## QUALITY SCANNER

As an ENERGYSTAR® partner, PFU Limited, a Fujitsu company, has determined that this product meets the ENERGYSTAR® guidelines for energy efficient. ENERGYSTAR® is a registered trademark in the United States.

## New and improved features

### ■ Able to scan color documents at an impressive 15ppm

The fi-5015C is able to scan fifteen A4 pages (150dpi) a minute in color. And in addition to being fast, an ability to continuously scan up to 50 pages at a time makes the fi-5015C ideal for speedily digitizing large volumes of paper.

### ■ ADF / Flatbed tandem entry-level scanner

In addition to being able to continuously scan regular sized paper documents with its ADF, the fi-5015C is able to digitize bound documents, such as brochures, and irregularly sized documents with its flatbed. The result of this powerful ADF / flatbed tandem is that the fi-5015C can scan anything that end-users want to digitize.

### ■ Environmental compatibility

The fi-5015 is fully compliant with the RoHS Act, a European regulation, which places limits on the use of hazardous substances in electrical equipment. Furthermore, it is an Energy Star® compatible product that switches to an energy efficient sleep mode that uses 6W or less when not in use.
