- 1. Enemy strengthening bridgehead southwest of Taegu--UN forces in the south are continuing their advance toward Chinju against lessening opposition, but other UN forces in the central sector are confronted with growing enemy strength in the bridgehead southwest of Taegu. Bitter fighting is taking place in the vicinity of Pohang and the nearby fighter airfield, with reinforced UN troops under strong enemy pressure.

UN B-29's, in the northernmost raid to date, dropped 550 tons of bombs on the important seaport and rail center of Najin-Dong, approximately 100 miles southwest of Vladivostok. UN air and naval units again attacked enemy lines of communication and provided close support for UN ground troops.
