

Agilent E1406A VXI GPIB Command Module, C-Size

For Agilent E1406As with serial number US41000101 and greater, the module was redesigned to include the former Option 010 Expanded Memory as part of the standard E1406A. This memory option added 0.5 MB of RAM and 0.5MB of Flash ROM. Therefore, the newer E1406A modules have a total of 1.0 MB of RAM and 1.75 MB of Flash ROM standard. The included *E1406A Command Module User Manual* has not been updated to reflect this change in the product (pages 20 and 237).

Part Number: E1406-90022
Printed in U.S.A. E0502
