

## ET-1 TRANSPORTABLE RADIO SYSTEM CASE

### ➤ FEATURES AT A GLANCE

- Optimal for crossbanding applications
- Compact and impact resistant
- Weatherproof
- Safe and secure casing
- Easy and comfortable to transport

### AVAILABLE COLOURS:

Black

The CODAN™ ET-1 case supports a standard 19" CODAN™ subrack and has an internal mounting height of 6, 9, 12 or 15 RU. The case is weatherproof and constructed from high-density polyethylene with reinforced walls. It has recessed handles, smooth latches, anodized valances and a pressure relief valve. The rack is shock mounted and the lid gasket is watertight. Racks can be mounted inside the front and back of the case.

CODAN™ subracks can be mounted back to back on both front and back racks. Optional duplexers can also be mounted inside the case.

### APPLICATION

The ET-1 case is optimal for crossbanding applications. It is often used by public safety organizations for crossbanding between all of the frequency bands used by First Responders. Configurations are available that can support Lowband, VHF, UHF and 800 MHz crossbanding from one or all bands, providing the ultimate interoperability solution.
