Somewhere Beyond Amazing...

Now you can own the world-class AR8200 Mark III portable receiver with unparalleled frequency coverage from 500 KHz to 3 GHz. An even better Temperature Compensated Crystal Oscillator for solid frequency stability. Improved RF circuits combine greater sensitivity, resistance to intermod products and enhanced Signal to Noise ratios. The Mark III features better audio frequency response and includes NiMH AA cells that can be charged while operating the receiver. When you're ready for the best, you're ready for AOR – **The Authority on Radio.™**

AOR[™]
Authority On Radio

The AOR AR8200 Mark III sets new standards for wide-range receivers.

Prepare to be astounded at the versatility and broad range of features found in the AR8200 Mark III. Unparalleled frequency coverage, superb sensitivity, precision stability from the TCXO, enhanced resistance to intermod, Ni-MH battery power and more!

Large Display changes configurations for the mode of operation you select. (see illustrations). Each memory channel can also display up to 12 characters of text.

Data Port can be used for computer control, memory configuration and transfer, cloning or tape recording output. (Optional cables required to utilize these features.)

Flexible Memory Allocation allows you to add more memory channels to a bank and decrease the number dedicated to another, making memory management more efficient. You can also edit, move, swap and delete memories.

Programmable Scan and Search Modes allow you to configure multiple operating profiles for general monitoring or a specific area of interest.

MW Bar Antenna captures AM broadcast stations. Antenna has negative feedback and is detachable.

Telescoping Main Antenna allows operator to configure length and angle of antenna (up to 90 degrees from vertical) for optimal reception. Far superior to "duddy" antennas. BNC antenna port allows for easy connection to external or mobile antenna systems.

Tuning Steps can be programmed in multiples of 50 Hz.

Detailed Operating Manual helps you learn the many capabilities of the AR8200 Mark III in a clear, concise fashion.

Many "Extras" included with the AR8200 Mark III: Ni-MH batteries, wall charger, auto (cigar lighter) power cable, telescoping antenna, MW bar antenna, belt clip, carry strap and manual.
