**IMPORTANT NOTICE TO PURCHASERS –
CHANGE OF PROPERTY LOCATION
POST SALE**

Purchasers may pay for and pick up their purchases at our York Avenue headquarters until the close of business on the day of each respective auction. After this time, sold property will be transferred to our new offsite facility, Crozier Fine Arts, One Star Ledger Plaza, 69 Court Street, Newark, New Jersey 07102. Once property has been transferred from our York Avenue location, it will not be available for collection at Crozier Fine Arts for two business days. Crozier's hours of operation for collection are from 9:00 AM to 5:00 PM, Monday-Friday. Please note, certain items of property, including but not limited to jewelry, watches, silver and works on panel will remain at 1334 York Avenue. Invoices and statements will indicate your property's location. For more information regarding collection from our offsite facility, please visit sothebys.com/pickup.

REF 5134R TRAVEL TIME
A PINK GOLD DUAL TIME ZONE
WRISTWATCH WITH 24 HOUR INDICATOR
MADE IN 2008

Dial: two toned silvered

Caliber: cal. 215/156 manual winding movement, 18 jewels

Movement number: 3089656

Case: 18k pink gold, screw-down sapphire caseback

Case number: 4704320

Closure: 18k pink gold *Patek Philippe* folding buckle

Size: diameter 37 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* Extract from the Archives confirming the date of sale on September 3, 2008 with a two toned silvered dial, leather bi fold, booklets and factory service box

Reference 5134 was produced from 2001 to 2008. The Travel Time feature is unique in that it is able to show the first time zone independently from the second time zone. By using two separate push buttons, the local time hour hand can be adjusted in one hour increments without affecting the home time. When the dual time feature is not needed, the two hour hands can simply be superimposed and will then run synchronously.

Reference 5134 was modeled after the Louis Cottier-designed reference 2597.

Reference 5496 was launched in 2011 as the modern replacement for the classic reference 5050. Both the original and the newer version are beloved by collectors for their attractive and legible dials. The layout of the dial, with its minimized apertures and retrograde date display, conveys a great deal of information in an easy-to-read display, while retaining a clean, understated and extremely elegant aesthetic.

With this technical masterpiece, A. Lange & Söhne created a dynamic watch with strong personality. The Datograph is the world's first chronograph based on the classic column-wheel principle with flyback, precisely jumping minute counter, and patented oversized date.

The Datograph times events as long as 30 minutes with an accuracy of one-fifth of a second. The flyback function allows the chronograph to be instantaneously reset to zero during an ongoing measurement by simply pressing the lower button.

The technical finesse, and aesthetic beauty of Lange's cal. L951.1 movement is showcased through the non-reflective sapphire crystal display back.

Signed: cases, dials and movements

Accessories: A. Lange & Söhne Special Edition Lange I presentation box with outer packaging, Guarantee, and service booklet, leather bi fold, booklets and polishing cloth

A. Lange & Söhne unveiled their first and now iconic wristwatch, the Lange 1 in 1994. The wristwatch relaunched the brand as a horological innovator prided on design, superior finishing and technical innovation.

To celebrate the 20th anniversary, the firm released five limited edition sets consisting of the Lange 1 and the Little Lange 1. The pair is visually striking with solid gold dials dressed with hand-crafted guilloché work that give the pieces an unparalleled illusion of depth. This special edition features a *his and hers* set, with the latter further enhanced by 64 brilliant cut diamonds to the bezel weighing nearly one carat.

Each color and dial variation offered were limited to an edition of 20, and each powered by the cal. L 901.0. To make this collection even more nuanced, each balance cock to the movement was further engraved with the number 20.

LANGE ZEITWERK STRIKING TIME
A PINK GOLD JUMP HOUR AND MINUTE
WRISTWATCH WITH STRIKING TIME AND
POWER RESERVE INDICATION CIRCA 2010

Dial: silvered, twin apertures for jump hour and minute

Caliber: cal. L043.2 manual winding movement, 78 jewels

Movement number: No.110177

Case: 18k pink gold, sapphire display back secured by six screws

Case number: 214833

Closure: 18k pink gold A. Lange & Söhne buckle

Size: diameter 44.2 mm

Signed: case, dial and movement

A. Lange & Söhne's Zeitwerk movement incorporates a constant force escapement, which is used to generate the switching impulse for the jumping hour and minute display. Demonstrating A. Lange & Söhne's commitment to the highest standards of horology, the Zeitwerk was awarded the *L'Aiguille d'Or Grand Prize* at the Grand Prix d'Horlogerie de Genève in 2009.

Building upon such a well-received watch was the Zeitwerk Striking Time which combined the already impressive watch with digital display and a sonnerie complication. Housed in a large 44.2 mm case, the Zeitwerk Striking Time makes a statement every quarter hour with a chime via a hammer on a single gong. The brand added a novel twist to the Zeitwerk striking time by displaying two hammers onto two gongs on the dial, revealing the intricate movement of the striking mechanism.

JAEGER-LECOULTRE

MASTER COMPRESSOR EXTREME LAB 2
A TITANIUM AND CERAMIC AUTOMATIC
DUAL TIME ZONE CHRONOGRAPH
WRISTWATCH WITH JUMPING MINUTES
REGISTER DATE AND POWER RESERVE
INDICATION CIRCA 2013

Dial: semi skeletonized

Caliber: cal. 780 automatic movement, 70 jewels

Case: titanium and vanadium alloy, ceramic, sapphire display back secured by four screws

Case number: No. 268/300

Closure: titanium *Jaeger-LeCoultre* buckle

Size: diameter 47 mm

Signed: case, dial and movement

Accessories: *Jaeger-LeCoultre* presentation box with outer packaging, Certificate of Origin, Guarantee Certificate, hang tag and booklets

Jaeger-LeCoultre's Extreme Lab collection features daring and wildly modern designs that are a true departure from the rest of their design suite.

The Master Compressor Extreme Lab 2 features a durable and light weight case made of a special titanium and vanadium

alloy called TiVan 15, a material exclusive to the manufacture. The ribbed ceramic bezel is visually striking against the semi skeletonized dial which reveals a variety of special features incorporated within the caliber 781.

The inner bezel of the dial features a unique automobile inspired power reserve indication. The color red fills the track until the power reserve is full at up to 60 hours. At 12 o'clock, a jumping analog minutes register allows for easy reading for the chronograph function. Lastly, a selector adjacent to the date window allows the wearer to clearly activate the hands using a pusher through the crown. For the ease of the wearer, the left side case band also features a chronograph locking slide.

The Extreme Lab 2 offers everything a modern watch collector is looking for, from the totally in-house movement and the use of new materials, to the highly legible skeletonized dial and unique analog minute display.

winding presentation box with outer packag-
ing, Tribute to Enzo Ferrari Certificate of Au-
thenticity, documents and instructional papers

Girard-Perregaux and Ferrari celebrated their decade long collaboration with the Enzo Ferrari model and the Tribute to Enzo Ferrari Ref.99190, a timepiece well suited to the aesthetics and demands of Formula 1 racing. Made in a limited edition of 349 pieces, the watch features the firm's most coveted complication, three golden bridges tourbillon.

The original conception of the three gold bridges movement won first prize from the Neuchâtel Observatory in 1860. A tourbillon movement was showcased along three straight bridges, all set in parallel under which the movement below is also aligned. Suddenly the movement in its entirety became a work of art.

Accessories: *Hublot* presentation box, Certificate of Authenticity, International Warranty card, *Hublot* service receipt dated November 9, 2018, and polishing cloth

The MP-02 Key of Time is Hublot's second addition to their exclusive Masterpiece collection. Launched in 2011, Hublot MP is made up of a dedicated team of 30 engineers, watchmakers and developers devoted to extraordinary and highly intricate movements.

The Key of Time is an innovative wristwatch featuring a flying tourbillon carriage visible through an aperture at 6 o'clock, a 3-day power reserve indication and eccentric seconds feature. A ground-breaking complication, originally developed by BNB Concept in 2009, offers the wearer a unique opportunity to slow down or speed up the flow of time. The crown at the 9 o'clock has three separate settings: four times faster than normal, four times slower, and normal time progression at 60 seconds a minute.

CONSTELLATION GLOBEMASTER CO-AXIAL MASTER CHRONOMETER

A LIMITED EDITION PLATINUM AUTOMATIC ANNUAL CALENDAR WRISTWATCH CIRCA 2015

Dial: platinum, 18k white gold and enamel indexes

Caliber: Omega 8923 automatic movement, 39 jewels, 18k Sedna gold rotor

Case: platinum, fluted bezel, sapphire display back secured by four screws, case back with 18k white gold and enamel *Observatory medallion*

Case number: 89335797, No. 8/52

Closure: platinum *Omega* folding clasp

Size: diameter 41 mm

Signed: case, dial and movement

Accessories: limited edition *Omega Globemaster* presentation box with outer packaging, Certificate of Authenticity, International Warranty card, Master Chronometer card, Pictograms card, card holder, hang tag and instructional booklet

The Globemaster Co-Axial Master Chronometer pays homage to the classic Constellation model while incorporating a modern twist with new technologies. The caliber Omega 8923 is the world's first certified master chronometer, approved by METAS and resistant to magnetic fields up to 15,000 gauss. New technologies include a silicone balance spring and an 18k *Sedna* gold rotor, a special alloy composed of three elements: gold, copper and palladium.

The sand-blasted platinum dial is inspired by the first 1952 Constellation wristwatch, featuring a *pie pan* style shape along the outer perimeter.

The present model dressed with burgundy enamel indexes is offered in new, unworn condition with factory plastic still applied throughout.

REF 2998-2 SPEEDMASTER

A STAINLESS STEEL CHRONOGRAPH WRISTWATCH
WITH REGISTERS AND TROPICAL DIAL CIRCA 1960

Dial: tropical

Caliber: cal. 321 manual winding movement, 17 jewels

Movement number: 17302580

Case: stainless steel, dust cover, screw down case back

Size: diameter 40 mm

Signed: case, dial and movement

The 2998-2 is the second in the series of renditions of the reference 2998. Produced from 1959 to 1962, the 2998 bears straight lugs, applied Omega logo to the dial, and the celebrated caliber 321 movement. The Re. 2998 comes from a distinguished line of Speedmasters, starting with the

original Ref. 2915. Omega featured the tachometer scale on the bezel, as opposed to the dial, for the first time on its tool watches, with the original Speedmaster, the Ref. 2915. This innovative feature went on to define generations of Speedmasters, as seen here on the Ref. 2998-2.

The present lot contains a well preserved and 'tropical' dial with long luminous hour markers with matching luminous hands, as well as correct Alpha style hands for the subsidiary dials. The natural patina, which occurs with age, enhances the aesthetics of this piece, making it an excellent addition for collectors looking for attractive vintage pieces.

Accessories: *Longines* Extract from the Archives confirming the present lot with caliber 13ZN was invoiced on November 27, 1945 to the company Wirth, *Longines'* agent for Switzerland

Longines introduced the caliber 13ZN in 1936, and the movement is amongst the most sought after chronograph movements of all time. The present lot is a rare configuration of the caliber, with the center arbor not only carrying the chronograph seconds hand, but also a red minute counter. The subsidiary dial at 3, normally reserved for the minute-counter, reads the elapse hours. It is believed that only a few hundred of these were produced in several references through the 1940s. Furthermore, the lot is being offered in exceptional original condition, with a crisp large case and flawless untouched dial.

firming restoration in 2012 and further service
to the crystal and movement in 2018

The present lot is one of very few surviving war time single button chronographs made by Cartier in the late 1930s to 40s. The single button chronograph is a sophisticated mechanism where by the complication is operated entirely through the crown. Originally developed in the 1920s, the single button chronograph was one of Cartier's earliest complications.

This timepiece has been professionally restored by Cartier as indicated by the accompanying service paperwork.

Maxima in Genève

According to the Audemars Piguet archives, the present lot was manufactured in 1942 and sold in 1943. Only 210 chronographs were made by Audemars Piguet in the period of 1939-1945.

In the 1930s, production levels for Audemars Piguet dropped nearly to a halt following the worldwide economic depression resulting after the 1929 stock market crash. The firm adjusted by re-assessing the number of watchmakers on staff, but remained committed to the tradition of haute horlogerie that continues to define the brand today. By 1939, the firm began to produce more commercially priced chronograph wristwatches in order to safeguard their fine watchmaker's and the skills they have acquired over many years.

The category of pre-war Audemars Piguet Chronograph wristwatches are exceptionally rare. One such chronograph model numbered ahead of our present lot by only five digits

appears in Brunner, Pfeoffer-Belli, and Wehrli, *Audemars Piguet Masterpieces of Classical Watchmaking*, 1993, p. 242. Another model with similar dial configuration with movement number 45603 and manufactured one year after the present lot, sold at Sotheby's Geneva, November 2013, lot 261.

The closest chronograph in number published of the same style is number 45996, appearing in *Audemars Piguet 20th Century Complicated Wristwatches*, 2018, p. 182, alongside a chronograph bearing an identical dial, number 45602. According to our research, there are 5 chronographs known with identical cases and variations on the dial with the 12 o'clock indication always an Arabic numeral.

LECOULTRE

A LARGE AND UNUSUAL PINK GOLD HUNTING CASED MINUTE REPEATING PERPETUAL CALENDAR WATCH WITH MOON PHASES AND CONTRACT CASE MADE FOR THE GERMAN MARKET CIRCA 1914

Dial: white enamel

Caliber: 20.5" *ligne* jeweled movement

Movement number: 30635

Case: 14k pink gold highly engraved contract case, *personally inscribed* cuvette, *monogrammed* hinged case back

Case number: 30635

Size: diameter 67 mm

The skillfully engraved case of the present lot demonstrates mastery of the medium by the case maker. Its intricate scrolling foliate design, grapes, pears, urn, and the important monogram *A* heightened by the imperial crown on the reverse emphasize the importance of the man who commissioned it.

The timepiece was very likely ordered by the last German Emperor and King of Prussia, Wilhelm II, for his son, Prince Adalbert of Prussia. The cuvette is finely engraved with symbols of this royal family, the House of Hohenzollern including the family's coat of arms, and inscribed "To my dear son Adalbert, July 14, 1914." The pointed stars which appear throughout the case also appear in the Emperor's family crest.

Symbols of the Imperial family appear on the cuvette as well, including the imperial crown flanked by two avian busts, a symbol from the House of Hohenzollern crest, along with the Initials *W* and *A* with Imperial crown.

Emperor Wilhelm likely gifted this piece to his son about one month prior to the Prince's marriage with Princess Adelheid of Saxe-Meiningen on August 14, 1914. To the best of our knowledge, this piece is entirely unique. Its fascinating history and magnificently crafted case would make it an excellent addition to a collector looking for rare vintage pieces.

The present Patek Philippe features a minute repeating mechanism with power reserve and subsidiary seconds in a rare mechanical and aesthetic format. Examples from Patek Philippe normally have the subsidiary seconds and power reserve indication in separate locations at 6 and 12 o'clock respectively. In the present lot the seconds and power reserve are combined at the bottom of the dial, a combination which can only be found in only a handful of pocket watches from Patek Philippe.

Signed: case, dial and movement

Accessories: *Patek Philippe* Certificate or Origin, Extract
from the Archives confirming the year of manufacture in
1902 and sale on February 3, 1903, with enamel dial and
black Roman numerals

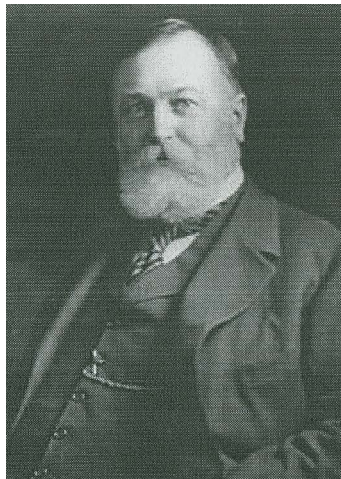

The present lot is an exceptional example of an early 20th century highly complicated watch from Patek Philippe, a crown jewel of the firm's production. It features three important complications: the perpetual calendar for astronomical functions, the split seconds chronograph for timing two events at once, and a fine minute repeating complication which chimes the hours and minutes, activated from a slide at the case band.

The original owner, Clarence W. Barron, received this piece as a gift from his wife. To this day, Barron is considered one of the most influential figures in the history of the Dow Jones & Company. Barron worked for a number of newspapers throughout his life, eventually founding the *Boston News Bureau* and the *Philadelphia Bureau*. He specialized in financial journalism, and when he bought the Dow Jones & Company in 1903, he became de facto manager of the *Wall Street Journal* as well. He gained a reputation for deeply scrutinizing corporate financial records, and his investigatory work for the *Boston Post* helped to expose Charles Ponzi, leading to Ponzi's eventual arrest. His stellar career has justly earned him the legacy as the founder of modern financial journalism.

Seth Atwood with the present lot, circa 1970s. Photo courtesy of the Time Museum

The present lot, signed by Tiffany & Co. makers, was ordered by William Henry Vanderbilt, and is one of the most complicated clocks made in America. Tiffany & Co. went on to exhibit this piece at the 1893 World's Columbian Exposition in Chicago in 1897, where it was one of their most important pieces on view.

Standing at eight feet tall in the style of Louis XV, this magnificent piece combines exceptional aesthetics with brilliantly designed complications, with 13 silver and enameled dials within the Californian abalone frame. Each dial relays information which demonstrates the mechanical genius of the makers of this piece.

The uppermost dial displays the positions of the sun and moon with a horizon line above the sea, which indicates changes in tide. Of the two dials directly below, the right-most one displays a perpetual calendar indicating signs of the zodiac, month, date, day of the week, and leap

year. The left-most disc is divided into twenty four parts and degrees from Greenwich. This dial also includes 31 major cities around the world. Another revolving plate indicates the hour of the day or night in each location. Two rotating cylinders directly above indicate the since the Independence of the United States and the year of the Julian calendar. The five dials above the main dial indicate the Equation of Time, Golden number and Epact, Dominical letters, and Sun cycle. Lastly, the remaining dials display the local time, time in Washington D.C. and Greenwich, and declination by degrees north and south of the sun and moon.

The entire clock is a marvel of American woodworking, design and horology. Featured alongside four other clocks within Tiffany & Co.'s exhibition in 1893, the piece would have surely been one of the most breathtaking wonders of the Manufactures and Liberal Arts Building at the Columbian Exposition.

PATEK PHILIPPE

REF 3970EJ 'FOURTH SERIES'

A YELLOW GOLD PERPETUAL CALENDAR
CHRONOGRAPH WRISTWATCH WITH
MOON PHASES CIRCA 2003

Dial: silvered

Caliber: cal. CH 27-70 Q manual winding movement, 24 jewels

Movement number: 3046792

Case: 18k yellow gold

Case number: 4197823

Closure: 18k yellow gold *Patek Philippe* folding clasp

Size: diameter 36 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* presentation box with outer packaging, Certificate of Origin, solid 18k yellow gold secondary caseback, setting pin and hangtags

As the direct successor of reference 2499 (see lot 134 and 245), reference 3970 launched in 1986 and remained in production until 2004. Manufactured in yellow gold, white gold, rose gold and platinum, reference 3970 was considered a standout from prior perpetual calendar chronographs produced by the firm. Some of the most noteworthy modifications were made to the size and the movement.

The movement in previous perpetual calendar chronographs, such as references 1518 and 2499, were Valjoux based movements, whereas reference 3970 was the first Lemania based movement used in a chronograph - caliber CH 27-70 Q. The slightly smaller movement allowed Patek Philippe to create a smaller case size, measuring to 36 mm diameter.

The 'E' in reference 3970EJ stands for *étanche*, french for waterproof - referring to both the solid and sapphire screw-down casebacks the watch can be fitted with. The present example is in superb condition, and an excellent addition to a growing watch collection.

WITH TEN DAY POWER RESERVE
INDICATION MADE IN 1999

Dial: anthracite**Caliber:** cal. 28-20/220 manual winding movement, 29 jewels**Movement number:** 3201219**Case:** 18k pink gold, sapphire display back secured by four screws**Case number:** 4124331**Closure:** 18k pink gold *Patek Philippe* buckle**Size:** length 46 mm, width 34 mm**Signed:** case, dial, and movement**Accessories:** *Patek Philippe* limited edition presentation box with outer packaging, Extract from the Archives confirming the year of manufacture in 1999, and sale on November 10, 2000

Ref. 5100 was produced as a limited edition in 2000 and was aptly named the Millennium. Its flared rectangular shape is inspired by the 1950s Ref. 2554, the 'Manta Ray'. After the production of the Ref. 5100 was complete, Patek Philippe destroyed all necessary tools and materials used to produce the Ref. 5100.

It was created in 1,500 examples in yellow gold, 750 examples in pink gold, 450 examples in white gold and 300 examples in platinum.

of sale on June 22, 1989 with the back cover engraved with
movement number and text commemorating the 150th
anniversary of *Patek Philippe*

The *Officier* is one of Patek Philippe's most popular case
designs. It is no wonder that the firm launched this limited
edition series as part of their 150th anniversary celebrations.
Inspired by the style of the first wristwatches, this timepiece
features screw set lugs, a hinged case back and highly legible
black painted *Breguet* numerals.

Ref 3960 and the caliber 215 PS are illustrated in Huber M.,
Banbery A., *Patek Philippe Wristwatches*, 1998, p. 123.

The present lot was especially commissioned by General Motors, General Motors Overseas Operations. It is not uncommon that one's meritorious service would be rewarded and celebrated with the gift of a fine timepiece, but to be given a Patek Philippe must have been a resoundingly joyous occasion! To the best of our knowledge, in the mid 1950's GMOO began commissioning a special timepiece to be given to their top executives upon their retirement. The firm assigned an additional text to the standard reference number, 1578GM.

The reference itself is quite modern for its time, with a larger diameter and highly attractive spider lugs to the case made by Wenger. Black dials, as on the present lot, were especially rare and offered for the series made for General Motors. To the best of our knowledge, just over 100 pieces were manufactured with special inscriptions to GMOO executives. The present lot was cherished by the owner, and we are pleased to offer it on behalf of the family of this original owner.

Case number: 301701

Closure: platinum *Patek Philippe* buckle

Size: diameter 30 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* Extract from the Archives confirming the year of manufacture in 1948 and sale on May 30, 1949 with diamond set indexes

The reference 96 famously symbolizes a new era for Patek Philippe. The timepiece was launched in 1932, the year Charles and Jean Stern purchased Patek Philippe & Cie. It is the first Calatrava model ever made, and the first serially produced referenced timepiece ever produced by the firm. Indeed the Ref 96 marks many firsts and with no surprises, has become an icon of the manufacture for its understated elegance.

The model was produced in yellow, white and pink gold, stainless steel, and very sparingly in platinum. Of the reference's 50 year history, very few examples are known in platinum with diamond indexes.

The reference is illustrated in Huber, M., Banbery, A., *Patek Philippe Wristwatches*, 1998 p. 118, 173-174, 182-183.

HK\$ 3,140,000-4,710,000

Reference 2497 was ground-breaking for Patek Philippe, as well as the horological community.

The iconic reference features a perfectly symmetrical dial configuration and well-proportioned sculpted 'claw' lugs.

Launched in 1951, it was the world's first perpetual calendar wristwatch with center seconds made in series. Shortly thereafter, reference 2438/1 was introduced to the market – essentially a reference 2497 with a water-resistant screw-down caseback rather than a snap-back caseback.

Reference 2497 ceased production in 1963, and according to scholarship, less than a total of 200 pieces of these references combined were made. Of the pieces manufactured, roughly 20 were encased in pink gold.

Reference 2497 can be divided into a first and second series, depending on the case maker. First series cases were made by Emile Vichet featured a flatback with elongated 'claw' lugs while second series cases made by Wenger featured a domed back with slightly shorter lugs.

The present example is extremely well preserved, and Sotheby's is pleased to prominently display this outstanding piece on the cover of our catalogue.

Accessories: *Breguet* presentation box with outer packaging, Certificate of Origin, leather bi fold, instructional papers and booklet

The present model features the rare equation of time complication. This function measures the amount of time by which the mean time, or time told by a clock, is ahead or behind apparent time, or time told by a sundial. Apparent, or true, time takes into account the Earth's changing angle with respect to the Sun so that some days are slightly longer than 24 hours and some are slightly shorter.

The combination of this feature with perpetual calendar in Ref. 3470 is the result of Breguet's 1991 patent of a perpetual calendar movement with equation of time.

An example of Ref. 3470 is illustrated in Breguet, E., *Breguet: Watchmakers since 1775*, p. 175.

The Reine De Naples collection pays tribute to the first
wristwatch ever created at the request from the Queen of
Naples in 1810. Breguet has since celebrated creativity,
feminine elegance and craftsmanship within their staple
Reine De Naples collection.

The dial of the present lot is crafted from a seashell using a
steel stylus. The craftsman painstakingly carves the dial by
hand, creating a three dimensional plane of sun flowers.

timepiece with a diamond weight of 10.3 cts

The *Cadenas*, or "Lock" watch was designed
in 1935 and became an instant staple of the
atelier's timepiece collections. The *Cadenas*
combined high jewelry and watch design
together, allowing the wearer the upmost
discretion as only they could see the dial and
review the time.

Legend has it that this unique and elegant
timepiece was designed upon the request of the
Dutchess of Windsor herself! In fact, Sotheby's
had the honor of offering the Dutchess's
very own *Cadenas* timepiece in our sale of
Magnificent Jewels and Noble Jewels in 2011;
a vintage model circa 1936 which sold for over
\$400,000 USD.

The present lot is an exceptional modern
rendition sparkling with over 10 carats of pavé
diamonds.

Breguet's Classique collection represents the firm's artistry, tradition, and fine watchmaking history. The Classique 5238, an extremely decadent and sensational addition to the collection, pays tribute to the brand's masterful chronograph movement, dating back to the 1940s. Originally conceived under the name CH 27 by Albert Piguet at Lémania, Breguet further enhanced and evolved the movement into a highly finished product with greater precision. Breguet's manual winding chronograph movement is a watchmaking landmark, and the present caliber 2320 pays tribute to the firm's outstanding legacy.

ROBERTO FALCONE

A RARE YELLOW GOLD AND HARD STONE SKELETONIZED WRISTWATCH CIRCA 1980

Dial: skeletonized, hard stone

Caliber: finely engraved jeweled movement

Case: 18k yellow gold, sapphire display back secured by screws to the band

Closure: 18k yellow gold and hard stone buckle

Size: diameter 31 mm

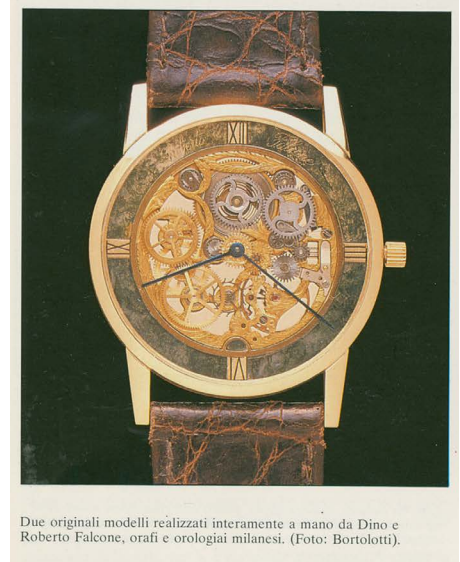

Signed: dial and movement

This very rare skeletonized wristwatch was made by the Milanese watchmakers and goldsmiths Dino and, his father, Roberto Falcone. Many of their works are unique, or made in extremely limited quantities entirely by hand. The present lot features a fine hand-engraved skeletonized movement bordered by an elegant translucent hard stone track. The present lot is signed and unnumbered, typical of all the examples identified in the market today. An identical (possibly this exact timepiece) is prominently featured in Negretti G., Nencini F., *I Signori Del Tempo*, 1986, p. 46.

Accessories: *Patek Philippe* Certificate of Or-
igin, Extract from the Archives confirming the
date of sale on June 7, 1982 with the bracelet in
steel and yellow gold, leather wallet

Patek Philippe produced two steel versions
of the Ref. 3700. Ref. 3700/01, produced
between 1976 to about 1981 featured a straight,
integrated bracelet. The bracelet of the
Ref. 3700/11 tapers slightly more. The firm
produced the Ref. 3700/11 from 1981 to 1990.
Most commonly found in stainless steel, the
bi-metal steel and gold version of the Nautilus
is much rarer and arguably undervalued,
compared to the all-steel version.

For a note on the Nautilus, please see lot 83.

REF 3700/1 'JUMBO' NAUTILUS

A RARE STAINLESS STEEL AUTOMATIC WRISTWATCH WITH DATE AND BRACELET MADE IN 1979

Dial: blue ribbed**Caliber:** cal. 28-255C automatic movement, 36 jewels**Movement number:** 1305923**Case:** stainless steel, solid case back secured by screws to the case band**Case number:** 536902**Closure:** stainless steel Patek Philippe Nautilus bracelet with folding clasp**Size:** diameter 42 mm, bracelet circumference approximately 175 mm**Signed:** case, dial and movement**Accessories:** Patek Philippe presentation box, Certificate of Origin, Extract from the Archives confirming the date of sale on August 1, 1979 with a steel bracelet, leather sleeve, pamphlet

The present watch, known as the 'Jumbo' Nautilus, is the largest of the vintage Nautilus series. Patek Philippe employed Gerald Genta to design the Nautilus, which they launched in 1976. When the firm originally introduced the Nautilus, they found that many clients did not like this change in direction from their yellow gold more classically shaped timepieces.

Perhaps unsurprisingly, Patek still spared no expense at creating the most attractive sports watch possible in the industry. The porthole-shaped dial has become iconic since this watch first came onto the market, and Patek focused on important design details, such as the combination of polished and satin-brushed case, as well as the integrated steel bracelet. Their dedication to sophisticated style and high level of craftsmanship transitioned well between the classic dress watch and the sports watch, and has helped cement the Nautilus as an icon in their oeuvre.

The present lot was gifted to the original owner by his father, who purchased the piece at the renowned Parisian Jeweler, O.J. Perrin.

To celebrate the 40th anniversary of the popular caliber 240, Patek Philippe launched the Ref 5180 in 2017. The piece celebrates the automatic caliber 240 dressed with delicate hand-work engraving throughout. The exceptional engraving encompasses about 130 hours of work by the firm's artisans, and pays tribute to the manufacturer's dedication to rare hand-crafts.

Patek Philippe has an incredible tradition of creating highly complicated and groundbreaking engineering marvels throughout their history. Standing as the premier firm, the manufacture has also always been dedicated to the preservation of artisan skills and has worked for generations to safeguard the techniques and artistry behind such exceptional rare handcrafts as the present lot.

The Ref 5077 was launched in 2007 and was produced in limited numbers. Each year, the reference launched a selection of dials with different themes, of which the present lot features an electrified plane of fronds in the Art Deco style. Two enameling techniques were employed to create such a lovely vibrancy and depth within the dial. First, the master enameler works in *cloisonné*, using flattened gold wire to create a pattern throughout the dial. To apply the enamel, the *pailonné* technique is employed by tucking a piece of foil between layers of translucent enamel. The effect is rich and shimmering, creating a multi dimensional ground full of reflections and luminosity.

REF 5131G

A WHITE GOLD AUTOMATIC WORLD TIME

WRISTWATCH WITH CLOISSONNE ENAMEL DIAL CIRCA
2017

Dial: silvered dial with polychrome cloisonné enamel center depicting map of Europe, Africa, Asia, and Australia

Caliber: cal. 240 HU automatic movement, 33 jewels

Movement number: 5786473

Case: 18k white gold, world time pusher at 11, screw down sapphire display back

Case number: 4685018

Closure: 18k white gold *Patek Philippe* buckle

Size: diameter 40 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* presentation box with outer packaging, Certificate of Origin confirming the cloisonne enamel dial depicting Europe and Asia dated June 19, 2017, leather bi fold and booklets

Patek Philippe launched the reference 5131 in yellow gold at Baselworld in 2008. The following year, the firm introduced the white gold version. Reference 5131G is considered a horological work of art with its hand painted cloisonné enamel dial depicting Euroasia.

The world-time mechanism allows the user to set the local time zone at the 12 o'clock position along with the hour and minute hands, while also displaying the correct time for the other time zones within the world at the same time.

Due to the highly difficult and meticulous nature of the enamelling process, Patek Philippe only produces a limited number of this reference every year, making this a highly sought-after watch among collectors. The reference was in fact already subject to a long waiting list at the time of production. Additionally, each dial is individually enameled by hand, resulting in no two dials being identical.

Anytime a reference 5131G appears on the market, collectors take notice – as it is as rare occurrence. For those who are often traveling overseas or working internationally, this is the perfect addition to their collection.

Accessories: *Patek Philippe* presentation box with outer packaging, Certificate of Origin dated June 19, 2017, pusher, oversized leather notebook, leather wallet and instructional papers

The present lot is offered in excellent, like-new condition complete with its original accessories and Certificate of Origin dated June 19, 2017.

⊙ \$ 175,000-250,000

€ 155,000-222,000

HK\$ 1,380,000-1,960,000

Patek Philippe has long dominated the narrative for fine watchmaking, creating extraordinary timepieces that have challenged the way we think about horology. Among the numerous impressive and confounding complications mastered by the firm, it is perhaps their poetic interpretation of the night sky above us that is most visually dazzling.

Patek Philippe's first iteration of the Celestial was launched in 2002, condensing the magnitude of the night sky onto the wrist for the very first time in watchmaking history. The celestial chart rotates counter clockwise, showing the progression of stars relative to the meridian passage of Sirius. Simultaneously, the meridian passage and phases of the moon can be seen. 25 trillion (25,000,000,000,000) ratio combinations were researched by Patek Philippe to determine the greatest accuracy for this display. This gives some sense of the tremendous challenges that the production of this highly complicated model posed to the company's watchmakers.

Indeed, to truly appreciate the ingenious display of this celestial map, we must observe that the movement operates three separate sapphire crystal discs, delicately colored and layered harmoniously to create a vision of the night sky on one dial plane.

Ten years after the launch of this triumphant timepiece, Patek Philippe introduced the present model, the Ref. 6102, improving upon the original case design, and including a calendar around the dial.

• \$ 300,000-500,000

€ 266,000-443,000

HK\$ 2,360,000-3,920,000

The caliber R 27 PS is illustrated in Huber, M., Banbery, A. *Patek Philippe Wristwatches*, 1998, p. 320.

The Ref 5029 was launched in 1997 and made to commemorate the opening of Patek Philippe's factory in Geneva. The model was produced in a highly limited edition of 30 examples in three metals: 10 pieces in yellow gold, 10 pieces in platinum, and 10 pieces in pink gold like the present lot.

This understated timepiece is dressed in the iconic *Officier* case, manufactured by the celebrated Jean-Pierre Hagmann, whose case maker's mark, JHP, is stamped on the inside of the hinged case back.

This model combines the time honored tradition of minute-repeating watches with the contemporary desire for self-winding wristwatches. In order to fulfill both of these demands, Patek Philippe designed the cal. R27PS movement which utilizes an offset rotor to allow space for the minute repeating gongs. Ensuring the chime's clarity of sound is a significant challenge in the creation of any minute-repeating timepiece. To meet this challenge, Patek Philippe tested a multitude of alloys, finally developing new acoustic steel for the sole purpose of minute-repeating gongs.

Case No :	2.833.920
Style :	Reference 5029, rose gold 18k
Type of dial :	Opaline dial, 11 rose gold <i>Breguet</i> numerals, pearl minute track, seconds subdial

GOLD SKELETONIZED PERPETUAL
CALENDAR MULTI AXIS SPHERICAL
TOURBILLON WRISTWATCH WITH
RETROGRADE DATE MONTH AND
EQUATION OF TIME LEAP YEAR AND 8-DAY
POWER RESERVE INDICATION CIRCA 2012

Dial: skeletonized

Caliber: cal. 177 manual winding movement, 117 jewels, inclined one minute multi axis spherical tourbillon

Case: 18k pink gold, sapphire display back secured by four screws

Case number: 2533293 No. 5/28

Closure: 18k pink gold *Jaeger-LeCoultre* buckle

Size: diameter 43 mm

Signed: case, dial and movement

Accessories: *Jaeger-LeCoultre* presentation box with outer packaging, *Jaeger-LeCoultre* Certificate of Origin and Guarantee Certificate, Master Gyrotourbillon booklet, and magnifying glass

Jaeger-LeCoultre's Gyrotourbillon 1 was launched in 2005 as the first spherical tourbillon in the history of watchmaking. The marvel is powered by the manufacture's in house caliber 177 composed of 679 individual parts and an impressive 117 jewels. The timepiece was manufactured in limited editions from 2005 to 2010. The present lot in pink gold featuring an elegant skeletonized dial is one of only 28 pieces.

Multi Axis-Tourbillon

Eric Coudray and designer Magali Métrailler conceptualized the Gyrotourbillon 1, employing cutting-edge materials and engineering to realize this horological tour-de-force. The tourbillon composed of an inclined one-minute multi-axis spherical tourbillon carriage crafted from aeronautical, high performance aluminum, an inner titanium escapement platform carrying the 14k gold balance wheel, and an inner platform rotating 5 times every 2 minutes along stationary wheel. The steel reinforced tourbillon is with jeweled suspension, and two 14k gold screws mounted on cage and platform for poise, cage pinion connecting to 3rd wheel with beveled teeth.

Equation of Time

The equation of time is displayed by the difference between the solar minute hand and the normal minute hand. Only four times a year will both hands coincide: December 25th, April 15th, June 14th and September 2nd.

Perpetual Calendar

The Perpetual Calendar features a patented double retrograde for date display. One hand on the left indicates the dates 1 through 16, and a second hand on the right indicates the dates from 16 through 31. Both hands rendezvous on the 16th of every month before retreating to their respective resting points. The retrograde leap year indicator is visible on the reverse side of the watch, while the retrograde month hand elegantly mirrors the 8-days power reserve indicator on the front dial.

In 2014, Jaeger-LeCoultre unveiled the outstanding Hybris Artistica Collection featuring twelve unique timepieces of seemingly limitless creativity and design. Manufactured completely in house, the collection is a brilliant testament to the virtuosity of Jaeger-LeCoultre's master watchmakers and engineers.

The present lot celebrates the dual wing concept where by two mainspring barrels work independently to regulate the tourbillon and timekeeping. This horological feat reduces amplitude errors and allows for unrivaled accuracy. The Brilliance of the dual wing system is masked only by the impressive 18k white gold dial with a luminous textured surface treatment. The narrowest bezel and domed crystal ensures that the dial and movement are celebrated properly.

Closure: stainless steel *Rolex Oyster* bracelet
with folding clasp

Size: diameter 37 mm, bracelet circumference
approximately 160 mm

Signed: case, dial and movement

Accessories: *Rolex* presentation box with
outer packaging and polishing cloth

The Ref 1019 Milgauss was first introduced in
the early 1960s as a great departure from its
predecessors, the Milgauss Ref 6541 and 6543
in both dial and case design.

The model was designed to be used by
scientists and those working in areas where
exposure to high magnetic fields was
unavoidable. The watch was guaranteed to
resist magnetic fields up to 1,000 oersted.
The word Milgauss means 1,000 gauss (gauss
being a measurement for magnetic induction).
Magnetic fields can affect a watch's accuracy
at just 60 oersted; at 100 oersted the watch
will no longer work. The Milgauss overcame
the effects of magnetic fields by using anti-
magnetic alloys and an iron movement cover to
create a Faraday cage (a nonporous enclosure
used to block electrostatic and electromagnetic
influences).

BREGUET

TYPE XX

A RARE CHRONOGRAPH WRISTWATCH
WITH REGISTERS AND TROPICAL DIAL
CIRCA 1960**Dial:** tropical**Caliber:** cal. 225 manual winding jeweled
movement**Case:** stainless steel, solid screw down case
back**Case number:** 2436**Closure:** modern stainless steel *Breguet*
folding clasp**Size:** diameter 38.5 mm**Signed:** dial, case numbered

Breguet started producing the 'Type XX' around 1954 becoming the company's most sought after post-war aviator's wristwatch. The reference has a special flyback feature, so-called by the French Air Forces 'retour en vol', which enabled pilots to quickly reset and instantaneously restart the chronograph by means of one pusher.

There are three generations of the 'Type XX', the first of which was introduced in the 1950s and of which the present lot is an example; the second known as the 'civilian version' introduced in the 1970s; the third version is currently available on the contemporary market and is known as 'Type XX Aeronaval.'

A special feature of this particular watch is that it is the version with a 15-minute chronograph subsidiary dial, instead of the usual 30-minute counter found on the more common Air Force models.

IWC

MARK XI NAVIGATOR
A RARE STAINLESS STEEL CENTER
SECONDS WRISTWATCH MADE FOR THE
ROYAL AUSTRALIAN AIR FORCE CIRCA
1957

Dial: black

Caliber: cal. 89 manual winding movement,
16 jewels

Case: stainless steel, soft iron dust cover,
RAAF inscribed screw down case back

Case number: 439/57

Size: diameter 36 mm

Signed: case, dial and movement

Accessories: IWC leather travel case and
certificate

The Mark XI was the first chronometer wristwatch designed for astro-navigation. The model features a highly durable waterproof case resistant to magnetism, moisture, rust, and depressurization; all of which tested to the specifications of the Royal Air Force (RAF).

Unlike the more common RAF Mark XI variant, the present model was manufactured for the Royal Australian Air Force (RAAF). In fact, RAAF made three orders of this watch in 1950, 1953 and the last in 1957.

While the first two orders were manufactured by Jaeger-LeCoultre, the final order was produced by IWC. The IWC models from 1957 feature special markers to the case back as Groups, Sections, and Parts.

Store Reference Number: G6B/346

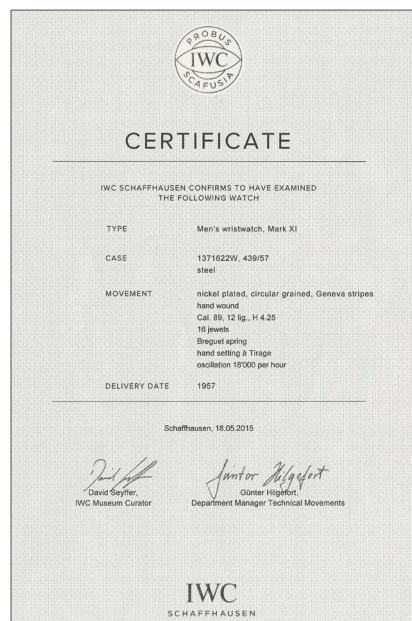

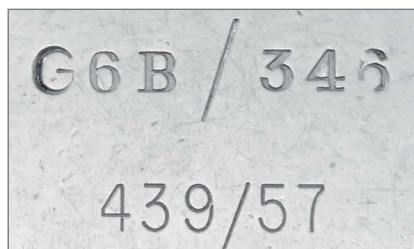

Group G: Electrical Stores, Instruments and
Aircraft Personnel Equipment
Section 6B: Navigation Equipment
Part 346

To the best of our research, roughly 1,619 total pieces were manufactured for RAAF, of which only 600 were manufactured by IWC for the order made in 1957. We are pleased to offer such a rare and historically significant timepiece, with an extremely well preserved dial and legible markings to the case back.

Accessories: *Rolex* Service Warranty dated
March 15, 2001, and an International Service
Guarantee dated February 24, 2009

Reference 6240 was introduced to the market
in 1965 as the first Daytona to incorporate
screw down pushers. This feature was
important to consumers, as it enhanced the
watch's water resistance. Scholarship suggests
only 1,700 pieces were made throughout
its limited production run, and was solely
manufactured in stainless steel.

In addition to the reference's exclusivity
and rarity, the present example is further
enhanced by the prestigious American retailer
signature, 'Tiffany & Co'. The watch has
been well preserved, still retaining its original
Mark I 'millerighe' nickle-finished pushers.
Furthermore, this watch's 1.2 million serial
number dates back to 1965, making this one of
the first reference 6240s ever produced.

PROPERTY OF A CHARITABLE ESTATE

PROCEEDS FROM THE SALE USED TO SUPPORT MEDICAL
RESEARCH AT WASHINGTON UNIVERSITY IN ST. LOUIS
LOTS: 110-134, & 224-245

Sotheby's is excited to offer the present collection, assembled by a very discerning and thoughtful Midwest collector who had a keen eye for quality from the top makers in the industry. The deliberate selection of specific brands and references made by the collector are a testament to the vision of the assortment, which focuses on specific models or complications within a makers' oeuvre. Highlights of the collection include Patek Philippe wristwatches and pocket watches with multitudes of complications: perpetual calendars, chronographs, repeaters, and an important tourbillon. Rolex watches, from a 1950's 8171 triple calendar moon phases to recent steel sports watches are featured alongside

complicated Audemars Piguet Royal Oaks. The watches are further enhanced by their condition, with the majority of the pieces being offered as they were delivered from the factory, exemplified by the sharp reeding of a Rolex GMT's bezel to the defined, stepped lugs of the Patek Philippe ref. 2499 retailed by Tiffany & Co. The collection, which appears in both sessions, provides an exciting opportunity for the most critical connoisseur to find a watch they will cherish as a prized addition their collection.

The present collection is being offered on behalf of a Charitable Estate, with the proceeds of sale to be used to support medical research at Washington University in St. Louis.

From the 1980s to 1990s, Patek Philippe created a range of finely engraved skeletonized wristwatches. The present Ref 3885 is highly attractive with a vibrant outer track dressed in blue *guilloché* enamel. To the best of our knowledge, no more than 350 pieces in this likeness was ever produced, and only about 25 pieces are known in the market today.

€ 53,500-80,000

HK\$ 471,000-710,000

excellent sports watches. As such, triple calendars with moon phases have rarely made an appearance in the firm's history. In fact, Rolex made only two watches with moon phases: the Reference 8171 with the snap-on case back, and the Reference 6062, an Oyster model with a screw-down case back. The firm produced the 8171 for only three years, during 1949-1952.

Often referred to as the "Padellone" (the Italian word for frying pan), the reference 8171 is one of the most coveted vintage Rolex watches on the market. At 38 mm, its dial was substantially larger than other models at the time.

The present lot is an exciting opportunity for a very particular collector who values exceptional craftsmanship above all.

The present example exemplifies the finest of watchmaking in the early part of the twentieth century. Its movement was completed in 1917, towards the end of the First World War. Despite the international turmoil, Patek Philippe was creating some of the finest complicated pocket watches known. Indeed, celebrated collectors James Ward Packard and Henry Graves, Jr., were actively collecting at this time, constantly spurring Patek Philippe to greater technical achievements. Six watches from the 174000-174999 production range, to which the present lot belongs, were commissioned by these distinguished collectors.

Accessories: *Patek Philippe* Extract from the Archives confirming the year of manufacture in 1918 and sale on August 21, 1922, three leather cases, and a pouch

The present lot is an exceptional example of an early 20th century Grand Complication watch from Patek Philippe, a crown jewel of the firm's production. It features three important complications: the perpetual calendar for astronomical functions, the split seconds chronograph for timing two events at once, and a fine minute repeating complication which chimes the hours and minutes, activated from a slide at the case band. With these three complications, this watch embodies the apex of watchmaking, and is a testament to the skill of the watchmakers at Patek. The present lot retains a well preserved dial and case, with crisp hallmarks, and comes from the original owner.

REF 3970 FIRST SERIES
A YELLOW GOLD PERPETUAL CALENDAR
CHRONOGRAPH WRISTWATCH MADE IN
1987

Dial: silvered

Caliber: cal. 27-70 Q manual winding movement, 24 jewels

Movement number: 875062

Case: 18k yellow gold, snap on case back

Case number: 2824186

Size: diameter 36 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* presentation box with outer packaging, Certificate of Origin, Extract from the Archives confirming the date of sale on June 12, 1987, hang tag, leather bi fold and booklets

Patek Philippe launched this model Ref. 3970 in 1986 and continued production for approximately two years. It features a solid snap-on case back. It was replaced with Ref. 3970E, which had a screw back rather than a snap back, with the suffix indicating *étanche*, or waterproof. This screw back model was produced until 2004.

This model is frequently referred to as 'Ref. 3970 First Series', with the later variations (Ref. 3970E) subsequently numbered second through fourth.

According to our research, it is believed that approximately 100 examples of the snap back Ref. 3970 were made, starting with movement number 875000. The present lot is numbered 62 among the first timepieces produced. Of those, the present example is one of fewer than 20 examples to appear at auction. To the best of our knowledge, this is the first time the present example has been offered at auction.

As Ref. 3970 was well-received for its combination of chronograph and perpetual calendar complications, Patek Philippe responded by increasing its production run for the various series of the 3970E. As such, first series examples of the Ref. 3970, such as the present model, are significantly more rare and less frequently seen at auction.

This reference is illustrated in Huber, M. & Banbery, A., *Patek Philippe Watches*, Vol. 2, Second Edition, pp. 305.

PATEK PHILIPPE

REF 2499/100

RETAILED BY TIFFANY & CO.: A RARE AND HIGHLY IMPORTANT YELLOW GOLD PERPETUAL CALENDAR CHRONOGRAPH WRISTWATCH WITH MOON PHASES MADE IN 1984

Dial: silvered**Caliber:** cal. 13''' manual winding, 18 jewels**Movement number:** 869288**Case:** 18k yellow gold, solid snap on case back**Case number:** 2792144**Closure:** 18k yellow gold *Patek Philippe* buckle**Size:** diameter 37.5 mm**Signed:** case and movement signed by maker, dial signed by maker and retailer**Accessories:** *Patek Philippe* presentation box with outer packaging, Extract from the Archives confirming date of sale on July 27, 1984

Produced from 1950 until 1985, Ref. 2499 is recognized as one of the most important wristwatches made by Patek Philippe. The successor to Ref. 1518 and the predecessor to Ref. 3970, Ref. 2499 holds a distinguished place among the firm's exceptional perpetual calendar chronograph wristwatches. With only 349 pieces made in total, or an average of only nine pieces per year, it is an extremely rare piece and one that was made with the utmost attention paid to each detail.

Ref. 2499 underwent four major evolutions during its 35 year production run. Square chronograph pushers and a tachometer scale distinguish the first series, produced between 1950 and 1960. The second series, produced between 1955-1964, introduces round chronograph pushers. A simple dial design designates the third series, which Patek produced from 1960 to 1978, and a sapphire crystal demarcates the fourth series, so called the 2499/00. The present lot represents the fourth series, which was produced between 1978 and 1984.

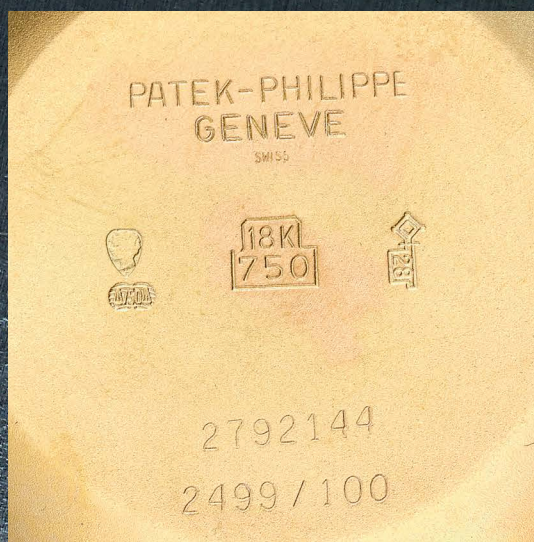

Patek Philippe and Tiffany & Co. share a remarkable history dating back to a handshake agreement between Antoine de Patek and Charles Lewis Tiffany in 1851. The two met each other during Patek's tour in America and held a deep respect for each other due to their mutual commitment to an exceedingly high level of craftsmanship and quality in their respective fields. Tiffany formalized their handshake agreement in 1876, and the two firms have had a successful relationship which continued to grow stronger for years to come. Today, Tiffany & Co. remains the only retailer in partnership with Patek Philippe, and thus, the only firm which can still co-sign the dial of a Patek Philippe watch.

The Ref. 2499 has left an indelible mark on the industry, and the present lot is a testament to the incredible contributions by each of the firms whose signatures it bears. To the best of our knowledge, the present lot is the only known fourth series Ref. 2499 signed by Tiffany. Furthermore, it comes from the original owner, making it the first time this piece has ever been at auction.

Extract from the Archives confirming the date of sale on February 16th, 1999 with black dial and hang tag

Patek Philippe introduced the Reference 5070 in 1998 after nearly 30 years of hiatus from the production of chronograph wristwatches by the firm, and the reference an instant success. In fact, the last chronograph model produced prior to the 5070 was the iconic Reference 1463, production of which ceased in the late 1960s. *For an example of Reference 1463, please see lot 223.*

The calibre 27 70 157 is widely recognized as one of the best chronograph movements and is based on a Nouvelle Lemania ébauche specially developed for Patek Philippe. The movement was only used in the 5070 and 5071 references (the white gold diamond-set version of the 5070).

Production of the present model ceased in 2010 with the introduction of the reference 5170.

REF 5524G CALATRAVA PILOT TRAVEL TIME

A WHITE GOLD AUTOMATIC DUAL TIME WRISTWATCH WITH DATE AND LOCAL AND HOME DAY/NIGHT INDICATION

Dial: blue**Caliber:** cal. 324 SC FUS automatic movement, 29 jewels**Movement number:** 5924349**Case:** 18k white gold, screw down sapphire display back**Case number:** 6109430**Closure:** 18k white gold Patek Philippe buckle**Size:** diameter 42 mm**Signed:** case, dial and movement**Accessories:** Patek Philippe presentation box with outer packaging, Certificate of Origin dated February 2, 2016, leather bi-fold and booklets

Introduced at Baselworld in 2015, the Calatrava Pilot Travel Time became an instant favorite amongst collectors. Paying tribute to early pilot watches, reference 5524G is a modern, user friendly version.

The blue and luminous dial make an excellent color combination, and can be easily read when worn at night or in darkness. At the 6 o'clock position there is a large subsidiary dial for the date. Additionally at 3 and 9 o'clock there is an aperture for home and local times with AM/PM indications.

The watch remains in its original factory single seal, and is presented in pristine condition.

The Galet Micro-Rotor features an attractive but understated dial which belies a powerful in house caliber; the FBN 229.01. Though likely named for its impressive solid gold micro-rotor, it is the double direct-impulse escapement that ensures the highest level of efficiency. Within this escapement, two balance springs move in alternating beats fitted directly on the balance equipped with a silicon lever. This action helps to produce constant force, or more consistent timing throughout.

Laurent Ferrier perpetuates the outstanding nature of Swiss horology. Ferrier completed training at the Geneva Watchmaking school, and spent nearly four decades with one of the most prestigious manufacturers, Patek Philippe. After his final role as Patek Philippe's Creative Director, Ferrier founded his own brand dedicated to his vision of exceptional watchmaking.

box with outer packaging and instructional
documents

The RM005 is a staple piece from Richard Mille made from a combination of durable and lightweight materials - titanium and tungsten.

Inspired by the perfection found in the Formula-1 racing circuit, Richard Mille creates his innovative and performance-oriented wristwatches using non-traditional materials, such as ceramics, new metallic alloys and carbon fibers. The company does not produce

watches with standard metal parts, as many of the gears and pieces that make up the movement are custom-made for individual models.

JAEGER-LECOULTRE

REF 187.3.46.S MASTER GRANDE TRADITION

A LIMITED EDITION WHITE GOLD MINUTE REPEATING
WRISTWATCH WITH FLYING TOURBILLON SKY CHART
DATE MONTH AND 24 HOUR INDICATION CIRCA 2010

Dial: blue *guilloché* enamel, sky chart

Caliber: cal. 945 manual winding movement, 49 jewels

Case: 18K white gold, sapphire display back secured by six screws

Case number: 2651065, No. 22/75

Closure: 18K white gold *Jaeger-LeCoultre* buckle

Size: diameter 44.5 mm

Signed: case, dial and movement

Jaeger-LeCoultre's Master Grande Tradition combines incredible artistry and haute horology, all visible on this beautifully crafted *guilloché* enamel dial. The movement joins an unbelievable number of complications including a minute repeater, flying tourbillon, sky chart, day, month and 24 hour indication.

The dial is mesmerizing and built with an acute attention to depth. A flying tourbillon carriage is mounted to a translucent sky chart with a delicate gold sun hand to indicate the day, month and 24 hour indication simultaneous. Raised deftly above the tourbillon carriage, faceted *Dauphine* hands appear to cut straight through the tourbillon carriage.

A discreet minute repeating complication is made up of oversized sprung hammers chiming on gongs which are directly attached to the case back to amplify the sound. The present lot is number 22 out of a limited series of 75.

The present lot is a venerable juggernaut in the watchmaking world, combining the iconic Royal Oak with the industry's most desired complications in one Grand Complication timepiece. Powered by the firm's incredible in house caliber 2885 composed of 648 individual parts, this timepieces features a split second chronograph, perpetual calendar, and minute repeating along side moon phases and leap year indication to the dial.

It is both shocking and impressive to see this magnificent grand complication housed in an equally gargantuan 18k white gold sport case with bracelet. The present lot weighs in at nearly 400 grams.

Since the firm's inception in 1881, Audemars Piguet has been considered master of minute repeaters and grande complication watches. Undoubtedly, AP is best known for their Royal Oak line, created by world renowned designer Gerald Genta. Since the Royal Oak's premiere at Basel in 1972, the model is a stand out and accounts for roughly 70% of the brands global sales.

PROPERTY OF A NEW YORK LADY

AUDEMARS PIGUET

RETAILED BY GÜBELIN: A RARE GREEN GOLD AND ENAMEL HUNTING CASED MINUTE REPEATING PERPETUAL CALENDAR SPLIT SECONDS CHRONOGRAPH WATCH WITH MOVEMENT MADE IN 1908 SOLD IN 1922

Dial: 14K gold with *fantaisie* black enamel numerals

Caliber: cal. 17SMCCRQS jeweled movement

Movement number: 12548

Case: 18k green gold, bezels and Murat style pendant with Greek key enamel pattern

Case number: 12548

Size: diameter 50.5 mm

Signed: case, dial and movement signed by maker and retailer

Accessories: Audemars Piguet Extract from the Archives confirming the date of sale to Gübelin on November 27, 1922

Audemars Piguet confirms the completion of the movement in 1908, with further sale to Gübelin, Lucerne, in 1922 for 3,500 CHF.

\$ 50,000-100,000

€ 44,300-88,500

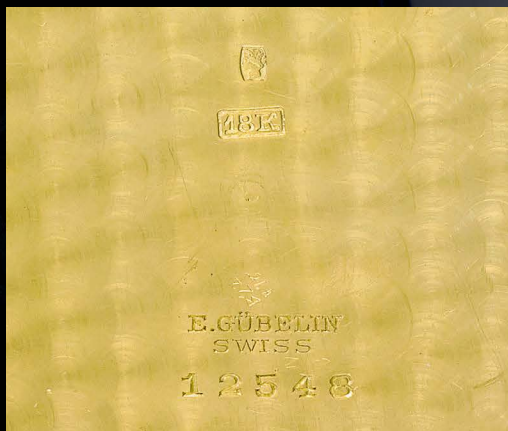

HK\$ 392,000-785,000

The present lot represents the height of complicated horology combined with archetypal Art Deco design.

It is particularly interesting to note the time in between the manufacturing of the movement and its subsequent completion and sale in 1922. For the first decade of the 20th century, Audemars Piguet largely prospered in business and received orders for highly complicated watches. The company grew exponentially and even secured larger workshop space in 1907. Devastating historical events like the Knickerbocker Crisis of 1907 and the fall of Tsar Nicholas II in 1917 shook the Swiss watchmaking industry with a rapid decline in sales.

Audemars Piguet was an exceptionally resilient firm, supporting their rich heritage and high horology against all odds. Indeed, *Audemars Piguet, Masterpieces of Classical Watchmaking* (p.32) notes specifically that the fruits of their labor "started to appear in 1922," exactly the year the present lot was completed for sale to Gübelin, Lucerne.

For similar open faced examples retailed by Gübelin, see Brunner, G., Pfeiffer-Belli, C. & Wehrli, M., *Audemars Piguet, Masterpieces of Classical Watchmaking*, 1993, p.31, 153-154.

PIAGET

REF 6865 P 69

A LADY'S YELLOW GOLD AND TIGER'S EYE SAUTOIR WATCH MADE IN 1974

Dial: tiger's eye**Caliber:** cal. GP1 manual winding movement, 17 jewels**Movement number:** 7315199**Case:** 18k yellow gold, case back secured by two screws**Case number:** 238405**Closure:** 18k yellow gold and tiger's eye Piaget sautoir**Size:** length 32 mm, width 26.5 mm**Signed:** case, dial and movement

Piaget Archives confirms that the present lot was manufactured in 1974.

A similar sautoir watch is illustrated in *Montres et Merveilles, 200 créations rares provenant du Musée de l'Horlogerie de Genève et des Collections Privées Piaget*, p. 73.

Piaget launched the *Collection du XXI^e Siècle* (21st Century Collection) in 1969, at the height of the firm's finest era of jewelry making. Produced for a short period of time, the collection was inspired by the period's nonconformist style, showcasing avant-garde pieces characterized by their asymmetrical shapes and daring use of materials. Piaget elevated hard stones to new heights, incorporating lapis lazuli, malachite, and tiger's eye into their ground-breaking and highly wearable pieces. It is no wonder that this collection, amassed with over 30 hard stones and bold designs has earned Piaget the moniker of "The Jeweler of Watchmaking."

In 2014, Piaget celebrated their heritage with a sublime exhibition of their 21st Century Collection titled *L'Or et la Couleur*. From bracelets and cuffs, to elegant necklaces such as the present lot, the collection has become an iconic representation of creativity without limits.

The present lot is tenderly inscribed for the
original owner, 'To my Darling, your perpetual
calendar so you can always remember me, Elaine.'

The Ref 725 was launched in 1940 and produced
for about 40 years and features arguably the
best 17" caliber quality of its time. The caliber
was so celebrated that the firm modified this
caliber for a variety of famed models including
world time and skeletonized watches.

gold, silver gilt and diamond set, screw set
case back

Case number: 212732

Closure: hinged strut

Size: diameter 14.8 cm

Signed: case, movement signed ImHof

*The total diamond weight is approximately
2.67 cts.*

From 1919 to 1936, Cartier created some of the world's most extraordinary clocks. Cartier's Art Deco period creations took inspiration from Egyptian, Persian, Indian, Chinese and Japanese cultures and motifs. They were highly imaginative and fanciful, using a full arsenal of fine jewels and precious stones. The atelier's production of fine desk timepieces has been in demand ever since, with many popular designs from the Art Deco period re-imagined for the modern client.

The luxurious multi faceted dial of the present lot is made of lacquered mother of pearl. The technique of *laque burgauté* was employed, where black lacquer is applied to tinted and sometimes engraved mother of pearl, with

silver and gold foil inlays. The composition is then polished in order to obtain a water resistant, high shine finish. The present dial depicts a fertile garden scene heightened by pavé diamond set hands. The elegant and difficult to master dial technique pays tribute to Cartier's heritage of excellence in elevating their masterworks to that of high art.

For similar examples of Cartier desk timepieces of Chinese inspiration, see Barracca, J., Negretti, G. and Nencini, F., *Le Temps de Cartier*, pp. 167, 169, 172-3 and 176.

Cartier Tonneau shaped wristwatches can be dated back as early as 1906. These early examples have become the inspiration behind current models based on the iconic case design - such as the Cartier Privé Tonneau introduced at SIHH in 2018.

As collectors often hope to find, the present watch has all of the corresponding case and movement numbers, as well as the Cartier inventory number. The personalized engraving on the caseback shows that this watch was lovingly passed down through the family for two generations first in 1925, and the second time in 1973, both as a Christmas gift to be worn and enjoyed. The present watch comes to us in original condition from the descendant of the original owner.

DAY AND NIGHT COMET CLOCK
 AN AGATE DIAMOND SET AND ENAMEL DAY AND
 NIGHT SEMI-MYSTERY COMET CLOCK CIRCA 1925

Dial: blue enamel

Caliber: nickel plated, 17 jewels

Case: agate, gold and enamel bezel, brass strut

Case number: 2296, 1081

Size: 110 mm diameter

Signed: strut signed Cartier, case and movement signed European Watch and Clock Co. France, further engraved with an added plaque reading "To Gwen, with all my love, from Willie June 15th 1928"

French Clockmaker and illusionist Jean Eugène Robert-Houdin, descendant of Prosper Robert – a respected watchmaker in France, created mystery clocks in the 1830s. As a pioneer of modern illusionism, he paved the way for other watchmakers and illusionists, such as Maurice Couët.

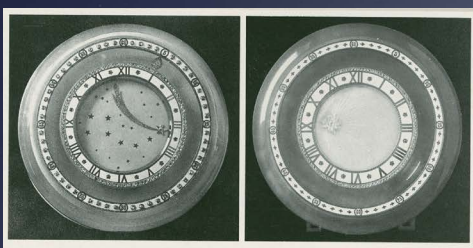

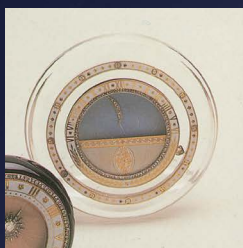

Maurice Couët came from a long lineage of watchmakers. He learned from both his father and grandfather – both watchmakers for Breguet – and later move to Paris to set up his own business that would exclusively create table clocks for Cartier.

The present comet clock is in superb condition featuring a beautiful night sky theme with gold stars. The mechanism incorporates a rotating disc indicating day or night along the top portion of the dial. This example is from the descendant of the original owner, and is in excellent condition.

HK\$ 785,000-1,570,000

The Series 2 is arguably the world's smallest
production watch with less than 100 pieces
produced since its original conception in 2006.

This truly rare and exceptional hand made
timepiece by Roger W Smith is numbered 10
and represents one of the earliest iterations of
the Series 2. The example remains in overall
excellent condition and is complete with
its presentation box, accessories, and the
Ownership and Service History booklet signed
by Roger Smith and dated for its original sale
in 2008. This marks a rare opportunity for
collectors, as the present waitlist for a new
Roger W Smith timepiece exceeds three years!

Born in Bolton, England in 1970, Roger W
Smith was advised by his father to attend
the Manchester School of Horology. He met
his mentor Dr. George Daniels in 1987 who
presented his iconic Space Traveller pocket-
watch to the students at that time. Roger then
said, "Suddenly, my life's purpose was crystal
clear - though its path was less defined." After
his encounter with Daniels, Roger aspired
to become a watchmaker who would create
stunning timepieces; exquisitely built and finely
finished using nothing but his bare hands.
This would become "The Daniels Method."
Smith later became Daniels' only apprentice,
and following that he also managed to master
32 trades of British watchmaking to become
worthy of collaborating with the great master
himself.

◇ Hand engraved - R.W. Smith

We hereby certify that the following wristwatch is a
creation of the Roger W. Smith Workshop created in the
Isle of Man, British Isles.

REF 1801

A SPECIAL EDITION WHITE GOLD
HALF HUNTING CASED TOURBILLON
WRISTWATCH CIRCA 2001

Dial: silvered engine turned**Caliber:** cal. 557 finely engraved manual winding movement, 21 jewels**Movement number:** No 1997**Case:** 18k white gold, hinged half hunting cover, snap on sapphire display back**Case number:** 931L**Closure:** 18k white gold Breguet folding clasp**Size:** diameter 42 mm**Signed:** case, dial and movement**Accessories:** Breguet presentation box with outer packaging, Certificate of Origin and Warranty booklet, Tourbillon Certificate confirming the special edition commemorative timepiece for the 200th anniversary of the Tourbillon and instructional booklet

The model 1801 was created in 2001 to celebrate the 200th anniversary of the tourbillon mechanism patented on 26 June 1801, or according to the French Republican calendar of the time: 7 Messidor, year IX-A.L. by Abraham-Louis Breguet.

The design of the movement follows the specifications from the original patent in every detail. From technical features to aesthetic aspects such as the design of the famous Breguet hands, this rare model preserves the heritage of the most ingenious watchmaker into the 21st Century.

REF 7047 LA TRADITION
A YELLOW GOLD SEMI SKELETONIZED
TOURBILLON WRISTWATCH WITH CHAIN
AND FUSEE AND SILICON BALANCE
SPRING CIRCA 2013

Dial: semi skeletonized

Caliber: 569 manual winding movement, 43 jewels

Movement number: 8000225

Case: 18k yellow gold, snap on sapphire display back

Case number: 670 AE

Closure: 18k yellow gold Breguet folding clasp

Size: diameter 42 mm

Signed: case, dial and movement

The Breguet La Tradition Grand Complication is a superlative model in the firm's repertoire. Breguet impressively showcases classic and new technologies with a 50 hour fusee and chain power reserve, and a one minute tourbillon with titanium bridge and silicon overcoil hairspring. Each separate complication requires remarkable skill and patience to manufacture.

The fusee chain is a traditional technique that has been used in pocket watches since the 19th century. When wound, the conical shape fusee barrel is wrapped with a miniature chain, which then creates a constant and smooth power output from the barrel as energy is released. By making the movement capable of running for 50 hours and regulating the torque, Breguet's master watchmakers have managed

to successfully miniaturize and modernize this traditional complication.

The famous Breguet overcoil hairspring has also been updated with innovative silicon material. As silicon is devoid of the malleability of metal, it required a complete rethinking of the production process to form a bend rising up from the coil. This created a technical challenge which was brilliantly mastered in the present movement.

To protect and showcase this tour de force complication, the Ref 7047 is cased in a heavily domed sapphire crystal. The watch is a true combination of Breguet's commitment to both tradition and the future.

By 1953, the commercial trans-Atlantic airline industry was at a point where planes were able to take off on one side of the ocean and land on the other in a matter of mere hours.

Partly as a result of this, Pan American airlines approached Rolex, and the two companies began working on a watch that could easily tell the hour in two different time zones.

When reference 6542 was released in 1954 it became the official timepiece of Pan-Am Airline - and became Rolex's first GMT-Master ever produced. Their pilots found the watch to be a useful tool in the cockpit where many timing calculations were necessary over the duration of the flight.

The present example has been well preserved and is exceedingly rare to see in yellow gold - a treat for collectors of precious metal tool watches.

REF 6240 'SMALL FLOATING DAYTONA'
A STAINLESS STEEL CHRONOGRAPH
WRISTWATCH WITH REGISTERS AND
BRACELET CIRCA 1966

Dial: black

Caliber: cal. 722 manual winding movement,
17 jewels

Case: stainless steel, solid screw down case
back

Case number: 1438962

Closure: stainless steel *later Rolex Oyster*
bracelet with folding clasp

Size: diameter 36 mm

Signed: case, dial and movement

Reference 6240 was the first Daytona to incorporate screw-down pushers. Manufactured solely in stainless steel, the chronograph also features an acrylic tachometer bezel. In production from 1965 through 1969, approximately 1,700 pieces were made.

The present example features a 'floating' Daytona dial, more often seen on reference 6239 (see Lot 185 for reference 6239 with the 'floating Daytona' dial configuration). The 1.4 million serial number dates back to 1965 - during the first half of production of reference 6240. One can speculate that the 'floating' Daytona dials were used to test out the newly added screw-down pushers.

The rarity of reference 6240 coupled with the early 'Floating Daytona' dial further enhances the collectability of this piece.

REF 5512 SUBMARINER

A STAINLESS STEEL AUTOMATIC CENTER SECONDS WRISTWATCH WITH POINTED CROWN GUARDS AND SPIDER DIAL CIRCA 1963

Dial: glossy black gilt spider

Caliber: cal. 1530 automatic movement, 26 jewels

Movement number: 45048

Case: stainless steel, solid screw down case back

Case number: 892241

Size: diameter 40 mm

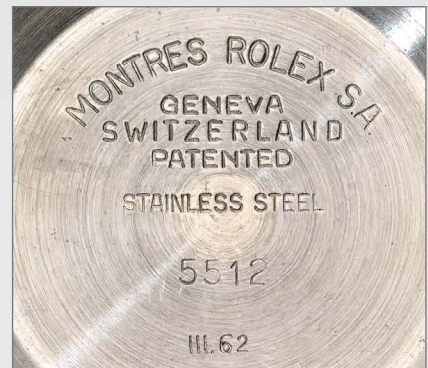

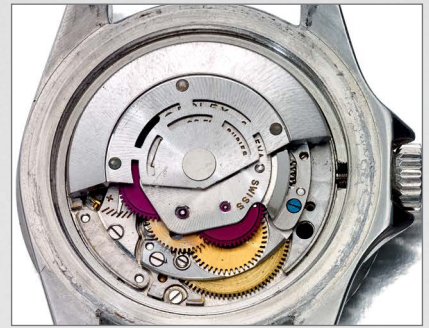

Signed: case, dial and movement

Rolex introduced the reference 5512 in 1959 as a continuation of the Submariner which launched officially in 1954 with the ref. 6200. The 5512 was the first Submariner to include crown guards for added protection. The first examples featured square, hard edged crown guards which lasted for a short production run, followed by the pointed guards as featured on the present lot. These types of guards lasted for only a few years, making the present case quite rare.

Constantly working toward a perfection, the firm experimented with new materials and made minor adjustments to give their pieces a more luxurious feel. Due these experimental materials and conditions over time, these lacquered dials sometimes crack, creating a truly unique and interesting *Spider Dial*.

The present example, with its subtle and attractive webbing to the left side of the dial, catches the light and makes for a unique collectors' piece.

The Rolex Ref. 4500 is one of the very few Oyster chronograph models to feature only two subsidiary dials, for constant seconds, and 30-minute register. As a result, the dial is rendered more symmetrical, and along with its round pushers and screw down case back, bears similarities to Patek Philippe's celebrated Reference 1463.

Reference 4500 was launched in the 1940s and was available in yellow gold, pink gold, stainless steel and in stainless steel and gold.

Various models of reference 4500 are described and illustrated in *I Cronografi Rolex - La Leggenda*, Pucci Papaleo Editore, pp. 206 - 221.

In 1969, Rolex concurrently launched reference 6263 and 6265, replacing the first ever Oyster Cosmograph Daytona reference 6240 (see lot 176). Reference 6263 is easily distinguished by its acrylic tachometer bezel and screw down pushers.

The reference 6263 was manufactured for almost twenty years. The present example dates back to 1978 and remains in superb condition. The silvered dial with the black contrasting bezel and subsidiary dials is a staple piece when searching for the perfect Daytona.

The popularity of the Rolex GMT-Master series to this day is a testament to the timeless design of the reference that started it all, the reference 6542. The reference started production in 1954 and was discontinued in 1959.

Reference 6542 was fitted with an acrylic or bakelite bezel insert. Originally having been designed for Pan Am pilots during the golden age of flight, the model incorporated a 24-hour hand - allowing pilots to easily read GMT time.

The reference was later lifted to further accolade adorning the wrist of Honor Blackman's Pussy Galore in James Bond, *Goldfinger* released in 1964, and is a preferred tool watch within the collector community today.

Closure: stainless steel *Rolex Jubilee* bracelet
with folding clasp

Size: diameter 36 mm, bracelet circumference
approximately 165 mm

Signed: case, dial and movement

The iconic reference 6239 was introduced in the United States in 1963, and available in the US and Europe until 1969. It was the first model fitted with this exotic dial, later coined the Paul Newman dial, distinguished by its fine square markers. The so-called 'Paul Newman' dial is characterized by these square markers in the chronograph scale and subsidiary dials as well as the alternating patterning of the coloration. Though widely available at the time, these dials were produced in smaller numbers and are rarer to find on watches today.

The present lot is in attractive condition with an especially crisp bezel. It is offered here for the first time at auction by the family of the original owner.

Closure: coated stainless steel *Panera* double folding clasp

Size: diameter 48 mm

Signed: case, dial and movement

The Lo Scenziato was the first skeletonized wristwatch ever produced by Panerai. The movement P 2005/S is the finely finished skeletonized version of their ever popular caliber P2005, also featured in lots 194-196.

Panerai's PAM350 Lo Scenziato (The Scientist) pays tribute Galileo Galilei, arguably one of the most important scientific minds in history and often called *The Father of Modern Physics*. During his lifetime (1564 - 1642) Galileo tackled the problems of time measurement. He demonstrated that the law of isochronism, or small oscillations of a pendulum could in fact be applied to the measurement of time itself. Founded in Florence, Italy, home of Galileo Galilei, Panerai shared the same core value of avant-garde and innovation with this most celebrated genius scientist.

For a further note on the caliber P2005, please see lot 194.

Size: diameter 47 mm

Signed: case, dial and movement

Accessories: *Panerai* presentation box with outer packaging, Certificate booklet, two pushers and booklet

Launched in 2007, the PAM00276 features an unassuming dual time zone sandwich dial and surprisingly light weight stainless steel case. The sapphire display back reveals an impressive six day power reserve indicator. Even more striking, we are introduced to the firm's first lateral tourbillon caliber, P.2005. The balance rotates 360 degrees on a lateral axis rather creating a three dimensional affect within the case. The tourbillon completes a full revolution every 30 seconds, moving at twice the speed of a standard one-minute tourbillon. This is indicated by a rotating blue dot on the subsidiary seconds dial.

The present lot is number 53 from a limited series of 100 pieces. In 2008, Panerai replaced this model with PAM 306, which featured a brown dial.

The Grand Tourbillon Heures Mystérieuses wristwatch from the Montblanc Collection Villeret 1858 was created to commemorate Minerva's 150th anniversary. Eight pieces were

manufactured in white gold and rose gold, and one unique version was encased in platinum.

The grand tourbillon features an interesting 'Heures Mystérieuses' mechanism, which translates to 'Mysterious Hours' - made to highlight the seemingly free floating hour hands. The present example is number 2/8, making this a truly exclusive wristwatch to own.

The Rotonde de Cartier collection celebrates some of the firm's most horologically complicated movements. The present lot features two of the most revered complications in watchmaking - the minute repeater and the tourbillon.

Designed in titanium to enhance the sound quality of the repeater, this substantial timepiece is equipped with pusher instead of the traditional lever found on most minute repeaters. The timepiece is powered by the caliber 9402 MC which is composed of 447 pieces and requires such acute manufacturing attention that it is said that only 20 timepieces can be produced annually.

Following the long-standing tradition of
philanthropy, Audemars Piguet launched the
special edition Jules Audemars Equation of
Time to benefit the Clinton Foundation.

Dressed in platinum, this timepiece offers an
incredible number of complications including
the equation of time set to the location of the
White House, sunrise/sunset, and a perpetual
calendar with moon phases. The piece was
produced in a limited series of 42 in white gold,
pink gold and platinum. The limited series
number was a specific tribute to President
Clinton, the 42nd President of the United
States.

Dial: blue semi skeletonized

Caliber: cal. UN201 manual winding movement, 32 jewels, patented dual direct escape-ment

Case: platinum, rotating bezel to set the time, rotating sapphire display back for winding

Case number: No. 43/99

Closure: 18k white gold Ulysse Nardin double folding clasp

Size: diameter 45 mm

Signed: case, dial and movement

Accessories: Ulysse Nardin presentation box,

Certificate of Limited Edition confirming the present lot as No. 43 of 99 pieces and International Guarantee Certificate card, leather bi fold, instructional booklets

The total diamond weight is approximately 3.35 ct.

Created by Dr. Ludwig Oechslin, the Freak model features a carousel regulation with 7 days power reserve. Developed to be used without a winding crown or traditional hands, the escapement forms the minute indicator with hours displayed via a larger rotating triangular indicator with the entire movement revolving once an hour. The mainspring is wound by rotating the reverse and forms the entire case-back allowing for the unusual seven day power reserve, the time is adjusted set by rotating the bezel with a locking feature to prevent accidental correction.

Since its founding in 1846, Ulysse Nardin has continually innovated and experimented in order to push the boundaries of haute horology. Throughout its history, the firm has won numerous awards for its achievements and continued to make important contributions to the horological field.

The Freak Diavolo represents the best of the firm's desire to continually perfect and expand on its own creations. Originally introduced in 2001, the Freak employed the use of silicon parts in its mechanical movement, which had not been done by any other firm at the time. The unique dial design displaying the movement on the minute hand of the watch also took the watch industry by storm. Ulysse Nardin then decided to improve on this model by introducing the Diavolo nine years later in 2010.

The Diavolo expands on the traditional Freak by also including a flying tourbillon. While the original Freak included a metal rod that went through the center of the watch, the firm removed this in the Diavolo, and secured the movement in other ways to ensure better optics. The watch gets its name from the two windows resembling horns on the back of the case, which have a sinister effect.

IWC's Grand Complication wristwatch features a perpetual calendar, chronograph and minute repeater and is composed of 659 individual components all manufactured in house. Originally launched at Basel in 1990, the team responsible for this highly complicated masterwork included Dominic Renaud and Giulio Papi, pioneers who moved on to develop exceptional works for both Audemars Piguet and Richard Mille.

This example is from a limited edition produced in 2008 and is numbered 11 of 50 and is offered in excellent overall condition with a substantial IWC brick link bracelet.

The Malte Collection proudly bears the name of the emblem of the House of Vacheron Constantin - the cross of the Maltese knights, signifying courage and honour. The collection's tonneau shape is iconic and the debut was mind-blowing back in 1912 at Vacheron Constantin. The tonneau-shaped timepiece broke through the constraint of traditional round dial pocket watch cases. A century later in 2012, the design was rejuvenated and complications were added to the imposing series.

The Traditionnelle Perpetual Calendar Skeleton made its debut to great fanfare in 2007 at the Salon International de la Haute Horlogerie (SIHH). Collectors praise it for its great legibility, which is often sacrificed on skeletonized models. At 39 millimeters in diameter, it is significantly larger than the firm's previous perpetual calendar skeletonized wristwatch. The clean lines of the case, with its somewhat enlarged bezel, lend a strong and streamlined counterpoint to the intricate details visible in the movement.

cloth

The Master Minute Repeater Antoine LeCoultre was launched to celebrate the firm's 175th anniversary in 2005.

Jaeger-LeCoultre took on the challenge of producing a timepiece that is both waterproof and exceptional in sound quality. Typically, the more open the case, the better the sound can project outward. The manufacture created a water resistant case to 50 meters that showcases a crisp, clear and loud repeater. This magnificent contradiction was achieved with the caliber 947, which has a patented crystal gong, an ingenious new design in the world of repeating watches.

The patented mechanism works by adhering the gong heel directly to a sapphire crystal within the movement. The crystal resonates with the gongs, amplifying the sound. The gongs themselves are made of an exclusive secret formula not disclosed by the firm.

To complete this already impressive timepiece, the caliber 947 is the only manual winding movement with a 15 day power reserve. The spring torque is displayed on a special indicator, guaranteeing optimal accuracy as long as the hand remains in the indicator's safety zone.

A PINK GOLD SKELETONIZED TOURBILLON
WRISTWATCH CIRCA 2008

Dial: skeletonized

Caliber: cal. 558SQ2 manual winding movement, 25 jewels

Movement number: 5015

Case: 18k pink gold, sapphire display back secured by six screws

Case number: 2802

Closure: 18k pink gold *Breguet* folding buckle

Size: diameter 41 mm

Signed: case, dial and movement

Accessories: *Breguet* presentation box and outer packaging, Certificate of Origin and Warranty booklet, hang tag and booklet

The pink gold tourbillon carriage on the present example is mounted between sapphire crystals, giving the illusion that the cage is suspended or floating, seemingly unconnected to the movement.

This model is named for the date on which Abraham Louis Breguet patented the tourbillon, the 26th of June 1801. Messidor refers to the revolutionary month, known as June on the traditional Gregorian calendar.

This model was launched by Breguet at the Basel Fair in 2007

Invented in 1795 and patented in 1801, the tourbillon regulator remains the most famous and important of Abraham-Louis Breguet's many inventions today. Since 1980, Breguet has started to produce a wide variety of wristwatches equipped with this famous tourbillon. The current example brings together the firm's commitment to traditional design with modern aesthetics, combining the tourbillon with a perpetual calendar, retrograde date and skeletonized dial.

PATEK PHILIPPE

REF 3970E

A RARE PINK GOLD PERPETUAL CALENDAR
CHRONOGRAPH WRISTWATCH MADE IN
1990

Dial: silvered, day and month *in Italian*

Caliber: cal. CH27-70 Q manual winding movement, 24 jewels

Movement number: 875609

Case: 18k pink gold, solid screw down case back

Case number: 2881770

Size: diameter 36 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* Certificate of Origin and Extract from the Archives confirming the date of sale on September 3, 1990 with an 18k pink gold case with pink gold indexes, bi fold, booklets

Patek Philippe launched this model Ref. 3970 in 1986 and continued production for approximately two years. It features a solid snap-on case back. It was replaced with Ref. 3970E, which had a screw back rather than a snap back, with the suffix indicating *étanche*, or waterproof. This screw back model was produced until 2004.

According to our research, Patek Philippe produced about 650 second series models in yellow, white, and pink gold, and platinum. Of this total number, only 60 pieces are said to have been manufactured in pink gold, with only 24 pieces known to the market today. Indeed, pink gold is the rarest case color across all the series of this reference, making the present lot a particularly rare find for collectors.

The model was created following the success of the exceptional and iconic Ref. 2499. One main difference between the two models is the addition of the leap year indicator to the 3 o'clock subsidiary dial and 24-hour indicator to the 9 o'clock subsidiary dial. The general design of the case of Ref. 3970/3970E, with its down turned, fluted lugs, is clearly influenced by the form of iconic Ref. 2499.

As the Ref. 3970 was extremely well received in the market, Patek Philippe began increasing its production run during its last years of production, making an early model such as the present lot more remarkable today.

This reference and caliber are illustrated in Huber, M. & Banbery, A., *Patek Philippe Watches*, Vol. 2, Second Edition, pp. 305.

REF 1463

A YELLOW GOLD CHRONOGRAPH
WRISTWATCH WITH REGISTERS AND
TACHOMETER SCALE MADE IN 1948

Dial: two tone silvered

Caliber: cal. 13-130 manual winding movement, 23 jewels

Movement number: 867490

Case: 18k yellow gold, solid screw down case back

Case number: 653480

Closure: 18k yellow gold *Patek Philippe* buckle

Size: diameter 35 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* Extract from the Archives confirming the year of manufacture in 1948, and sale on November 8, 1949 with a tachometer scale

The present lot is an excellent example of the Reference 1463, an iconic chronograph wristwatch produced in less than 750 examples. This model is well-loved for its substantial case, featuring a screw-down back and round chronograph pushers. Whereas to modern eyes, many vintage pieces appear rather small, the proportions of the Ref. 1463 are just right.

The Reference 1463 was first water resistant chronograph wristwatch made by Patek Philippe. The cases of the reference 1463 were made for Patek Philippe by Taubert (formerly Frères Borgel), who specialized in the manufacture of the finest quality water-resistant type watch cases. The addition of a dust or humidity proof cover further helped to protect the watch movement. The model was manufactured from 1940 until circa 1969, and remained Patek Philippe's last chronograph wristwatch until the appearance of the Reference 5070 in 1998.

The 'Lange 1' model was one of four pieces launched in 1994 as part of A. Lange & Söhne's re-launch in the early 90s. Since then, the model has remained a staple within the brand. The silvered matte dial features two large apertures to display the date and a fan-form sector for the power reserve indication. The present lot is in excellent, unpolished condition, making it an extremely attractive piece to add to any collection.

The Ref. 5135 represents Patek Philippe's
 continuous desire to improve upon its own
 iconic contributions to horology. The tonneau-
 form dial differs from the previous circular
 annual calendar, and honors the firm's case
 designs from the Art Deco period. Rather than
 displaying the date in registers, the day of week,
 date, and month appear in three apertures
 arranged in an arc between 10 and 2 o'clock.

The Ref 5135 is powered by the in-house
 caliber 324, and was the first wristwatch to
 automatically advance the month, day and
 date.

Accessories: *Patek Philippe* Extract from the Archives confirming the year of manufacture in 1910, and sale on November 27, 1916. Additionally confirming that the timepiece was

awarded first prize by the Geneva Astronomical Observatory in 1915

It is extraordinary to note that the present watch passed the rigorous tests of l'Observatoire de Geneve in 1915. Testing at the Geneva Observatory initially lasted 40 days and required the watch to be tested in different positions and at varying temperatures to check its ability to maintain outstanding accuracy. Accuracy in timekeeping has been critical to advances in Science and, in 1873, the Observatory in Geneva held its first annual Chronometer competition. Patek Philippe won the much coveted 1st prize for the first time in 1884.

PATEK PHILIPPE

REF 844

A RARE YELLOW GOLD OPEN FACED
MINUTE REPEATING PERPETUAL
CALENDAR WATCH WITH MOON PHASES
MADE IN 1924, COMPLETED IN 1962

Dial: silvered**Caliber:** 17''' *ligne* movement, 31 jewels**Movement number:** 197909**Case:** 18k yellow gold, solid snap on case back**Case number:** 316545**Size:** diameter 51 mm**Signed:** case, dial and movement

Accessories: *Patek Philippe* Extract from the Archives confirming the year of manufacture in 1924, completed in 1962, encased in 1967 and sold on July 26, 1974

The exceedingly clean dial design with the linear calendar on the Ref. 844 was a particularity in the US market when it first appeared in 1965.

Bearing a full digital display of day, month and date held within a single aperture, the dial of this watch is an especially rare Patek Philippe design, as the majority of perpetual calendar pocket watches by Patek Philippe were made with subsidiary dial indications. The 'single aperture' dial design enhances the clarity and ease of reading the date display and is of a type more commonly associated with wristwatches.

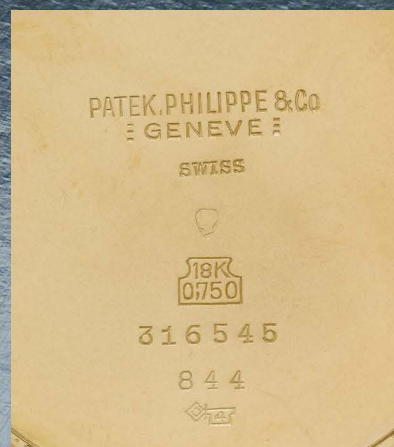

Antoine Gerlach, a Geneva-based case maker designed the triple-stepped bezel and case. With the sharp, clear lines of the case, the overall effect emphasizes the watch's purpose as a highly accurate timekeeper.

Patek Philippe produced the Ref. 844 from 1965 until 2000, when it was only available by special request. Despite this extensive production period, the firm produced an estimated total of only 80 pieces in yellow and white gold.

€ 107,000-160,000

HK\$ 945,000-1,420,000

Patek Philippe introduced reference 3448 to
the market in 1962. Almost two decades later,
they made some slight upgraded alterations to
the beloved watch when introducing reference
3450.

Reference 3450 was in production from 1981
through 1985, and according to scholarship,
only 244 examples were made – making this
reference more limited than its predecessor.
Despite there being quite a few minor upgrades
to reference 3450, arguably the biggest
difference between the two references was the
improved movement.

Reference 3450 houses the caliber 27-460
QB, which was the firm's first movement to
incorporate a leap year indicator. This example
from 1982 features a "Roman" leap year
indicator, located on the dial between the 3 and
4 o'clock position. Offered in overall excellent
condition, the present watch is a wonderful
representation of Patek Philippe's constant
innovation over the course of its history.

PATEK PHILIPPE

REF 2499/100

A RARE YELLOW GOLD PERPETUAL CALENDAR
CHRONOGRAPH WRISTWATCH WITH MOON PHASES
MADE IN 1984

Dial: silvered

Caliber: cal. 13''' manual winding, 18 jewels

Movement number: 869281

Case: 18k yellow gold, snap on case back

Case number: 2792137

Closure: 18k yellow gold *Patek Philippe* buckle

Size: diameter 37.5 mm

Signed: case, dial and movement

Accessories: *Patek Philippe* Extract from the Archives confirming date of sale on July 18, 1984, Certificate of Origin, leather bi-fold, hang tag and booklet

The iconic reference 1518 was Patek Philippe's first perpetual calendar chronograph wristwatch produced in series. A decade later, reference 2499 was introduced to the market. With only 349 examples manufactured over 35 years of production, it remains today one of the most sought-after wristwatches of our time.

Today, collectors and scholars categorize reference 2499 into four series. The present example, reference 2499/1, is that of the fourth series – featuring round chronograph pushers, applied baton numerals, an outer seconds division and a sapphire crystal.

Based on our research, this watch has never been offered at auction, making this an extremely rare opportunity to own a fresh-to-the-market piece. For a similar example of reference 2499/100 bearing the prestigious Tiffany & Co. retailer signature, please see lot 134.

CONDITIONS OF SALE

The following Conditions of Sale and Terms of Guarantee are Sotheby's, Inc. and the Consignor's entire agreement with the purchaser and any bidders relative to the property listed in this catalogue.

The Conditions of Sale, Terms of Guarantee, the glossary, if any, and all other contents of this catalogue are subject to amendment by us by the posting of notices or by oral announcements made during the sale. The property will be offered by us as agent for the Consignor, unless the catalogue indicates otherwise.

By participating in any sale, you acknowledge that you are bound by these terms and conditions.

1. As Is Goods auctioned are often of some age. The authenticity of the Authorship (as defined below) of property listed in the catalogue is guaranteed as stated in the Terms of Guarantee and except for the Limited Warranty contained therein, all property is sold "AS IS" without any representations or warranties by us or the Consignor as to merchantability, fitness for a particular purpose, the correctness of the catalogue or other description of the physical condition, size, quality, rarity, importance, medium, frame, provenance, exhibitions, literature or historical relevance of any property and no statement anywhere, whether oral or written, whether made in the catalogue, an advertisement, a bill of sale, a salesroom posting or announcement, or elsewhere, shall be deemed such a warranty, representation or assumption of liability. We and the Consignor make no representations and warranties, express or implied, as to whether the purchaser acquires any copyrights, including but not limited to, any reproduction rights in any property. We and the Consignor are not responsible for errors and omissions in the catalogue, glossary, or any supplemental material. Sotheby's will not be responsible or liable for damage to frames and glass coverings, regardless of the cause.

2. Inspection Prospective bidders should inspect the property before bidding to determine its condition, size, and whether or not it has been repaired or restored.

3. Buyer's Premium A buyer's premium will be added to the hammer price and is payable by the purchaser as part of the total purchase price. The buyer's premium is 25% of the hammer price up to and including \$400,000, 20% of any amount in excess of \$400,000 up to and including \$4,000,000, and 13.9% of any amount in excess of \$4,000,000.

4. Withdrawal We reserve the right to withdraw any property before the sale and shall have no liability whatsoever for such withdrawal.

5. Per Lot Unless otherwise announced by the auctioneer, all bids are per lot as numbered in the catalogue.

6. Bidding We reserve the right to reject any bid. The highest bidder acknowledged by the auctioneer will be the purchaser. The auctioneer has absolute and sole discretion in the case of error or dispute with respect to bidding, and whether during or after the sale, to determine the successful bidder, to re-open the bidding, to cancel the sale or to re-offer and re-sell the item in dispute. If any dispute arises after the sale, our sale record is conclusive. In our discretion we will execute order or absentee bids and accept telephone bids and online bids via BIDnow, eBay, Invaluable or other online platforms as a convenience to clients who are not present at auctions; Sotheby's is not responsible for any errors or omissions in connection therewith. Prospective bidders should also consult sothebys.com for the most up to date cataloging of the property in this catalogue.

By participating in the sale, you represent and warrant that any bids placed by you, or on your behalf, are not the product of any collusive or other anti-competitive agreement and are otherwise consistent with federal and state antitrust law.

By participating in the sale, you represent and warrant that:

(a) The bidder and/or purchaser is not subject to trade sanctions, embargoes or any other restriction on trade in the jurisdiction in which it does business as well as under the laws of the European Union, the laws of England and Wales, or the laws and regulations of the United States, and is not owned (nor partly owned) or controlled by such sanctioned person(s) (collectively, "Sanctioned Person(s)");

(b) Where acting as agent (with Sotheby's prior written consent), the principal is not a Sanctioned Person(s) nor owned (or partly owned) or controlled by Sanctioned Person(s); and

(c) The bidder and/or purchaser undertakes that none of the purchase price will be funded by any Sanctioned Person(s), nor will any party be involved in the transaction including financial institutions, freight forwarders or other forwarding agents or any other party be a Sanctioned Person(s) nor owned (or partly owned) or controlled by a Sanctioned Person(s), unless such activity is authorized in writing by the government authority having jurisdiction over the transaction or in applicable law or regulation.

In order to bid on "Premium Lots" you must complete the required Premium Lot pre-registration application. Sotheby's decision whether to accept any pre-registration application shall be final. You must arrange for Sotheby's to receive your pre-registration application at least three working days before the sale. Please bear in mind that we are unable to obtain financial references over weekends or public holidays.

Sotheby's may require such necessary financial references, guarantees, deposits and/or such other security, in its absolute discretion, as security for your bid(s).

7. Online Bids via BIDnow or other Online Platforms: Sotheby's may offer clients the opportunity to bid online via BIDnow, eBay, Invaluable or other Online Platforms for selected sales. By participating in a sale via any of these Online Platforms, you acknowledge that you are bound by these Conditions of Sale as well as the Additional Terms and Conditions for Live Online Bidding ("Online Terms"). By participating in a sale via any Online Platform, Bidders accept the Online Terms, as well as the relevant Conditions of Sale. Online bidding may not be available for Premium Lots.

8. Bids Below Reserve If the auctioneer determines that any opening bid is below the reserve of the article offered, he may reject the same and withdraw the article from sale, and if, having acknowledged an opening bid, he determines that any advance thereafter is insufficient, he may reject the advance.

9. Purchaser's Responsibility Subject to fulfillment of all of the conditions set forth herein, on the fall of the auctioneer's hammer, the contract between the consignor and the purchaser is concluded, and the winning bidder thereupon will immediately pay the full purchase price or such part as we may require. Title in a purchased lot will not pass until Sotheby's has received the full purchase price in cleared funds. The purchaser's obligation to immediately pay the full purchase price or such part as we may require is absolute and unconditional and is not subject to any defenses, setoffs or counterclaims of any kind whatsoever. Sotheby's is not obligated to release a lot to the purchaser until title to the lot has passed and any earlier release does not affect the passing of title or the purchaser's unconditional obligation to pay the full purchase price. In addition to other remedies available to us by law, we reserve the right to impose from the date of sale a late charge of the annual percentage rate of Prime + 6% of the total purchase price if payment is not made in accordance with the conditions set forth herein. Please note Sotheby's reserves the right to refuse to accept payment from a source other than the buyer of record.

Unless otherwise agreed by Sotheby's, all property must be removed from our premises by the purchaser at his expense not later than 30 calendar days following its sale. Purchasers are reminded that Sotheby's liability for loss of or damage to sold property shall cease upon the earlier of (a) 30 calendar days after the date of the auction and (b) our release of the property to the purchaser or the purchaser's designated agent. Upon the expiration of such 30 calendar day period or upon such earlier release, as applicable: (i) the purchaser bears full liability for any and all loss of or damage to the property; (ii) the purchaser releases Sotheby's, its affiliates, agents and warehouses from any and all liability and claims for loss of or damage to the property; and (iii) the purchaser

agrees to indemnify and hold Sotheby's, its affiliates, agents and warehouses harmless from and against any and all liability for loss of or damage to property and any all claims related to loss of or damage to the property as of and from and after the time Sotheby's liability for loss or damage to the property ceases in accordance with this paragraph. If any applicable conditions herein are not complied with by the purchaser, the purchaser will be in default and in addition to any and all other remedies available to us and the Consignor by law, including, without limitation, the right to hold the purchaser liable for the total purchase price, including all fees, charges and expenses more fully set forth herein, we, at our option, may (x) cancel the sale of that, or any other lot or lots sold to the defaulting purchaser at the same or any other auction, retaining as liquidated damages all payments made by the purchaser, or (y) resell the purchased property, whether at public auction or by private sale, or (z) effect any combination thereof. In any case, the purchaser will be liable for any deficiency, any and all costs, handling charges, late charges, expenses of both sales, our commissions on both sales at our regular rates, legal fees and expenses, collection fees and incidental damages. We may, in our sole discretion, apply any proceeds of sale then due or thereafter becoming due to the purchaser from us or any affiliated company, or any payment made by the purchaser to us or any affiliated company, whether or not intended to reduce the purchaser's obligations with respect to the unpaid lot or lots, to the deficiency and any other amounts due to us or any affiliated companies. In addition, a defaulting purchaser will be deemed to have granted and assigned to us and our affiliated companies, a continuing security interest of first priority in any property or money of or owing to such purchaser in our possession, custody or control or in the possession, custody or control of any of our affiliated companies, in each case whether at the time of the auction, the default or if acquired at any time thereafter, and we may retain and apply such property or money as collateral security for the obligations due to us or to any affiliated company of ours. We shall have all of the rights accorded a secured party under the New York Uniform Commercial Code. You hereby agree that Sotheby's may file financing statements under the New York Uniform Commercial Code without your signature. Payment will not be deemed to have been made in full until we have collected good funds. Any claims relating to any purchase, including any claims under the Conditions of Sale or Terms of Guarantee, must be presented directly to Sotheby's. In the event the purchaser fails to pay any or all of the total purchase price for any lot and Sotheby's nonetheless elects to pay the Consignor any portion of the sale proceeds, the purchaser acknowledges that Sotheby's shall have all of the rights of the Consignor to pursue the purchaser for any amounts paid to the Consignor, whether at law, in equity, or under these Conditions of Sale.

10. **Reserve** All lots in this catalogue are offered subject to a reserve, which is the confidential minimum hammer price at which a lot will be sold. No reserve will exceed the low presale estimate stated in the catalogue, or as amended by oral or posted notices. We may implement such reserve by opening the bidding on behalf of the Consignor and may bid up to the amount of the reserve, by placing successive or consecutive bids for a lot, or bids in response to other bidders. In instances where we have an interest in the lot other than our commission, we may bid up to the reserve to protect such interest. In certain instances, the Consignor may pay us less than the standard commission rate where a lot is "bought-in" to protect its reserve.

11. **Tax** Unless exempted by law, the purchaser will be required to pay the combined New York State and local sales tax, any applicable compensating use tax of another state, and if applicable, any federal luxury or other tax, on the total purchase price. The rate of such combined tax is 8.875% in New York City and ranges from 7% to 8.625% elsewhere in New York.

12. **Export and Permits** It is the purchaser's sole responsibility to identify and obtain any necessary export, import, firearm, endangered species or other permit for the lot. Any symbols or notices in the sale catalogue reflect Sotheby's reasonable opinion at the time of cataloguing and are for bidders' general guidance only; Sotheby's and the Consignor make no representations or warranties as to whether any lot is or is not subject to export or import restrictions or any embargoes.

13. **Governing Law and Jurisdiction** These Conditions of Sale and Terms of Guarantee, as well as bidders', the purchaser's and our respective rights and obligations hereunder, shall be governed by and construed and enforced in accordance with the laws of the State of New York. By bidding at an auction, whether present in person or by agent, order bid, telephone, online or other means, all bidders including the purchaser, shall be deemed to have consented to the exclusive jurisdiction of the state courts of, and the federal courts sitting in, the State of New York. All parties agree, however, that Sotheby's shall retain the right to bring proceedings in a court other than the state and federal courts sitting in the State of New York.

14. **Packing and Shipping** We are not responsible for the acts or omissions in our packing or shipping of purchased lots or of other carriers or packers of purchased lots, whether or not recommended by us. Packing and handling of purchased lots is at the entire risk of the purchaser.

15. **Limitation of Liability** In no event will the aggregate liability of Sotheby's and the consignor to a purchaser exceed the purchase price actually paid.

16. **Data Protection** Sotheby's will hold and process your personal information and may share it with its subsidiaries and affiliates for use as described in, and in line with, Sotheby's Privacy Policy published on Sotheby's website at www.sothebys.com or available on request by email to enquiries@sothebys.com

Under European data protection laws, a client may object, by request and free of charge, to the processing of their information for certain purposes, including direct marketing, and may access and rectify personal data relating to them and may obtain more information about Sotheby's data protection policies by writing to Sotheby's, 34-35 New Bond Street, London W1A 2AA, or 1334 York Avenue, New York, NY 10021, Attn: Compliance, or emailing enquiries@sothebys.com.

Please be aware that Sotheby's may film auctions or other activities on Sotheby's premises and that such recordings may be transmitted over the Internet via Sotheby's website, the eBay website, the Invaluable website and other Online Platforms. Telephone bids may be recorded.

Sotheby's use of information collected about eBay users may differ and is governed by the terms of the eBay Privacy Policy and Sotheby's on eBay Live Auction Platform Privacy Policy, which can be found on the Sotheby's on eBay Live Auction Website. Sotheby's use of information collected about Invaluable users may differ and is governed by the terms of the Invaluable Privacy Policy and Sotheby's on Invaluable Online Platform Privacy Policy, which can be found on the Sotheby's on Invaluable Live Auction Website.

TERMS OF GUARANTEE

As set forth below and in the Conditions of Sale, for all lots Sotheby's guarantees that the authorship, period, culture or origin (collectively, "Authorship") of each lot in this catalogue is as set out in the **BOLD** or **CAPITALIZED** type heading in the catalogue description of the lot, as amended by oral or written salesroom notes or announcements. Purchasers should refer to the Glossary of Terms, if any, for an explanation of the terminology used in the Bold or Capitalized type heading and the extent of the Guarantee. Sotheby's makes no warranties whatsoever, whether express or implied, with respect to any material in the catalogue other than that appearing in the Bold or Capitalized heading and subject to the exclusions below.

In the event Sotheby's in its reasonable opinion deems that the conditions of the Guarantee have been satisfied, it shall refund to the original purchaser of record the hammer price and applicable Buyer's Premium paid for the lot by the original purchaser of record.

This Guarantee is provided for a period of five (5) years from the date of the relevant auction, is solely for the benefit of the original purchaser of record at the auction and may not be transferred to any third party. To be able to claim under this Guarantee of Authorship, the original purchaser of record must: (i) notify Sotheby's in writing within three (3) months of receiving any information that causes the original purchaser of record to question the accuracy of the Bold or Capitalized type heading, specifying the lot number, date of the auction at which it was purchased and the reasons for such question; and (ii) return the Lot to Sotheby's at the original selling location in the same condition as at the date of sale to the original purchaser of record and be able to transfer good title to the Lot, free from any third party claims arising after the date of such sale.

Sotheby's has discretion to waive any of the above requirements. Sotheby's may require the original purchaser of record to obtain at the original purchaser of record's cost the reports of two independent and recognized experts in the field, mutually acceptable to Sotheby's and the original purchaser of record. Sotheby's shall not be bound by any reports produced by the original purchaser of record, and reserves the right to seek additional expert advice at its own expense. It is specifically understood and agreed that the rescission of a sale and the refund of the original purchase price paid (the successful hammer price, plus the buyer's premium) is exclusive and in lieu of any other remedy which might otherwise be available as a matter of law, or in equity. Sotheby's and the Consignor shall not be liable for any incidental or consequential damages incurred or claimed, including without limitation, loss of profits or interest.

ADDITIONAL TERMS AND CONDITIONS FOR LIVE ONLINE BIDDING

The following terms and conditions (the "Online Terms") provide important information related to live online bidding via BIDnow, eBay, Invaluable, and any other Online Platform through which bidding is made available ("Online Platforms").

These Conditions are in addition to and subject to the same law and our standard terms and conditions of sale, including the authenticity guarantee and any other terms and are not intended in any way to replace them. By participating in this sale via any Online Platform, you acknowledge that you are bound by the Conditions of Sale applicable in the relevant sale and by these additional Conditions.

1. The procedure for placing bids via Online Platforms is a one-step process; as soon as the "Bid Now" button is clicked, a bid is submitted. By placing a bid via any Online Platform, you accept and agree that bids submitted in this way are final and that you will not under any circumstances

be permitted to amend or retract your bid. If a successful bid is sent to Sotheby's from your computer, phone, tablet, or any other device, you irrevocably agree to pay the full purchase price, including buyer's premium and all applicable taxes and other applicable charges.

2. If you have the leading bid, it will be indicated on the screen with the statement "Bid with you" (on BIDNow) or "You're the highest bidder" (on eBay) or "Bid with you" (on Invaluable). If a bid is placed online simultaneously with a bid placed by a bidder in the room or on the telephone (a "floor" bid), the "floor" bid generally will take precedence; the auctioneer will have the final discretion to determine the successful bidder or to reopen bidding. The auctioneer's decision is final.

3. The next bidding increment is shown on the screen for your convenience. The auctioneer has discretion to vary bidding increments for bidders in the auction room and on the telephones, but bidders using Online Platforms may not be able to place a bid in an amount other than a whole bidding increment. All bidding for this sale will be in the domestic currency of the sale location, and online bidders will not be able to see the currency conversion board that may be displayed in the auction room.

4. The record of sale kept by Sotheby's will be taken as absolute and final in all disputes. In the event of a discrepancy between any online records or messages provided to you and the record of sale kept by Sotheby's, the record of sale will govern.

5. Online bidders are responsible for making themselves aware of all salesroom notices and announcements. All salesroom notices will be read by the auctioneer at the beginning, where appropriate, or during the sale prior to a relevant lot being offered for sale. Sotheby's recommends that online bidders log on at least ten minutes before the scheduled start of the auction to ensure that you have heard all announcements made by the auctioneer at the beginning of the sale.

6. Sotheby's reserves the right to refuse or revoke permission to bid via Online Platforms and to remove bidding privileges during a sale.

7. Purchase information shown in the "Account Activity" section of BIDnow, the "Purchase History" section of the "My eBay" page on eBay and the "Account Activity" section of the "My Invaluable" page on Invaluable is provided for your convenience only. Successful bidders will be notified and invoiced by Sotheby's after the sale. In the event of any discrepancy between any online purchase information and the invoice sent to you by Sotheby's following the respective sale, the invoice prevails. Terms and conditions for payment and collection of property remain the same regardless of how the winning bid was submitted.

8. Sotheby's offers online bidding as a convenience to our clients. Sotheby's will not be responsible for any errors or failures to execute bids placed via Online Platforms, including, without limitation, errors or failures caused by (i) a loss of connection to the internet or to the BIDnow, eBay, Invaluable or other Online Platform software by either Sotheby's or the client; (ii) a breakdown or problem with the BIDnow, eBay, Invaluable or other Online Platform software; or (iii) a breakdown or problem with a client's internet connection, mobile network or computer. Sotheby's is not responsible for any failure to execute an online bid or for any errors or omissions in connection therewith.

9. Live online bidding via all Online Platforms will be recorded.

10. In the event of any conflict between these Online Terms and Sotheby's Conditions of Sale and Terms of Guarantee, Sotheby's Conditions of Sale and Terms of Guarantee will control.

11. In the event of any conflict between these Online Terms and any term in any agreement between the User and eBay, these Online Terms will control for purposes of all Sotheby's auctions.

12. In the event of any conflict between these Online Terms and any term in any agreement between the User and Invaluable, these Online Terms will control for purposes of all Sotheby's auctions.

BUYING AT AUCTION

The following will help in understanding the auction buying process as well as some of the terms and symbols commonly used in an auction catalogue. All bidders should read the Conditions of Sale and Terms of Guarantee in this catalogue, as well as the Glossary or any other notices. By bidding at auction, bidders are bound by the Conditions of Sale and Terms of Guarantee, as amended by any oral announcement or posted notices, which together form the sale contract among Sotheby's, the seller (consignor) of the lot and any bidders, including the successful bidder (purchaser).

1. SYMBOL KEY

□ Reserves

Unless indicated by a box (□), all lots in this catalogue are offered subject to a reserve. A reserve is the confidential minimum hammer price at which a lot will be sold. The reserve is generally set at a percentage of the low estimate and will not exceed the low estimate of the lot. If any lots in the catalogue are offered without reserve, such lots will be designated by a box (□). If every lot in a catalogue is offered without a reserve, the Conditions of Sale will so state and this symbol will not be used for each lot.

○ Guaranteed Property

The seller of lots with this symbol has been guaranteed a minimum price from one auction or a series of auctions. This guarantee may be provided by Sotheby's or jointly by Sotheby's and a third party. Sotheby's and any third parties providing a guarantee jointly with Sotheby's benefit financially if a guaranteed lot is sold successfully and may incur a loss if the sale is not successful. If the Guaranteed Property symbol for a lot is not included in the printing of the auction catalogue, a pre-sale or pre-lot announcement will be made indicating that there is a guarantee on the lot.

△ Property in which Sotheby's has an Ownership Interest

Lots with this symbol indicate that Sotheby's owns the lot in whole or in part or has an economic interest in the lot equivalent to an ownership interest.

⇒ Irrevocable Bids

Lots with this symbol indicate that a party has provided Sotheby's with an irrevocable bid on the lot that will be executed during the sale at a value that ensures that the lot will sell. The irrevocable bidder, who may bid in excess of the irrevocable bid, may be compensated for providing the irrevocable bid by receiving a contingent fee, a fixed fee or both. If the irrevocable bidder is the successful bidder, any contingent fee, fixed fee or both (as applicable) for providing the irrevocable bid may be netted against the irrevocable bidder's obligation to pay the full purchase price for the lot and the purchase price reported for the lot shall be net of any such fees. From time to time, Sotheby's may enter into irrevocable bid agreements that cover multiple lots. In such instances, the compensation Sotheby's will pay the irrevocable bidder is allocated to the lots for which the irrevocable bidder is not the successful purchaser. Under such circumstances, the total compensation to the irrevocable bidder will not exceed the total buyer's premium and other amounts paid to Sotheby's in respect of any lots for which the irrevocable bidder is not the successful bidder. If the irrevocable bid is not secured until after the printing of the auction catalogue, Sotheby's will notify bidders that there is an irrevocable bid on the lot by one or more of the following means: a pre-sale or pre-lot announcement, by written notice at the auction or by including an irrevocable bid symbol in the e-catalogue for the sale prior to the auction. From time to time, Sotheby's or any affiliated company may provide the irrevocable bidder with financing related to the irrevocable bid. If the irrevocable bidder is advising anyone with respect to the lot, Sotheby's requires the irrevocable bidder to disclose his or her financial interest in the lot. If an agent is advising you or bidding on your behalf with respect to a lot identified as being subject to an irrevocable bid, you should request that the agent disclose whether or not he or she has a financial interest in the lot.

∨ Interested Parties

Lots with this symbol indicate that parties with a direct or indirect interest in the lot may be bidding on the lot, including (i) the beneficiary of an estate selling the lot, or (ii) the joint owner of a lot. If the interested party is the successful bidder, they will be required to pay the full Buyer's Premium. In certain instances, interested parties may have knowledge of the reserve. In the event the interested party's possible participation in the sale is not known until after the printing of the auction catalogue, a pre-sale or pre-lot announcement will be made indicating that interested parties may be bidding on the lot.

◎ Restricted Materials

Lots with this symbol have been identified at the time of cataloguing as containing organic material which may be subject to restrictions regarding import or export. The information is made available for the convenience of bidders and the absence of the symbol is not a warranty that there are no restrictions regarding import or export of the Lot; bidders should refer to Condition 12 of the Conditions of Sale. Please also refer to the section on Endangered Species in the information on Buying at Auction.

Π Monumental

Lots with this symbol may, in our opinion, require special handling or shipping services due to size or other physical considerations. Bidders are advised to inspect the lot and to contact Sotheby's prior to the sale to discuss any specific shipping requirements.

🔗 Premium Lot

In order to bid on "Premium Lots" (🔗 in print catalogue or 🔗 in eCatalogue) you must complete the required Premium Lot pre-registration application. You must arrange for Sotheby's to receive your pre-registration application at least three working days before the sale. Please bear in mind that we are unable to obtain financial references over weekends or public holidays. Sotheby's decision whether to accept any pre-registration application shall be final. If your application is accepted, you will be provided with a special paddle number. If all lots in the catalogue are "Premium Lots", a Special Notice will be included to this effect and this symbol will not be used.

2. BEFORE THE AUCTION

The Catalogue A catalogue prepared by Sotheby's is published for every scheduled live auction and is available prior to the sale date. The catalogue will help familiarize you with property being offered at the designated auction. Catalogues may be purchased at Sotheby's or by subscription in any categories. For information, please call +1 212 606 7000 or visit sothebys.com. Prospective bidders should also consult sothebys.com for the most up to date cataloguing of the property in this catalogue.

Estimates Each lot in the catalogue is given a low and high estimate, indicating to a prospective buyer a range in which the lot might sell at auction. When possible, the estimate is based on previous auction records of comparable pieces. The estimates are determined several months before a sale and are therefore subject to change upon further research of the property, or to reflect market conditions or currency fluctuations. Estimates should not be relied upon as a representation or prediction of actual selling prices.

Provenance In certain circumstances, Sotheby's may print in the catalogue the history of ownership of a work of art if such information contributes to scholarship or is otherwise well known and assists in distinguishing the work of art. However, the identity of the seller or previous owners may not be disclosed for a variety of reasons. For example, such information may be excluded to accommodate a seller's request for confidentiality or because the identity of prior owners is unknown given the age of the work of art.

Specialist Advice Prospective bidders may be interested in specific information not included in the catalogue description of a lot. For additional information, please contact either a Sotheby's specialist in charge of the sale (all of whom are listed in the front of the catalogue), or Sotheby's Client Services Department. You may also request a condition report from the specialist in charge.

The Exhibition An exhibition of the auction property will be held the week prior to the auction on the days listed in the front of the catalogue. There you will have the opportunity to view, inspect and evaluate the property yourself, or with the help of a Sotheby's specialist.

Salesroom Notices Salesroom notices amend the catalogue description of a lot after our catalogue has gone to press. They are posted in the viewing galleries and salesroom or are announced by the auctioneer. Please take note of them.

Registration Sotheby's may require such necessary financial references, guarantees, deposits and/or such other security, in its absolute discretion, as security for your bid. If you are not successful on any lot, Sotheby's will arrange for a refund (subject to any right of set off) of the deposit amount paid by you without interest within 14 working days of the date of the sale. Any exchange losses or fees associated with the refund shall be borne by you. Registration to bid on Premium Lots must be done at least 3 business days prior to the sale.

3. DURING THE AUCTION

The Auction Auctions are open to the public without any admission fee or obligation to bid. The auctioneer introduces the objects for sale — known as “lots” — in numerical order as listed in the catalogue. Unless otherwise noted in the catalogue or by an announcement at the auction, Sotheby’s acts as agent on behalf of the seller and does not permit the seller to bid on his or her own property. It is important for all bidders to know that the auctioneer may open the bidding on any lot by placing a bid on behalf of the seller. The auctioneer may further bid on behalf of the seller, up to the amount of the reserve, by placing responsive or consecutive bids for a lot. The auctioneer will not place consecutive bids on behalf of the seller above the reserve.

Bidding in Person If you would like to bid, you must register for a paddle upon entering the salesroom. The paddle is numbered so as to identify you to the auctioneer. To register, you will need a form of identification such as a driver’s license, a passport or some other type of government issued identification. If you are a first-time bidder, you will also be asked for your address, phone number and signature in order to create your account. If you are bidding for someone else, you will need to provide a letter from that person authorizing you to bid on that person’s behalf. Issuance of a bid paddle is in Sotheby’s sole discretion.

Once the first bid has been placed, the auctioneer asks for higher bids, in increments determined by the auctioneer. To place your bid, simply raise your paddle until the auctioneer acknowledges you. You will know when your bid has been acknowledged; the auctioneer will not mistake a random gesture for a bid.

If you wish to register to bid on a Premium Lot, please see the paragraph above.

All lots sold will be invoiced to the name and address in which the paddle has been registered and cannot be transferred to other names and addresses. Sotheby’s reserves the right to refuse to accept payment from a source other than the buyer of record.

Absentee Bidding If it is not possible for you to attend the auction in person, you may place your bid ahead of time. In the back of every catalogue there is an absentee bid form, which you can use to indicate the item you wish to bid on and the maximum bid you are willing to make. Return the completed absentee bid form to Sotheby’s either by mail or fax. When the lot that you are interested in comes up for sale, a Sotheby’s representative will execute the bid on your behalf, making every effort to purchase the item for as little as possible and never exceeding your limit. This service is free and confidential. For detailed instructions and information, please see the Absentee Bid Form and Guide for Absentee Bidders instructions at the back of this catalogue.

Telephone Bidding In some circumstances, we offer the ability to place bids by telephone live to a Sotheby’s representative on the auction floor. Please contact the Bid Department prior to the sale to make arrangements or to answer any questions you may have. Telephone bids are accepted only at Sotheby’s discretion and at the caller’s risk. Calls may also be recorded at Sotheby’s discretion. By bidding on the telephone, prospective buyers consent thereto.

Online Bidding If you cannot attend the auction, it may be possible to bid online via BIDnow, eBay, Invaluable or other Online Platforms for selected sales. This service is free and confidential. For information about registering to bid via BIDnow, please see www.sothebys.com. For information about registering to bid on eBay, please see www.ebay.com/sothebys. For information about registering to bid on Invaluable, please see www.invaluable.com/invaluable/help.cfm. Bidders utilizing any online platform are subject to the Online Terms as well as the relevant Conditions of Sale. Online bidding may not be available for Premium Lots.

Employee Bidding Sotheby’s employees may bid in a Sotheby’s auction only if the employee does not know the reserve and if the employee fully complies with Sotheby’s internal rules governing employee bidding.

US Economic Sanctions The United States maintains economic and trade sanctions against targeted foreign countries, groups and organizations. There may be restrictions on the import into the United States of certain items originating in sanctioned countries, including Cuba, Iran, North Korea and Sudan. The purchaser’s inability to import any item into the US or any other country as a result of these or other restrictions shall not justify cancellation or rescission of the sale or any delay in payment. Please check with the specialist department if you are uncertain as to whether a lot is subject to these import restrictions, or any other restrictions on importation or exportation.

Hammer Price and the Buyer’s Premium For lots which are sold, the last price for a lot as announced by the auctioneer is the hammer price. A buyer’s premium will be added to the hammer price and is payable by the purchaser as part of the total purchase price. The buyer’s premium will be the amount stated in the Conditions of Sale.

Currency Board As a courtesy to bidders, a currency board is operated in many salesrooms. It displays the lot number and current bid in both U.S. dollars and foreign currencies. Exchange rates are approximations based on recent exchange rate information and should not be relied upon as a precise invoice amount. Sotheby’s assumes no responsibility for any error or omission in foreign or United States currency amounts shown.

Results Successful absentee bidders will be notified after the sale. Absentee bidders will receive a list of sale results if they enclose a stamped self-addressed envelope with their absentee bid form. Printed lists of auction prices are available at our galleries approximately three weeks following each auction and are sent on request to catalogue purchasers and subscribers. Results may also be obtained online at sothebys.com.

International Auctions If you need assistance placing bids, obtaining condition reports or receiving auction results for a Sotheby’s sale outside the United States, please contact our International Client Services Department.

4. AFTER THE AUCTION

Payment If your bid is successful, you can go directly to Post Sale Services to make payment arrangements. Otherwise, your invoice will be mailed to you. The final price is determined by adding the buyer’s premium to the hammer price on a per-lot basis. Sales tax, where applicable, will be charged on the entire amount. Payment is due in full immediately after the sale. However, under certain circumstances, Sotheby’s may, in its sole discretion, offer bidders an extended payment plan. Such a payment plan may provide an economic benefit to the bidder. Credit terms should be requested at least one business day before the sale. However, there is no assurance that an extended payment plan will be offered. Please contact Post Sale Services or the specialist in charge of the sale for information on credit arrangements for a particular lot. Please note that Sotheby’s will not accept payments for purchased lots from any party other than the purchaser, unless otherwise agreed between the purchaser and Sotheby’s prior to the sale.

Payment by Cash It is against Sotheby’s general policy to accept payments in the form of cash or cash equivalents.

Payment by Credit Cards Sotheby’s accepts payment by credit card for Visa, MasterCard, and American Express only. Credit card payments may not exceed \$50,000 per sale. Payment by credit card may be made (a) online at <https://www.sothebys.com/en/invoice-payment.html>, (b) by calling in to Post Sale Services at +1 212 606 7444, or (c) in person at Sotheby’s premises at the address noted in the catalogue.

Payment by Check Sotheby’s accepts (a) personal checks and (b) certified, banker’s draft and cashier’s checks drawn in US Dollars with a face amount of over \$10,000 (made payable to Sotheby’s). While personal and company checks are accepted, property will not be released until such checks have cleared, unless you have a pre-arranged check acceptance agreement. Application for check clearance can be made through the Post Sale Services.

Please note that certified checks, banker’s drafts and cashier’s checks are accepted at Sotheby’s discretion and provided they are issued by a reputable financial institution governed by anti-money laundering laws. Instruments not meeting these requirements will be treated as “cash equivalents” and subject to the constraints noted in the prior paragraph titled “Payment By Cash”.

Payment by Wire Transfer To pay for a purchase by wire transfer, please refer to the payment instructions on the invoice provided by Sotheby’s or contact Post Sale Services to request instructions.

Sales and Use Tax New York sales tax is charged on the hammer price, buyer’s premium and any other applicable charges on any property picked up or delivered in New York State, regardless of the state or country in which the purchaser resides or does business. Purchasers who wish to use their own shipper who is not a considered a “common carrier” by the New York Department of Taxation and Finance will be charged New York sales tax on the entire charge regardless of the destination of the property. Please refer to “Information on Sales and Use Tax Related to Purchases at Auction” in the back of the catalogue.

Collection and Delivery
Post Sale Services
+ 1 212 606 7444
FAX: + 1 212 606 7043
uspostsaleservices@sothebys.com

Once your payment has been received and cleared, property may be released. Unless otherwise agreed by Sotheby’s, all purchases must be removed by the 30th calendar day following a sale.

Shipping Services Sotheby’s offers a comprehensive shipping service to meet all of your requirements. If you received a shipping quotation or have any questions about the services we offer please contact us.

Collecting your Property As a courtesy to purchasers who come to Sotheby’s to collect property, Sotheby’s will assist in the packing of lots, although Sotheby’s may, in the case of fragile articles, choose not to pack or otherwise handle a purchase.

If you are using your own shipper to collect property from Sotheby’s, please provide a letter of authorization and kindly instruct your shipper that they must provide a Bill of Lading prior to collection. Both documents must be sent to Post Sale Services prior to collection.

The Bill of Lading must include: the purchaser’s full name, the full delivery address including the street name and number, city and state or city and country, the sale and lot number.

Sotheby's will contact your shipper within 24 hours of receipt of the Bill of Lading to confirm the date and time that your property can be collected. Property will not be released without this confirmation and your shipper must bring the same Bill of Lading that was faxed to Sotheby's when collecting. All property releases are subject to the receipt of cleared funds.

Please see the Conditions of Sale for further details.

Endangered Species Certain property sold at auction, for example, items made of or incorporating plant or animal materials such as coral, crocodile, ivory, whalebone, tortoiseshell, rhinoceros horn, rosewood, etc., irrespective of age or value, may require a license or certificate prior to exportation and additional licenses or certificates upon importation to another country. Sotheby's suggests that buyers check on their government wildlife import requirements prior to placing a bid. Please note that the ability to obtain an export license or certificate does not ensure the ability to obtain an import license or certificate in another country, and vice versa. It is the purchaser's responsibility to obtain any export or import licenses and/or certificates as well as any other required documentation. In the case of denial of any export or import license or of delay in the obtaining of such licenses, the purchaser is still responsible for making on-time payment of the total purchase price for the lot.

Although licenses can be obtained to export some types of endangered species, other types may not be exported at all, and other types may not be resold in the United States. Upon request, Sotheby's is willing to assist the purchaser in attempting to obtain the appropriate licenses and/or certificates. However, there is no assurance that an export license or certificate can be obtained. Please check with the specialist department or the Shipping Department if you are uncertain as to whether a lot is subject to these export/import license and certificate requirements, or any other restrictions on exportation.

The Art Loss Register As part of Sotheby's efforts to support only the legitimate art market and to combat the illegitimate market in stolen property, Sotheby's has retained the Art Loss Register to check all uniquely identifiable items offered for sale in this catalogue that are estimated at more than the equivalent of US\$1,500 against the Art Loss Register's computerized database of objects reported as stolen or lost. The Art Loss Register is pleased to provide purchasers with a certificate confirming that a search has been made. All inquiries regarding search certificates should be directed to The Art

Loss Register, First Floor, 63-66 Hatten Garden, London EC1N 8LE or by email at artloss@artloss.com. The Art Loss Register does not guarantee the provenance or title of any catalogued item against which they search, and will not be liable for any direct or consequential losses of any nature howsoever arising. This statement and the ALR's service do not affect your rights and obligations under the Conditions of Sale applicable to the sale.

SELLING AT AUCTION

If you have property you wish to sell, Sotheby's team of specialists and client services representatives will assist you through the entire process. Simply contact the appropriate specialist (specialist departments are listed in the back of this catalogue), General Inquiries Department or a Sotheby's regional office representative for suggestions on how best to arrange for evaluation of your property.

Property Evaluation There are three general ways evaluation of property can be conducted:

(1) In our galleries

You may bring your property directly to our galleries where our specialists will give you auction estimates and advice. There is no charge for this service, but we request that you telephone ahead for an appointment. Inspection hours are 9:30 am to 5 pm, Monday through Friday.

(2) By photograph

If your property is not portable, or if you are not able to visit our galleries, you may bring in or send a clear photograph of each item. If you have a large collection, a representative selection of photographs will do. Please be sure to include the dimensions, artist's signature or maker's mark, medium, physical condition and any other relevant information. Our specialists will provide a free preliminary auction estimate subject to a final estimate upon first-hand inspection.

(3) In your home

Evaluations of property can also be made in your home. The fees for such visits are based on the scope and diversity of property, with travel expenses additional. These fees may be rebated if you consign your property for sale at Sotheby's. If there is considerable property in question, we can arrange for an informal "walkthrough."

Once your property has been evaluated, Sotheby's representatives can then help you determine how to proceed should you wish to continue with the auction process. They will provide information regarding sellers' commission rates and other charges, auction venue, shipping and any further services you may require.

SOTHEBY'S SERVICES

Sotheby's also offers a range of other services to our clients beyond buying and selling at auction. These services are summarized below. Further information on any of the services described below can be found at sothebys.com.

Valuations and Appraisals Sotheby's Valuations and Appraisals Services offers advice regarding personal property assets to trusts, estates, and private clients in order to help fiduciaries, executors, advisors, and collectors meet their goals. We provide efficient and confidential advice and assistance for all appraisal and auction services. Sotheby's can prepare appraisals to suit a variety of needs, including estate tax and planning, insurance, charitable contribution and collateral loan. Our appraisals are widely accepted by the Internal Revenue Service, tax and estate planning professionals, and insurance firms. In the event that a sale is considered, we are pleased to provide auction estimates, sales proposals and marketing plans. When sales are underway, the group works closely with the appropriate specialist departments to ensure that clients' needs are met promptly and efficiently.

Financial Services Sotheby's offers a wide range of financial services including advances on consignments, as well as loans secured by art collections not intended for sale.

Museum Services Tailored to meet the unique needs of museums and nonprofits in the marketplace, Museum Services offers personal, professional assistance and advice in areas including appraisals, deaccessions, acquisitions and special events.

Corporate Art Services Devoted to servicing corporations, Sotheby's Corporate Art Services Department can prepare appraisal reports, advise on acquisitions and deaccessions, manage all aspects of consignment, assist in developing arts-management strategies and create events catering to a corporation's needs.

INFORMATION ON SALES AND USE TAX RELATED TO PURCHASES AT AUCTION

To better assist our clients, we have prepared the following information on Sales and Use Tax related to property purchased at auction.

Why Sotheby's Collects Sales Tax

Virtually all State Sales Tax Laws require a corporation to register with the State's Tax Authorities and collect and remit sales tax if the corporation either establishes or maintains physical or economic presence within the state. In the states that impose sales tax, Tax Laws require an auction house, with such presence in the state, to register as a sales tax collector, and remit sales tax collected to the state. New York sales tax is charged on the hammer price, buyer's premium and any other applicable charges on any property picked up or delivered in New York, regardless of the state or country in which the purchaser resides or does business.

Where Sotheby's Collects Sales Tax

Sotheby's is currently registered to collect sales tax in the following states: Alabama, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming. For any property collected or received by the purchaser in New York City, such property is subject to sales tax at the existing New York State and City rate of 8.875%.

Sotheby's Arranged Shipping If the property is delivered into any state in which Sotheby's is registered, Sotheby's is required by law to collect and remit the appropriate sales tax in effect in the state where the property is delivered.

Client Arranged Shipping Property collected from Sotheby's New York premises by a common carrier hired by the purchaser for delivery at an address outside of New York is not subject to New York Sales Tax, but if the property is delivered into any state in which Sotheby's is registered, Sotheby's is required by law to collect and remit the appropriate sales tax in effect in the state where the property is delivered. New York State recognizes shippers such as the United States Postal Service, United Parcel Service, FedEx, or the like as "common carriers". If a purchaser hires a shipper other than a common carrier to pick up property, Sotheby's will collect New York sales tax at a rate of 8.875% regardless of the ultimate destination of the goods. If a purchaser utilizes a freight-forwarder who is registered with the Transportation Security Administration ("TSA") to deliver property outside of the United States, no sales tax would be due on this transaction.

Where Sotheby's is Not Required

to Collect Sales Tax Sotheby's is not required to collect sales tax on property delivered to states other than those listed above. If the property is delivered to a state where Sotheby's is not required to collect sales tax, it is the responsibility of the purchaser to self-assess any sales or use tax and remit it to taxing authorities in that state.

Sotheby's is not required to collect sales tax for property delivered to the purchaser outside of the United States.

Restoration and Other Services

Regardless of where the property is subsequently transported, if any framing or restoration services are performed on the property in New York, it is considered to be a delivery of the property to the purchaser in New York, and Sotheby's will be required to collect the 8.875% New York sales tax.

Certain Exemptions Most states that impose sales taxes allow for specified exemptions to the tax. For example, a registered re-seller such as a registered art dealer may purchase without incurring a tax liability, and Sotheby's is not required to collect sales tax from such re-seller. The art dealer, when re-selling the property, may be required to charge sales tax to its client, or the client may be required to self-assess sales or use tax upon acquiring the property.

Local Tax Advisors As sales tax laws vary from state to state, Sotheby's recommends that clients with questions regarding the application of sales or use taxes to property purchased at auction seek tax advice from their local tax advisors.

IMPORTANT NOTICES

Notice Regarding Condition of All

Watches In the catalogue descriptions of property, significant damage may be mentioned, but all faults and imperfections may not be included. All dimensions in catalogue descriptions are approximate.

Prospective buyers should satisfy themselves by personal inspection as to the condition of each lot. If the prospective buyer is not able to inspect the piece, as a courtesy to our clients, we are pleased to provide an opinion of the condition of the property on request. However, since we are not professional watch restorers, any statement of opinion listed is purely subjective and is not a statement of fact. Condition reports may not specify all mechanical replacements or imperfections to the movement, case, dial, pendulum, or separate base(s). The absence of a condition report or the absence of a reference to damage in the catalogue does not imply that the lot is in good condition, working order or free from restoration or repair.

Watches in water-resistant cases have been opened to examine movements but no warranties are made that the watches are currently water-resistant.

Please note that we do not guarantee the authenticity of any individual component parts, such as wheels, hands, crowns, crystals, screws, bracelets and leather bands, since subsequent repairs and restoration work may have resulted in the replacement of original parts.

All lots are sold as is in accordance with Condition 3 of the Conditions of Business for Buyers, and we make no representation or warranty as to the condition of any lot sold.

Please be advised that bands made of materials derived from endangered or otherwise protected species (i.e. alligator and crocodile) are not sold with the watches and are for display purposes only. We reserve the right to remove these bands prior to shipping.

Furthermore, in reference to bands, we do not guarantee the material of manufacture. Please be advised that the buyer will be responsible for complying with any applicable export and import matters, particularly in relation to endangered species and the United States Department of Fish and Wildlife Services.

Certificates of Authenticity

Various manufacturers may not issue certificates of authenticity upon request. Except as specifically noted in the catalogue, Sotheby's will not be required to furnish the purchaser with a certificate of authenticity from the manufacturer at any time. Unless the requirements for a rescission of the sale under the Terms of Guarantee are satisfied, the failure of a manufacturer to issue a certificate will not constitute grounds to rescind the sale.

Important Notice Regarding Condition

In the catalogue descriptions of property, significant damage may be mentioned, but all faults and imperfections may not be included. All dimensions in catalogue descriptions are approximate.

Prospective buyers should satisfy themselves by personal inspection as to the condition of each lot. If the prospective buyer is not able to inspect the piece, as a courtesy to our clients, we are pleased to provide an opinion of the condition of the property on request. However, since we are not professional watch restorers, any statement of opinion listed is purely subjective and is not a statement of fact. Condition reports may not specify all mechanical replacements or imperfections *to the movement, case, dial, pendulum, separate base(s) or dome* or any other replacements or additions to the lot. The absence of a condition report or the absence of a reference to damage in the catalogue does not imply that the lot is in good condition, working order or free from restoration or repair.

Watches in water-resistant cases have been opened to examine movements but no warranties are made that the watches are currently water-resistant.

Please note that we do not guarantee the authenticity of any individual component parts, such as wheels, hands, crowns, crystals, screws, bracelets and leather bands, since subsequent repairs and restoration work may have resulted in the replacement of original parts.

In addition, certain manufacturers will not service or repair pieces if all the component parts are not original to the piece. The refusal of a manufacturer to service or repair a piece on this basis does not constitute grounds to rescind the sale under the Terms of Guarantee.

Furthermore, in reference to bands, we do not guarantee the material of manufacture. Please be advised that the purchaser will be responsible for complying with any applicable export and import matters, particularly in relation to endangered species and the United States Department of Fish and Wildlife Services.

Notice Regarding Endangered Species

Property containing certain endangered species will require a CITES license upon export from the U.S. and may require an additional license upon import into another country. There is no guarantee that such licenses will be granted. In the case of denial of any license or of delay in obtaining such licenses, the purchaser remains responsible for making on-time payment for the total purchase price.

Property Collection

As of March 19, 2018, property that is sold, has bought in, or is to be returned to the consignor will be moved to our temporary offsite location at Crozier Fine Arts at One Star Ledger Plaza, 69 Court Street, Newark, NJ (SLP Warehouse). Certain items of property, including jewelry, watches, silver, works on panel and items valued \$10 million or more will remain at 1334 York Avenue. All other property will be moved to our temporary offsite location on the day the applicable sale concludes and is available for pickup after two business days. Invoices and statements will indicate your property's location.

Property Payment

All property must be paid in full before collection or release from any Sotheby's location. Payment must be made through Sotheby's New York Post Sale Services by way of our acceptable forms of payment methods mentioned on your invoice. To arrange for payment, please contact Post Sale Services at +1 212 606 7444 or USPostSaleServices@sothebys.com. Payment will not be accepted at the offsite facility. Dealers and resale clients should fill out the appropriate forms where applicable or contact Post Sale Services with any questions.

Loss and Liability Unless otherwise agreed by Sotheby's, all sold property must be removed from any of our premises (including the SLP Warehouse) by the buyer at their expense no later than 30 calendar days following its sale. Buyers are reminded that Sotheby's liability for loss or damage to sold property shall cease no later than 30 calendar days after the date of the auction.

Collection & Shipping

The SLP Warehouse requires 24 hours advanced notice for collection of property. Please arrange this through our Post Sale Services team at +1 212 606 7444 or USPostSaleServices@sothebys.com.

For in-person collections at our offsite location, please alert Post Sale Services of your proposed collection date, ensure that all outstanding invoices have been paid for, and that you or your agent have the appropriate photo identification upon arrival.

If you are using your own shipper to collect property, please provide a letter of authorization and instruct your shipper to email their bill of lading to bills@sothebys.com and ensure the correct collection location is specified.

Sotheby's can arrange for delivery of your property through one of our contracted vendors or can coordinate pick up at our offsite location with you or your shipper directly. Please contact Post Sale Services at +1 212 606 7444 or USPostSaleServices@sothebys.com to start your collection process.

Guide for Absentee and Telephone Bidders

If you are unable to attend an auction in person, you may give Sotheby's Bid Department instructions to bid on your behalf by completing the form overleaf. This service is confidential and available at no additional charge.

General

This service is free and confidential.

Please record accurately the lot numbers, descriptions and the top hammer price you are willing to pay for each lot.

We will try to purchase the lot(s) of your choice for the lowest price possible and never for more than the maximum bid amount you indicate.

"Buy" or unlimited bids will not be accepted.

Alternative bids can be placed by using the word "OR" between lot numbers. Then if your bid on an early lot is successful, we will not continue to bid on other lots for you. Or, if your early bids are unsuccessful, we will continue to execute bids for alternative lots until a bid is successful.

Bids must be placed in the same order as in the catalogue.

The form should be used for one sale only – please indicate the sale number, title and date on the form.

Please place your bids as early as possible, as in the event of identical bids the earliest received will take precedence. Wherever possible bids should be submitted at least twenty-four hours before the auction.

Where appropriate, your bids will be rounded down to the nearest amount consistent with the auctioneer's bidding increments.

Absentee bids, when placed by telephone, are accepted only at the caller's risk and must be confirmed by letter or fax to the Bid Department on +1 212 606 7016.

Please note that the execution of written bids is offered as an additional service for no extra charge at the bidder's risk and is undertaken subject to Sotheby's other commitments at the time of the auction; Sotheby's therefore cannot accept liability for error or failure to place such bids, whether through negligence or otherwise.

Successful bidders will receive an invoice detailing their purchases and giving instructions for payment and clearance of goods. Unsuccessful bidders will be advised.

Please note Sotheby's reserves the right to refuse to accept payment from a source other than the buyer of record.

All bids are subject to the conditions of sale and terms of guarantee applicable to the sale printed in the sale catalogue. Buyer's premium in the amount stated in paragraph 3 of the Conditions of Sale in the back of the sale catalogue will be added to the hammer price as part of the total purchase price, plus any applicable sales tax.

In the event that you are successful, payment is due immediately after the sale unless otherwise agreed in advance. Payment may be made by bank transfer, credit card (which may be subject to a convenience fee), check or cash (up to US\$10,000). You will be sent full details on how to pay with your invoice. It is against Sotheby's general policy to accept single or multiple related payments in the form of cash or cash equivalents in excess of US\$10,000.

It is Sotheby's policy to request any new clients or purchasers preferring to make a cash payment to provide: proof of identity (by providing some form of government issued identification containing a photograph, such as a passport, identity card or driver's license) and confirmation of permanent address.

We reserve the right to seek identification of the source of funds received.

Data Protection

Sotheby's will use information provided by its clients (or which Sotheby's otherwise obtains from eBay or other sources relating to its clients) for the provision of auction and other art-related services, loan services, client administration, marketing and otherwise to manage and operate its business, or as required by law, in accordance with Sotheby's Privacy Policy. This will include information such as the client's name and contact details, proof of identity, financial information, records of the client's transactions, and preferences. Some gathering of information about Sotheby's clients will take place using technical means to identify their preferences in order to provide a higher quality of service to them. Sotheby's may also disclose the client information to other Sotheby's Companies and/or third parties acting on their behalf to provide services for these purposes.

Sometimes, Sotheby's may also disclose this information to carefully selected third parties for their own marketing purposes. If you do not wish your details to be used for this purpose, please email enquiries@sothebys.com.

If the client provides Sotheby's with information that is defined by European data protection laws as "sensitive", the client agrees that it may be used for the purposes set out above.

In the course of these disclosures, personal data collected in the European Economic Area may be disclosed to countries outside the European Economic Area. Although such countries may not have legislation that protects a client's personal information, Sotheby's shall take great care to keep such information secure and in accordance with European data protection principles. By agreeing to these Conditions of Business, the client is agreeing to such disclosure.

Please be aware that Sotheby's may film auctions or other activities on Sotheby's premises and that such recordings may be transmitted over the Internet via Sotheby's website, the eBay website and other Online Platforms. Telephone bids may be recorded.

Under European data protection laws, a client may object, by request and free of charge, to the processing of their information for certain purposes, including direct marketing, and may access and rectify personal data relating to them and may obtain more information about Sotheby's data protection policies by writing to Sotheby's, 34-35 New Bond Street, London W1A 2AA, or 1334 York Avenue, New York, NY 10021, Attn: Compliance, or emailing enquiries@sothebys.com. Sotheby's use of information collected about eBay users may differ and is governed by the terms of the eBay Privacy Policy and Sotheby's on eBay Live Auction Platform Privacy Policy, which can be found on the Sotheby's on eBay Live Auction Website.

Important

Please note that the execution of written and telephone bids is offered as an additional service for no extra charge, and at the bidder's risk. It is undertaken subject to Sotheby's other commitments at the time of the auction. Sotheby's therefore cannot accept liability for failure to place such bids, whether through negligence or otherwise. All bids will be executed and are accepted subject to the "Conditions of Sale" and "Terms of Guarantee" printed in the catalogue for the sale. Please note that a buyer's premium in the amount stated in paragraph 3 of the "Conditions of Sale" in the back of the sale catalogue will be added to the hammer price as part of the total purchase price, plus any applicable sales tax.

New Clients

Please note that we may contact you to request a bank reference. In addition Sotheby's requires a copy of government issued photo ID in order to generate a new account. If you have opened a new account with Sotheby's since 1 December, 2002, and have not already done so, you will be asked to present appropriate documentation confirming your identity before your lots or sale proceeds can be released to you.

For Written/Fixed Bids

- Bids will be executed for the lowest price as is permitted by other bids or reserves.
- "Buy" or unlimited bids will not be accepted and we do not accept "plus one" bids. Please place bids in the same order as in the catalogue.
- Always indicate a "top limit" — the amount up to which you would bid if you were attending the auction yourself.
- Alternative bids can be placed by using the word "or" between lot numbers.
- Where appropriate your written bids will be rounded down to the nearest amount consistent with the auctioneer's bidding increments.

For Telephone Bids

Please clearly specify the telephone number on which you may be reached at the time of the sale, including the country code. We will call you from the saleroom shortly before your lot is offered.
