

DISPLAY**A****Watch hands****SETTINGS****B****Crown 3 positions**

Self-winding of the watch by the movements of the wrist.

FUNCTION**C**

The power reserve indicator shows the winding status of the main spring.

When the hand is in position A, the watch is at its maximum winding position and has an operating autonomy of 42 hours if it is not worn. When the hand is in position B, the movement is close to stopping. The watch should be worn or wound up manually (winding stem in position I), to obtain a maximum power reserve.
