## Agilent 5DX Cooperative Maintenance Training, Part 1

### Course Overview

This one-day training class covers your responsibilities during the first two to four months as a cooperative support partner in the ongoing maintenance of an Agilent 5DX. Procedures, schedules, checklists, support tools, documentation and more are covered in lectures and labs. You get a blueprint for an effective, self-sustaining maintenance program that fulfills your obligation as a cooperative support partner and allows you to meet your uptime requirements.

### Description

Course Type	Cooperative Maintenance Training, Part 1
