

Fiber Optic Test Solutions

Fiber Optic Test Kit and Laser Source

Features

Fiber Optic Test Kit Features

- Includes both optical power meter and optical source
- Measure optic power in dBm or μ W
- Measures optical power loss in dB
- Optical power meter measures 850 nm, 1300/1310 nm, and 1550 nm light sources
- Optical power source generates both 850 nm and 1300 nm wavelengths
- Works with the DSP Series Cable Testers and the OneTouch Network Assistant
- Lightweight, heavy-duty design for rugged field use

Laser Source Features

- Optical power source generates both 1310 nm and 1550 nm wavelengths
- A companion source to the DSP-FOM Fiber Optic Meter
- Works with the DSP Series Cable Testers and the OneTouch Network Assistant
- Lightweight, heavy-duty design for rugged field use

The DSP-FTK Fiber Test Kit

Measuring optic power loss in fiber optic cables can detect bad connections, bad splices, and mismatched fiber types.

- The DSP-FTK Fiber Test Kit includes everything you need to verify the performance of multimode and singlemode fiber optic cable, including:
- **DSP-FOM:** An optical power meter that can measure optical power from 850 nm, 1300/1310 nm, and 1550 nm light source
 - **FOS-850/1300:** An optical power source that generates both 850 nm and 1330 nm wavelengths
 - **Hard carrying case** which holds both the DSP-FOM Fiber Optic Meter, FOS-850/1300 multimode Source and companion LS-1310/1550 Laser Source

LS-1310/1550 Laser Source

The LS-1310/1550 is a companion laser source for the DSP-FOM Fiber Optic Meter. The LS-1310/1550 is an optical power source that generates both 1310 nm and 1550 nm wavelengths.

Add optical power loss measurement capability:

To Fluke DSP Series Cable Testers
The power meter works in tandem with either the DSP-100 CableMeter or DSP-2000 CableAnalyzer connected via an RJ-45 patch cable. Select the wavelength using the four-position slide switch and view measured wavelength, loss, loss limit, test direction, and reference levels on the easy-to-read DSP Series display. DSP Series cable testers can store these results under a unique user-defined label to be downloaded to a PC or directly to a printer.

To the Fluke OneTouch Network Assistant

The power meter works in tandem with the OneTouch Network Assistant connected via an RJ-45 patch cable. Select the wavelength using the slide switch and view the measured wavelength, loss limit, test direction, and reference levels on the easy-to-read OneTouch display.

Specifications

DSP-FOM Optical Power Meter

- Calibrated wavelengths:** 850 nm, 1300 nm, and 1550 nm
- Dynamic range:** +3 to -50 dBm
- Measurement accuracy:** ± 0.25 dB at -10.0 dBm and 25°C
- Display resolution:** 0.01 dB (0.001 μ W)
- Detector type:** Germanium
- Optical adapter:** ST
- Size:** 11.4 x 6.4 x 3.8 cm (4.5 x 2.5 x 1.5 in)
- Weight:** 142g (5.0 oz)
- Warranty:** 1 year

FOS-850/1300 Optical Source

- Transmit wavelengths:** 850 nm and 1300 nm
- Power output:** -20 dBm
- Source type:** LED
- Optical adapter:** ST
- Power:** 9 volt alkaline battery
- Battery life:** 24 hours typical
- Size:** 11.4 x 6.4 x 3.8 cm (4.5 x 2.5 x 1.5 in)
- Weight:** 142g (5.0 oz)
- Warranty:** 1 year (extended warranty available)

LS-1310/1550 Laser Source

- Transmit wavelengths:** 1310 nm and 1550 nm
- Power output:** -10 dBm
- Emitter type:** Laser
- Laser Classification:** Class 1
- Safety:** Complies with ANSI/ISA S82.01-1994, CSA C22.2 No. 1010.1-92, EN61010.1: 1993
- Optical adapter:** ST
- Power:** 9 volt alkaline battery
- Battery life:** 16 hours typical
- Indicators:** Source Active LED (power on), Low Battery LED
- Size:** 17.4 x 7.6 x 3.8 cm (6.8 x 3 x 1.5 in)
- Weight:** 266g (9.4 oz)
- Warranty:** 1 year (extended warranty available)

Accessories and Ordering Information

- DSP-FTK* Fiber Test Kit**
Includes: DSP-FOM Optical Power Meter, FOS-850/1300 Combination Source, Two ST-ST multimode patch cords, ST-ST multimode fiber optic adapter, hard carrying case
- DSP-FOM* Fiber Optic Power Meter**
Includes: Optical Power Meter, Two ST-ST multimode patch cords, ST-ST multimode fiber optic adapter, hard carrying case
- LS-1310/1550* Laser Source**
Includes: Laser Source, Two ST-ST singlemode patch cords, ST-ST singlemode fiber optic adapter, hard carrying case

- | | |
|----------------------|---|
| FOS-850/1300* | Combination 850 nm/1300 nm Source |
| FOC-ST/ST | ST-ST multimode patch cord |
| FOC-ST/FC | ST to FC multimode patch cord |
| FOC-ST/SC | ST to SC multimode patch cord |
| FOC-ST/SMA | ST to SMA multimode patch cord |
| FOA-ST/ST | ST to ST multimode fiber optic adapter |
| NF100SM | ST to ST singlemode patch cord |
| NF110SM | ST to SC singlemode patch cord |

- | | |
|----------------|--|
| NF120SM | ST to FC singlemode patch cord |
| NF300SM | ST to ST singlemode fiber optic adapter |
