	Cables can be purchased by Agilent Personnel or customers.									
	Situation:									
	The two cables, 16555-61606 and 01660-61605, are not going to be available to meet the end of support date for the models mentioned above.									
	Solution / Action:									
	The two cables are being replaced by the part number 16710-61603. Mixed cable numbers cannot be used together. The 16710 has a different propagation delay and will not work with any other cables besides itself. This cable must be ordered through kit numbers. The kit numbers are:									
	01660-60007: Consists of four 16710-61603 cables. 01661-60001: Consists of three 16710-61603 cables. 01662-60001: Consists of two 16710-61603 cables. 16710-61603: Consists of one 16710-61603 cable.
