

# Agilent ESA/EMC Spectrum Analyzer

## Configuration Guide

This configuration guide will help you optimize an ESA/EMC analyzer for your application, and shows upgrade paths for adding options after the purchase of the instrument. Use Table 1 to determine availability and compatibility of options. For additional product and application information, please see the information list at the end of this guide.

**Agilent Technologies**

## Models

- E4401B ESA-E Series Spectrum Analyzer (9 kHz to 1.5 GHz)
- E4402B ESA-E Series Spectrum Analyzer (100 Hz<sup>1,4</sup> to 3 GHz)
- E4403B ESA-L Series Spectrum Analyzer (9 kHz to 3 GHz)
- E4404B ESA-E Series Spectrum Analyzer (100 Hz<sup>1,4</sup> to 6.7 GHz)
- E4405B ESA-E Series Spectrum Analyzer (100 Hz<sup>1,4</sup> to 13.2 GHz)
- E4407B ESA-E Series Spectrum Analyzer (100 Hz<sup>1,4</sup> to 26.5 GHz)
- E4408B ESA-L Series Spectrum Analyzer (9 kHz to 26.5 GHz)
- E4411B ESA-L Series Spectrum Analyzer (9 kHz to 1.5 GHz)
- E7401A EMC Analyzer (9 kHz to 1.5 GHz)<sup>3</sup>
- E7402A EMC Analyzer (30<sup>1,2</sup> Hz to 3 GHz)<sup>3</sup>
- E7403A EMC Analyzer (30<sup>1,2</sup> Hz to 6.7 GHz)<sup>3</sup>
- E7404A EMC Analyzer (30<sup>1,2</sup> Hz to 13.2 GHz)<sup>3</sup>
- E7405A EMC Analyzer (30<sup>1,2</sup> Hz to 26.5 GHz)<sup>3</sup>

## Ordering information

### Options

To add options to an ESA, use the following ordering scheme:

Model: E44xxB  
(xx = 01, 02, 03, 04, 05, 07, 08 or 11)

Model Options: E44xxB-Option (Option = 3 character option designation)

To add options to an EMC analyzer, use the following ordering scheme:

Model: E740xA (X = 1, 2, 3, 4 or 5)

Model options: E740xA-Option (Option = 3 character option designator)

## Upgrading a model

Some options that you choose not to purchase with your instrument can be added later. To order upgrade options, add a “U” to the model number of the instrument to be upgraded, and specify the options you wish to add.

### Upgrade notes

- **Additional options can be added as shown in Table 1, an “R” indicates a retrofit is available.**
- **For any upgrades not listed, please contact your Agilent sales representative for a special quote.**
- **Upgrade options are customer installable unless otherwise indicated.**

### Upgrading an Agilent E4411A

**If you have an E4411A and want to upgrade to a B model, contact your Agilent sales representative for a trade-in quote.**

---

1. Optional

2. Characteristic

3. Includes peak, quasi-peak, and average detection standard.

4. 30 Hz characteristic

**Table 1.**  
**Option availability and compatibility**

	ESA-L series			ESA-E series					E7400A EMC series					Requires	Not compatible with the following option(s)
	E4411B 1.5 GHz	E4403B 3 GHz	E4408B 26.5 GHz	E4401B 1.5 GHz	E4402B 3 GHz	E4404B 6.7 GHz	E4405B 13.2 GHz	E4407B 26.5 GHz	E7401A 1.5 GHz	E7402A 3 GHz	E7403A 6.7 GHz	E7404A 13.2 GHz	E7405A 26.5 GHz

RF communication hardware <input type="checkbox"/> <b>Option B7E<sup>9</sup></b>					R <sup>3</sup>	R <sup>3</sup>	R <sup>3</sup>	R <sup>3</sup>						Options B7D, 1D5 and one available card slot	

Blank	Not available for model.
X	Available only at time of new instrument purchase.
S	Standard.
R	Available at time of purchase or as a retrofit. Customer installation except where noted.

1. See also performance bundle Option B75.
2. Retrofit requires post verification test.
3. Retrofit requires post verification test and adjustments (Option OBW required).
4. Retrofit by Agilent factory only.
5. Retrofit by Agilent service center only.
6. Option B72 is available as an upgrade and is required when upgrading to firmware revision A.08.00 and above.
7. Functionality of 231 is included in option 229. A4H must be ordered to take advantage of Link to 89601A VSA software.
8. Option B72 is standard if the serial prefix number is equal to or greater than US4144 or MY4144.
9. Fast ADC functionality of AYX is included in Options B7D, B7E, and B74. IF, video, and sweep ports functionality is not included.

Blank	Not available for model.
X	Available only at time of new instrument purchase.
S	Standard.
R	Available at time of purchase or as a retrofit. Customer installation except where noted.
U	Available as a retrofit only.

- For 3 years, order 36 months of the appropriate calibration plan. For 5 years, specify 60 months.
- For warranty and service of 5 years, please order 60 months of R-51B (quantity = 60). Standard warranty is 36 months.
- Option B72 is required when upgrading to firmware revision A.08.00 and above.
- Functionality of 231 is included in option 229. A4H must be ordered to take advantage of Link to 89601A VSA software.
- Option B72 is standard on ESA's if the serial prefix number is equal to or greater than US4144 or MY4144. Option B72 is standard on all E7400A Series.

# ESA/EMC accessories

Custom backpack for carrying the ESA series analyzer (042, 044)

## ESA/EMC accessories *(continued)*

### For field service and portability

- E1779A Battery pack

### PC software

- IntuiLink PC connectivity software<sup>1</sup>  
(standard with Option A4H or 1AX)
- E4444A BenchLink spectrum analyzer PC software
- Option 230 BenchLink web remote control software
- Option 231 ESA to 89601A vector signal analysis software link utility

### Programming Code Compatibility

- Option 290 8590-series programming code compatibility

### Printer

- HP DeskJet 690C (C4562A) Color printer
- HP DeskJet 932C (C6427B) Color printer
- HP DeskJet 970C (C6429A) Color printer
- HP DeskJet 895C (C6410B) Color printer

Your Agilent ESA spectrum analyzer must be equipped with either Option A4H (GPIB and parallel interface) standard on EMC analyzers or Option 1AX (RS-232 and parallel interface), and an IEEE 1284 compliant printer cable. A supported printer is one that is equipped with a parallel interface and accepts printer control language (PCL) level 3 or 5. PCL3 printers include most HP DeskJet printers. PCL5 printers include most HP LaserJet printers and the HP 1600C DeskJet printer. Visit the Agilent Web site for the latest printer compatibility information at [www.agilent.com/find/pg](http://www.agilent.com/find/pg)

### Preamplifiers

- 87405A Preamplifier (10 MHz to 3 GHz, 24 dB gain)  
(fastened to RF input, powered from analyzer)
- 85905A 75 Ohm preamplifier  
(45 MHz to 1 GHz 20 dB gain)  
(powered from analyzer)
- 11909A 9 kHz to 1 GHz preamplifier

### External mixing

- 11970 Series Non-preselected waveguide, harmonic mixers  
(26.5 to 110 GHz)
- 11974 Series Preselected waveguide, harmonic mixers  
(26.5 to 75 GHz)
- 5061-5458 SMA cables
- R/Q/U/V281A,B mm-Wave-to-coax adaptors  
(26.5 to 65 GHz)

### Other accessories

- 41800A Active probe  
(5 Hz to 500 MHz)
- 85024A High frequency active probe  
(300 kHz to 3GHz)
- 5182-4794 RS-232 cable (9-pin F to 9-pin F) for serial  
9-pin PC connection to analyzer
- 10833A GPIB cable (1 meter)
- 11940A/11941A Closefield probe

### Agilent ESA manuals

Included with an Agilent ESA spectrum analyzer are a Reference Guide, User's Guide, Programmer's Guide (if either Option 1AX or Option A4H is ordered), Calibration Guide, and Specification Guide. You may order additional manual sets by ordering Option 0B1. Localized user guides are also available for the ESA family.

For on-line manuals, visit our Web site at [www.agilent.com/find/manuals](http://www.agilent.com/find/manuals)

<sup>1</sup> For more information about IntuiLink software, visit our Web site at: <http://www.agilent.com/find/intuilink>

## **Agilent Technologies' Test and Measurement Support, Services, and Assistance**

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Support is available for at least five years beyond the production life of the product. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

### **Our Promise**

Our Promise means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you use Agilent equipment, we can verify that it works properly, help with product operation, and provide basic measurement assistance for the use of specified capabilities, at no extra cost upon request. Many self-help tools are available.

### **Your Advantage**

Your Advantage means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and on-site education and training, as well as design, system integration, project management, and other professional engineering services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.

### **Agilent T&M Software and Connectivity**

Agilent's Test and Measurement software and connectivity products, solutions and developer network allows you to take time out of connecting your instruments to your computer with tools based on PC standards, so you can focus on your tasks, not on your connections. Visit

**[www.agilent.com/find/connectivity](http://www.agilent.com/find/connectivity)**

for more information.

## **Agilent Email Updates**
