

FP  
COLLECTION

## EDITO

*The AP brand, founded in Brussels 2015, brought a new top-end exclusive art/design concept in the luxury market.*

*APcollection started with a love story between A(lexis) & P(auline). Their long distance relationship pushed them to send to each other all types of teddy bears to fill in the lack of cuddles & affection. Once they were reunited, they decided to create their first creation. This was the beginning of a beautiful story.*

*Now, the AP creations have been spreading around the world in some of the most prestigious locations.*

*Each creation is handmade in Belgium with the most care.*

*"We are giving each object its own emotion, name and design meaning that each piece will be unique. Passion, comfort, emotion, uniqueness, creativity & quality are some of the values that we live by at APcollection. We strive to exceed all our clients expectations creating the unexpected."*

*AP products give you the opportunity to stand out from the crowd, for you to be unique and lean back in a sphere of comfort and retrieve from everyday stress.*

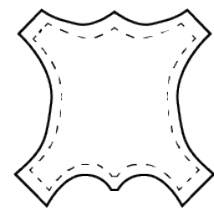

# ECOLOGICAL AND CHARITATIVE PRODUCTION

*The soft toys are hand made in various parts of the world. Each has been specially adapted and reinforced for our artistic work. The stuffing is mainly made from recycled plastic bottle waste. Our supplier allow education to unfortunate people by paying their school fees.. How? by picking up the plastic garbage and bringing it to the factory. This process enables them, at the same time, to be environmentally conscious.*

## THE FUR

*We only use by-product meat furs, meaning that all furs are recoveries of animals consumed only for meat reasons and not from intensive breeding.*

## THE DESIGN

*The bases have been specially designed by AP Collection, made in Belgium. Each creation is handmade in Belgium with our high end craftsmanship. All are limited editions that come with a certificate of authenticity.*

## BE UNIQUE

*We offer our clients the opportunity to customize their own chair with an estimated 3 months production time.*
