Single Output DC/DC Converter

DESCRIPTIONS

The 1000XFR series are low-profile dc-dc converters that operate over input voltage ranges of 18 - 36 VDC and 36 - 75 VDC and provide precisely regulated output voltages of 2.5V, 3.3V, 5V and 12V.

The -40°C to +60°C operating temperature range makes it ideal for data communication equipments, mobile battery driven equipment, distributed power systems, telecommunication equipment, mixed analog/digital subsystems, process/machine control equipment, computer peripheral systems and industrial robot systems.
