(1) The cat File is stored in the Folder of Win2000/Win9x Driver.

(2) Since the base driver of Win2000 Driver for Eiger2.0 is changed to “pscript5.dll”, CD-ROM of Windows2000 is required during the driver installation.

Remarks :

1. This Driver Set is released for Web distributions of the sales companies, and the Developer code name is used as the Folder name, etc. Therefore, please handle with care.
2. We are adjusting with EFI for changing User CD included in a product package.
3. These Drivers are valid for the system software v2.00 or later.
