

In Case of Difficulty

Agilent's 3070 System Administration Class

The Agilent 3070 system administration class explains system administration in depth. To best use this manual, enroll in a 3070 system administration class – see your Agilent representative for details.

HP-UX Reference

HP-UX reference information is available on the Internet at:

<http://docs.hp.com/index.html>

System Administrator Manager (SAM)

To start SAM, enter: `/usr/sbin/sam` at a shell window prompt.

For help inside of SAM:

- From the dialog, click **Help**.
- Press **F1** for context-sensitive help on a specific field.

3070 Reference

3070 User and Service manuals are located on 3070 system controllers and on factory-supplied updates.

Check the Customer Website

Find up-to-date troubleshooting information on the Internet at <http://agilent.com/key/boardtest>

NOTE

If a new account is needed, it should be accessible in about two days after registering.

You may be requested to enter your testhead serial number for authentication.

If a Software License is Needed

Each 3070 system is delivered with software licenses for standard software features. To use optional software features, you are required to have the appropriate licensing.

If you need a license contact your local Agilent representative.

NOTE

Find your local Agilent representative on the Internet at <http://www.agilent.com>

- 1 From the top of the page, click **Contact Us**.
- 2 Click **Test & Measurement**.
- 3 Click (your country), then find the **Product Selection** heading.
