HIVENET™ — THE MOBILE REPEATER NETWORK

When you need secure radio coverage in the most demanding situations, trust the Codan HiveNet. Rapidly deployed in both mobile and fixed environments, a network of linked HiveNet repeaters provides the greatest wide area coverage for on-demand radio, wherever and whenever you need it. Providing guaranteed communication on a fully encrypted network, without manual channel selection required, the Codan HiveNet has you covered for communication on the move.

A self-healing network of Codan HiveNet repeaters means you can add and remove repeaters on the fly, with no configuration required. But also ensures that should your HiveNet fall into the wrong hands, your network is secure and all communications remain confidential. With a rugged design, total P25 compliance and low power draw, a Codan HiveNet repeater network is perfect for undercover tracking operations, vehicle convoys or search and rescue.

CODAN HIVENET™ — KEY SPECIFICATIONS

- **Size:** 14" H x 25" W x 20" D,
35.5 cm H x 63.5 cm W x 50.8 cm D
- **Weight:** 55 pounds, 25 kilograms
- **Repeater Bands:** 136-174, 380-520,
768-860, 899-960 MHz
- **Linking Bands:** 136-174, 380-520,
768-860, 899-960 MHz
- **Modulation Types:** Analog, P25, Mixed-mode
- **Power outputs:** 2-30 W
- **Encryption:** AES-256
- **Power:** 110/220 and/or 12 VAC

ENCRYPTED SYSTEM

Full encryption for the system and repeater links, meaning even if your repeater is compromised, your network is secure and all communications remain confidential

ROAMING

Heartbeat signal allows users to roam through deployed repeater network with no interaction on channel selection

SELF-HEALING NETWORK

Repeaters can be added or removed from the network on the fly with no setup required by users

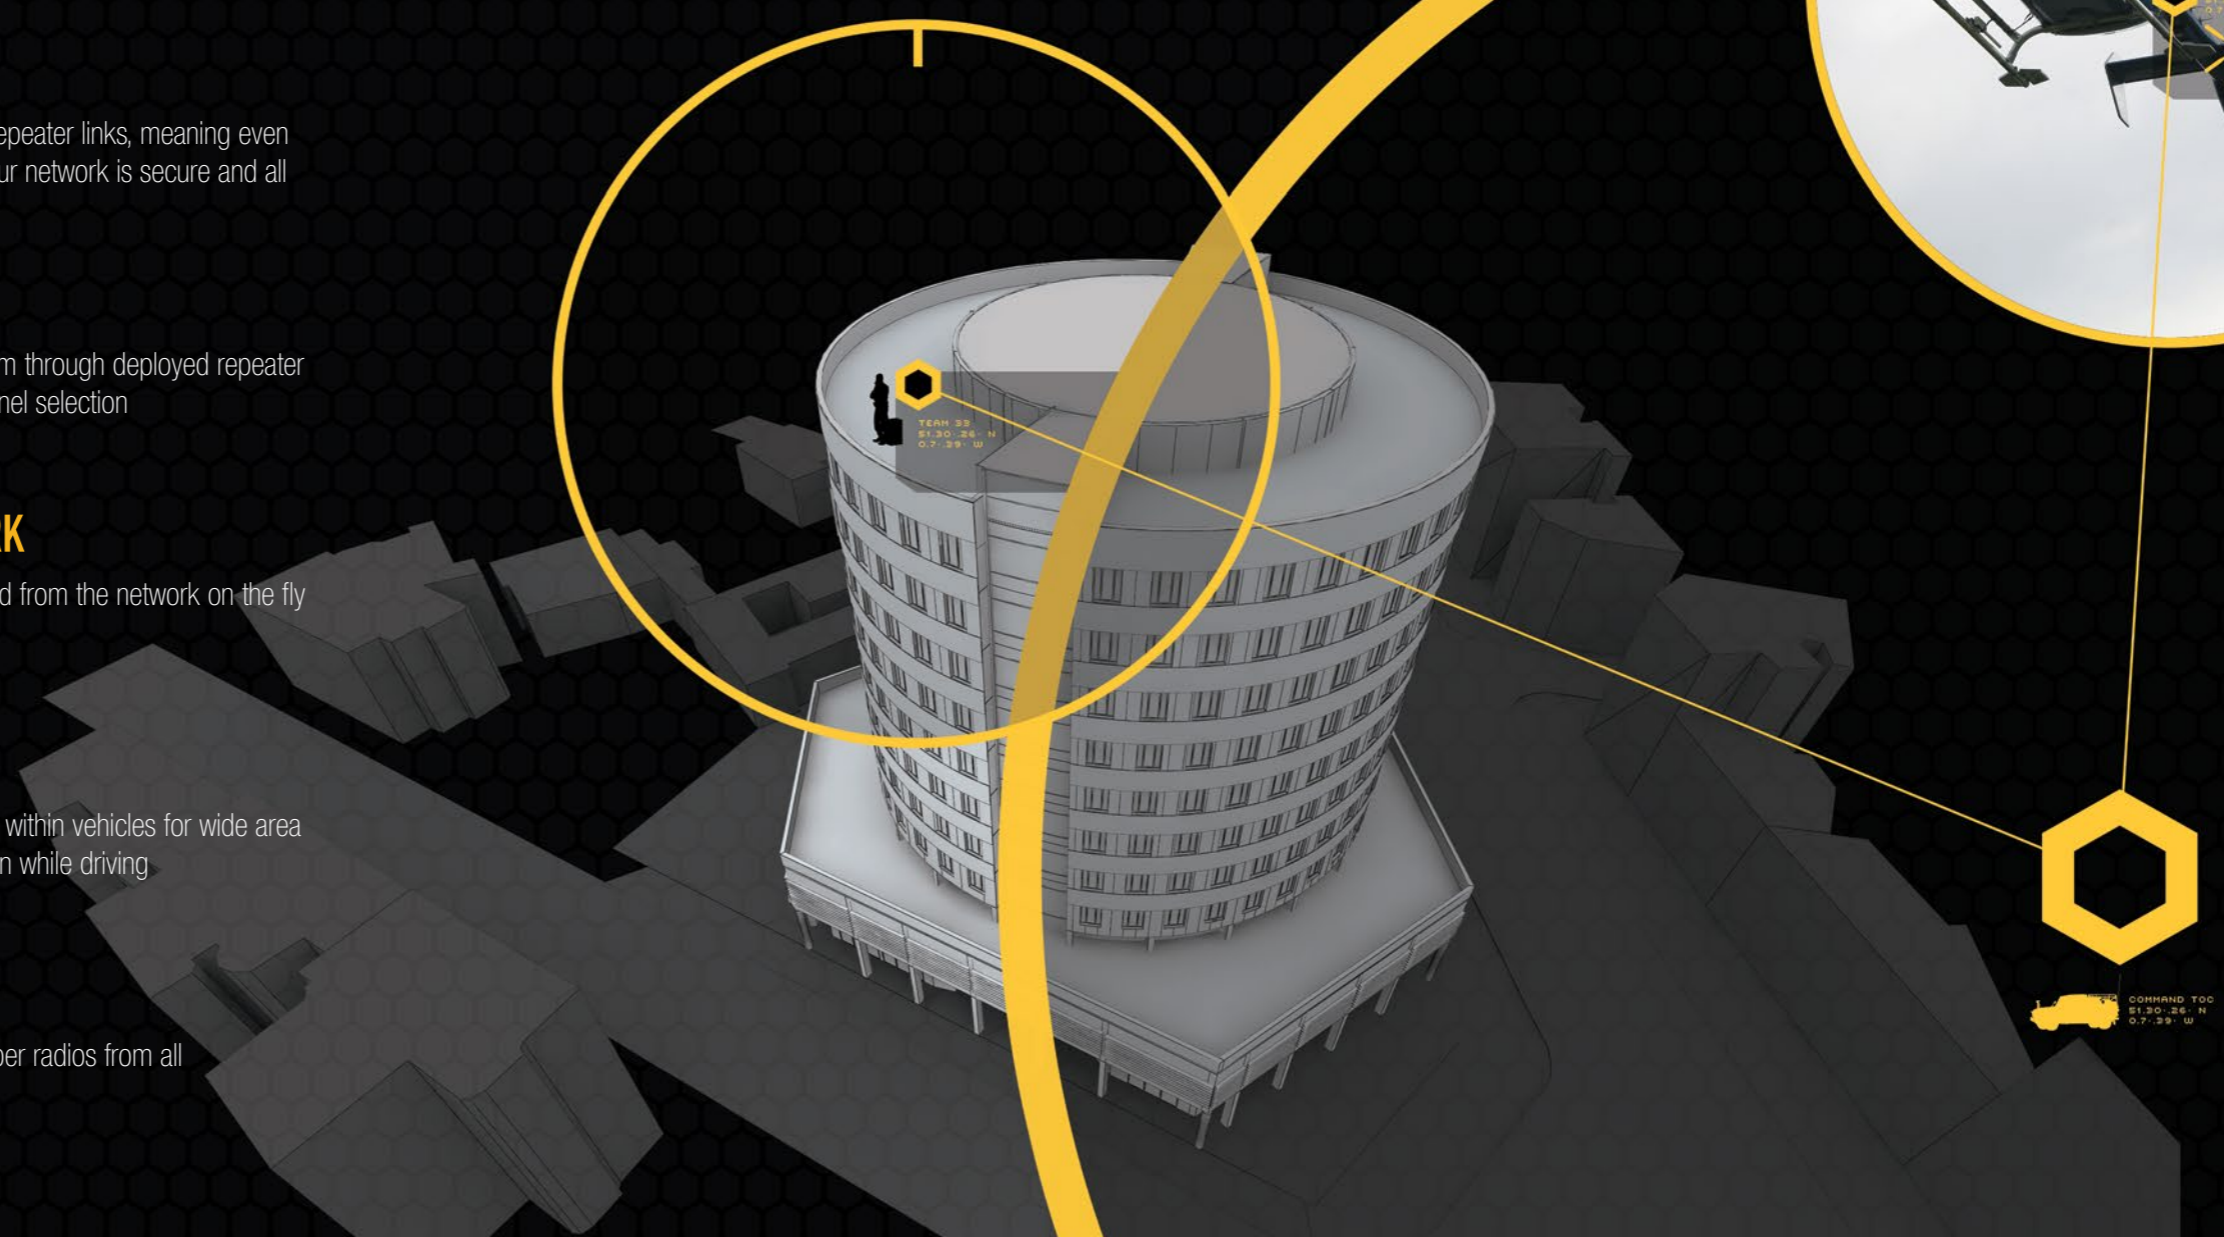

RAPIDLY DEPLOYABLE

Rapidly deployed either outdoors or within vehicles for wide area coverage wherever you need it, even while driving

INTEROPERABLE

Works with a wide range of subscriber radios from all P25 supported vendors

CODAN HIVENET™ — COMPARISON

| | COMPETITOR REPEATER* | CODAN HIVENET™ |
|---|----------------------|----------------|
| Wide area mobile and static coverage | — | ✓ |
| Linking of multiple repeaters | — | ✓ |
| Rugged product design | ✓ | ✓ |
| Complete AES-256 encryption over link | — | ✓ |
| Heartbeat signal channel roaming, no manual change required | — | ✓ |
| Low current draw | — | ✓ |
| Self-healing (add/remove repeaters) | — | ✓ |
