

# Agilent Technologies E8257D Option C09

## Product Note

The Agilent E8257D Option C09 is a standard instrument that has been modified by moving all of the BNC connectors from the front panel to the rear panel with one exception; the RF Output connector will remain on the front panel.

For information concerning the operation and connections, reference the standard Agilent E8257D User's and Service Guide.

In all other respects this instrument is identical to the standard instrument specifications.

Inspect the shipping container. If the container or packing material is damaged, it should be kept until the contents of the shipment have been checked mechanically and electrically. If there is physical damage please notify the nearest Agilent Technologies office. Refer to [“Contacting Agilent” on page 2](#). Keep the damaged shipping materials (if any) for inspection by the carrier and an Agilent Technologies representative.
