

Intrinsically-Safe rechargeable Safety Handlamp H-251 A

The safety lamp H-251 A is a powerful rechargeable torch for Ex-hazardous areas of zone 2 and I as well as zone 22 and 21 according to IEC / CENELEC.

- Long-life Krypton light bulb
- Robust, shockproof anti-static casing
- Battery discharge protection feature
- 900 Lux light intensity
- Emergency light function

Technical data:

Ambient temperature Ta:	-20.....+40°C
Storage temperature:	-20.....+40°C
Operating time:	up to 7 hours
Dimensions:	190 x 130 (L x ø)
Weight:	approx. 1750 g (with storage battery pack)
IP protection:	IP 66
Power supply:	Ex-storage battery pack "H-66"
Battery data:	4V; 5Ah; 500 loading cycles, over discharge and short circuit protection
Bulb:	Halogen with at least 3,75 V and max. 0,75 A

Ex-data:

Ex designation:
Ⓔ II 2 GD EEx e ib IICT4

EC-Certificate of conformity:
BAS 01 ATEX 2188

Standard delivery:

H-251 A incl. storage battery pack H-66

Accessories:

Charger type C-251 HV (115/230 V AC)

Charger type C-251 LV (12-32 V DC)

Spare bulb type H-26

Spare battery pack H-66

Thanks to its robust, shockproof, plastic casing, the H-251 A Safety Handlamp withstands the harshest conditions. An ideal solution for emergency lighting or safety services. Providing light over a large area for investigation and inspection work.
