
Model : GP555

Ref. No. : FF-T01-K1-000028-01

Date : July 2, 1999

© Canon (UK) Limited

Location : INTRODUCING A NEW PRODUCT

Subject : INTRODUCING THE GP555/IMAGE RUNNER 550

Reason : The GP555 (100/230V model) and imageRUNNER 550 (North American model) will soon be marketed, and this bulletin communicates their differences from the GP605/imageRUNNER 600.

Details : < Differences in Specifications >

The copying speed is 55 cpm max. (A4/LTR).

The original orientation detection mechanism has been removed.

< Serial Numbers >

GP555	100V	F13-5618:	LNP00001 or later
		F13-5682:	ANC00001 or later
	230V	F13-5672:	BNC00001 or later
		F13-5692:	CNC00001 or later
		F13-5652:	DNC00001 or later
		F13-5622:	FNC00001 or later

imageRUNNER 550	120V	F13-5638:	NNT00001 or later
-----------------	------	-----------	-------------------

Servicing : For information on servicing, see the GP605 Service Manual (for Japanese, FY8-12DC-000; for English, FY8-13FD-000) and the image RUNNER 600 Service Manual.
For information on parts, see the GP605 Parts Catalog (Y8-31DU-010) and image RUNNER600 Parts Catalog.

Service Parts Differences from the GP605/imageRUNNER 600
