

375 Field Communicator - The New Standard

One portable communicator for all your field devices.

A

Supports HART® and FOUNDATION™ fieldbus devices

- Most Complete Communicator Available the New Universal Standard
- Intrinsically Safe
- Rugged and Reliable
- Easy Upgrade Over the Internet
- Interfaces with AMS Device Manager

This is the only communicator you will need to configure, test, and diagnose your HART instruments. No matter who makes the device, the 375 Field Communicator is ready to talk to it. It is Intrinsically Safe, rugged and reliable to meet the demands of your plant environment. The 375 Field Communicator allows 'Easy Upgrades' from the internet as new device descriptions become available and for new software upgrades.

You can use it with your gloves on too.

375 HART Communicator
