## Dual Output DC/DC Converter

### DESCRIPTIONS

The 600H series 6 watts high density DC/DC converters offer a wide variety of input voltages in 5, 12, 18, 24, 28 and 48 VDC with high performance output characteristics. The low profile modular case (2.0" X 2.0" X 0.4") makes the 600H series attractive for printed circuit board mounting applications for I/O computer subsystems, instruments, telecommunication equipment, medical and analog networks where low noise output and excellent line and load regulation is required.
