

11794A-01

11794A Software Program for the HP8902S system
Serial Numbers: 0000A00000 / 9999Z99999

Y2K update information.
HP 11794A itself is Y2K compliant to HP standards.
If platform OS, and the hardware returns the correct date and year data,
11794A works correctly. If a date related error occurs, the malfunction
is caused by Operating System which is not Y2K compliant

To Be Performed By: Customer

Situation:
Incorrect TEST start date and time

Solution / Action:
Product is obsolete. Test and Measurement Systems (TAMS) Inc. offers
A Year 2000 safe revision. Contact TAMS web page @ www.tamsinc.com for
Information on making the Rocky Mountain BASIC OS system Y2K compliant.

Date: 16 October 1998
