- **Items 1 and 2** should be kept on the G1000 equipped aircraft.
- **Item 3 through 13** should be inserted in the G1000 Pilot’s Guide binder.
- **Item 14** represents this document and does not need to be inserted in the G1000 Pilot’s Guide binder, nor does it need to be kept on the G1000-equipped aircraft.

NOTE: These items are meant to replace the documents whose part numbers are listed under table column entitled “Replacement for P/N”. “N/A” indicates that the document included in the update kit either is new—and is an addition to the G1000 Pilot’s Guide documentation—or is not designed to be part of the G1000 updated Pilot’s Guide binder documentation. Additionally, item number 13 was an Addendum to item number 10, but now exists separately under tab number 10.
