#### DESCRIPTION

The 5123 is a low profile single ended shear beam type load cell. The 5123 is nickel plated tool steel.

These products are suitable for small and medium platform scales, overhead track scales, hopper scales and process weighing applications.

Reliable sealing is ensured by the proprietary TRANSEAL potting compound and additional mechanical protection of the strain gage area.

Ease of installation is made possible through the use of a partially threaded hole to accept levelling feet, load buttons or loading cables.

#### APPLICATIONS

- Floor scales
- Tank weighing
- Bin and hopper weighing
