Subj:    Release 12.2 of the Monitor Pascal Devlopment System
------------------------------------------------------------
```

        This release fixes a performance problem in Releases
12.0 and 12.1.   There are two disks available:

        1) A complete boot disk of Release 12.2.

        2) A disk with only the files that have changed
           since Release 12.1.

Changed Files:

        The files which have changed for Release 12.2
are as follows:

    Boot Files

    LOADER.OBJ   64 26-Apr-83   169   512   Datafile
    MONITOR.OBJ   38 26-Apr-83   237   512   Datafile
    MONITOR.SYMBOLS   12 26-Apr-83   275   512   Datafile

Bugs Fixed:
----

    1) There was a performance problem in the implementation
        of NEW,MARK and RELEASE which caused a significant :
        degradation in compiler performance. This problem
        has been fixed.
