## ADMINISTRATIVE INFORMATION

SERVICE NOTE CLASSIFICATION:

### INFORMATION ONLY

AUTHOR:

GS

ENTITY:

2100

ADDITIONAL INFORMATION:

**Situation:**

The LCD (P/N 5063-2304) has been replaced by an LCD without a translator chip (P/N 5063-3472) and the decoding has been moved to the GPIB board (which has also been changed). Therefore the older LCD/GPIB board is not compatible with the newer GPIB board/LCD. The older GPIB has P/N 5060-3437 while the new GPIB has P/N 5063-4835.

**Solution / Action:**

When inventory is depleted and the older GPIB board needs to be replaced, replace both the GP-IB board and the LCD with their newer versions. LCD 5063-2304 (with the translator chip) is still available.
