## SAVE ON TEST EQUIPMENT THAT GIVES YOU HIGH QUALITY AND MORE OPTIONS

Used equipment always means lower cost, but it shouldn't mean lower quality and service, too. Agilent Premium Used Equipment gives you a vast selection of high-quality test instruments remanufactured by the OEM and configured to work in your applications.

### WHAT SETS AGILENT PREMIUM EQUIPMENT APART?

#### RIGOROUS REFURBISHMENT

- » Our technicians perform all necessary repairs, cosmetic enhancement and a 101-point check that covers the instrument inside and out.
- » We remanufacture in the same facility that builds our new products.

#### FREE UPGRADES AND CALIBRATION TEST DATA

- » You obtain a complete unit with the latest compatible software and firmware, and safety and performance upgrades no one else offers.
- » Our technicians test and calibrate each instrument to full manufacturing test specifications.
- » You receive printouts of ISO 17025 calibration data free (versus at-cost for new products), plus a certificate of NIST traceability.

#### STANDARD ACCESSORIES

- » You get a full set of the same standard accessories shipped with a new unit.

*"We say 101 goodbyes to our equipment. Before we put on the CertiPrime seal, we run through a 101-point checklist. We update firmware, software, confirm performance and check every detail. We want to give you the best value for your money. And we can do that—because we're Agilent."*

Aik-Keong Ooi  
Technical Production Team Manager,  
Agilent Technologies

## WHY CONSIDER AGILENT PREMIUM USED EQUIPMENT?

### SAVINGS

Generally 20% to 50% and more for special promotions, and no charge for full calibration with test data

### QUALITY

Remanufacturing by the OEM to the same standards as new equipment, plus latest compatible firmware and software

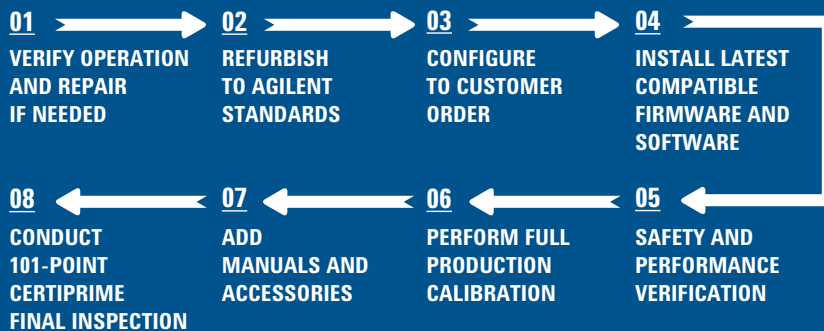

### CONVENIENCE

Large inventory, with a fresh selection of current- and previous-generation products, and configuration to order when possible

### CONFIDENCE

Same standard accessories and manuals, return policy and warranty as new products, plus the option for extended warranty coverage

### AGILENT QUALITY CONTROL PROCESS

## SAVE WITH OUR BEST DEALS ON AGILENT PREMIUM USED EQUIPMENT.

Agilent Premium Used Equipment always gives you high quality and more flexibility, but these deals give you exceptional savings, too. So act fast: These offers are available only through 31 March 2012 or while stock lasts.

*"We say less risk, but I say no risk. Only we give you the same warranty, service and support as we do with new equipment, plus performance and safety upgrades no one else can offer."*

Steve Long  
Business Development Engineer, Americas  
Agilent Technologies
