DISCOUNT POLICY FOR MANUALS AND HANDBOOKS

1. Only ten or more **like** manuals with a price are eligible for a discount.
2. Quantity DISCOUNTS are granted based on the following formula:

NUMBER OF ELIGIBLE COPIES	DISCOUNT TO NON-PROFIT EDUCATIONAL INSTITUTIONS	DISCOUNT TO OTHER CUSTOMERS
1-9	0%	0%
10-29	10%	0%
30-149	20%	10%
150-299	30%	15%
300-449	35%	20%
450 or more	40%	25%

3. Discounts apply only to quantities in a single order. Therefore, quantities are not cumulative over several orders.

4. Examples:

EXAMPLE 1: The purchase is:

Manual A = 9
Manual B = 9
Manual C = 9

Total = 27 (Total Eligible = 0)

Even though the purchase totals 27 manuals, the customer is **not eligible** for any discount because "only ten or more like manuals are eligible for a discount."

EXAMPLE 2:

Manual A = 9
Manual B = 9
Manual C = 30

Total = 48 (Total Eligible = 30)

The customer is eligible for a **30 manual discount**. * Manuals A and B do not qualify for a discount.

EXAMPLE 3:

Manual A = 10
Manual B = 10
Manual C = 10

Total = 30 (Total Eligible = 30)

The customer is eligible for a **30 manual discount**. * Each manual meets the minimum number for a discount.

*30 manual discount equals 20% for Non-Profit Educational Institutions or 10% for all other customers.

Any discrepancies must be reported within 30 days A.R.O. Goods ordered and shipped may not be returned for credit.

NOTE: The following individual components of a software product are not discountable: Paper tapes, Cassettes, DECTapes, Magtapes, DECpacks, Paper and Micro-Fiche Listings, Floppy Diskettes and Reference Cards.

**SOFTWARE
DOCUMENTATION**

Documentation for all current PDP-8-11-10-20 software products is listed in this section.

Documentation is listed by title followed by order number. PLEASE REFERENCE THE MANUALS YOU SELECT BY ORDER NUMBER.

You may also note a *Part Number* in the far right hand column. We are in the process of converting all part numbers to order numbers.

In some cases the manual you receive will show only the part number. This is because the number is physically converted only at the time of reprinting. The text is identical regardless of which number appears on the document.

Order numbers contain a character that will help you determine which revision the manual is in.

For example:
AA-2644A-TC

The underlined letter A designates that this manual is a first printing. A letter B would designate a first revision, C a second revision etc.

If you require information on replacement software, please contact your local sales office for assistance.
