

ScanPlus 6 LF 942

**BASIC MODEL: 42" WIDE, 1200 DPI, COLOR SCANNER, SCANS 1.5 IPS IN INDEXED COLOR AND 12.0 IPS IN MONOCHROME
PLUS MODEL: 42" WIDE, 9600 DPI, COLOR SCANNER, SCANS 3.0 IPS IN COLOR AND 12.0 IPS IN MONOCHROME**

FEATURES:

- 42" Wide Scanning
- Very fast color and monochrome scanning
- 16-bit graytone capture for perfect reproduction of gray shades
- 48-bit color capture for photo-realistic vivid color
- One Touch Scan buttons for scan, copy and scan to e-mail
- Replaceable parts bring down service costs
- Scans Thick Media—up to 0.6"
- Automatic Thick Media Adjustment Control (ATAC)
- Advanced image enhancements includes sharpening, softening, blur, 2D-adaptive, ADL+ copy and more
- All-Wheel-Drive precision tracking system
- Built-in precision color system
- Calibrates to both sRGB and NTSC color spaces
- 3C Auto-Maintenance system
- Advanced Power Management system
- Supports FireWire Plug'n'Play and USB 2.0 interfaces
- Scan to PDF format option
- Scan to network, also across the Internet

SCANNER APPLICATIONS

The ScanPlus 6 LF942 wide format color scanner incorporates the latest and best in imaging technology for high-quality full color scanning and copying of the largest formats. The scanner's 42" imaging area handles large color posters, architectural sketches, detailed maps, drawings and fine art at very high speeds. This scanner offers unlimited possibilities for professional imaging services, copy service providers, POP/exhibit/display companies, graphic professionals, mapping, architect and engineer offices.

HIGH SCANNING SPEEDS

The ScanPlus 6 LF942 base model scanner can scan a typical E-Size monochrome original at 12.0" per second at 400 dpi turbo and a typical E-Size color original at 1.5" per second at 400 dpi turbo. The ScanPlus 6 LF942 Plus model scanner can scan a typical E-Size monochrome original at 12.0" per second at 400 dpi turbo and a typical E-Size color original at 3.0" per second at 400 dpi turbo.

PRECISION COLOR

A new wide format scanner comes calibrated from the factory, but as time goes by, components and lamps will change the character and affect color output. The unique Precision Color system lets you maintain perfect color results by harmonizing current scanning factors. You can calibrate in the field at any time, so you are always ensured stable and predictable color output.

IMAGE ENHANCEMENT POWER

The ScanPlus 6 LF942 contains advanced technology for color and monochrome enhancement. The B/W adaptive thresholding works simultaneously on foreground, background, edges and other individual aspects of the original so you produce clean, crisp scans even from poor quality drawings. All processing is embedded in the hardware enabling you to perform powerful image enhancement without overhead and at speeds incomparable to standard software processing.

COPYING MADE EASY

Connect the ScanPlus 6 LF942 scanner with a large-format printer and you get the perfect large format color and monochrome digital copier. With the scanner's high precision of details and colors, users can enlarge their creations to full display sizes without losing quality. Use JETimage Copy Software with its Precision Color management or other color RIP packages to achieve excellent color-matched output on large-format printers.

ACCURACT LENS ENHANCEMENT TECHNOLOGY (ALE)

With this scanner, GIS professionals, CAD and other specialized markets get a very high grade of precision stability in the scanned image. The Accurate Lens Enhancement Technology (ALE) electronically maintains 0.1% +/- pixel precision across any two points of the scan line thus exceeding even the most rigid requirements in the industry today.

AUTOMATIC THICKNESS ADJUSTMENT CONTROL (ATAC)

The ScanPlus 6 LF942 supports Automatic Thickness Adjustment Control (ATAC), specially developed to make handling of large and bulky documents much easier. ATAC sensors in the scanner monitor the pressure on the original's surface and position the guide plate at the optimal level. With ATAC technology, you are always ensured a perfect and even grip on any kind of document.

The ScanPlus 6LF942 is now Energy Star and RoHS compliant
