Vishay Sfernice

Long Life Potentiometer - 2 Million Cycles Heavy Duty - Cermet Fully Sealed

FEATURES

- 2 million cycles
- High power rating (3 W at 70 °C)
- Low temperature coefficient (± 150 ppm/°C typical)
- Custom designs on request
- Compliant to RoHS directive 2002/95/EC

Long Life Potentiometer - 2 Million Cycles Heavy Duty - Cermet Fully Sealed

ENVIRONMENTAL SPECIFICATIONS						
Temperature Range	- 55 °C to 125 °C					
Climatic Category	55/125/56					
Sealing	Fully sealed - Container IP67					

OPTIONS							
Special Feature Command Shaft	Length is measured from the mounting surface to the free end of the shaft. The screwdriver slot is aligned with the wiper within \pm 10°. Special shafts are available, in accordance to drawings supplied by customers. We recommend that customers should not machine tool shafts, in order to avoid damage. Bending or torsion of terminals should also be avoided.						
Panel Sealing	The panel sealing device consists of a ring located in a groove on the potentiometer face. Sealing is obtained by tightening the ring against the panel when mounting the potentiometer.						
Locating Peg	Location is obtained by fitting a special washer on the mounting face of the potentiometer.						

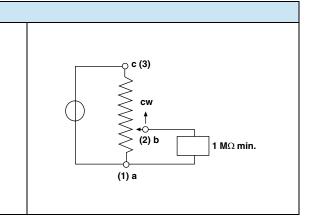

MARKING

- VISHAY trademark
- Part number (including model, ohmic value code, tolerance code)
- Manufacturing date code
- Marking of terminals 3, and a, b, c

APPLICATION NOTE

The potentiometer shall be used in voltage divider with an impedance load at least 100 times higher than the total potentiometer nominal resistance value.

Advised load impedance: 1 M Ω min. for resistance range of 1k Ω to 50 k Ω

Long Life Potentiometer - 2 Million Cycles Heavy Duty - Cermet Fully Sealed
