including creases in the field or in other important areas, as well as deep scratches and corrosion. The sign may have no gloss or shine and have faded color.
- 0 – 5** **Very poor condition.** Heavy damage, corrosion, and loss of image. A “0” rating would imply that there is no discernable image.

CAN RATING*

- 9+** **Excellent condition.** The can has no visible defects or flaws. The color has great shine. The can does not have to be full but should not have a new top/bottom or have been refilled.
- 8 – 8.9** **Very good condition.** The can may have a new top/bottom, but they have been properly replaced. It may have some wear or light scratches, but not in the field.
- 7 – 7.9** **Good condition.** The can may have light wear and scratches in the field. It may also have been re-rolled but was done so properly.
- 6 – 6.9** **Fair condition.** The can will have heavier wear and scratches in the field or in notable areas. The can may also have been re-wrapped to be displayed.
- 0 – 5.9** **Poor condition.** The can has very heavy wear, scratches, dents, and other major imperfections.

**Dents can be removed. If the paint is not affected during repair, it should not negatively affect the value. Empty cans are preferred as full cans will eventually leak. Dropping a full can will also cause more damage to the item. Cans may have new tops/bottoms, which may increase the item's value.*

SIGN GLOSSARY

- SST:** Single-sided tin/metal painted sign. The design is featured on one side of the sign. Tin signs are usually made of a lighter gauge material and are easier to damage than porcelain signs.
- DST:** Double-sided tin/metal painted sign. The design is featured on both sides of the sign. While the image is usually the same on each side, they may differ. Tin signs are usually made of a lighter gauge material and are easier to damage than porcelain signs.
- SSP:** Single-sided metal porcelain (enamel) sign. The design is featured on one side of the sign. Porcelain signs are painted in enamel and then fired allowing the enamel to adhere to the metal. These signs are usually heavier gauge than tin signs and are more durable.
- DSP:** Double-sided metal porcelain (enamel) sign. The design is featured on both sides of the sign. Porcelain signs are painted in enamel and then fired allowing the enamel to adhere to the metal. These signs are usually heavier gauge than tin signs and are more durable.
- PPP:** Porcelain (enamel) pump plate metal sign. These signs are usually smaller in size and were originally attached to gas pumps advertising the type of gasoline they dispensed. Almost all pump plates are single-sided as they were directly affixed to a gas pump.

CAN GLOSSARY

- Wrapped:** A wrapped can has been taken apart and used for something other than display. As such, there is no longer enough metal to roll the can back to its original size. In this case, another can is used as a base and the desired can is wrapped around the outside and a new top and bottom are attached.
- Repop Wrap:** Reproduction wraps are made of vinyl and have the appearance of popular oil cans. These wraps are placed around a can and many are done so well that at initial glance they can appear to be real.
- Re-Roll:** A re-rolled can has been previously taken apart, but all of the original metal is accounted for. The can is then re-rolled to its original size and a new top and bottom are attached.

Flange: A flange sign has a 90-degree angle along one side that allows it to be displayed perpendicular to a wall and making both sides visible. Flange signs can be found in either tin or porcelain.

Rolled Edge: One or more edges have been folded/rolled over with a ¼-inch or more lip. With American made signs, this generally means that it was part of a larger sign or display. If all sides are rolled, it is more likely a foreign made sign.

Convex Sign: A convex sign is arched in the middle. More often these signs are foreign made.

Field: Generally, this is where the logo, slogan, or any other design elements are found.

Gloss: This is used to describe a porcelain enamel sign. A sign with excellent gloss has the appearance of being wet.

Shine: This is usually used to describe a painted sign and refers to the luster the sign has.

Color: This refers to the colorful design the sign had when it was new, including the original brightness and hue.

ON OUR JUMBOTRON**

Rating System and Glossary

GLOBE RATING

- 9+** **Excellent condition.** The lenses are either NOS or were hardly used when new. They have no visible defects or damage.
- 8 – 8.9** **Very good condition.** The lenses may have very minor damage, such as a light scratches in the glass, but not to the painted field.
- 7 – 7.9** **Good condition.** The lenses may have more scratches in the field, weak or slightly peeling paint, or wear along the edges.
- 6 – 6.9** **Fair condition.** The lenses will have minor fading, larger paint flakes, and heavier wear along the edges.
- 5 – 5.9** **Poor condition.** The lenses will have heavier fading or even missing paint, deep scratches in the field, as well as large chips in the glass around the edge.
- 0 – 4.9** **Very poor condition.** The lens is broken or poorly repaired. If a glass body globe has large chips or cracks, this will decrease the value of the globe significantly.

GLOBE GLOSSARY

Lens: The lens is the piece of glass (usually domed) found in a gas pump globe. The painted image is usually fired or baked on (though some early 15-in. and 16.5-in. lenses were not). Lenses can be as small as 8-in. in diameter and up to 48-inches across. The most common sizes are 13.5, 15, and 16.5 inches in diameter.

HP: High Profile. This type of globe body is arched or domed on the top. This body is made of metal and can be found for 15- and 16.5-in. lenses. (Metal bodies for 13.5-inch lenses are a newer construction.)

LP: Low Profile. This type of globe body has a flat top and will only fit 15- and 16.5-inch lenses.

Glass Body: These globe bodies are made completely of glass. They were only made for lenses that are 13.5 inches or less in diameter. The body can be narrow or wide and the lenses are usually attached to a glass body with screws at the 3 and 9 o'clock positions. A special glass body called a ballcrank has holes at 12, 4, and 8 o'clock. These types of globes are very rare.

Gill Body: A glass body made for 13.5-inch or less lenses which are held in place by metal rings that clamp around the lens and body rather than being held in by screws.

Hull Body: A glass body made for 13.5-inch or less lenses that are held in place by metal bands.

OPE: One Piece Etched. This is a one-piece milk glass canteen-style globe that has had the advertising chemically or mechanically etched onto the body and then usually painted. The amount of original paint left on the piece makes it more valuable. If it has been repainted this can slightly decrease the value.

OPB: One Piece Baked. This refers to a one-piece milk glass canteen-style globe that has had the advertising painted directly on it and then has been baked in a kiln allowing the paint to adhere to the body. Repainting these globes severely affects their value.

OPC: One Piece Cast. This refers to a one-piece milk glass globe that has been cast into a certain shape or style. An example is the Standard Oil crown globe.

Chimney Cap/Top: These have a vent on the top and a metal top that looks like a chimney. This was used on very early one-piece globes it was thought that the fumes needed to vent away from the light bulb.

Jeweled Body: A metal globe body that has colored jewels that have been inset around the piece.

Capco Body: A plastic globe body that is made of two separate pieces that are screwed together. These bodies are made for 13.5-inch lenses only. However, a smaller lens can be used if the body is modified. Capco bodies have been created for lenses since the 1930s.

CANDY SODAS

Bob Strauss

When asked to write about just who Bob Strauss was and how he started his antique advertising and memorabilia collection I wondered how I was to keep this task short and simple. This was something he was so passionate about and I knew would be difficult putting into words. Bob was an amazing person, larger than life, yet very humble at the same time. Bob was a great husband, awesome father and grandfather, exceptional employer, and friend. He never met a stranger and made friends easily. He was well respected in the community, as a business owner and entrepreneur. Many of his valued employees had been with us for over 25 to 30 years. He never asked anyone to do something he would not do himself. Even into his sixties you would find him on an excavating job site helping or doing repairs for a tenant. He liked keeping busy and truly cared about people and he lived by the golden rule of treating others as you wish to be treated. He was a man that stood by his word and a handshake meant something.

I was so blessed to be his wife, best friend, working together with him in our business for over 40 years and as part of his hobby. We enjoyed the travel, meeting new friends and acquaintances, and seeing other collections that the hobby brought into our lives. Bob loved the opportunity to

share his collection with others by hosting an occasional car club, party or just folks stopping by for a peek. Our office was attached to the shop, so we often had opportunities to share the collection. We felt the signs really brought you back to a time in history when things were much simpler. Our particularly exciting experience for us was the stories people would share as they reminisced while looking at a particular sign, which spurred a memory for them.

Above all, Bob loved the history of a sign and the hunt to find it. You would often

find him in the evening getting together with buddies to hang a sign or two. We had always appreciated antiques in our early years together and some years ago started buying signs as decoration for the shop and as a backdrop for the hot rods and muscle cars. There is nothing like the reflection of neon on a beautiful paint job and chrome of a "sweet car." As time went on, Bob's focus changed to acquiring signs for his growing collection and ultimately the cars became the decoration for the signs! The hobby began!

Bob's collecting became more selective and refined. Finding a rare sign he hadn't seen before or getting an opportunity to own or upgrade a sign to a superior one was what defined the "hunt" for him. He was of course always on the look-out to enhance his collection. He would say with a big grin on his face "Well, we must find every size that sign was available in... you know, that's what makes it a collection!" He truly enjoyed all the aspects the hobby brought. I hope that if you are attending Auburn Spring to acquire one or more of these signs, it will bring you as much joy as it brought Bob. Thank you for participating in the auction and happy bidding!

Deanna Strauss

2001

Texaco Marine Lubricants Sign

SSP sign. It has excellent gloss and color. There is light wear and there are chips at top and bottom edge. Dated 1947. Porcelain, Condition: 8.9, 15 x 30 in., TAC no. 020312 \$5,000 - \$8,000

320 cu. in. inline eight-cylinder engine; three-speed manual transmission

Frame-off restoration including a bare metal repaint and new wiring harness

A stunning Packard ready to be shown and enjoyed

Classic Car Club of America (CCCA) Full Classic

For many, the 1934 model year Packard, referred to by the factory and connoisseurs alike as the Eleventh Series, represent the most attractive and desirable of the company's pre-war efforts. They were the final models with traditional open fenders, albeit gently skirted, and the upright "tombstone" radiator shell for which the company had become well known. In addition, the chassis' adjustable Ride Control suspension and Bijur automatic lubrication produced a car that was a dream to drive. Packard, the preeminent American luxury car marque, introduced the Eleventh Series cars on 21 August 1933 for the 1934 model year and they remained in production through the following August.

Offered here is one such desirable Eleventh Series 2/4-passenger coupe, finished in attractive medium blue accented with contrasting light blue pinstriping. The interior is upholstered in grey broadcloth which is nicely offset by extensive chrome, wood garnish interior trim moldings, and a stunning Art Deco style dash panel. Powered by a 320-cu. in. straight eight-cylinder engine mated to a three-speed manual transmission, this is a truly superb example.

This 1934 Packard has been treated to a frame-off restoration, a project which began some years before being acquired by the consignor. Upon inspection, which included removal of the oil pan and cylinder head, the consignor determined that the engine had been rebuilt at some point in the past. The straight eight had excellent oil pressure and needed only minor valve work to be put into fine fettle for touring. The car was stripped to bare metal before repainting, ensuring a long lasting and high-quality finish. Extensive re-chroming, fresh wood graining on the dash and interior trim, new porcelain coating on the manifolds, and a new wiring harness completed the work. It is reported to be an excellent driving car which offers the smooth torque, powerful acceleration, and luxurious comfort for which Packard was known both in the period and today.

Widely considered among the most beautiful and purely enjoyable of all Classic Era production automobiles, this Full Classic Packard Eight is worthy of serious consideration and would make an excellent example to drive, show, and enjoy, be it on a CARavan or casual weekend trip to the golf course. Beautifully presented and very attractive, it would be a welcome invite many vintage concours and CCCA events.

1954 Packard Caribbean Convertible

\$90,000 - \$120,000

OFFERED WITHOUT RESERVE

CHASSIS NO. 5478-2109

Offered from the Richard L. Burdick Collection

Beautifully presented throughout

One of only 400 produced for 1954

After surviving the Great Depression and World War II, the Packard Motor Car Company needed a car that would reestablish its once-prestigious perch atop the American luxury car market. For 1953, Mitchell-Bentley, of Ionia, Michigan, was sent 750 standard Packard convertibles, which they customized into a new, limited edition droptop, to be dubbed the Caribbean. With its highly distinguished design and luxurious appointment, including standard power everything, full rich leather interior, three-way radio with power antenna, and five Kelsey-Hayes chrome wire wheels, the Caribbean came to represent the penultimate expression of Packard quality, luxury, and style.

The model continued into 1954 with newly restyled headlamp rims, chrome trim added to the hood scoop, and lowered rear wheel housings, as well as two-tone paintwork, "Caribbean" script added to the rear fenders, and side moldings that swept off the beltline and slipped below the crest of the rear fenders into a distinctive taillight treatment.

This 1954 Caribbean convertible is offered from the Richard L. Burdick Collection. The top-of-the-line Packard for 1954, this car is finished in a superb two-tone blue over white and presents beautifully throughout. Nineteen fifty-four marked the final year of the original Caribbean design, of which only 400 were made. As a result, the 1954 models are the hardest to find of the first generation Caribbeans. This example, with its attractive presentation and countless luxury features is sure to impress.

1969 Jaguar E-Type Series 2 4.2-Litre Roadster

\$100,000 - \$120,000

CHASSIS NO. 1R8385
ENGINE NO. 7R 3905-9

Showing only 23,572 miles; believed to be original

Older excellent restoration by RM Auto Restorations

Scored 991.7/1000 in 2017, JCNA judging sheet included

Upgraded with triple Weber carburetor and intake

Recent tune-up and restored braking system and suspension

Includes Jaguar Heritage certificate

Jaguar debuted the second series E-Type in 1968. Federal regulations in the United States, Jaguar's most lucrative market, drove some of the changes, including revised lighting and the shift to a pair of Stromberg carburetors in place of the three SU units of earlier E-Types. Externally, the air intake was substantially increased in size, a change masked by larger, full-width bumpers that were matched at the rear to meet the U.S. low-speed impact requirements.

The well-proven 4.2-liter inline six-cylinder XK engine was little changed, although a higher-capacity water pump was fitted, taking advantage of the enlarged radiator air intake and better adapting the E-Type to warmer climates. The car was equipped with bigger Girling brakes with three-piston calipers at the front and two-piston calipers at the rear, while the interior now featured reclining seats as standard equipment. In short, the evolution of the E-Type meant that buyers of the Series 2 got a much better, more comfortable, and more reliable Jaguar—attributes that complemented its already well-established reputation for superior performance, handling, and looks.

This beautiful 1969 4.2-Litre roadster was restored some years ago by RM Auto Restorations. It has been meticulously maintained since and driven roughly 1,000 miles, used exclusively for shows. In 2017, the car was judged at a Jaguar Club North America event where it scored an impressive 991.7 out of 1,000 possible points. A six-point deduction for not having horns has since been alleviated, with fully functional horns installed. Given the improvement, the car would presumably score closer to that perfect 1,000-point mark. The car was recently mechanically sorted, which included a tune up; as well as a restoration of the braking and suspension systems.

The E-Type is arguably the most iconic road-going car Jaguar ever produced. This example, having been judged to a very high standard by marque experts and more recently benefitted from a mechanical sorting, is sure to impress future owners for years to come.

CHASSIS NO. WDDY171A5GA002014

Offered from the European Luxury Collection

515-hp twin-turbocharged V-8 engine

Seven-speed dual-clutch transmission

Finished in matte Selenite Gray

Less than 200 miles from new

Learning from the success of its first in-house sports car, Mercedes-Benz's AMG division began developing a new, high-performance coupe and roadster with the help of Formula 1 star Lewis Hamilton. The AMG GT that bowed at the 2014 Paris Motor Show looked forward rather than borrowing from Mercedes-Benz's illustrious past as its SLS predecessor did.

A gaping grille emblazoned with twin chrome bars at a large three-pointed star gives way to a long, low hood. The relatively upright windshield culminates in a sloping roofline that arches gracefully into the truncated tail. Under the long hood, AMG has plenty of space for its 4.0-liter twin-turbo V-8 engine, known internally as M178. Like the rest of the AMG GT, the V-8 was developed not in Stuttgart, but in Affalterbach under the watchful eye of AMG chief Tobias Moers. The exhaust manifolds and turbochargers sit inside the engine's V in a bid to eradicate turbo lag. Dry-sump lubrication ensures reliable track and road performance. The latest version

of AMG's seven-speed dual-clutch gearbox hustles power to the rear wheels via a limited-slip differential.

AMG aimed to make the GT a pure sports car. The lineup bowed in AMG GT guise and the AMG GT S arrived not long after with a 515-hp version of the V-8—nearly 50 more than the standard engine—an adaptive suspension, a revised rear differential with electronic control, additional Race and Race Start drive modes for the AMG Dynamic Select system, upsized 19-inch front

and 20-inch rear wheels, and a sport exhaust system with a bypass that opens up a more aggressive rumble at higher engine speeds.

The AMG GT S 'Edition 1' introduced the car to the world with special matte finish Selenite Gray paint, leather and Alcantara-wrapped sports seats, red seat belts, a carbon fiber roof, and a special body kit with a fixed rear spoiler. The example offered here has covered less than 200 miles and presents in as-new condition.

1971 Mercedes-Benz 280 SL 'Pagoda'

\$65,000 - \$75,000

Offered from The European Luxury Collection
 2.8-liter inline six-cylinder engine; automatic transmission
 Older restoration with desirable color combination; two tops included
 Interior features Becker Europa radio and VDO clock
 Air conditioning; power steering and brakes
 Final year of the 280 SL

1968 Mercedes-Benz 250 SL

 2.2-liter fuel-injected inline six-cylinder engine
 Four-speed manual transmission
 Beneficiary of a frame-off restoration
 Interior features dash clock and Becker Mexico radio
 One of 1,974 produced from 1958 to 1959
 Desirable 'Ponton' sedan

1957 Mercedes-Benz 190 SL

\$110,000 - \$125,000

CHASSIS NO. 121.040.7502705

ENGINE NO. 121.921.7502696

BODY NO. A121.040.7501188

120 hp, 1.9-liter inline four with twin Mikuni carburetors

Four-speed manual transmission

Beautifully restored example

Finished in desirable color combination

The 190 SL, Daimler-Benz's first volume sports car, known internally as the W121, used a shortened version of the W120 platform and topped it with the unique roadster body. It shared the 180's 120-bhp, 1.9-liter, inline four-cylinder engine and all-independent coil-spring suspension, including the swing axles, which provided considerable flexibility during aggressive cornering. The 190 SL was produced from 1955 to 1963, and Mercedes-Benz built a total of 25,881 units over the production run. The car was marketed as more of a comfortable cruiser than the powerful 300 SL sports car, and its performance was quite capable for the era, with a top speed of 110 mph and 0–60 mph times of 13.3 seconds, all the while affording upwards of 26 miles to each gallon.

Styling was intentionally similar to its bigger 300 SL sibling, with the most notable features being the rounded overall lines, low nose, and wide grille with the Mercedes-Benz three-pointed star, causing no one to mistake this for any other vehicle. Luggage space was provided by a comparatively large trunk and a roomy interior, which befits the sports tourer yet preserves its practical status in the Mercedes-Benz hierarchy. At \$3,840 when new, it was half the price of its bigger brother, which had introduced a roadster model of its own in 1957.

This example, finished in red over tan, makes for what is arguably one of the most desirable combinations offered on the spry 190 SL. Outside, the car is equipped with thin whitewall tires that perfectly accent the color combination which is also carried to the red factory wheel covers. The car is powered by a 120 hp, 1.9-liter inline four-cylinder engine featuring twin Mikuni carburetors. Inside, the driver is greeted by crisp, clear VDO instrumentation and Mercedes-Benz's characteristic ivory steering wheel and shifter, which is mated to the four-speed manual transmission. The beautifully trimmed leather interior is equipped with the appropriate Becker Europa High Fidelity radio and a sought after VDO glovebox clock.

The 190 SL is a car that still commands the presence and attention it did when new. This beautifully restored example provides its new owner with a superb opportunity to participate in Mercedes-Benz club events, concours, and rallies.

1951 Hudson Commodore Coupe

OFFERED WITHOUT RESERVE

CHASSIS NO. 10867S103313

Highly desirable 315 hp, 283 cu. in., fuel-injected V-8
One of 1,462 Corvettes built for 1961 with this engine
Four-speed manual transmission
Finished in Fawn Beige with matching cove and interior
Formerly of the Homer Fitterling collection
Includes hardtop and soft top

The 1961 Chevrolet Corvette was formerly from the famed Homer Fitterling collection of Northern Indiana. It resided with the Fitterling family for many years and has just recently become available. The Corvette shows a well-maintained older restoration that has been carefully preserved, with many original features retained throughout.

This example is equipped with the highly desirable 315-hp, 283 cu. in., fuel-injected V-8 engine. As a \$484.20 option, on top of the \$3,934 base price, it is one of 1,462 Corvettes built in 1961 with this engine. The Corvette retains its original engine block, correct four-speed manual transmission, and a Posi-traction rear differential. The car also boasts a correctly coded fuel-injection unit for 1961, which has recently been professionally serviced. The distributor is also properly coded for a 315-hp engine.

This attractive Corvette is presented with wonderful chrome work that accents the beautifully presented Fawn Beige paint, with matching side coves. Adorning

the exterior are factory "spinner" wheel covers, a driver's sideview mirror, a factory hardtop, as well as a new, correct white soft top. The interior is trimmed in the factory color Fawn throughout, and is complimented by color matching seatbelts, in-dash clock, and a Wonderbar radio.

Offered at no reserve, this well-maintained and very well-driving Corvette is the ideal car to enjoy for the coming summer months.

Chassis No. **2301 H**

Engine No. **FB 1480**

Body No. **C 91 271**

Previously owned by noted Cord expert George Earsman

Only four owners from new

Stunning and fully restored example

Classic Car Club of America (CCCA) Full Classic

When the “new Cord” made its debut at the New York Auto Show in November 1935, it turned the automotive world on its ear. Onlookers reportedly stood on the roofs of other cars just to catch a glimpse of Gordon Buehrig’s advanced “new, original, and ornamental design for an automobile,” with its aerodynamic “coffin nose” louvered hood lacking a traditional radiator shell; its “step-down” floor; its unitary body construction; its hidden door hinges; its pop-up headlamps; and its total lack of running boards. Underneath was no less innovative, with a Lycoming V-8 running the front wheels through a four-speed, electrically shifted pre-selector transmission, which was operated by a “key” off the steering column; essentially, it was an H-pattern gear shift in miniature.

Orders for the new Cord flooded the manufacturer's headquarters in Auburn, Indiana, but the car was not quite ready for production. By the time cars finally began to be delivered, many impatient customers had cancelled their orders, and the model that could have saved the Auburn Automobile Company became its death knell. The new Cord was only built for two years, and it has since gone down in history as one of the most beautiful automobiles of its time.

The 810 phaeton offered here is a particularly desirable example. The consignor notes that the car was purchased new in 1937 and was driven regularly before being put into long-term storage in 1958. Noted Cord expert George Earsman, a former president of the Auburn Cord Duesenberg Museum, discovered the car as a "barn find," purchased it, and began a complete and documented restoration in 1994, with many original

parts and all of the original sheet metal being utilized. The consignor's father then purchased the car, showing and enjoying the car often before passing away earlier this year.

Speaking to the high-quality of the work completed, the car remains in exceptional condition to this day. Iconic Cigarette Cream livery combined with truly stunning black leather interior makes for a dramatic presentation, especially when combined with the factory chromed artillery wheels and wide whitewall tires. Plush tan carpeting and a matching brown soft top complete the classic look.

The 810 phaeton has long been one of the most highly desirable of all the Full Classics. Referred to by Gordon Buehrig as "rolling sculpture," the chance to own a finely presented, four-owner example must not be taken lightly.

 OFFERED WITHOUT RESERVE

VEHICLE NO. 176407

Very rare and desirable body style
Nicely presented in wonderful colors
Classic Car Club of America (CCCA) Full Classic

Packard's 1929 models were known as the Sixth Series and saw straight eights become standard across all model lines, with the six-cylinder being phased out in that year. The so-called "Standard Eights," such as the example offered here, rode a 126.5-inch-wheelbase chassis, with power from an all-new 90 hp, 319.2 cu. in. inline eight-cylinder engine backed by a three-speed manual transmission. Power from this large straight eight was nearly effortless, with superb torque and uncannily smooth acceleration all the way up to a top speed nearing 80 mph.

Underneath, the live rear axle with semi-elliptical leaf spring suspension provides superior comfort and road-holding ability, making this one of the most enjoyable

pre-war cars to drive. The characteristic Bijur lubrication system makes routine maintenance less of a chore. Five disc wheels were standard equipment, but the dressy dual side-mounted spares, were an additional \$130. They were part of the Deluxe Equipment package, which also included the chrome plating on the cowl band and cowl lamps, as well as an accessory trunk rack.

The convertible coupe offered here, an unusual and seldom-seen but highly attractive body style, is a perfect choice for touring. The car is finished in bright yellow paintwork over a rich green leather interior with a tan convertible top. The brightwork, including the iconic 'tombstone' radiator shell and Goddess of Speed mascot are beautifully done. In place of the usually seen disc wheels, the car is equipped with six body-colored wire wheels with blackwall tires and chrome beauty rings, an elegant and unique touch.

Nicely appointed, it is equipped with a Jaeger clock and North East combination speedometer and odometer and, underlining its status as one of the preeminent sporting automobiles for the well-heeled, it is equipped with a golf bag door. The car retains both its original body tag and a service tag from Packard Westchester Company, Inc., the very same dealer from whom the car was originally purchased.

A Classic Car Club of America Full Classic, this Packard will surely be the delight of any CCCA meet or CARavan tour.

1938 Packard Twelve Touring Cabriolet BY BRUNN

\$125,000 - \$150,000

The most expensive Packard of its day

One of just four such examples built for 1938

Freshly recommissioned and ready for touring

Beautifully presented inside and out

Classic Car Club of America (CCCA) Full Classic

Once a mainstay of the marque, Packard resurrected the “Twin Six” name for a new V-12 in 1932. A 67-degree V-block, the new powerplant displaced 445 cu. in., just 20 more than its 1920s namesake, but developed 75 percent more power. In 1933 the name was changed to simply “Packard Twelve,” and two years later displacement rose to 473.3 cu. in., making 175 bhp with an immense amount of torque enabling smooth acceleration for even the heaviest custom bodywork. For 1937, the Twelve was given coil spring independent front

suspension and hydraulic brakes. In addition to standard bodies, Packard catalogued a number of styles from the major coachbuilders, among them Dietrich, LeBaron, Rollston, and Brunn.

In 1935, Buffalo, New York, coachbuilder Hermann Brunn designed for himself a handsome long-wheelbase landaulet-type body with open chauffeur compartment, which he called a cabriolet. Added to the Lincoln catalogue custom line for 1937, it was extended to Packard in 1938. It was offered both as the all-weather cabriolet, with

removable leather roof for the chauffeur, or touring cabriolet with a fixed forward roof, accented with small smoked-glass clerestory windows over the windshield. Both styles were available in collapsible form, with a folding rear top and functional landau irons, and non-collapsible with a fixed rear roof and faux landau irons.

Brunn Touring Cabriolets were built in minuscule numbers in 1938 and 1939, no more than 10 each per year on Lincoln and Packard chassis. It is believed that there were only nine Brunn-bodied examples built between 1938 and 1939, of which this car is one of four built in the former year. The most expensive Packard in 1938, it was some \$1,500 more than the equivalent body on a Lincoln chassis or the most expensive V-16 Cadillac.

The car offered here is a truly fine example of a limited-production Packard. It presents in excellent condition with a charming light patina on select interior surfaces. It is equipped with the Packard Deluxe heater, Packard Deluxe radio, heater with accessory rear speaker, trunk rack, Trippe driving lights, and dual side-mounts with metal covers. It was recently given a no-expenses-spared recommissioning, with new tires, hoses, fuel tank, rebuilt carburetor, new water pump, and fresh brakes. A CCCA Full Classic, its ideal for club events and CARavan tours, and represents a rare chance to acquire an excellent example which is fully ready to be enjoyed.

\$75,000 - \$85,000

Powered by a 3.0-liter twin-turbocharged V-6 Ford Duratec engine

Six-speed manual transmission

One-owner from new and meticulously cared for

Less than 3,400 actual miles

Factory installed air conditioning and optional upgraded wheels

Recent service including new tires last year

0-60-mph in 3.2-seconds; top speed of 187-mph

1965 Shelby Cobra 289 “CSX 8001”

\$130,000 - \$160,000

CHASSIS NO. CSX 8001

The first 8000-series 289 Cobra by Shelby American, CSX 8001

One of a small handful of cars completed
with an aluminum body

Documented in the *World Registry of Cobras & GT40s*

Just over 10,000 miles and only two owners from new

The original 289 Shelby Cobras are among the most iconic cars ever built. The creation of racing legend Carroll Shelby, the Cobra was introduced in 1962 and produced through 1967. The short run of Cobras led Shelby American to create the continuation series, a modern day build of the classic Cobra. The car on offer is one such example, a true continuation car built by Shelby American, bearing the serial number CSX 8001.

The story of this Cobra began when the original owner, Bob Kennedy, of Phoenix, Arizona, found a 1965 Ford 289 K-code engine. He personally contacted Carroll Shelby and gave him a blank check to build an aluminum bodied "slab side" 289 Cobra. After a 22-month build process, CSX 8001 was delivered in late 2002. CSX 8001 became the first in a small series of continuation 289 cars, all of which are highly desirable in today's market. The car offered here is one of a small handful of cars built with an aluminum body, whereas most examples were bodied in fiberglass, making this a highly special example of the legendary 289 Cobra.

Period-correct features abound, including the proper Ford 289 K-code with Weber carburetors, cast aluminum seven-quart oil pan, remote oil filter and

oil cooler. The V-8 engine has recently been tuned and dyno-tested and is backed by a Borg Warner T5 five-speed manual transmission with hydraulically-actuated release bearing assembly. Power is distributed through a limited-slip differential. It also features an enlarged competition radiator, a Le Mans quick release fuel filler, 17x8.5-inch knock-off wheels, and a chromed roll bar.

Having had just two owners and covering just over 10,000 miles from new, this continuation Cobra presents beautifully. Recent upgrades include new rear leaf springs, an aluminum fuel tank, halogen bulbs, upgraded stereo with iPod connector, a country air horn and new three-point belts, and a driver's headrest. Side curtains and convertible top also accompany the car, for all-weather enjoyment, if so desired. The Cobra also

features custom hidden air conditioning, allowing some relief on the sunny top-down days most characteristic of Cobra ownership.

This car is a true one-off, well documented example of the highly popular continuation series of Shelby Cobras. It is currently registered in the UK and has been serviced and maintained in the UK by Thunder Road cars. CSX 8001 comes with a substantial documented history including reports from the recent tuning and dyno testing, and it is immediately recognizable with its polished aluminum body and unique aesthetic. With original 289 Cobras changing hands in the high six figures and beyond, this bespoke aluminum bodied continuation car by Shelby American is a superb way to enter the world of Cobra ownership.

1935 Dodge Four Door Sedan

\$15,000 - \$20,000 OFFERED WITHOUT RESERVE

1968 Dodge Charger 'General Lee'

\$80,000 - \$100,000

CHASSIS NO. XP29G8B441410

Please note that this lot is offered on a Bill of Sale.

Featured in the *The Dukes of Hazzard* (2005)

Accompanied by Warner Bros. Certificate of Authenticity

V-8 engine with Edelbrock carburetor

Automatic transmission with B&M ratchet shifter

When TV viewers adjusted their rabbit-ear antennas to tune into the premiere of *The Dukes of Hazzard* on CBS the evening of January 26, 1979, they had no idea how enduring cousins Bo and Luke Duke's escapades would be. Fictional Hazzard County, Kentucky, was an appropriate setting for the mischievous brothers and their hell-raising Dodge Charger.

The moonshiner-inspired Charger was hardly a subtle choice with its bright orange paint, powerful engine, and unique horn. Studio records estimate that more than 300 Chargers were used during the show's six-year run, including a number of 1968 models that were modified with pop-riveted grille inserts and taillights to look like the 1969 versions. The stunts were hardly kind to the Chargers, which explains why their population dwindled. Dodge built around 69,000 Chargers, but by the mid-1980s, the earliest second-generation Chargers were becoming scarce—even for those on a Hollywood budget. As a result, some of the later stunts were filmed using scale models.

Warner Bros. revived *The Dukes of Hazzard* two decades after the last episode was shown with a feature-length film starring a diverse cast including Johnny Knoxville, Seann William Scott, Jessica Simpson, and Burt Reynolds. The 1968 Charger offered here was used in the film and was modified with a roll bar, an automatic transmission with a B&M ratchet shifter, and a stripped-out interior. The car features the label "#019" in a several locations throughout the car. The driver door and door jamb both feature the label "PRE HERO#2." In addition, the radiator cross member wears the label "HERO STUNT#1."

This silver-screen star is offered in post-filming condition with battle scars earned from its brush with fame. The car is accompanied by a Warner Bros. Certificate of Authenticity, a California vehicle registration under Warner Bros. ownership, and a Warner Bros. Visitor Pass, presumably from when the car left the studio lot.

1982 Mercedes-Benz 380 SL
\$6,000 - \$9,000 OFFERED WITHOUT RESERVE

1930s Hudson Sprint Car
\$20,000 - \$30,000 OFFERED WITHOUT RESERVE

Powered by a fuel-injected V-12 engine
 Five-speed manual transmission
 Finished in British Racing Green with a black interior
 Southern car fitted with factory air conditioning
 Newer Michelin tires mounted on chrome wire wheels

1973 Ford Mustang Trans Am

SCCA NO. 79-142

*Please note that this lot is offered on a Bill of Sale only.

\$65,000 - \$85,000
OFFERED WITHOUT RESERVE

Launched as the Trans-American Sedan Championship, the racing series was the Sports Car Club of America's first attempt at a manufacturers' championship formula for modified sedans and coupes. Over time, it has evolved into a drivers' and manufacturers' series for GT-style cars. Known simply as "Trans Am," the series has been run on a variety of courses, from street and airport circuits, to temporary road courses and permanent race tracks.

The "Golden Age" of Trans Am is considered 1968 to 1972, when Penske's Camaros, Mark Donohue's AMC Javelin, and Parnelli Jones' Boss 302 Mustang went wheel-to-wheel in contesting the championship. From 1973 to 1980, the formula evolved into what some have called a "clone of the IMSA GT Championship," with modified cars, albeit with a conventional focus. By 1980, because of an SCCA handicapping formula, 2,600-lb.,

5-liter cars dominated the field. Soon, the stock idiom had blown to the winds, and Trans Am had become a "silhouette series" with tube-frame cars exhibiting only a resemblance to the cars they were emulating.

This Mustang is one of two 'body-in-white' cars delivered to Ford after Kar Kraft was effectively shut down, thus ending Ford support for factory racing. With the program over the remaining assets were sold off. Of the two 'body-in-white' cars delivered to Ford, the other chassis was quickly assembled by Warren Tope of Tope Racing and immediately pushed to the track. The car offered here was slowly assembled by Ed Hinchliff of Hinchliff Racing, with Ed utilizing factory parts and Kar Kraft blueprints and the help of former Kar Kraft chassis engineers Lee Dykstra and Mitch Marchi in the construction.

Some of the features originally incorporated on this car were Girling four-piston aluminum brakes with large rotors, first developed by Penske Racing for their Trans Am Javelins; a factory Kar Kraft full floater rear axle with locker; a Ram Air intake system with a Holly NASCAR intake manifold; and a Jones tachometer.

According to SCCA log books included with the car, it was campaigned under two numbers. In October 1976, the car was registered under SCCA Identity No. 10-505

Nelson Ledges Trans-Am, June 26th, 1977

Highly modified Windsor 351 V-8 built by Jack Roush
 Close-ratio, four-speed with Hurst shifter; 4.11:1 locked rear end
 One of the last chassis Kar Kraft designed prior to Ford terminating factory-supported racing
 Originally sold unfinished to Ed Hinchliff, who assembled and campaigned in-period
 Accompanied by SCCA log books

SCCA NO. 10-505 - RACE RESULTS

DATE	EVENT	RACE #	DRIVER	RESULT
October 30th, 1976	Nelson Ledges Great Pumpkin		Ed Hinchliff	N/A
June 26th, 1977	Nelson Ledges Trans-Am	11	Ed Hinchliff	17th OA
September 3rd, 1977	Road America	11	Ed Hinchliff	32nd OA
September 4th, 1977	Road America	11	Ed Hinchliff	27th OA
September 11th, 1977	Mont-Tremblant Molson Trans Am	11	Ed Hinchliff	DNF
July 7th, 1979	Wakins Glen	11	Ed Hinchliff	16th OA

SCCA NO. 79 -142 - RACE RESULTS

DATE	EVENT	RACE #	DRIVER	RESULT
May 30th, 1980	Hallet Trans-Am	29	Ed Hinchliff	16th OA
July 17th, 1980	Road America Trans-Am	29	Ed Hinchliff	DNS
August 23rd, 1980	Trois-Rivières Trans-Am	29	Ed Hinchliff	11th OA

in the SCCA A Sedan Category. During this time the car was campaigned in a Ford blue and white livery. The log book contains a number of entries from the 1970s and early 1980s. In February 1979, the car was registered under SCCA Identity No. 79-142 in the SCCA Trans Am Category I. The log book carries two race entries from 1980, during which time it donned the Ford blue and white livery. The hood of this livery is included in the sale of the car.

In the late-1980s, owner George Boyd had the Mustang repainted in the colors he felt the car would have campaigned in had Kar Kraft completed their modifications. It was refinished in school bus yellow with a black hood, rockers, and spoiler; the livery the car retains today.

Included with this Mustang are blueprints of chassis components, documents from Ed Hinchliff when he was building the car and racing the car in period, and most importantly, the racing log books associated with the car's SCCA tag. Although the car would require inspection and proper race preparation prior to track use, this period Trans Am Mustang, with its wide track, excellent aerodynamics, stiff chassis, and heavily upgraded powertrain, would be a force to be reckoned with in vintage racing even today.

1940 Oldsmobile Series 70 Sedan

\$15,000 - \$20,000 OFFERED WITHOUT RESERVE

File Photo

1940 Oldsmobile

\$15,000 - \$20,000 OFFERED WITHOUT RESERVE

GUIDE TO BUYING AT AUCTION

CONTRACTUAL OBLIGATIONS

Please consult the Bidders' Conditions of Business for details on your contractual obligations of bidding at this or any other RM Auctions, Inc. ("RM") auction.

POST-SALE SETTLEMENT

In the event of a successful bid, our Administration department will e-mail you a copy of your Bill of Sale and wire transfer instructions following the sale. Payment is due in full on or before 5:00 p.m. of the next business day following the auction, and payment is to be made to RM Auctions, Inc. All payments must be in the form of cash or certified funds unless other arrangements have been approved in advance. Cash payments will be reported according to U.S. federal government requirements.

ADDITIONAL FEES AND TAXES

The final bid price does not include the Buyers' Premium or applicable taxes on each lot purchased. The Buyer is responsible to pay all city, state, federal, provincial, territorial, and any and all other taxes due for which the Buyer does not qualify as exempt, subject to RM verification; proof of exemption is the Buyer's responsibility. The Buyer is responsible for any applicable duty, import tariffs, charges, or any and all other required payments that are due upon the import of the lot to its final destination.

BUYERS' PREMIUM

In addition to the Hammer Price, the winning Bidder is required to pay RM a percentage of the Hammer Price, which RM retains as the Buyers' Premium for their purchase of each motor car or any other lot ("Buyers' Premium") in accordance with the following clauses:

- RM will receive a Buyers' Premium of ten percent (10%) on all motor car lots.
- Buyers of all non-motor car lots, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing, are required to pay RM a Buyers' Premium of fifteen percent (15%) on the Hammer Price of that particular lot.

TITLE TRANSFER

In an effort to ensure all titles are free and clear of liens or encumbrances, RM manages the process of title reassignment on your behalf. Buyers will receive titles via UPS up to twenty (20) business days following the auction. Please refer to the Bidders' Conditions of Business for further details.

BIDDING INCREMENTS

Under normal circumstances, the auction estimate of the lots being auctioned off will determine the minimum increment the auctioneer will accept according to the following schedule. Please note that due to the nature of a live auction, it is at the auctioneer's sole discretion to accept bids outside of what is being asked for during the live auction.

REMOVAL OF PURCHASED LOTS

All purchased lots must be removed from the auction site by the next business day by three PM (3:00 p.m. EST) ("Removal Deadline"). If the lot is not removed by the Removal Deadline, the Buyer will be charged a daily storage fee of up to \$30.00 (USD) until the lot is removed. Please note that the Buyer is required to insure their lot while it is being stored on their behalf.

NATIONAL LOGISTIC SERVICES

All purchased non-motor car lots, including but not limited to memorabilia, jewelry, and clothing must be removed from the auction site by the next business day by three PM (3:00 p.m. EST) in the applicable time zone where the auction is held ("Removal Deadline"). If the non-motor car lot is not removed by the Removal Deadline, National Logistic Services will receive possession of the non-motor car lot and the non-motor car lot will then be shipped to the Buyer. The Buyer will be responsible for any and all applicable expenses associated with shipping the non-motor car lot to its destination.

EXCLUSIVE CARRIER OF

Sotheby's

CONSIGNORS' CONDITIONS OF BUSINESS

1. Introduction:

- 1.1 Please ensure that you read and understand these Conditions of Business ("**Conditions**") prior to consigning a Motor Car or Any Other Lot at this or any other RM Auctions, Inc. ("**RM**") sale.
- 1.2 RM's contractual relationship with the Consignors is governed by:
 - 1.2.1 These Conditions;
 - 1.2.2 the Consignment Agreement package; for the avoidance of doubt, this is the fillable package containing the Consignor's personal information and information regarding the Motor Car or Any Other Lot;
 - 1.2.3 The Conditions of Business displayed in the auction salesroom;
 - 1.2.4 The Conditions of Business displayed on RM's website; and
 - 1.2.5 In each case as amended by any salesroom notice or auctioneer's announcement at the auction.
(clauses 1.2 to 1.2.5 together "**Contractual Obligations**")
- 1.3 As auctioneer, RM acts as agent for the Consignor, and a sales contract is made directly between the Consignor and the Buyer.
 - 1.3.1 Occasionally, RM may own a Motor Car or Any Other Lot (and in such circumstances, acts in a principal capacity as the Seller) and/or may have a legal, beneficial, or financial interest in a Motor Car or Any Other Lot as a secured creditor or otherwise.

2. **RM Receiving Motor Car or Any Other Lot in Trust:** Any consigned Motor Car or Any Other Lot is delivered to RM in trust under the exact terms set forth in these Conditions. RM agrees to receive the Motor Car or Any Other Lot in trust and not to permit its use for any other purposes, other than those contained in these Conditions, without the express written consent of the Consignor.

3. **Services:** RM agrees to act as an agent for the Consignor and provide auction services, including but not limited to, a sales facility, clerks, support staff, event advertising, and promotion. In connection with the auction, RM will have absolute discretion with regard to the Motor Car or Any Other Lot or any RM auction as to (a) consulting any expert either before or after the sale, (b) researching the provenance, (c) grouping and providing catalogue and other descriptions as may be appropriate, (d) marketing and promotion of the sale, and (e) any other services required to conduct the sale.

4. **Commissions:** If the Motor Car or Any Other Lot is sold, the Consignor agrees to pay the Sellers' Commission on the hammer price (last accepted bid) ("**Hammer Price**") of the Motor Car or Any Other Lot to RM, as indicated in the Commissions section of the consignment package. Further, the Consignor acknowledges that RM will collect a Buyers' Premium from the Buyer of the Motor Car or Any Other Lot in question, based on the Hammer Price on the Motor Car or Any Other Lot. Please note that the Buyers' Premium may be subject to change at the discretion of RM if the standard Buyers' Premium for the auction changes. To be clear, the Buyers' Premium on the Motor Car or Any Other Lot will not be different from the Buyers' Premium for other motor car lots or any other lots in the auction.

5. Proceeds to Consignor:

- 5.1 As an accommodation to the Consignor, RM agrees to act as an intermediary between the Consignor and the Buyer by accepting the purchase price from the Buyer, transferring the Motor Car or Any Other Lot to the Buyer, and delivering the amounts due to the Consignor under these Conditions. If the Motor Car or Any Other Lot is sold by RM during the term of these Conditions, the money due to the Consignor shall be disbursed within 20 business days after the sale, provided that the purchase price, applicable commissions, and fees have been received by RM, in accordance with the terms of these Conditions.
- 5.2 As used in these Conditions, a "sale" occurs between the Consignor and the Buyer when the hammer or equivalent device or mechanism drops on the Hammer Price or when the auctioneer awards the Motor Car or Any Other Lot to the highest Bidder.
- 5.3 The Consignor authorizes RM to release the Motor Car or Any Other Lot to the successful Buyer upon RM receiving full payment from the Buyer or financing terms as agreed to with RM.
- 5.4 The Consignor agrees to rely solely upon the Buyer for payment.
- 5.5 Before payment of any money due to the Consignor is to be made, the Consignor agrees to provide RM with the documents necessary to transfer the ownership of the Motor Car or Any Other Lot to the Buyer.
- 5.6 If RM has reason to believe or is notified that the Consignor's breach or alleged breach of the Contractual Obligations or Consignor's action(s) could potentially cause RM liability ("**dispute**"), RM, at its sole discretion, may withhold payment to the Consignor until the dispute has been resolved; further, RM may deduct any sums that are due to it from the sum held.

6. Exclusivity:

- 6.1 The Consignor grants to RM the exclusive right and authority to advertise and sell the Motor Car or Any Other Lot for a period beginning with the date of these Conditions and ending 60 business days following the auction.
 - 6.1.1 If the Motor Car or Any Other Lot is sold prior to the auction and RM has not agreed in writing to this sale, the Motor Car or Any Other Lot will then be considered "withdrawn" from the auction by the Consignor, and the Consignor agrees to abide by clause 19, *Withdrawn Motor Car or Any Other Lot*, of these Conditions.
 - 6.1.2 If the Motor Car or Any Other Lot does not sell at auction, the Consignor grants RM the authority to list the Motor Car or Any Other Lot for sale on RM's Private Sales website and advertise, in other media at RM's discretion, the Motor Car or Any Other Lot for sale up to 60 days after the auction.
 - 6.1.2.1 RM does not have the authority to unilaterally sell the Consignor's Motor Car or Any Other Lot after the auction and must submit what RM believes to be commercially reasonable offers for sale to the Consignor.

- 6.1.2.2 If the Consignor agrees to the sale of the Motor Car or Any Other Lot, the Consignor will be required to pay RM a percentage of the sale price as an administrative fee, based on RM's standard payment grid.

7. Title, Registration Documents, and/or Appropriate Documents Evidencing Chain of Ownership to Motor Car or Any Other Lot:

- 7.1 It is the absolute requirement of the Consignor that they provide any and all titles, registration documents, or appropriate documents evidencing ownership and/or government registrations (such as Purchase Agreements and Bills of Sale) ("**Titles**") to the Motor Car or Any Other Lot to RM prior to the auction of the Motor Car or Any Other Lot.
- 7.2 The Consignor warrants that the Consignor is the sole owner of the Motor Car or Any Other Lot, and that the Consignor has full right and authority to sell the Motor Car or Any Other Lot.
- 7.3 The Consignor agrees to provide RM with a good, clear, and transferable Title to the Motor Car or Any Other Lot in advance of the auction.
 - 7.3.1 If for whatever reason RM is forced to correct any Title defect, the Consignor agrees to pay RM a minimum fee of US\$500 for any and all reasonable expenses related to correcting such defect ("**Title Fees**"). The Title Fees will be deducted from the Consignor's proceeds of sale.
 - 7.3.1.1 In cases where pre-existing Titles do not exist and insurance bonds are necessary, the Consignor will be charged Title Fees on a case-by-case basis.
- 7.4 In order to facilitate and transfer the Title for the Motor Car or Any Other Lot, the Consignor agrees to sign a Power of Attorney attached in this Consignment Agreement package.

8. **Non-Payment by Buyer:** In the event of non-payment by the Buyer, RM will endeavor to use reasonable efforts to enforce payment from the Buyer; however, RM shall not be liable to the Consignor for payment. If the Buyer does not pay RM, then at RM's sole discretion, RM may cancel the sale and return the Motor Car or Any Other Lot to the Consignor, enforce payment by the Buyer, or take other actions permitted by law. Notwithstanding the preceding sentences, if RM has paid any portion of the purchase price to the Consignor, but the purchase price has not been collected from the Buyer of the Motor Car or Any Other Lot, the Consignor hereby agrees, simultaneously with such payment, to assign to RM any and all rights that the Consignor may have against such Buyers to the extent of such payment, whether at law, in equity, or under the Contractual Obligations. The Consignor agrees to execute any documents reasonably necessary to evidence this assignment, including with respect to the Consignor's representations, warranties and indemnities as set forth in these Conditions. The Consignor authorizes RM, at RM's sole discretion, to impose on any Buyer, and retain for RM's account, a late charge if payment is not made in accordance with the Contractual Obligations.

CONSIGNORS' CONDITIONS OF BUSINESS

9. Motor Car or Any Other Lot Description:

- 9.1 The Consignor agrees to accept sole responsibility and liability for any representations made by RM that accurately repeat the information supplied by the Consignor as to the character, features, condition, correctness, authenticity, or history of the Motor Car or Any Other Lot and to indemnify, defend, and hold RM harmless from any claims that may be made with respect to any such representations.
- 9.2 The Consignor is required to review and approve any and all catalogue descriptions within 2 business days of receiving the catalogue descriptions from RM's Research department.

10. Motor Car or Any Other Lot Operation:

- 10.1 The Consignor warrants that the Motor Car or Any Other Lot is in a safe, operable condition to be driven or moved by RM's employees or representatives. The Consignor acknowledges that, should RM, at RM's sole discretion, determine that the Motor Car or Any Other Lot is not safe to operate or move, the Motor Car or Any Other Lot will not be allowed across the block.
- 10.2 The Consignor authorizes RM to perform minor work on the Motor Car or Any Other Lot to facilitate the Motor Car or Any Other Lot starting and driving across the auction block or being presentable for sale. The Consignor will hold RM harmless and indemnify RM from any damage or liability caused by the minor work performed by RM's staff on the Motor Car or Any Other Lot.

11. **Drivers:** The Consignor acknowledges and grants permission for RM and its employees and agents to drive or move the Motor Car or Any Other Lot from time to time before, during, or after the sale. The Consignor acknowledges that it is the Consignor's responsibility to maintain sufficient insurance coverage to permit such driving or moving, and the Consignor specifically agrees to indemnify, defend, and hold RM harmless, as provided in these Conditions, from any liability that may result from such driving or movement of the Motor Car or Any Other Lot.

12. No-Sale of Motor Car or Any Other Lot

- 12.1 If there is a no-sale, any and all fees owing, including but not limited to Title Fees, must be paid to RM before the Motor Car or Any Other Lot is released to the Consignor.
- 12.2 If there is a no-sale, the Consignor is required to remove their non-sold Motor Car, including motorcycles, boats, and trailers, from the auction site by 3:00 p.m. of the next business day in the jurisdiction where the auction was held ("**Removal Deadline**").
- 12.3 Contingent upon clause 12.2 being satisfied, the Motor Car Title (as long as the Consignor does not owe RM any money) will be returned to the Consignor within 60 business days.
- 12.4 If any Motor Car, including motorcycles, boats, and trailers, is not removed by the Removal Deadline (or is not granted authority to be removed due to clause 12.1), RM will remove the Motor Car, including motorcycles, boats, and trailers, and the Consignor is required to pay RM a daily storage fee of US\$30.
- 12.5 For the removal of a non-motor car lot, including but not limited to memorabilia, jewelry, and clothing, from the auction site, a direct shipping company will contact the Consignor after the sale; please note that a reasonable memorabilia removal and storage fee will apply.

- 12.6 If the Consignor has not removed their Motor Car or Any Other Lot from the storage facility within 6 months of the sale date, RM has the right to enter the Motor Car or Any Other Lot into an auction at no reserve or sell it via private treaty for fair market value.

- 12.6.1 Once sold, RM will retain all reasonable expenses, auction fees if sold via auction, and if sold via private treaty, a 20% commission; if there are any remaining funds, these will be returned to the Consignor within 30 business days of the sale.

- 12.7 RM shall have the right to exercise a charge or lien on the non-sold Motor Car or Any Other Lot or any other property belonging to the Consignor in the possession of RM if the Consignor owes RM money, and to apply any money due or to become due to the Consignor to the outstanding money the Consignor owes to RM.

13. Cancellation/Rescission of Auction:

- 13.1 RM will use reasonable efforts to avoid cancellation/rescission; however, RM has the sole discretion to cancel/rescind the auction and will not be liable to the Consignor for any losses or damages resulting from the cancellation/rescission if RM believes the following events have occurred or have a reasonable probability of occurring:

- 13.1.1 Force majeure events, including but not limited to:

- 13.1.1.1 Any natural disaster that, despite reasonable efforts, restricts RM from holding the auction;

- 13.1.1.2 Structural damage to the auction venue prior to the auction that, despite reasonable efforts, restricts RM from holding the auction; and

- 13.1.1.3 A terrorist event that, despite reasonable efforts, restricts RM from holding the auction.

- 13.1.2 Government/court actions, orders, injunctions, regulations, or laws that necessitate a cancellation.

14. Cancellation/Rescission of Motor Car or Any Other Lot:

- 14.1 RM will use reasonable efforts to avoid cancellation/rescission; however, RM has the sole discretion to cancel/rescind the sale of a Motor Car or Any Other Lot and will not be liable to the Consignor for any losses or damages resulting from the cancellation/rescission if RM believes the following events have occurred or have a reasonable probability of occurring:

- 14.1.1 RM opines that the Motor Car or Any Other Lot has been intentionally and materially misrepresented by the Consignor;

- 14.1.2 RM opines that physical damage to the Motor Car or Any Other Lot, which cannot be sufficiently repaired prior to the auction, occurred after these Conditions were signed;

- 14.1.3 RM is served with a lawsuit from a third party in relation to the Motor Car or Any Other Lot;

- 14.1.4 RM faces significant reputational damages that would cause monetary damages for selling the Motor Car or Any Other Lot;

- 14.1.5 Material issues regarding the Title, registration, or transfer of ownership that cannot be reasonably cured;

- 14.1.6 Material issues regarding the provenance, merchantability, or authenticity of the Motor Car or Any Other Lot that cannot be reasonably cured; or

- 14.1.7 If there are legitimate claims, accusations, notices, or similar communications made by the Buyer in regard to their purchase of a Motor Car or Any Other Lot not being authentic, being misrepresented, having an encumbered Title or registration, having an undisclosed material issue, or having a similar claim, RM has the right to retain the Buyer's funds on account and be the arbitrator as to the merit of the Buyer's claims and to cancel the sale of the Motor Car or Any Other Lot and reimburse the payment to the Buyer if RM deems the Buyer's claims to be valid.

15. Estimates and Catalogue Descriptions:

- Any pre-sale estimates are intended as guides for prospective Bidders. RM makes no representation or warranty of the anticipated selling price of a Motor Car or Any Other Lot, and no estimate anywhere by RM of the selling price of a Motor Car or Any Other Lot may be relied upon as a prediction of the actual selling price. Estimates included in catalogues, online, in pre-mailers, in any advertisements, or elsewhere are preliminary only, and they are subject to revision by RM from time to time at its sole discretion. The Consignor acknowledges that RM will not be liable for any errors or omissions in the catalogue or other descriptions of a Motor Car or Any Other Lot, and these descriptions make no guarantees, representations, or warranties whatsoever to the Consignor with respect to a Motor Car or Any Other Lot, its attribution, legal title, condition, value, or other characteristics.

16. **Odometer Statement:** The Consignor will provide a duly executed odometer statement on or before the first day of the auction, and further accepts sole responsibility for the accuracy or inaccuracy of such statement.

17. Reserve:

- 17.1 A reserve price noted in the fillable section of the Auction Consignment Agreement is the lowest bid acceptable to the Consignor. Reserve prices may be lowered at any time by the Consignor, either verbally or in writing, but they may not be raised. The reserve does not include commissions to RM. RM has the right to sell the Motor Car or Any Other Lot at a price below the agreed verbal or written reserve, provided that the Consignor receives the same net proceeds as the Consignor would have received had the reserve been met. If no reserve, indicate clearly by writing "NONE" in the space provided in the fillable section of the Auction Consignment Agreement.

- 17.2 If RM contributes to the Hammer Price to meet a reserve, the reserve for the respective Motor Car or Any Other Lot becomes the Hammer Price plus RM's contribution for purposes of commissions.

18. **Insurance:** The Consignor will be responsible for maintaining adequate property insurance on the Motor Car or Any Other Lot at all times, and this insurance must be at least equal to the aggregate low pre-sale auction estimate for the Motor Car or Any Other Lot, which in each case shall include insurance for damages to the Motor Car or Any Other Lot and shall not be cancellable by the insurance company until after ownership and Title have passed to the Buyer and the Buyer

CONSIGNORS' CONDITIONS OF BUSINESS

has taken possession of the Motor Car or Any Other Lot from RM. The Consignor agrees that RM and its respective affiliates and agents will not be responsible for, and the Consignor releases RM and its respective affiliates, agents, and warehouses from, any and all liability for loss of, theft of, or damage to the Motor Car or Any Other Lot.

19. Withdrawn Motor Car or Any Other Lot:

19.1 The Consignor acknowledges that RM has incurred and will incur significant costs preparing, advertising, marketing, and promoting the Motor Car or Any Other Lot for the auction.

19.2 If the Consignor withdraws one or more of the Motor Cars or Any Other Lots from the auction after the signing of these Conditions, the Consignor will pay RM the Buyers' Premium and Sellers' Commission that would have been due under these Conditions had the Motor Car or Any Other Lot met (a) their reserve; (b) if offered without reserve, then the Motor Car or Any Other Lot's published low estimate; or (c) if no published low estimate, then the Motor Car or Any Other Lot's fair market value as determined by RM, by 5:00 p.m. of the next business day following the auction.

20. Legal Action: If either Party brings action against the other arising from or relating to the provisions of these Conditions, the prevailing Party, as determined by the court, shall be entitled to recover its reasonable attorney fees and costs. The law of the jurisdiction in which the auction is held shall govern the provisions of these Conditions.

21. Marketing Fee: The marketing fee is non-refundable and is not credited toward the sales commission.

22. Bidding Restrictions: The Consignor hereby agrees not to bid on his/her/their Motor Car or Any Other Lot. Although the auctioneer shall be entitled to bid on the Consignor's behalf up to the amount of the Reserve (if applicable), the Consignor shall neither instruct nor permit any other person to bid on behalf of the Consignor for his/her/their Motor Car or Any Other Lot. If, however, in violation of the foregoing, the Consignor (or his or her agent) bids on his/her/their Motor Car or Any Other Lot and becomes the successful Bidder, the expenses, marketing fee, repair expenses, Buyers' Premium, and Sellers' Commission on the Hammer Price shall be payable by the Consignor. If the Consignor does not pay in accordance with this clause, his/her/their Motor Car or Any Other Lot may be sold without reserve.

23. Motor Car or Any Other Lot's Batteries: If a Motor Car or Any Other Lot arrives at the auction with a dead battery, or shows signs of a draining battery, an automatic US\$200 (or the local currency equivalent) replacement fee will be charged to the Consignor.

24. Antifreeze Is the Responsibility of the Consignor:

24.1 As the Consignor's Motor Car or Any Other Lot could be shipped to a location where below-freezing temperatures are a possibility, it is the Consignor's responsibility to ensure that, within the last 6 months, they have winterized their Motor Car or Any Other Lot for shipping in freezing temperatures. Winterizing one or more of the Motor Cars or Any Other Lots means that the Consignor has completely filled and properly mixed, at a minimum, -20°F-rated antifreeze into their Motor Car or Any Other Lot's radiator.

24.2 If any damage occurs because the Consignor did not properly winterize their Motor Car or Any Other Lot, it will be the Consignor's responsibility to cover the damages, and RM may recoup these damages from the Consignor's settlement. If it is found that the Consignor did not properly winterize their Motor Car or Any Other Lot, the associated costs with checking, filling, and disposing of the antifreeze will be recouped from the Consignor's settlement; if the Motor Car or Any Other Lot is not sold, the Consignor must pay RM before the Consignor can retake possession of their Motor Car or Any Other Lot. If already settled, the Consignor must pay RM directly.

25. Entire Agreement: This document shall be binding upon the Parties and their respective heirs, personal representatives, and assigns. Except as otherwise expressly provided herein, these Conditions shall not be modified, except in writing. Whenever used in these Conditions, as the contract requires, the singular number shall include the plural, the plural number shall include the singular, the masculine gender shall include the feminine and neuter, the feminine gender shall include the masculine and neuter, and the neuter gender shall include the masculine and feminine.

26. No Legal or Tax Advice: These Conditions is an important legal document. The Consignor acknowledges that the Consignor has had the opportunity to consult an attorney before signing these Conditions and has signed these Conditions after having the opportunity to consult with an attorney of their own choosing. Notwithstanding any references to any transactions or arrangements in these Conditions, or any contemporaneous written, oral, or implied understandings of the Parties relating to the subject matter of these Conditions, RM has not provided legal or tax advice or tax planning services to the Consignor or for the Consignor's benefit in connection with the transactions contemplated by these Conditions, and no one at RM has acted as the Consignor's attorney or tax advisor.

27. Data Use: The Consignor agrees to allow RM to use their personal information in accordance with RM's privacy policy. RM uses your personal information to provide services specifically tailored toward your requirements and to treat you in a personal way; to fulfill your agreements regarding the consignment and purchases of items at RM auctions and private sales; to provide you with information on upcoming sales; to carry out analysis and market research; to undertake targeted online advertising; to send status updates and service communications; to improve our websites, products, and services; to provide payment services; and for management and administrative purposes. The full Privacy Policy can be found at the bottom of RM's website homepage under the Privacy and Terms tab. If you wish to ask any questions regarding the use of your personal information, request a full accounting of what personal information is on file with RM, unsubscribe to any services, or purge your personal information from RM's systems, please email privacy@rmsothebys.com.

28. Anti-Money Laundering: The Consignor agrees to provide all information and assistance reasonably requested by RM to comply with RM's internal anti-money laundering process and to comply with any and all anti-money laundering laws and regulations in force in the jurisdiction in which the auction is held.

29. Photography, Videography, and Illustrations: All photographs, videography, and illustrations commissioned by RM for the Motor Car or Any Other Lot are the absolute property of RM, and RM shall have the absolute right to use the photographs, videography, and illustrations as RM deems fit.

BIDDERS' CONDITIONS OF BUSINESS

1. Introduction.

1.1. Please ensure that you read and understand these Conditions of Business prior to bidding on a motor car or any other lot at this or any other RM Auctions, Inc. ("RMA") or RM Sotheby's ("RMS") auction (RMA and RMS together "RM"). Even though the RM Bidders' Conditions of Business are standardized, there are unique jurisdictional requirements and terms that may not apply to every auction, and it is each Bidder's responsibility to understand and review these Conditions of Business as they apply. By agreeing to these Conditions of Business, you are agreeing to be bound by these Conditions of Business for both RMS and RMA auctions. Please note that the Bidders' Conditions of Business are subject to change, and it is each Bidder's responsibility to apprise themselves of any changes to the Bidders' Conditions of Business. Bidders are encouraged to contact RM's Client Service department at clientservices@rmsothebys.com with any questions or concerns regarding these Bidders' Conditions of Business.

1.2. RM's contractual relationship with the Bidders is governed by:

1.2.1. These Bidders' Conditions of Business;

1.2.2. The Bidders' Conditions of Business displayed in the auction salesroom;

1.2.3. The Bidders' Conditions of Business displayed on RM's website; and

1.2.4. In each case as amended by any salesroom notice, auctioneer's announcement at the auction, or website update.

(Clauses 1.2 to 1.2.4 together "**Contractual Obligations**".)

1.3. As auctioneer, RM acts as the agent for the Consignor, and a sale contract is made directly between the Consignor and the Buyer.

1.3.1. Occasionally, RM may own a motor car or any other lot (and, in such circumstances, acts in a principal capacity as the Seller) and/or may have a legal, beneficial, or financial interest in a motor car or any other lot as a secured creditor or otherwise.

2. **Services.** RM agrees to act as an agent for the Bidders and provide auction services including, but not limited to, a sale facility, clerks, support staff, event advertising, and promotion. In connection with the auction, RM will have absolute discretion with regard to the motor car and any other lot or any RM auction as to (a) consulting any expert either before or after the sale, (b) researching provenance, (c) grouping and providing catalogue and other descriptions as may be appropriate, (d) marketing and promotion of the sale, and (e) any other services required to conduct the sale.

3. **Registration Fee.** In order to register to bid onsite at auction, Bidders must pay a bidder registration fee as outlined below:

3.1. Up to a US\$300 bidder registration fee for RMS North American auctions;

3.2. Up to a US\$200 bidder registration fee for RMA North American auctions;

3.3. A €200 bidder registration fee for RMS Paris auctions;

3.4. A €200 bidder registration fee for RMS Monaco and Villa Erba auctions; and

3.5. A £150 bidder registration fee for RMS London, United Kingdom, auctions.

4. Bidding.

4.1. To bid at an RM auction, a Bidder must be at least 21 years of age.

4.2. At auction, there is no "cooling-off period." If you are awarded the final bid, ownership changes hands at the drop of the gavel. You own the motor car or any other lot and are responsible for payment in full. No Bidder may retract a bid made during the sale for any reason.

4.3. The Bidder is responsible for all risk of loss or damage and insurance immediately upon purchase of the motor car or any other lot.

4.4. RM reserves the right to reject any bid. The highest Bidder acknowledged by the auctioneer will be the Buyer. The auctioneer has absolute and sole discretion in the case of error or dispute with respect to bidding and, whether during or after the sale, to determine the successful Bidder, to re-open the bidding, to cancel the sale, or to re-offer and re-sell the motor car or any other lot in dispute. If any dispute arises after the sale, RM's sale record is conclusive. At RM's discretion, RM will execute order or absentee bids and accept telephone bids and online bids via rmsothebys.com as a convenience to clients who are not present at auctions; RM is not responsible for any errors or omissions in connection therewith. Prospective Bidders should also consult rmsothebys.com for the most up-to-date cataloguing of the motor cars or any other lots.

4.5. By participating in the sale, the Bidder represents and warrants that any bid placed by them, or on their behalf, is not the product of any collusive or other anti-competitive agreement and is otherwise consistent with federal and state antitrust law. RM may require such necessary financial references, guarantees, deposits, and/or such other security, at their absolute discretion, as security for any bid. Please bear in mind that RM is unable to obtain financial references over weekends or public holidays.

5. **Purchase Price.** The purchase price shall consist of the following:

5.1. the Hammer Price (defined below) (last accepted bid) of the motor car or any other lot, and

5.2. the applicable Buyers' Premium.

(Clauses 5 to 5.2 together "**Purchase Price**".)

6. Buyers' Premium.

6.1. In addition to the Hammer Price, the winning Bidder is required to pay RM a percentage of the Hammer Price, which RM retains as the Buyers' Premium for the purchase of each motor car or any other lot ("**Buyers' Premium**").

6.2. RMS North American auctions will have the following Buyers' Premiums:

6.2.1. In the event of a final Hammer Price of US\$250,000 and below on all motor car lots, RMS will receive a Buyers' Premium of 12%.

6.2.2. In the event of a final Hammer Price above US\$250,000 on all motor car lots, RMS will receive a Buyers' Premium of 12% on the first US\$250,000 and will receive a Buyers' Premium of 10% on the Hammer Price above US\$250,000.

6.2.3. Buyers of all non-motor car lots, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing, are required to pay RMS a Buyers' Premium of 20% on the Hammer Price of those particular lots.

6.3. RMA North American auctions will have the following Buyers' Premiums:

6.3.1. RMA will receive a Buyers' Premium of 10% on all motor car lots.

6.3.2. Buyers of all non-motor car lots, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing, are required to pay RMA a Buyers' Premium of 15% on the Hammer Price of those particular lots.

6.4. RM European auctions will have the following Buyers' Premiums:

6.4.1. In the event of a final Hammer Price of €200,000 and below on all motor car lots, RM will receive a Buyers' Premium of 15% (plus VAT on the Buyers' Premium).

6.4.2. In the event of a final Hammer Price above €200,000 on all motor car lots, RM will receive a Buyers' Premium of 15% (plus VAT on the Buyers' Premium) on the first €200,000 and will receive a Buyers' Premium of 12.5% (plus VAT on the Buyers' Premium) on the Hammer Price above €200,000.

6.4.3. Buyers of all non-motor car lots, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing, are required to pay RM a Buyers' Premium of 20% (plus VAT on the Buyers' Premium) on the Hammer Price of those particular lots.

6.5. RMS London, United Kingdom, auctions will have the following Buyers' Premiums:

6.5.1. In the event of a final Hammer Price of £200,000 and below on all motor car lots, RMS will receive a Buyers' Premium of 15% (plus VAT on the Buyers' Premium).

6.5.2. In the event of a final Hammer Price above £200,000 on all motor car lots, RMS will receive a Buyers' Premium of 15% (plus VAT on the Buyers' Premium) on the first £200,000 and will receive a Buyers' Premium of 12.5% (plus VAT on the Buyers' Premium) on the Hammer Price above £200,000.

6.5.3. Buyers of all non-motor car lots, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing, are required to pay RMS a Buyers' Premium of 20% (plus VAT on the Buyers' Premium) on the Hammer Price of those particular lots.

6.6. For those Bidders utilizing the online service Live Auctioneers for any RM auction, in addition to the applicable Buyers' Premium, an additional 2% of the Hammer Price will be charged to the Buyer of a motor car lot, and an additional 3% of the Hammer Price will be charged to the Buyer of a non-motor car lot, including but not limited to memorabilia, motorcycles, boats, trailers, jewelry, and clothing.

BIDDERS' CONDITIONS OF BUSINESS**7. Tax.**

- 7.1. The Buyer is responsible to pay all city, state, federal, provincial, territorial, and any and all other taxes due for which the Buyer does not qualify as exempt, subject to RM verification; proof of exemption is the Buyer's responsibility. The Buyer is responsible for any applicable duty, import tariffs, charges, or any and all other required payments that are due upon the import of the motor car or any other lot to its final destination.
- 7.2. Although by no means an exhaustive list, please be aware of the tax scenarios below.
- 7.2.1. For auctions held in the United States, if the Buyer of a motor car or any other lot resides in an American state in which RM is registered to collect/remit sales tax, RM is required to collect/remit sales tax on the purchase of that motor car or any other lot. RM is registered to collect/remit sales tax in the following states: California, Florida, Indiana, Pennsylvania, Arizona, New York, and Michigan. RM reserves the right to collect/remit sales tax from residents from other jurisdictions if RM deems the collection/remittance of tax necessary.
- 7.2.2. For auctions in the EU, according to the EU VAT Directive, motor cars that have been in use for no more than 6 months or that have been driven for no more than 6,000 kilometers are considered new means of transport and will be subject to VAT. Payment of VAT is the responsibility of the Buyer. Where applicable, RM may take a deposit from the Buyer equal to the amount of VAT due, which will be refunded upon receiving satisfactory evidence that the motor car has been transported to and registered in another EU country.

8. No Legal or Tax Advice. This agreement is an important legal document. The Bidder acknowledges that the Bidder has had the opportunity to consult an attorney before signing this agreement and has signed this agreement after having the opportunity to consult with an attorney of their own choosing. Notwithstanding any references to any transactions or arrangements in this agreement, or any contemporaneous written, oral, or implied understandings of the Parties relating to the subject matter of this agreement, RM has not provided legal or tax advice or tax planning services to the Bidder or for the Bidder's benefit in connection with the transactions contemplated by this agreement, and no one at RM has acted as the Bidder's attorney or tax advisor. It is the Bidder's responsibility to satisfy themselves and comply with all applicable tax, duty, or any and all other payments associated with the purchase of a motor car or any other lot at an RM auction.

9. Payment.

- 9.1. Subject to fulfillment of the Contractual Obligations, on the fall of the auctioneer's hammer or equivalent device or mechanism ("Hammer Price"), the contract between the Consignor and the Bidder is concluded; payment is due in full on or before 5:00 p.m. of the next business day ("**Payment Deadline**"), and payment is to be made to RM.
- 9.2. For RM North American auctions, all payments must be in the form of cash or certified funds unless other arrangements have been approved in advance. Cash payments will be reported according to U.S. federal government requirements.

- 9.3. For RM United Kingdom and European auctions, all payments must be in the form of wire transfer unless other arrangements have been approved in advance.
- 9.4. RM is not obligated to release the motor car or any other lot to the winning Bidder until the winning Bidder has met all of the Contractual Obligations and paid the Purchase Price plus applicable taxes.
- 9.5. In the event that the winning Bidder does not pay any portion of the Purchase Price plus applicable taxes by the Payment Deadline, the Bidder agrees to and acknowledges the following: If RM elects to pay the Consignor any portion of the Purchase Price plus applicable taxes, RM shall have all of the rights of the Consignor to pursue the Buyer for any amounts paid to the Consignor, whether at law, in equity, or under these Conditions of Business. The Bidder hereby authorizes RM to deduct the Purchase Price plus applicable taxes from the Bidder's cash deposit or to charge this amount to the credit card that the Bidder has provided. If the Bidder's cash deposit and/or credit card payment does not cover the Purchase Price plus applicable taxes, in addition to other remedies available by law, RM reserves the right to impose, from the Payment Deadline until the full Purchase Price plus applicable taxes has been made by the Buyer, a late charge of 10% interest per annum on the (1) Purchase Price plus applicable taxes, (2) maximum published Sellers' Commission, (3) Buyers' Premium, (4) applicable expenses, (5) any collection costs, attorneys' fees, and court costs incurred to enforce payment, and (6) other damages.

10. All Sales Are "As Is" and "Where Is."

The Bidder is responsible for inspections and verification of the condition, authenticity, and completeness of any motor car or any other lot purchased. No warranties or representations of any type whatsoever are made by RM. Statements printed in catalogues, online content, pre-mailers, advertisements, brochures, signs, and window cards, as well as verbal statements made by auctioneers or auction staff, are representations made by the Consignor, and RM has no obligation to verify or authenticate any such claims or representations. Except as herein provided, all motor cars or any other lots are sold as is, where is, with no representations or warranties, expressed or implied. **THE CONSIGNORS AND RM DISCLAIM ALL WARRANTIES, EXPRESSED OR IMPLIED, AS TO CONDITION, ORIGINALITY, OR AUTHENTICITY; ORIGIN OR PROVENANCE; PREVIOUS USE OR OWNERSHIP; MANUFACTURING OR RESTORATION PROCESSES; YEAR OR AGE; SERIAL NUMBER, MAKE, OR MODEL; OPTIONS AND TOOLS; ENGINE HOURS; AND MILEAGE OF ANY MOTOR CAR OR ANY OTHER LOT OR COMPONENT OF ANY MOTOR CAR OR ANY OTHER LOT, AND THEY SPECIFICALLY DISCLAIM ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.**

- 11. Reserves.** Motor cars or any other lots not marked as "no reserve" (or similar) are subject to a reserve bid set by the Consignor. When a motor car or any other lot is sold subject to such a reserve bid, the auctioneer may bid on the Consignor's behalf in an amount not to exceed the amount of the reserve bid.
- 12. Absentee and Telephone Bidding.** Absentee and telephone bidding are services provided by RM for the Bidder's benefit, and RM cannot be held responsible for errors or omissions with respect to the bidding process, including failure to execute any bid. By submitting one or more bids, the Bidder has entered into a binding contract to purchase

each motor car or any other lot if the Bidder's bid is successful. If the Bidder's bid is successful, the Bidder is to pay the Purchase Price plus applicable taxes, including the Buyers' Premium and sales tax, if not otherwise exempt. It is the Bidder's responsibility to provide proof of exemption from sales tax. By participating in telephone bidding, the Bidder acknowledges that RM has the right to record all telephone calls.

13. Cancellation/Rescission of Auction. RM will use reasonable efforts to avoid cancellation/rescission; however, RM has the sole discretion to cancel/rescind the auction and will not be liable to the Bidder for any losses or damages resulting from the cancellation/rescission if RM believes the following events have occurred or have a reasonable probability of occurring:

- 13.1. Force Majeure events including but not limited to:
- 13.1.1. Any natural disaster, which despite reasonable efforts, restricts RM from holding the auction;
- 13.1.2. Structural damage to the auction venue prior to the auction, which despite reasonable efforts, restricts RM from holding the auction; and
- 13.1.3. Any terrorist event, which despite reasonable efforts, restricts RM from holding the auction.
- 13.2. Government/Court action, order, injunction, regulation, or law that necessitates a cancellation.

14. Cancellation/Rescission of Motor Car or Any Other Lot.

RM will use reasonable efforts to avoid cancellation/rescission; however, RM has the sole discretion to cancel/rescind the sale of a motor car or any other lot and will not be liable to the Bidder for any losses or damages resulting from the cancellation/rescission if RM believes the following events have occurred or have a reasonable probability of occurring:

- 14.1. RM opines that the motor car or any other lot has been intentionally and materially misrepresented by the Consignor;
- 14.2. RM opines that physical damage to the motor car or any other lot, which cannot be sufficiently repaired prior to the auction, occurred after this agreement was signed;
- 14.3. RM is served with a lawsuit from a third party in relation to the motor car or any other lot;
- 14.4. RM faces significant reputational damages that would cause monetary damages for selling the motor car or any other lot;
- 14.5. Material issues regarding title, registration, or transfer of ownership that cannot be reasonably cured;
- 14.6. Material issues regarding the provenance, merchantability, or authenticity of the motor car or any other lot that cannot be reasonably cured; or
- 14.7. If there are legitimate claims, accusations, notices, or similar communications made by the Buyer in regard to their purchase of a motor car or any other lot not being authentic, being misrepresented, having an encumbered title or registration, having undisclosed material issue, or having a similar claim, RM has the right to retain the Buyer's funds on account and be the arbitrator as to the merit of the Buyer's claims and to cancel the sale of the motor car or any other lot and reimburse the payment to the Buyer if RM deems the Buyer's claims to be valid.

RM2018

BIDDERS' CONDITIONS OF BUSINESS

15. Online Services Are "As Is" and "As Available."

15.1. Bidders may be able to bid via websites, telephone services, applications, and tools (collectively "Services").

15.2. RM tries to keep the Services safe, secure, and functioning properly, but RM cannot guarantee the continuous operation of or access to the Services. Bid update and other notification functionality may not occur in real time. Such functionality is subject to delays beyond RM's control.

15.3. Bidders agree that they are making use of the Services at their own risk and that they are being provided to Bidders on an "AS IS" and "AS AVAILABLE" basis. Accordingly, to the extent permitted by applicable law, RM excludes all expressed or implied warranties, terms, and conditions, including but not limited to implied warranties of merchantability, fitness for a particular purpose, and non-infringement.

16. **Currency Display.** RM may use a currency display in the salesroom for informational purposes only. The currencies listed on the currency converter are not real-time conversions pegged to market rates and are not to be relied on by anyone. Errors and inaccuracies may occur in the operation of the currency converter. To be clear, the bid price stated by the auctioneer is the prevailing and binding bid price.

17. **Bank Letter.** Please note that in order to register to bid at an RM sale, RM requires that all Bidders provide a Bank Letter. All Bank Letters must be written on bank letterhead. Please note that RM may waive this requirement at its sole discretion.

18. Credit Card Hold and Pre-authorization.

18.1. Please note that in order to register to bid at an RM sale, RM requires a hold and pre-authorization to be placed on the Bidder's credit card, which is dependent on the particular auction as listed in clause 18.2 ("CC Hold"). If the Bidder fails to pay for a motor car or any other lot purchased on or before 5:00 p.m. of the next business day following the auction, the Bidder acknowledges that their credit card will be charged the applicable CC Hold for the missed payment; please note that the Bidder is still bound to pay their remaining balance. The CC Hold will not be charged to their credit card if the Bidder makes full payment on or before 5:00 p.m. of the next business day following the auction. If the Bidder does not purchase a motor car or any other lot, their credit card will not be charged. If their credit card is not to be charged, the CC Hold should fall off their credit card within 10 business days, depending on their credit card company. Please note that RM may waive this requirement at its sole discretion.

18.2. A CC Hold as outlined below will be placed on the Bidder's credit card:

18.2.1. A US\$5,000 CC Hold for RMS North American auctions;

18.2.2. A US\$2,000 CC Hold for RMA North American auctions;

18.2.3. A €5,000 CC Hold for RM European auctions; and

18.2.4. A £5,000 CC Hold for RMS London, United Kingdom, auctions.

19. Title Transfer.

19.1. For RM North American auctions, in an effort to ensure all titles are free and clear of liens or encumbrances, RM manages the process of title reassignment on behalf of the Buyer. Buyers will

receive titles in the mail up to 20 business days following the auction. A US\$75 administration fee or its equivalent in local currency of the auction location (US\$65 in the State of California) will be assessed per motor car purchased, but this fee will not apply to nostalgia lots.

19.1.1. If a motor car or any other lot is rendered "Title in Transit", Buyers may not receive titles in the mail up to 20 business days following the auction; however, RM will use reasonable efforts to ensure that Buyers receive the titles in the mail as soon as possible after the auction.

19.2. For RM European and London, United Kingdom auctions, RMS will use its best efforts to ensure that all titles are free and clear of liens and encumbrances. Where possible, RMS will also assist with the process of title reassignment on behalf of the Buyer. RMS cannot however be held responsible for the successful completion of this procedure due to the various regional rules and guidelines.

20. Removal of Purchased Motor Car or Any Other Lot.

20.1. For RM North American and European auctions, all purchased motor cars, including motorcycles, boats, and trailers, must be removed from the auction site by the next business day by 5:00 p.m. in the applicable time zone where the auction is held ("**RM Removal Deadline**").

20.1.1. Specifically, for RM North American auctions:

20.1.1.1. If a motor car (including motorcycles, boats, and trailers) is not removed by the RM Removal Deadline, the Buyer will be charged a removal fee of up to US\$600 and a daily storage fee of up to US\$30 until the motor car (including motorcycles, boats, and trailers) is removed.

20.1.1.1.1. Please note that for RM auctions in Auburn, Indiana, no removal fee will apply.

20.1.2. Specifically, for RM European auctions:

20.1.2.1. The Buyer will be charged a removal fee of up to €600 plus VAT per motor car, and a daily storage fee of up to €40 plus VAT per motor car until the motor car (including motorcycles, boats, and trailers) is removed.

20.1.2.2. Specifically, if a boat lot is not removed by the RM Removal Deadline, RM will remove the boat lot, and the Consignor is required to pay RM a removal fee plus VAT per boat lot and a daily storage fee plus VAT per boat lot. The removal fee and daily storage fee for a boat lot will be determined based on the size of the boat lot and therefore cannot be confirmed until the boat lot is consigned.

20.2. For RMS London, United Kingdom, auctions:

20.2.1. All purchased motor cars, including motorcycles, boats, and trailers, will be removed and taken to the CARS Europe storage facility located in either Chedburgh, Suffolk, United Kingdom, or Fair Oaks Chobham, United Kingdom, by the next business day by 12:00 p.m. in the applicable time zone where the auction is held.

20.2.2. The Buyer will be charged a removal fee of up to £600 plus VAT per motor car and a daily storage fee of up to £40 plus VAT per motor car until the motor car (including motorcycles, boats, and trailers) is removed.

20.3. Regarding the collection of any non-motor car lots, including but not limited to memorabilia, jewelry, and clothing, from the auction site: Once the Buyer has made payment by the Payment Deadline, a direct shipping company will contact the Buyer. Please note that a reasonable memorabilia removal and storage fee will apply.

20.4. Please note that the Buyer is required to insure their motor car or any other lot while the motor car or any other lot is being stored on their behalf.

21. Legal Action.

21.1. For RM North American auctions, in the event that either party brings action against the other, arising from or relating to this auction, the prevailing party, as determined by the court, shall be entitled to recover its reasonable attorneys' fees and costs. Jurisdiction for any action brought shall lie exclusively in a court of competent jurisdiction in the judicial district in which the auction is located.

21.2. For RM European auctions:

21.2.1. These Bidders' Conditions of Business (and any dispute or claim relating to them, their subject matter, their enforceability, or their termination [including non-contractual claims]) are to be governed by and construed in accordance with English law.

21.2.2. The courts of England and Wales shall have jurisdiction to settle any claim, dispute, or issue, whether arising out of or in connection with these Bidders' Conditions of Business or otherwise (including non-contractual claims). In the case of a dispute that is the subject of a claim by RM, such jurisdiction shall be non-exclusive. In any other case, such jurisdiction shall be exclusive, and the Buyer and Consignor agree that it will not institute proceedings in the courts of any country other than England and Wales.

21.3. For RMS' Paris auctions:

21.3.1. These Bidders' Conditions of Business (and any dispute or claim relating to them, their subject matter, their enforceability, or their termination [including non-contractual claims]) are to be governed by and construed in accordance with French law.

21.3.2. The courts of France shall have jurisdiction to settle any claim, dispute, or issue, whether arising out of or in connection with these Bidders' Conditions of Business or otherwise (including non-contractual claims). In the case of a dispute that is the subject of a claim by RM, such jurisdiction shall be non-exclusive. In any other case, such jurisdiction shall be exclusive, and the Buyer and Consignor agree that they will not institute proceedings in the courts of any country other than France.

22. **Packing and Shipping.** RM is not responsible for the acts or omissions in our packing or shipping of purchased motor car or any other lot or of other carriers or packers of purchased motor car or any other lot, whether or not recommended by RM. Packing and handling of purchased motor car or any other lot are at the entire risk of the Buyer.

BIDDERS' CONDITIONS OF BUSINESS

- 23. Data Use.** The Bidders agree to allow RM to use their personal information in accordance with RM's Privacy Policy. RM uses your personal information to provide services specifically tailored toward your requirements and to treat you in a personal way; to fulfill your agreements regarding the consignment and purchase of items at RM auctions and private sales; to provide you with information on upcoming sales; to carry out analysis and market research; to undertake targeted online advertising; to send status updates and service communications; to improve our websites, products, and services; to provide payment services; and for management and administrative purposes. The full Privacy Policy can be found at the bottom of the RM website homepage under the Privacy & Terms tab. If you wish to ask any questions regarding the use of your personal information, to request a full accounting of what personal information is on file with RM, or to unsubscribe to any services or purge your personal information from RM's systems, please email privacy@rmsothebys.com.
- 24. Anti-Money Laundering.** The Bidder agrees to provide all information and assistance reasonably requested by RM to comply with RM's internal Anti-Money Laundering process and to comply with any and all Anti-Money Laundering Laws and Regulations in force in the jurisdiction in which the auction is held.
- 25. The Authentication Company, LLC.** Please note that The Authentication Company, LLC ("TAC") is an independent company working in association with RM; any abbreviations, terms, rating system are strictly for informational purposes and are subject to change. RM does not represent or

warrant any ratings or references made to TAC. No information provided by TAC overrides the RM Conditions of Business. RM strongly recommends that Bidder perform their own inspections and due diligence on motor car or any other lot for sale.

FOR RM CALIFORNIA AUCTIONS SPECIFICALLY:

- 26. Notice to Buyers as Required by the California Department of Motor Vehicles Code Section 11729.** Failure of RM to comply with the terms of this agreement may be in violation of statute, which could result in criminal or administrative sanctions, or both. If you feel RM has not complied with the terms of this agreement, please contact an investigator of the Department of Motor Vehicles.
- 27. Contract Cancellation Agreement.** In the event of a successful bid, if a motor car or any other lot has a combined hammer price and Buyers' Premium equaling less than US\$40,000, under the Car Buyer's Bill of Rights (FFVR 35), RM is required to offer a 2-day contract cancellation option agreement to the successful Buyer. If the Buyer exercises this contract cancellation option, RM is obligated to return any funds paid by the Buyer and cancel the sale. If the sale is canceled, RM is under no obligation to pay the Consignor for the motor car or any other lot, and the motor car or any other lot will be deemed to have not sold.

FOR RM EUROPEAN AUCTIONS SPECIFICALLY:

- 28. Motor Car or Any Other Lot Under Temporary Import.**
- 28.1. A temporary import bond is used in all EU sales. If a motor car or any other lot is brought into the EU from a country outside of the EU, the motor car or

any other lot must be placed on either RM's bond in the United Kingdom or one of RM's nominated customs agencies for Paris, Monaco, or Italy. Fees and charges vary from sale to sale, and for some countries, this is also determined by the value of the motor car or any other lot.

- 28.2. Motor cars or any other lots subject to temporary importation restrictions cannot be discharged from RM's custody without the completion of customs procedures and until full payment has been received. Customs charges will be levied appropriately depending on each individual scenario and will be payable directly to the relevant authorities, which RM will provide the details of as and when necessary.
- 28.3. Should the Buyer decide for the motor car or any other lots to remain in the EU when purchased, the Buyer is responsible to pay any and all import fees for the motor car or any other lots.
- 29. Translated Bidders' Conditions of Business.** If there is a contradiction due to translation in our Bidders' Conditions of Business, please note that the English version of RM's Bidders' Conditions of Business will supersede.

FOR RMS' PARIS AUCTIONS SPECIFICALLY:

- 30. Guarantee.** Please note that RMS has placed a guarantee with QBE Insurance (Europe) Limited, a company incorporated in England with registered number 1761561 ("QBE"), Plantation Place, 30 Fenchurch Street, London, EC3M 3BD, to secure availability of sale proceeds as required by law.
