

ACTION / DESCRIPTION

1. Press the Histogram menu key.
2. Select the Histogram display using the top softkey.
3. Select Fast Hist using the softkey second from the top.
4. Set # Of Meas to 10,000 using the Entry keypad.

Use the Enter key to complete your numeric entry.

This sets the number of measurements to be collected in each display update.

5. Set Hist Accumulate to On using the bottom softkey.
