

Airport Noise Seminar

We would like to invite you to take part in a 2-day seminar on Airport Noise Monitoring in Taipei, Taiwan on the 14 – 15th August 2002.

Our aim is to give you an idea of the wide range of possibilities offered by an Airport Noise Monitoring System.

See, for example, how the Flight Tracking Software enables you to track down noise violators, process complaints from neighbours, perform noise predictions, and much more. You will be one of approximately 20 people from all over Asia, so there will be plenty of time to discuss your concerns regarding airport noise with colleagues.

Some of the topics covered during the 2-day seminar are:

- Demo of the Noise Monitoring System running at CAA Noise Contour Office, Taipei Airport
- Noise Monitoring
- Flight Tracking
- Noise Prediction Model (INM)
- New Features of the Airport Noise Monitoring System
- Noise Monitoring Terminals and Microphones
- Reporting Module
- Complaints Handling

The Airport Noise Seminar is free, and we will provide lodging, dinner and a social evening for you. Your travel expenses, however, are not included.

To sign up, please contact Ms. Munch via e-mail: pmunch@bksv.com or Mr. Chen: yhchen@bksv.com.tw.
(+886 22 713 9303 ext. 66)

We look forward to seeing you in Taipei.

Best regards,

Lars Winberg
