fi-4010CU Scanner Specifications

Everything a workgroup or small business needs in a small package.

Workgroups and small businesses demand the same reliable performance and outstanding image quality as their larger counterparts, but usually lack the budget and space for production-level scanning equipment. Measuring just 7" x 12" x 17.5", the Fujitsu fi-4010CU Color USB Workgroup Scanner satisfies those demands while fitting into crowded office environments and modest budgets.

The fi-4010CU scans in monochrome and grayscale at up to 12 ppm (200 dpi, Portrait) and in color at up to 3.3 ppm (150 dpi, Portrait) to help busy professionals get more done. It also combines a 25-page automatic document feeder that allows unattended operation with flatbed scanning for exception documents. Adobe® Acrobat® 6.0 and ScandAll 21 software are also included to enhance productivity.

Advance Exchange maximizes uptime.

The fi-4010CU is covered by a one-year Limited Warranty. An upgrade to the Advance Exchange program is also available to eligible purchasers. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 626-4686.
