See the table below for a description of the options listed in the "Footnotes" column of the enclosed User Note.

Option Number	Description of Option

Programming Capabilities

S30	MOS/CMOS PROMs (this capability included with Basic 22)
S31	MOS EEPROM/NOVRAM
S32	MOS Intel 40-Pin MCU
*S39	All MOS
S40	AMD FL parts
S43	Fairchild FL parts
S46	Harris/Motorola FL parts
S48	Mitsubishi FL parts
S49	MMI/Raytheon FL parts
S50	National Semiconductor FL parts
S53	Signetics FL parts
S55	TI FL parts
*S59	All FL parts currently programmable with the Series 22
S60	Fairchild AIM
S63	Fujitsu AIM
S66	Hitachi AIM
S69	Intersil AIM
S72	NEC AIM
S74	Signetics AIM
*S79	All AIM currently programmable with the Series 22
*S80	All MOS, FL parts and AIM currently programmable with the Series 22 (options S39, S59, and S79 combined)

*These options are the only ones that are currently available.
