Description

M/A-COM's MAPDCC0018 is an IC-based monolithic power divider in a low cost SOW-16 lead free plastic package. This 6-way power divider is ideally suited for applications where small size, low profile and low cost, without sacrificing performance, are required. Typical applications include base stations, portables, and PCMCIA cards for wireless standards such as DCS-1800, PCN, PCS, DECT, and PHS. Available in Tape and Reel.

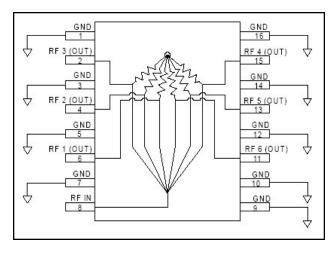

The MAPDCC0018 is fabricated using a passiveintegrated circuit process. The process features fullchip passivation for increased performance and reliability.
