

# Caution

## **Initial Registration of E5070B/E5071B**

**When you start up the E5070B/E5071B for the first time or after executing system recovery, you need to perform the initial registration of the Windows 2000 operating system of the E5070B/E5071B.**

**You cannot use the front panel keys during the initial registration of the E5070B/E5071B therefore connect the mouse and the keyboard before turning on the power.**

**For more information on the initial registration, see “Initial Registration of E5070B/E5071B” in Chapter 2 of the *E5070B/E5071B Installation and Quick Start Guide*.**
