

JEDEC Clips (5715, 5829, 5781, 5782, 5783)

- Patented Locking Feature Ensures Positive Electrical and Mechanical Connection
- Clip Locks Onto the IC Body to Avoid Lead Damage
- Fits Either PQFP or CQFP With Included Adaptor
- Several Types of Customer Interfaces Available

5715

196 Pin SMT Clip to allow testing of QFP (ceramic and plastic)

5829

5715 with flying leads to easily connect SMT clip to logic analyzer

5781

Using 5715 base, allows user to interface PC board to locking clip either with connectors or thru-hole soldering

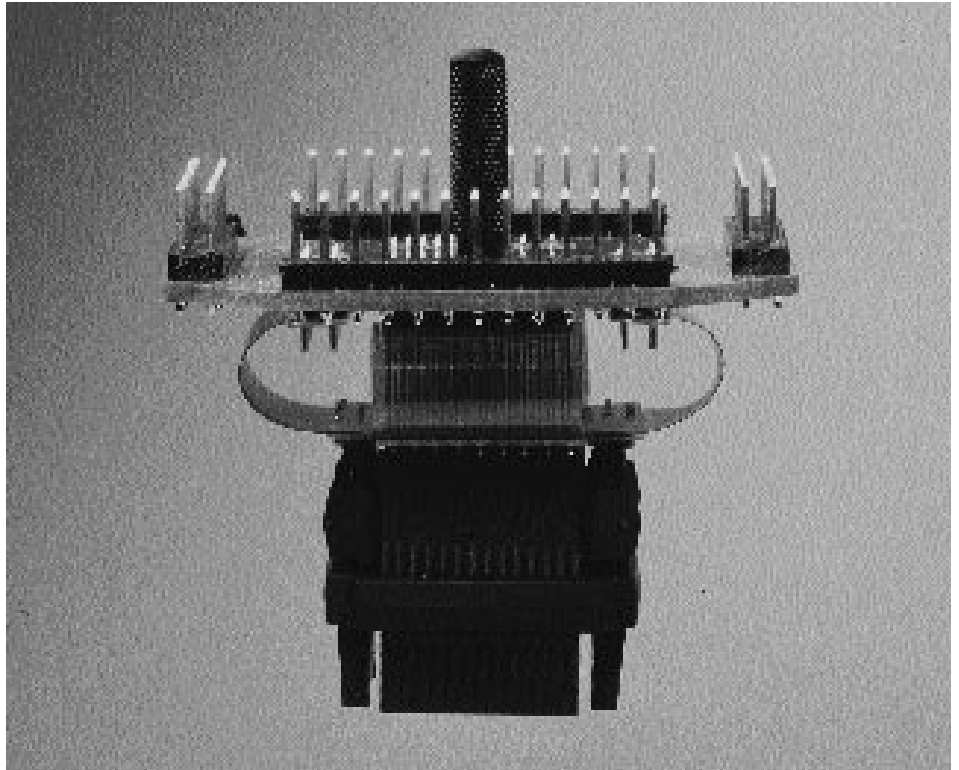

5782

Using 5715 base, allows user to attach high density (0.050") IDC cables or boards with high density sockets

5783

Same as 5782 except allows interface of 0.100" connectors

Also using 5781 and PGA adapter board a unit can be created to provide customer requirements to allow PGA interface to interconnect into 196 SMT device.

PROCESSORS SUPPORTED:
i960® Processor Family
