This supplement contains information necessary to ensure the accuracy of the above manual.

Change #1

On page 8, change the 3rd bullet and add a new bullet as follows:

From: Use a FiberInspector video probe to periodically inspect the tester's optical connector for scratches and other damage.

To: Use a FiberInspector video probe to periodically inspect the tester's OUTPUT connector for scratches and other damage.

- **Do not use a video microscope to inspect the fiber module's INPUT connector. This connector has different dimensions than the OUTPUT connector, and may be damaged by a fiber inspection probe.**
