

IP117MAHVE IP117MHVE

IP117MAE IP117ME

0.5 AMP **POSITIVE ADJUSTABLE VOLTAGE REGULATOR** IN CERAMIC SURFACE MOUNT PACKAGE

FEATURES

- OUTPUT VOLTAGE RANGE ADJUSTABLE: 1.25 TO 40V FOR STANDARD VERSION 1.25 TO 60V FOR -HV VERSION
- 1% OUTPUT VOLTAGE TOLERANCE (-A VERSIONS)
- 0.3% LOAD REGULATION
- 0.01%/V LINE REGULATION
- COMPLETE SERIES OF PROTECTIONS:
 - CURRENT LIMITING
 - THERMAL SHUTDOWN
 - SOA CONTROL

Pins 4,5 Adjust Pins $6,7,8,9,10,11,12,13 - V_{IN}$ Pins 15,16,17,18,1,2 - VOUT

DESCRIPTION

The IP117M Series are three terminal positive adjustable voltage regulators capable of supplying in excess of 0.5A over a 1.25V to 60V output range. These regulators are exceptionally easy to use and require only two external resistors to set the output voltage. In addition to improved line and load regulation, a major feature of the "A" series is the initial output voltage tolerance, which is guaranteed to be less than 1%.

Over full operating conditions, including load, line, and power dissipation, the reference voltage is guaranteed not to vary more than 2%. These devices exhibit current limit, thermal overload protection, and improved power device safe operating area protection, making them essentially indestructible.

ABSOLUTE MAXIMUM RATINGS (T_{case} = 25°C unless otherwise stated)

$\overline{V_{I-O}}$	Input - Output Differential Voltage	Standard	40V			
		HV Series	60V			
P_{D}	Power Dissipation		Internally limited			
T_J	Operating Junction Temperature Range		−55 to 150°C			
T_{STG}	Storage Temperature		−65 to 150°C

¹⁾ Regulation is measured at constant junction temperature, using pulse testing at a low duty cycle. Changes in output voltage due to heating effects are covered under thermal regulation specifications.
