

Non-Incendive Cell Phone 2345-Ex

Communication inside hazardous areas is an important security aspect. Consequently to call everybody everywhere gets more important than ever.

The 2300 Ex series, with a brilliant blue backlit display, provides three modes (CDMA digital cellular and analog) of network coverage to keep you connected virtually anywhere. Easy to use navigation allows everybody to get connected to one of the 200 contacts saved in the internal phone book. Especially inside the hazardous area.

Internal voice activated dialing gives you freedom and safety to perform other tasks where both hands are needed.

Features

- Security Lock
You can enter a private code to "lock" your phone so others can't make unauthorized calls or gain access with your phone.
- WAP 4.1 Browser
View text versions of popular web sites to access information such as e-mail, news, weather, stock quotes, sports scores and more.
- Multiple Languages
Supports both English and Spanish languages. A simple setting lets you select the language used for menu items.
- Eye-catching Display
High resolution 5 line display, with brilliant blue luminescent backlighting of keypad and display.
- Enhanced Internal Phone Book
Store up to 200 entries for easy access on the go.
- Slim & Lightweight
At just 4.34 ounces, this phone is attractive, compact and thin.
- Voice Activated Dialing
Just say the name of the person you want to call and the phone dials the number automatically.
- Voicemail
One-touch access to voicemail messages.
- GPS locator*
The GPS locator technology enables you to know exactly where you are positioned.

- Caller ID Support
See numbers of incoming calls in areas supported by Caller ID. If stored in your Phone Book, you'll see the name, too.
- Power Save Mode
The phone goes into this mode automatically to preserve battery life when not in a service area.
- CDMA
Digital cellular and analog three modes of network coverage to keep you connected virtually anywhere.
- Two-way text messaging capabilities*
You can communicate interactive with your database via SMS or WAP-services

* Depending on service available in your area
