

# Intel Indeo® Audio Software

Intel Indeo® audio software is Intel's new audio-compression tool. It lets you compress both music and voice audio as much as 8:1 for the Internet. Bundled with the Indeo video 5.0 Progressive Download Publisher tool, Indeo audio software works with the Progressive Download Publisher tool to create progressive video/audio clips for exciting multimedia web sites.

## ***Audio options in the Indeo® video 5.0 Progressive Download Publisher tool***

To use Indeo audio software, select Audio Compression from the Options menu in the Progressive Download Publisher tool. Then choose compression settings ranging from 8 to 44 KHz in stereo or mono for your audio track. The Progressive Download Publisher tool calculates and displays your audio output data rate based on your compression settings. Finally, save your file, and it is ready to be included on a web page and viewed with Internet Explorer\* 3.0-4.0 or Netscape Navigator\* 3.0 and above.

SYSTEM RECOMMENDATIONS		
COMPONENT	MINIMUM	RECOMMENDED
