

Furuno radar models compatible with the new 1835, 1935 & 1945 display

This display uses the same radar antenna signal cables as the models listed below; further enhancing the installation compatibility.

The **1835** uses the **RSB0071-057** dome antenna, as do the following radar models:

1832
1833 & 1833C
1834C
FRS1000A

RSB0071-057

The **1935** uses the **RSB0070-064** gearbox and **XN10A/3.5** array, as do the following radar models:

1932MK2
1933 & 1933C
1934C

RSB0070-064

The **FRS1000B** uses the **RSB0082-064** gearbox and **XN8/3.5** array, but is still compatible with the **1935** display.

The **1945** uses the **RSB0070-059** gearbox and **XN12A/4** array, as do the following radar models:

1942MK2
1943 & 1943C
1944C
FRS1000C
FR7062

RSB0070-059
