

BCA94035/45 Solar Charging Pack

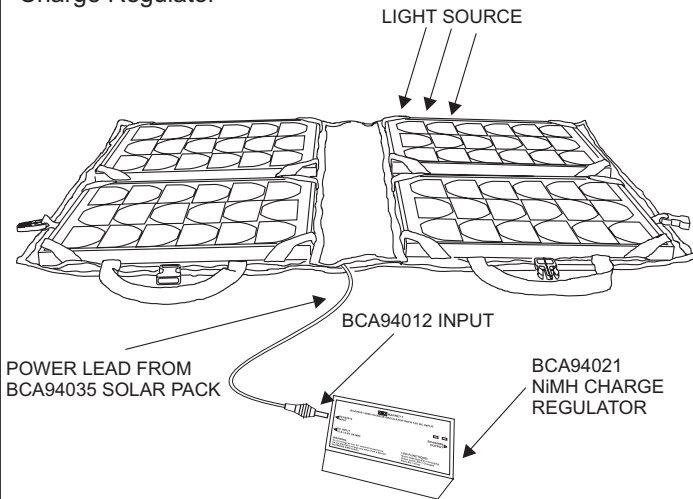

1. To deploy the BCA94035 solar panel unfasten the clips at the side and the top of solar panel package while it is laying on a relatively flat, level surface.

2. Now the panel can be folded out twice to reveal the solar panels and the power lead.

3. Direct the solar panel face towards the available light source and connect to BCA94012 INPUT on BCA94021 Charge Regulator

WARNING / ELECTRICAL HAZARD

This module produces electricity when exposed to sunlight. Cover module before contacting terminals
