

ROBINAIR

16440-Cordless Rechargeable 30-LED Light

NEW

- Cordless: Allows freedom of movement and ability to work anywhere anytime without worrying about tangled cords. Eliminate the possibility of electrical shock from worn and frayed power cords!
- Rechargeable: A one-hour recharge time provides up to 8 hours of continuous operation. Nickel Metal Hydride battery allows re-charging at any time.
- 30 LED: 30 Super-bright, long-life LEDs provide forward directed pure white light. LEDs produce very little heat, therefore eliminating the possibility of burns to the technician or property during use.
- Durable: Polycarbonate tube protects the entire light. Strong enough to withstand being driven over by a vehicle!
- Ergonomic: Textured and flared rubber handle provides a non-slip grip.
- Compact Size: Slim design (1-7/8") diameter allows access into tight areas.
- Swivel Friction Hook: Swivel hook design allows the light to be positioned in any direction.
- Quick Charger: Includes LED charge indicator and switches to trickle charge automatically when the batteries fully charged.
- International versions: 220V, 50/60Hz - European, Australian and UK version.
